ALTERNATIVE ENERGY

**Code:** ALT 110  
**Title:** Energy Auditing for Residential Buildings

**Division:** STEM

**Course Description:** This course will assist students to understand single-family buildings and how residential structures interact with the internal systems and loads and external loads and impacts. Students will need to travel to various off-campus residential locations to perform hands-on energy audit procedures. This course is essentially divided into three sections: 1. Building Science and Building Systems; 2. Energy Auditing, Practices and Procedures; and 3. The Economics of Energy Upgrades. There will be an emphasis on exploring “green” employment opportunities. This course will prepare students for the Building Performance Institute’s (BPI) Building Analyst certification. RCBC encourages students to take the BPI Building Analyst certification exam during or after course completion.

**Prerequisite:** None

**Credits:** 3 cr.

**Required Materials (Check Bookstore for Latest Edition):**
Click on the bookstore for the supplies which you are attending each class. 
Rcbc.edu/bookstore

**Course Learning Outcomes:**
Upon completion of this course, students will be able to:

- Describe the interaction of single-family buildings with the internal systems and loads, and external loads and impacts
- Comprehend building science fundamentals, including: air flow in buildings and ducts, building efficiencies, principles of air infiltration, energy and moisture, and combustion science
- Apply standard residential energy auditing practices and procedures
- Identify and operate standard tools and equipment to assess residential building energy efficiency and residential systems performance, including combustion analyzer, carbon monoxide (CO) detector, gas leak detector, infrared thermal imaging camera, duct blaster, and blower door
• Document the residential building energy efficiency work performed, analyze and summarize the findings, formulate recommendations, and present the findings and recommendations in a manner that is meaningful to the residential building owner
• Calculate the economics of residential building upgrades and formulate and report energy efficiency retrofit recommendations that are based on the analysis of installed costs versus the energy savings of various options
• Be prepared to successfully challenge the Building Performance Institute (BPI) Energy Analyst certification examination

GENERAL EDUCATION OUTCOMES IN THIS COURSE:

<table>
<thead>
<tr>
<th>Written and Oral Communication: Communication</th>
<th>*Students will logically and persuasively support their points of view or findings.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Quantitative Knowledge and Skills: Mathematics</td>
<td>*Students will analyze data to solve problems utilizing appropriate mathematical concepts.</td>
</tr>
<tr>
<td>Scientific Knowledge and Reasoning: Science</td>
<td>*Students will demonstrate critical thinking skills in the analysis of scientific data.</td>
</tr>
<tr>
<td>Technological Competency or Information Literacy: Technology</td>
<td>*Students will demonstrate the skills required to find, evaluate, and apply information to solve a problem.</td>
</tr>
</tbody>
</table>

CORE COURSE CONTENT:
• Week 1: Course Overview
• Week 2: Introduction to Energy Efficiency
• Week 3: Whole House Approach
• Week 4: Utility Bill Analysis and Fuel Conversions
• Week 5: Air Leakage and Insulation
• Week 6: Heating and Load Calculations
• Week 7: Appliances; Lighting; Water Conservation; Windows and Doors; Health and Safety
• Week 8: Mid-term Exam
• Weeks 9-14: Energy Auditing Practices and Procedures
• Weeks 15-16: Final Exams

COURSE ACTIVITIES:

Course activities vary from course to course and instructor to instructor. Below is a listing of some of the activities students can anticipate in this course:
Writing assignments: students will analyze current issues in the field using current articles from the popular press as well as library research including electronic resources databases.

Speaking assignments: students will present research individually or in groups using current technology to support the presentation (e.g., PowerPoint presentation); students will participate in discussions and debates related to the topics in the lessons. Discussions may also focus on cross-cultural and legal-ethical dilemmas as they relate to the course content.

Simulation activities: Trends and issues will be analyzed for their ethical as well as social or legal significance. Students might role-play common situations for classmates to analyze. Current news articles may be used to generate discussion.

Case Studies: Complex situations and scenarios will be analyzed in cooperative group settings or as homework assignments.

Lectures: This format will include question and answer sessions to provide interactivity between students and instructor.

Speakers: Representatives from various related fields may be invited to speak.

Videos: Related topics will provide impetus for discussion.

Educational Technology:

Rowan College at Burlington County advocates a technology enhanced teaching and learning environment. Advanced technological tools may be used in any course section to facilitate instruction. Many of our sections are web-enhanced, which means that some of your work will be submitted or completed online. Web enhancements may include online materials, grade books, testing and quizzes and assignment submission. Many students enjoy the flexibility and convenience that these online enhancements have provided, however if you have concerns about the technology involved, please speak to your instructor immediately.

Student Evaluations:

The student will be evaluated on the degree to which student learning outcomes are achieved. A variety of methods may be used such as tests, quizzes, class participation, projects, homework assignments, presentations, etc.

See individual instructor’s course handouts for grading system and criteria (point value for each assessment component in course, e.g. tests, papers, presentations, attendance etc.), number of papers and examinations required in the course, and testing policy including make ups and/or retests.
**GRADING STANDARD:**

A  Mastery of essential elements and related concepts, plus demonstrated excellence or originality.
B+  Mastery of essential elements and related concepts, showing higher level understanding.
B  Mastery of essential elements and related concepts.
C+  Above average knowledge of essential elements and related concepts.
C  Acceptable knowledge of essential elements and related concepts.
D  Minimal knowledge of related concepts.
F  Unsatisfactory progress. This grade may also be assigned in cases of academic misconduct, such as cheating or plagiarism, and/or excessive absences.

For other grades, see the current ROWAN COLLEGE AT BURLINGTON COUNTY catalog.

**COLLEGE POLICIES:**

The current college catalog and student handbook are important documents for understanding your rights and responsibilities as a student in the RCBC classroom. Please read your catalog and handbook as they supplement this syllabus, particularly for information regarding:

- Academic Integrity Code
- Student Conduct Code
- Student Grade Appeal Process

**OFFICE OF STUDENT SUPPORT AND DISABILITIES SERVICES:**

RCBC welcomes students with disabilities into the college’s educational programs. Access to accommodations and support services for students with learning and other disabilities is facilitated by staff in the Office of Student Support (OSS). In order to receive accommodations, a student must contact the OSS, self-identify as having a disability, provide appropriate documentation, and participate in an intake appointment. If the documentation supports the request for reasonable accommodations, the OSS will provide the student with an Accommodation Plan to give to instructors. Contact the Office of Student Support at 609-894-9311, ext. 1208 or visit the website at: www.rcbc.edu/studentsupport

**ADDITIONAL SUPPORT/LABS:**

RCBC provides academic advising, student support personal counseling, transfer advising, and special accommodations for individuals with disabilities free to all students through the Division of Student Services. For more information about any of these services, visit the Laurel Hall on the Mt. Laurel Campus, or call (609) 894-9311 or (856) 222-9311, then dial the desired extension:
- Ext. 1557 Academic Advisement and Counseling
- Ext. 1803 Special Populations
- Ext. 2737 Transfer Center

Or visit the following websites:
Academic Advising      www.rcbc.edu/advising
Student Support Counseling  www.rcbc.edu/counseling
Transfer Center        www.rcbc.edu/transfer

RCBC offers a free tutoring for all currently enrolled students. For more information regarding The Tutoring Center call Extension 1495 at (609) 894-9311 or (856) 222-9311 or visit the Tutoring Center Website at www.rcbc.edu/tutoring
