601 Pemberton Browns Mills Road
Pemberton, New Jersey 08068-1599
(609) 894-9311 or (856) 222-9311
bcc.edu

A public, community college accredited by the Middle States Commission on Higher Education and approved by the State of New Jersey.

The college is approved under Title 38, U.S. Code, for veterans’ education.

BCC is a designated Servicemembers Opportunity College.

The statements, provisions, policies and fees listed in this catalog are not to be regarded as binding between the student and Burlington County College. The college reserves all rights to change at any time any of the provisions, programs, courses, schedules, tuitions or fees as may be warranted by economic considerations, enrollments, and/or other circumstances requiring such administrative action.

Each student is held individually responsible for knowledge of the information contained in this catalog as well as the Student Handbook. Failure to read and comply with college guidelines, requirements and regulations will not exempt the student from responsibility.

CATALOG FALL 2014 - SUMMER 2015

Burlington County College, a comprehensive community college, provides all individuals access to affordable and quality education.

The College at a Glance

What does BCC offer?
Extensive academic programs and support services are available to Burlington County College students. Among the academic programs for 2014-2015 are the following:

Transfer options — Associate of Arts (A.A.) and Associate of Science (A.S.) degrees. Designed for transfer to a four-year institution.

Career programs — Associate of Applied Science (A.A.S.) degree. Designed for immediate employment of the student upon graduation. In some cases the student may transfer to a four-year institution.

Certificate programs — Career-oriented programs of study.

What does it cost to attend BCC?
Tuition and fees for Burlington County residents are exceptionally affordable. For current tuition details please see page 18.

Is financial aid available?
Yes, BCC students may take advantage of a wide range of state and federal aid programs, as well as locally-sponsored scholarships. Most aid programs are need-based, while some are based on academic achievement and/or potential.

Can Veteran education benefits be used at BCC?
Veteran educational benefits are approved for use in any of the credit programs. See page 32 for further details.

What are BCC’s admission requirements?
Burlington County College is an open-admission institution. Anyone who feels he/she can benefit from a college education may enroll at BCC. For further details, including information on the enrollment of non-high school graduates, see page 13.

The CEEB college code for Burlington County College is 2180.
### Areas of Interest and Corresponding Academic Majors

Public Transportation to BCC

BCC's Pemberton and Mt. Laurel Campuses and Willingboro and Mt. Holly Centers are accessible via a variety of public transit options. The Pemberton and Mt. Laurel Campuses are served by NJ Transit Route 317, while the Pemberton Campus and Willingboro Center are served by the BurLink shuttle bus service.

NJ Transit Route 317
For schedule information call NJ Transit at (973) 275-5555; for special information for the hearing impaired: (800) 772-2287 (with teleprinter 9 am–5:30 pm, Mondays-Fridays)

Weather-Related Emergencies

BCC uses several different media to alert students to emergencies, such as weather-related closings or delays.

Messages will be sent via phone calls, text and email messages to the contacts listed in a student’s WebAdvisor account. Students should make sure their contact information is always accurate and up-to-date. To update your contact information, log in to WebAdvisor and click on “emergency contact information.”

In the event of severe weather that may interrupt the college schedule, announcements will be posted on the college website, bcc.edu and social media pages, the BCC weather hotline (609) 894-9311, ext. 1999, and with local television and radio outlets.
BurLink Bus Service

BurLink, the mini-bus service operated by the Burlington County Board of Chosen Freeholders, serves the Pemberton Campus and Willingboro and Mt. Holly Centers.

Schedules are available at all BCC locations.

For details, visit the website, driveless.com or call BurLink customer service at (856) 461-1806.

Route B1 • Beverly (RiverLine) to Pemberton

Route B2 • Beverly - Willingboro - Edgewater Park - Westampton
Terms to Know

When reading this catalog, it will be helpful to familiarize yourself with the following terms and phrases.

**Accreditation** - Regional agencies regularly send teams to college campuses to analyze academic programs, faculty quality, facilities, etc. Without accreditation, the degrees and credits offered by a college or university may be subject to skepticism from other institutions and may not transfer to accredited schools.

**Affirmative Action** – Institutional efforts toward equal employment and educational opportunities for all segments of the population.

**Apply** – Submitting an application to the College. This would be for new students and returning students to build a record in Burlington County College database system.

**Assessment Test** – As identified by the State of New Jersey, skills are assessed in reading, writing and mathematics. All incoming degree-seeking students or students registering for eight or more credits are required to take assessment tests designed to demonstrate strengths and weaknesses.

**Associate Degree** – The degree typically awarded by community and junior colleges following the completion of a two-year program of study. BCC offers four such degrees in a variety of career and transfer fields.

**Audit** – The process by which a student may register for a course on a no-grade basis.

**Auditor** – A person taking a course on a no-grade basis.

**Bachelor's/Baccalaureate Degree** – The degree typically awarded by a college or university for successful completion of a four-year program of study. Although BCC does not offer the bachelor's degree, it does offer a variety of two-year parallel programs that will transfer into the third year of a baccalaureate degree program. Several four-year colleges offer bachelor's degree at BCC locations.

**Commencement** – Graduation ceremonies.

**Corequisite** – A course that you are required to take while enrolled in another, related course.

**Course Number** – The three-letter and three-digit designation that appears before each course name. The designation will indicate the curriculum area and level of each course.

**Credit Hour** – Each credit hour is a unit of time, usually 50-60 minutes, that a class will meet each week during a given semester.

**Curriculum** – A set of courses designed to lead to a goal, such as a degree or certificate.

**Dean's List** – A listing of students who have demonstrated significant academic achievements during a given semester.

**Degree Requirements** – A list of the exact courses, subject areas, requirements and credit hours that a student must successfully complete to obtain a specific degree.

**Drop** – The process of adjusting a student's schedule by dropping courses after initial registration. The deadline for dropping a course is based on the semester/term of that course. Students can drop courses on WebAdvisor or in-person up until the established deadline.

**Electives** – Courses in which the student may enroll dependent upon interests, needs and specified criteria. Generally a student may choose from among a large list of elective courses.

**Freshman** – A student who has earned no more than 28 credits.

**General Education Requirements** – Courses which provide all degree students with broad knowledge in a variety of disciplines (i.e. math, science, English, etc.)

**Grade Point Average** – Also known as GPA, to determine a student's academic progress and status. To determine the GPA, the student should divide the total number of credits attempted by the total numerical value of grades received.

**Independent Study** – Independent study involves a student’s work on course-related materials outside of regular classroom hours.

**Internship** – Available in selected course areas, the internship provides planned, practical on-the-job experience, in addition to regular classroom work.

**Major** – The subject area in which the student chooses to concentrate his/her academic work.

**Practicum** – See internship.

**Prerequisite** – A course or courses a student must successfully complete before being allowed to register for a more advanced course in the same or related subject area.

**Register** – When a student signs up for classes in a particular semester or term.

**Semester** – A 15-week period during which a student will complete a particular course or courses.

**Semester Hour** – See credit hour.

**Sophomore** – A student who has completed 29 or more credits.

**Term** – A concentrated period during which a student will complete a particular course or courses.

**Transcript** – The official record of a student's academic performance.

**Tuition** – Charges for each registered course for which a student registers.

**Withdraw** – Withdrawing from a class occurs after the Last Day to Drop deadline has passed. The course from which the student withdraws will be recorded on the transcript as a W. The form for processing a course withdrawal may be obtained at the Registrar's Office.

Character of the College

In their praise of Burlington County College, students and graduates consistently point to the excellent learning environment. The unique BCC learning experience encompasses caring faculty and staff who want our students to succeed in the classroom, in their careers, and in their other personal endeavors.

As an open door institution, BCC is dedicated to the development and maintenance of strong academic programs for people of all ages and abilities. A variety of learning situations, including classroom, lecture hall, laboratory, independent study, and distance education, provide students with the utmost in flexibility. Classes are available weekdays, evenings, and weekends.

BCC offers academic advising, free tutoring, financial aid opportunities, and other support services to enable students to reach their educational and career goals.

Another aspect of the BCC environment is our student body. The average age of the student body is approximately 27 years, and many classes benefit from a healthy exchange of ideas between students ranging from recent high school graduates to senior adults.

Philosophy

Burlington County College was founded by citizens who believed that learning is a lifelong activity and that every person should have the opportunity to pursue education from which he/she can benefit. Burlington County College staff believes that education and attention to the past, present, and future enables individuals to better understand themselves and actively shape their own future. The accumulated knowledge and wisdom can improve the quality of life for individuals and benefit society as a whole.

Historical Perspective

The College opened on September 2, 1969 in temporary facilities at Lenape High School in Medford, with 728 full-time and 323 part-time students. In 1971, the College moved into the Physical Education Center and the Parker Center on the Pemberton campus. In June of 1972, the Middle States Association of Colleges and Schools accredited Burlington County College.

To accommodate the continuous demands of the workforce, the College has consistently expanded its program offerings as well as the number of BCC locations throughout Burlington County. BCC opened the doors to the Mt. Laurel campus in 2006 and now also offers classes in the Willingboro Center, Mt. Holly Center, Culinary Arts Center and at the Joint Base McGuire-Dix-Lakehurst. Online education has also expanded and BCC now offers eight degrees attainable 100% online.

New programs are added to the College curriculum each year to expand the selection of majors. In addition to the new academic programs, the College offers an array of non-credit classes, customized training and professional certifications through BCC’s Corporate College. Personal enrichment courses are also offered and include an aquatics program for all levels of swimmers and for all ages.

In keeping pace with the ever-changing technology, BCC maintains more than 1,100 computer lab stations, expanded presence of “smart” rooms, teleconference rooms, online education and free WiFi access. BCC libraries host computerized holdings and are integrated with the Burlington County library system.

Mission

Burlington County College, a comprehensive community college, provides all individuals access to affordable and quality education.

Goals

1. To provide an educational experience that encourages the individual to think critically and to examine and clarify ethical, personal and political values.

2. To prepare individuals for transfer to four-year colleges, for employment in business and industry and for new career skills.

3. To enable individuals to strengthen their academic skills through adaptive learning, counseling and academic support.

4. To enrich the quality of life by sponsoring cultural, recreational and personal interest activities through an extensive program of community and continuing education.

5. To engage in partnerships with the private and public sectors and to implement programs that addresses their identified employment needs.

6. To provide state-of-the-art technologies in the education and training of all individuals through an appropriate mix of delivery systems.
Confidentiality of Student Records

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. They are:

(1) The right to inspect and review the student's education records within 45 days of the day the College receives a request for access.

Students should submit to the Registrar or other appropriate official, written requests that identify the record(s) they wish to inspect. The Registrar will make arrangements for access and notify the student of the time and place where the records may be inspected. Records will be inspected under the supervision of an appropriate College employee. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

(2) The right to request the amendment of the student's education records that the student believes are inaccurate or misleading.

Students may ask the College to amend a record that they believe is inaccurate or misleading. The written request must clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

(3) The right to consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent.

One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted (such as an attorney, auditor, consultant, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

(4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by Burlington County College to comply with the requirements of FERPA. The name and address of the Office that administers FERPA are:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington, D.C. 20202

A copy of the BCC policy and a copy of the FERPA regulations are on file in the offices of the Registrar, the Vice President of Student Success, and the Library.
Burlington County College has an Open Enrollment Policy.

BCC's academic, professional and cultural opportunities are accessible without regard to race, color, national origin, sex or handicap.

You may begin your studies at BCC if:
• you have a high school diploma
or
• you have an equivalency (GED) certificate
or
• you are a high school or home-schooled student with permission
or
• you are a non high school graduate with ability to perform college-level work and benefit from a post-secondary education

Applying to the College
1. Submit an online application for admission at bcc.edu; the $20 application fee is waived. A paper application for admission, submitted to the Office of Admissions, must be accompanied by the $20 non refundable processing fee.

2. Request an official transcript from your secondary school showing subjects completed, grades earned, and date of graduation. An official General Education Diploma (GED) transcript may be submitted as evidence of high school graduation.

3. Request official transcripts to be forwarded to the Office of Admissions from any college previously attended.

Note: Some programs have selected admissions. Refer to specific program brochures (American Sign Language/Interpreter Education, Electronic Health Records, Dental Hygiene, Nursing, Health Information Technology, Radiography, Diagnostic Medical Sonography, Respiratory Therapy and Hearing Instrument Science, Coding, and Electronic Health Records Certificate programs) for policies specific to each program.

NOTICE—State of New Jersey Requires Immunizations
The State of New Jersey requires all full-time (12 or more credits), degree seeking students, who did not graduate from a New Jersey high school, provide proof of immunizations against measles, mumps, and rubella, and hepatitis b. Proof of immunizations should be certified by your health care provider, utilizing the “Certificate of Immunization” form, which can be obtained from the College website, bcc.edu.

Students who have graduated from a New Jersey high school must submit an official high school transcript to the Admissions Office, 601 Pemberton Browns Mills Road, Pemberton, NJ 08068, in order to be exempt from this requirement.

Students who are exempt from the immunization requirements on grounds of medical contraindication, religious reasons, or age (students born before 1957 are exempt from MMR requirements only), should submit the “Certificate of Immunization”, indicating the type of exemption, along with supporting documentation as required.

Students may be admitted and enrolled on a provisional basis for their first term if required immunization documentation is not available at the time of registration. If you have any questions about the regulations, please contact the Admissions Office at (609) 894-9311, ext. 1200.

Residency Requirements
Students who indicate on their applications that they are residents of Burlington County satisfy the residency requirements by signing their applications. If requested, students must be able to submit a notarized statement of residency. Any falsification of information may subject the student to dismissal from Burlington County College.

Out-of-County, Out-of-State Students
Persons who do not reside in Burlington County who wish to attend BCC are accepted for admission using the same criteria for admission as for county residents but will be charged a different tuition rate. (for Chargeback Law see page 18).

Student Health Insurance
Burlington County College is no longer required to provide health insurance to students.

Students will find information regarding the purchase of insurance on the Business Office page of the BCC website.

Admission of Adults with Neither a High School Diploma Nor a High School Equivalency Diploma
Individuals aged 16 or older who are out of school and have approved waivers from certain authorized personnel (high school authorities, probation or parole officer, New Jersey State Vocational Rehabilitation counselor or judge) may be admitted to the college. They may apply to the Department of Education, State of New Jersey, and petition for a high school equivalency (GED) diploma upon completion of 30 college-level credits (numbered 100 or above) taken from categories specified by the State of New Jersey.

For details, please contact the Office of Enrollment Services at (609) 894-9311 or (856) 222-9311, ext. 1310.
Readmission
Students who have interrupted their college education and not registered for a credit course for three years or more must submit an application for readmission. No application fee is charged for readmission. The catalog in effect at readmission will be used to determine the appropriate curriculum.

Students who have been dismissed for academic reasons must petition the Academic Standards Committee to be reinstated. Forms are available from the counseling staff at Pemberton and Mt. Laurel.

High School Students
In selected cases, high school students may enroll for college credit courses. All high school students must obtain a Special Application for Select Students (available from area high school guidance offices), which must be signed by the student’s parent/guardian and by the school principal or guidance counselor. Homeschooled students can obtain a Special Application for Select Students from the Registration Office which must be signed by a parent/guardian.

College Acceleration Program (C.A.P)
The College Acceleration Program provides students with the opportunity to take college-level courses for credit at Burlington County College while enrolled in their current high school. Students in this program can begin working toward their Associate’s degree while completing their high school coursework.

Courses in this program are taught by high school teachers who have been approved by Burlington County College. Burlington County College determines the courses that qualify for this program. To be eligible for this program, students must have achieved junior or senior-level status in their high school and be approved for entry into the program by her/his guidance counselor and/or high school principal.

Specific eligibility requirements and costs for the College Acceleration Program are available through high school guidance offices or the Office of School and Community Partnerships at Burlington County College (609) 894-9311, ext. 1260.

Senior Option
Senior Option allows high school seniors who have completed all high school requirements, with the exception of English and Physical Education, to take college-level courses at Burlington County College during their regular high school hours. This program is designed to allow the student to be dually enrolled in both the high school and the college. The high school may choose to award high school credit for college courses.

All students participating in the Senior Option must take and show proficiency on the College Assessment if they wish to take college-level English or math. Students who score 540 or higher on the SAT Writing and 530 or higher on the SAT Math, or have the ACT score of 23 in Reading and 20 in Math, are exempt. Students must provide proof of completion. For information about this program, please contact the Office of Enrollment Services at (609) 894-9311 or (856) 222-9311, ext. 1310.

Spring Ahead! Program
High school seniors at Burlington County high schools may participate in a program for early enrollment at Burlington County College. The program offers BCC information sessions and college assessment at most high schools and all schools participate in the registration/visit session. By acquiring information and taking the assessment early, students are able to get the best selection of courses, locations and times during the spring and fall registration/visit.

For more information, contact your high school guidance office or BCC’s Office of Enrollment Services at (609) 894-9311 or (856) 222-9311.

Minors
Minor students who are not participants of the high school programs mentioned but would like the opportunity to enroll in courses at the College must contact the Office of the Provost.

Transfer Students
Transfer students are welcome at Burlington County College. Students seeking to transfer credits from another accredited, post-secondary education institution into BCC must meet the criteria and fulfill the requirements stated below. The Burlington County College Office of the Registrar, and where appropriate, the Academic Divisions have the responsibility for oversight, updating and compliance with the transfer credit policy and procedure.

Requirements:
1. The post-secondary institution where the credits were earned must be accredited by the appropriate regional accreditation agency.
2. The transfer applicant must select a BCC degree or certification program. Credits will not be evaluated without a selection of degree or certification program.
3. The course(s) to be transferred must be comparable to a BCC degree or certification program and the course(s) must be applicable to the student’s selected degree or certification program.
4. The student transfer applicant must have successfully completed the course(s) with a grade of “C” or better, unless a higher grade is required for a selective admissions program as published in the College catalog.
5. Transfer credits are not included in computing a grade point average and are listed as “TR” grades on the student’s official BCC transcript.
6. A student may not transfer more than 49 credits toward an Associate’s degree program or more than 18 credits toward a Certificate program.
7. Transfer students must be placed or waived from the Basic Skills Test prior to registration as published in the “College Assessment” section of the College catalog.
Appeals of transfer decisions are to be viewed their academic record in WebAdvisor. Students may transfer credit will be applied to the student's program, the acceptability and appropriateness of college courses into each discipline. After the Registrar's Office has determined for specific policies about transferring Health and Paralegal programs must consult admission information brochures (CLEP), the College Board Advanced Placement (AP and IB) exams. Refer to the sections in the College catalog on CLEP, AP and Credit by Department examination.

Applicants to the American Sign Language/Interpreter Education, Nursing, Allied Health and Paralegal programs must consult admission information brochures for specific policies about transferring college courses into each discipline. After the Registrar's Office has determined the acceptability and appropriateness of the credits to the student's program, the transfer credit will be applied to the student's academic record. Students may view their academic record in WebAdvisor. Appeals of transfer decisions are to be directed to the Office of the Provost.

International Students
Students from a foreign country seeking to be admitted to the U.S. for education at the College must apply for a student visa. BCC's vocational opportunities are accessible without regard to race, color, national origin, sex or handicap. Once admissions requirements have been met, Burlington County College will issue to the student an I-20 form that the student uses to apply for a visa through the American Consulate located in the student's home country. The college does not provide or locate housing, so students from other countries will not be accepted for admission unless proof of a local sponsor is submitted. This local sponsor must accept responsibility for all living arrangements and for supplying funds for any expenses as well as all college costs.

In addition to applying for admission, the following application fee and documents must be submitted:
- an application fee,
- proof of a local sponsor,
- a confidential affidavit of support,
- a course by course evaluation by any NACES (National Association of Credential Evaluation Services) Member of any foreign college courses the student wants transferred to BCC,
- an evaluation by the World Education Services of any foreign college courses the student wants transferred to BCC,
- Official Confirmation of Funds,
- Test of English as a Foreign Language (TOEFL) is not required for admission to BCC. TOEFL scores are required for admission into BCC's Nursing Program. Please review Nursing Program brochure for program admission scores,
- evidence of immunization against measles, mumps, rubella and hepatitis B (unless proof of exemption provided).

International Application Packet deadlines are as follows:
Fall Semester — June 30
Spring Semester — November 30
An I-20 form will be issued to the student once all the admission requirements have been met. For more information please contact the Office of International Programs at ext. 1350.

Services for Students with Disabilities
Burlington County College makes appropriate services and facilities available to students with disabilities, as defined by Section 504 of the Rehabilitation Act of 1973, which requires post-secondary institutions receiving federal financial assistance to provide “program accessibility” to students with disabilities.

A student with a disability is defined as one who has a physical or mental impairment which substantially limits one or more major life activities, has a record of such an impairment, or is regarded as having such an impairment.

At present, specialized services at the College are made available to students with disabilities on an individual basis. The College has a number of features in its construction intended as aids to individuals with physical disabilities as they move around the campuses. BCC’s vocational opportunities are accessible without regard to race, color, national origin, sex or handicap. Students with disabilities are required to follow established admissions procedures at the college. Students with disabilities are encouraged to visit the campus or contact the Student Support Services Program office on the Pemberton Campus, to discuss any special accommodations. It is the student's responsibility to provide the college with the proper documentation to substantiate any and all disabilities. This information enables the College personnel to be able to provide the accommodations necessary for a successful learning experience.

Services to students with disabilities at BCC include the following:
- barrier-free design in all campus buildings
- special registration procedures as requested
- test-taking assistance for the visually and motor-skill-impaired
- access to tape recorders for in-class use with appropriate documentation
- special parking privileges
- an adaptive learning lab
- other services as needed

For further information contact the Office of Student Support Services at (609) 894-9311, ext. 1208.
Dispute Resolution for Students with Disabilities

Burlington County College has developed an administrative procedure to assist students with disabilities in resolving any dispute in which the College or any of its agents or employees allegedly act in violation of Section 504 of the Rehabilitation Act of 1973, 29 USCA, 794. This statute, commonly known as “the handicapped access law,” prohibits discrimination against otherwise qualified handicapped persons.

There are four specific steps to follow in this procedure. Students should proceed as follows:

1. Within five College work days of the alleged incident, the student should attempt to resolve the problem personally with the College employee involved.

2. If the person is unable to reach a satisfactory resolution of the complaint in step 1. above, the person should, within five working days of the meeting with the College employee, make a written request for a meeting with the employee’s immediate supervisor. This meeting with the supervisor is to take place within 10 College work days from receipt of the request. The immediate supervisor will hear the person and collect data as needed from the employee and other College personnel and render a decision on the matter. The supervisor will communicate this decision in writing to the person and employee within five College work days after the meeting.

3. If the person is unable to reach a satisfactory resolution of the complaint in step 2. above, the person should, within five work days of receipt of the written decision following the meeting with the College employee’s supervisor, make a written request for a meeting with the Vice President in whose area of supervision the matter has occurred. This meeting is to take place within 10 College work days from receipt of the request. The appropriate Vice President will review the facts presented by the person and collect data from other personnel as needed. The Vice President will render a decision on the matter and communicate this decision in writing to the person, the employee against whom the person has made the complaint, and the employee’s immediate supervisor within five work days after the meeting.

4. Any person may appeal the decision of the Vice President directly to the President of the College. The notice of appeal must be received at the Office of the President within five College working days of the date of the Vice President’s decision. The President, within 10 College work days of receiving the notice of appeal, shall either confirm, reverse, or modify the decision of the Vice President. The President’s written decision shall include his/her reasons for arriving at said decision. Said decision shall be final.

The steps are outlined in Administrative Procedure 904A, published in the Student Handbook/Calendar. Copies of this procedure are also available from Mr. Dennis Haggerty, Title IX and Section 504 Coordinator, located in the Office of Human Resources in the Parker Center on the Pemberton campus or by calling him at (609) 894-9311, ext. 1399.

In the event that litigation is brought against the College or any of its agents or employees alleging any statement of facts constituting a violation of Section 504, the College will move to dismiss such litigation in all cases where the plaintiff has failed to utilize this student dispute resolution procedure.

College Assessment

The State of New Jersey requires all institutions of higher education to assess all full-time and part-time entering students for proficiency in reading, writing, computation and elementary algebra. Students will be assessed after they have been admitted to the college. All degree-seeking students must show ability to benefit from college-level courses. The assessment will be used for course placement purposes. No student will be denied admission to the college based on the assessment results but course selection may be restricted based on the student’s performance on the assessment. The assessment is taken after application materials have been processed. Students may be exempt from the assessment.

- are enrolled in a bilingual or English as a Second Language (ESL) program.
- already hold an associate degree or higher from an accredited college or university and can provide proof of completion.
- have successfully completed the equivalent of English Composition (ENG 101) and college-level math (MTH 107 or higher) with a grade of “C” or higher and can provide proof of completion.
- scored 540 or higher on SAT Writing and 530 or higher on SAT Math, or have the ACT score of 23 in Reading and 20 in Math and provide proof of completion.
- have met the College’s requirement for CLEP or Advanced Placement in English, computation and elementary algebra.
- have completed developmental courses comparable to BCC’s highest level of remediation at another regionally accredited college. Students must provide a transcript and a catalog course description.
- are not working toward a degree and want to attempt fewer than 30 credits. The assessment will be required prior to attempting the 30th credit.
- have taken the assessment at another New Jersey college and the results have been forwarded to:
  Test Center
  Lead Test Coordinator
  601 Pemberton Browns Mills Rd
  Pemberton, NJ 08068

Applicants cannot register for English Composition (ENG 101) or college-level mathematics (MTH 100 or higher) or courses with a math or English prerequisite if they have not taken nor have been exempt from the assessment.
Advanced Placement
Burlington County College may grant credit hours for the College Board Advanced Placement Program examinations. Students must have an official AP Grade Report (transcript) from the College Board Advanced Placement Program sent to the BCC Office of Admissions. The transcript will be evaluated and credit given for courses offered by BCC if the scores meet the BCC criteria. Contact the Registration Office for further information.

Credit by Departmental Examination
Burlington County College offers institutional credit-by-examination in limited and specific areas. A non-refundable fee is charged for each examination. A maximum of 30 credit hours may be earned if procedure and criteria are met. No grades are recorded. Credit awarded is reflected on a student's transcript. For forms, contact the Registration Office.

Credit Through CLEP
Burlington County College may grant up to 30 credit hours earned through the College Level Examination Program (CLEP) General Examinations on scores recommended by the American Council on Education. Similar credit may also be awarded for subject examinations. To schedule an appointment for the CLEP Examination, contact the Test Center. Contact the Registration Office for tests and scores accepted by BCC.

Foreign Language Placement Policy
Students may begin the study of a foreign language at the elementary level, but students who have successfully completed two years of a foreign language in high school are encouraged to begin with 201. Students are assisted in selecting the appropriate level at which to begin by a faculty member.

Burlington County Police Academy
The College has articulation agreements with the Burlington County Police Academy and the Burlington County Fire Academy. Burlington County Police Academy graduates can earn up to 15 credits in selected courses from Burlington County College. Graduation must have occurred after 1987 and the graduate must have been a resident of Burlington County during enrollment. For additional information contact the Liberal Arts Department.

New Student Orientation
All new students are required to participate in the orientation session held prior to the start of their first semester at BCC. The orientation session is designed to acquaint students with college policies and procedures, the layout of the campus and key college personnel. New students will be informed by letter of the dates for orientation.

Drug-Free Campus
It is an objective of Burlington County College to provide a safe, drug-free environment for members of the college community and to comply with the provisions of the Drug-Free Workplace Act and other applicable laws. Receipt of federal grant funds is conditioned upon the agreement of the college to comply with federal law; failure to do so may result in a grant award being suspended or terminated and could result in the college losing eligibility for any federal grant.

The Student Code of Conduct (Board Policy 903 B) makes it unlawful to manufacture, distribute, dispense, possess or use a controlled substance on campus. Students found in violation will be reported to the local authorities and may be expelled from the college.

Students should be aware of the various drug counseling, rehabilitation and student assistance programs available. Information is available in the Office of Academic Advisement and college academic advisors/counselors can assist with referral if a student so desires.

Student Conduct
It is the responsibility of all students of Burlington County College to read and be familiar with the rules and regulations governing student conduct. The Code of Conduct is on page 47 in this catalog.

The code shall at all times be interpreted on the general principle that all students shall incur like penalties for like violations and that the accused are assumed innocent until proven guilty based on a preponderance of evidence. Students accused of misconduct shall be given at least five class days written notice of a formal disciplinary hearing. Notification must state specific charges, the name of the accuser, possible penalties if found guilty, the date, time and place of the hearing and any other basic information relating to the case.

The Burlington County College Public Safety Office receives and investigates all incidents. If the situation warrants police action, or if the individual reporting the matter makes a request, the Public Safety Office will contact the applicable municipal police department.

BCC’s Public Safety Department will summon the assistance of other agencies to provide services that require special resources.

TUITION AND FEES

Payment Policy
All tuition and fees must be paid on or before the date stipulated by the College. A last date to pay is established for early registration for each semester. This payment must be received by the Business Office by the established date. Those students registering after Payment Due Date must pay a registration fee. Students who register on the First Day of Classes or later must pay a late registration fee. All students who register after the Payment Due Date, payment in full is due at the time of registration. All payments made after the due dates are subject to a late payment fee. Payments can be made online at bcc.edu/webadvisor.

Unless written notice of registration cancellations is made by the student to the Registration Office prior to the start of a semester/term, the student will continue to be obligated for the payment of tuition and fees. It is the students’ responsibility to notify the Business Office of changes to their schedule so their payment plan can be adjusted. Status change forms are available in the Business Office. Time limits are imposed to terminate agreements. NON-SUFFICIENT FUND DEPOSIT payments will terminate your payment plan immediately and your schedule will be in jeopardy. This does not guarantee relief from your financial obligation to BCC. Overdue accounts will be subject to a 25% fee in addition to the balance owed if submitted subsequently to an outside agency for collection. Official transcripts will not be forwarded for any student with an overdue account. Students with an outstanding balance will be prohibited from registering.

Students whose employers offer tuition benefits must submit, on company letterhead, a non-contingent request for an employer deferment prior to the semester payment due date.

Application Fee
A fee must be paid by each applicant when first applying for admission to the college. This processing fee is not refundable.

International Student applicants must pay a fee for admission to the college.

Tuition
For current tuition rates please visit bcc.edu/businessoffice/tuition-fees.

Tuition, fees and other charges are subject to change at any time in accordance with the policies established by the Board of Trustees of Burlington County College.

General Fee
A per credit hour fee is charged to all students to provide funds for student cultural and social programs. Please see page 19 for the current general/activity fee.

Technology Fee
Enables the college to add and replace computers, software, library equipment, and other items for student use. Please see page 19 for the current technology fee.

Student Activity Fee
A per credit hour fee is charged to all students to provide funds for student activities.

Supplemental Fee
A per credit hour fee provides for the costs associated with the graduation process and transcript requests.

Facilities Fee
A per credit fee to support capital and facilities needs at the College.

Chargeback Law
(Non-Burlington County Residents)
New Jersey residents living outside of Burlington County and attending Burlington County College in a Chargeback eligible program must obtain an Application and Certification of Eligibility for Chargeback form from the Recruitment Office or Registrar of the student’s home community college. Failure to apply for a chargeback will result in additional charges, covering the cost of the course, to the student.

Completion of this process may result in the student being charged the in-county tuition rate.

For further information regarding chargeback eligible programs and requirements, please contact the Admissions or the Business Office.

The Following Procedures are to be Followed:

1. First semester students will receive a letter from the Admissions Office verifying their admission to Burlington County College.
2. A copy of the College Assessment scores should be obtained from the Test Center.
3. All out-of-county students will receive information from the Registration indicating the courses or curriculum enrollment for the semester.
4. All necessary information must be processed by the appropriate office (Registration, Admissions and Business Office) of your home county college.
   a. A “Certificate of Eligibility” will be issued if approved
   b. A refusal form will be completed if denied
   c. This process must be completed by the deadlines established by your “home” county
5. A Residency Certificate must be completed by the the County Treasurer’s Office of your “home” county.
6. Return all information to the BCC Business Office.
7. This process must be completed by the deadlines established by your “home” county.
8. Renewal by semester depends on the procedures established by your “home” county college.
Special Rates for Senior Adults
Students age 60 years and above pay $30 per credit, plus technology and supplemental fees. They will pay all applicable course fees as well as late and change fees, but no application or general fee will be charged.

A waiver form must be completed, and they must provide proof of age and Burlington County residency at the time of registration.

Course/Materials Fees
Some college courses require additional fees to pay for laboratory hours and/or additional materials required for the course.

Returned Check Fee
Any check returned to the College by the bank on which it is drawn, for any reason whatsoever, will incur a processing fee and in the future, the student’s privilege of writing personal checks to the College may be revoked.

Post-dated checks will not knowingly be accepted by the college, and if returned by the bank, are subject to the returned check fee.

Identification Card
Each student is issued a free ID card at the time of registration. There is a $20 replacement fee for identification cards.

Schedule Change Fee
Once classes begin, a NON-REFUNDABLE fee is charged EACH time a student ADDS a class or CHANGES a section when the change is for the student’s personal convenience or for a change in instructor.

Credit Cards for Payment of Tuition and Fees
The college accepts VISA, MasterCard, Discover and American Express for payment of students’ financial obligations.

Affordable Monthly Tuition Payments
Burlington County College has made it easier and more affordable than ever for you to pay for your education. We offer an interest-free monthly payment plan for each semester. There is a $25 enrollment fee for each semester that you enroll in the payment plan. The enrollment fee amount is subject to change without notice. The enrollment fee is in addition to the down payment amount. Your monthly payments can be automatically deducted from your bank account or you can charge them to your American Express, Discover, MasterCard or VISA card. Students can apply for the payment plan via the internet. Go to bcc.edu and click on the section labeled “OnLine Payment”. You must be enrolled in 6 credits or more to qualify for the payment plan.

The earlier you enroll, the lower your down payment and the more monthly payment plan options are available. By making monthly payments you may be able to take more classes so that you can graduate earlier. Visit the Business Office for more details.

Financial Aid
For information on financial aid programs offered by the college, see pages 20-23.

Refunds
Dropped Courses
A drop/add form must be completed and filed with the Registration Office by students dropping courses for any reason. Failure to follow this procedure will result in the forfeiture of any refunds.

Refund amounts of 100%, 50% and 0% are based on the date the form is received by the Registration Office.

Specific withdrawal dates can be obtained by contacting the Registration Office.

Tuition Refunds
Tuition refunds are processed during the 60 working days following the last day of the official Drop/Add period. Refunds are made by check for students who paid by cash or check or by credit to students who paid by bank credit card. All check refunds are mailed to the student’s address on file. It is the student’s responsibility to see that his/her correct mailing address is on record with the College. Students with questions regarding refunds should contact the Registration Office and/or the Business Office.

Exceptions and Appeals Committee
The College maintains a Committee on Exceptions and Appeals for the purpose of reviewing student petitions to the college’s stated financial policies. The Committee makes its decision based on the student’s written request and justification as supported by appropriate documentation (i.e., verification of extended hospitalization from a doctor or hospital, transfer orders signed by a military commander, etc.). Students must have a drop status, withdrawal “W” or an administrative withdrawal “AW” for consideration.

The petition should be submitted within 90 days of the occurrence which necessitates the appeal. Appeals submitted after 90 days must be supported with extraordinary circumstances to be favorably considered.

The petition form is available at bcc.edu.

SUMMARY OF FEES*

| Fees are Subject to Change |
| Miscellaneaus Fees |
| Application Fee . . . . $20.00 |
| Credit by Exam Fee . . $25.00 PCH |
| Course fees for designated courses . . . . Contact Test Center |
| Facilities fee . . . . . . $1.00 PCH to support capital and facilities needs at the College |
| General Fee . . . . . . . . $13.50 PCH |
| International Student application fee . . . . $100.00 |
| Late Payment Fee . . . . $50.00 |
| Late Registration Fee . . . . $40.00 |
| Reinstatement Fee . . . . $75.00 |
| Replacement of Student ID Card . . . . $20.00 |
| Replacement of Parking Sticker . . . . $10.00 |
| Returned Check Fee . . . . $35.00 |
| Schedule Change . . . . . . $20.00 |
| Student Activity Fee . . . . $4.00 PCH |
| Supplemental Fee . . . . . . $2.00 PCH |
| Technology Fee . . . . . . . . $9.00 PCH |

Introduction
BCC has a comprehensive financial aid program that includes scholarships, grants, loans and work-study opportunities to assist students in meeting college costs. Funds come from many sources, including state and federal governments, local businesses and industry, and civic organizations. Funds are available not only to those with high financial need, but also to middle-income families that find it difficult to pay for a college education.

Financial Aid Office Mission Statement
The Financial Aid Office of BCC is committed to providing quality financial aid services to all eligible students and
• Delivering Federal Title IV aid, New Jersey state aid, BCC Foundation assistance, and outside scholarship assistance to students who are eligible for educational funding via these resources.
• Acting as a resource to county residents, providing information about the financial aid application process.
• Serving our students in a timely, equitable, accurate, courteous, and fiscally responsible manner adhering to all federal, state, and college regulations.

Applying for Financial Aid
The first step in applying for financial aid is to complete the Free Application for Federal Student Aid (FAFSA). This allows you to apply for federal and state grants and many institutional scholarships. There is no charge for filing the FAFSA. Filing online at fafsa.gov is the fastest, most efficient way to apply for financial aid.

Note: You must complete a FAFSA every academic year.

Deadline
Your file must be complete by June 1 for the Fall semester and October 1 for the Spring semester to be considered a priority application and have funds available at registration. For a file to be considered complete, your FAFSA must be processed by the Department of Education and the results received by BCC. In addition, you must submit any documentation requested by BCC in order to complete your FAFSA application. If you are selected for verification, you will be asked to submit documentation that allows BCC to confirm the data you submitted on your FAFSA.

Priority applications will be processed prior to the start of the semester. However, as long as we receive your FAFSA before the end of the enrollment period for which you are applying for aid, we will review your eligibility.

Completing the FAFSA
You should complete the FAFSA using tax information from the prior calendar year. If you are a dependent, then you must list both your and your parent’s information. If you are married, then you must list information for yourself and your spouse. Sign and date the FAFSA and have your parent sign if you are a dependent.

We encourage you to electronically file and sign your FAFSA with the Department of Education at fafsa.gov. It is the fastest and easiest way to file your FAFSA every year that you are attending BCC. Before filing online, you (and your parent if you are dependent) should go to pin.ed.gov and apply for a PIN(s). Having a PIN allows you and your parents to sign your FAFSA electronically, thereby completing the entire process online. If you do not have a PIN, then you must have a printer available to print out and mail the FAFSA signature page.

In the school choice section of the FAFSA, you must tell the federal processor which schools should receive your information. Enter BCC’s Federal School Code: 007730

How Do I Get Help?
For your convenience, you can apply for a PIN and file online using one of the ‘Student Use’ computers available on all campuses.

Online help with the filing process is available at fafsa.gov and at studentaid.ed.gov. You can also obtain help at 1-800-433-3243.

What Happens Next?
After you have completed your FAFSA, you should receive your Student Aid Report (SAR) from the US Department of Education’s Federal Processor. BCC receives the same information electronically. We will inform you of the status of your application and tell you if we need any additional documentation. Once your file is complete, we will send you a notice of your eligibility.

GRANTS AND SCHOLARSHIPS

Tuition Aid Grants (TAG)
TAG is a state program, and is based on a student’s family income, number of persons in the family, the number of persons in the family who are attending college, the cost of tuition and fees at BCC and other expenses met by the student’s family. Grants do not have to be repaid and may be used during the fall and spring semester only. To be eligible, a person must have resided in New Jersey for at least 12 months prior to the application date for the grant, be a degree-seeking student, register for at least 6 credits, and file the FAFSA.

Part-Time Tuition Aid Grants
The Part-Time Tuition Aid Grant Program for County College Students began in the 2003-04 academic year. The program provides pro-rated awards to students who are taking 6-11 credits per term and who are otherwise eligible for the TAG Program.

Federal Pell Grants
Federal Pell Grants are the single largest grant program at BCC. It is a federally-funded program open to all BCC students who are degree or certificate-seeking. The amount of the grant award is based on the number of credits of enrollment, cost of attending BCC, and the student’s EFC (a formula used by the Department of Education).
Federal Supplemental Educational Opportunity Grants (FSEOG)
FSEOG is also a federal grant. It is designed for students with exceptional financial need. FSEOG grants at BCC average $200 per year and do not have to be repaid. Eligible degree-seeking students must register for at least six credits for each semester during which they receive FSEOG funds. FSEOG funds are awarded to the neediest Pell Grant recipients.

Educational Opportunity Fund Grant (EOF)
Students enrolled in the EOF program are entitled to receive an EOF grant. Eligibility requirements are
1. Acceptance into the EOF program.
(See EOF in the Special Programs section.)
3. Full-time (12 credits) academic status, seeking a degree.
4. One year residency (12 months) in New Jersey.
EOF is a state grant and does not have to be repaid. Students must complete the FAFSA, an EOF application and arrange for an interview with the EOF Office. Interested students should call the EOF office at (609) 894-9311, ext. 1462.

New Jersey Student Tuition Assistance Rewards Scholarship (NJ STARS)
New Jersey residents who graduate in the top 15% of their high school class are eligible for up to five semesters of free tuition. (Please note scholarship is a tuition only award; no course fees will be covered) You must be enrolled in a minimum of 12 college-level credits every semester and maintain a 3.0 GPA. NJ STARS award will no longer pay for remedial/developmental course work. A NJ STARS-eligible student must complete all developmental course work one year from high school graduation. It is recommended that developmental course work be completed while the student is in High School or in the summer term prior to his/her Fall enrollment. The student must enroll in an associate degree program of a New Jersey Community College in the county in which they reside. Out-of-county residents are considered only if their home-county college does not offer the program they are interested in pursuing.

Burlington County College Foundation Scholarships
BCC Foundation Scholarships are awarded each year to a select number of recipients based on academic merit and financial need. Scholarship amounts vary but can cover up to the cost of tuition and fees. Application is made available on the Foundation Scholarship website at staff.bcc.edu/foundation and usually consists of an application, a personal essay, letters of recommendation, and a recent transcript. The Foundation Scholarship Committee reviews applications. Funds for the Foundation's scholarships are made possible by a variety of local organizations, business, industry, non-profit organizations and individuals.

LOANS
Annual Limits
Dependent Student Annual Subsidized and Unsubsidized
1st year (less than 30 credits earned)–$3,500
2nd year (30 or more credits earned)–$4,500
Independent Student Annual Subsidized and Unsubsidized
1st year (less than 30 credits earned)–$3,500
2nd year (30 or more credits earned)–$4,500
Dependent Student Annual Combined Subsidized and Unsubsidized
1st year (less than 30 credits earned)–$5,500
2nd year (30 or more credits earned)–$6,500
Independent Student** Annual Combined Subsidized and Unsubsidized
1st year (less than 30 credits earned)–$9,500
2nd year (30 or more credits earned)–$10,500

** Includes dependent students whose parents are unable to borrow PLUS loans.

Subsidized Loans
Subsidized direct loans are federally guaranteed loans based on financial need. Interest does not accrue on the loan while you are enrolled for at least half time, or during future deferment periods. A student can not receive financial aid that will exceed the cost of attendance.
1st year – $3,500 per year
2nd year – $4,500 per year

Unsubsidized Loans
Unsubsidized direct loans are federally guaranteed loans based on no financial need. Interest will begin accruing from the time the loan is disbursed to the school. A student can not receive financial aid above the cost of attendance.
1st year $2,000 for dependent students,
$6,000 for independent students
2nd year $2,000 for dependent students,
$6,000 for independent students

Federal Parent Loan for Undergraduate Students (PLUS)
The PLUS program makes education loans available for parents of undergraduate students. Annual loan limit is the dependent student's cost of education minus any estimated financial aid received. Repayment begins within sixty days of disbursement, with up to ten years to repay.

NJ CLASS
The CLASS loan program is for students and supplements the Direct Lending program. Annual loan limit is the cost of education minus any financial aid received. There are three repayment options: (1) defer all payments until after graduation; (2) pay interest only; (3) or pay interest and principal.
Students must use their full Federal eligibility first. For more information, visit hesaa.org/NJCLASS.
Direct Lending
Burlington County College participates in the William D. Ford Federal Direct Loan (Direct Loan) Program. Under the Direct Lending Program, the funds for your loan come directly from the federal government.

This program is available to students enrolled in a minimum six credits (part-time) per semester. In addition to completion of the FAFSA, borrowers must complete a master promissory note and a loan entrance interview. Loans are repayable after graduation or when you enroll less than half time. For additional information about student or parent loans, visit the Direct Lending section on bcc.edu/financialaid.

Student Employment
Federal Work-Study Program (FWS)
FWS is a federal employment program in which the government allocates funds to the institution to employ students on campus to help them pay for their education expenses. FWS is available to degree-seeking students enrolled for at least six credits and who show financial need. Students generally work an average of 15 hours per week. Recipients must be U.S. citizens or permanent residents and must be making satisfactory academic progress. In order to receive consideration for the FWS students must file the Free Application for Federal Aid (FAFSA) each year.

Institutional Work-Study (“9140” Employment) Program
This is an institutional employment program in which the college makes employment available for full or part time students. Students generally work an average of 15 hours per week. Applicants must also submit a student employment application through the BCC Career Services Offices. In order to receive consideration for the institutional employment program students must file the Free Application for Federal Student Aid (FAFSA) each year. Students who apply for the institutional employment program must first use their FWS eligibility or not be eligible for FWS.

How Aid is Awarded
Unless otherwise noted as a merit-based scholarship, financial aid is awarded to students solely on the basis of their financial need. Financial need is the difference between a student’s cost of attendance and their financial resources, as determined by BCC using the student’s FAFSA.

Cost of Attendance
The student’s cost of attendance includes allowances for such items as tuition, fees, books, supplies, room and board, personal expenses and transportation for one academic year, fall and spring semesters.

Resources—Expected Family Contribution
The family’s expected contribution is computed from the data the family submits on the FAFSA to the Department of Education. If you are a dependent student, it comprises the parent’s contribution and the student’s contribution from income and assets. If you are independent, it is based on your and, if married, your spouse’s income and assets.

Other Resources
Other resources may include government education benefits, employer tuition payments, veteran benefits, and other payments made to your student account by outside third parties. All other resources are used in determining your financial need and must be reported to the Financial Aid Office.

Outside Aid
Outside aid is typically a BCC Foundation scholarship, veteran benefits or other private scholarships. All outside aid is used in determining need and must be reported to the Financial Aid Office.

General Eligibility Requirements
To qualify for federal, state, BCC need-based financial aid and most assistance other than scholarships, you must meet general eligibility requirements:
- Have a high school diploma, GED or equivalent
- Be enrolled or accepted for enrollment in a degree or certificate program
- Be a U.S. citizen, U.S. national or eligible non-citizen.
- If you are selected for verification by the Department of Education or BCC, complete the verification process prior to disbursement of any financial aid funds.
- Maintain satisfactory academic progress in your degree or certificate program of study.
- Not be in default on a federal student loan.
- Not owe a refund on a federal or state grant.
- Demonstrate financial need to qualify for need-based funds.
- Meet the defined criteria for each financial aid program section of the BCC website.

Financial Aid Satisfactory Academic Progress (SAP) Policy
All students receiving student financial aid from federal, state or institutional sources must make satisfactory academic progress (SAP) at Burlington County College (BCC). SAP is monitored at the end of each semester for aid recipients who are degree-seeking or pursuing a certificate. SAP measures a student’s performance for all terms of enrollment, including terms in which the student does not receive financial aid. The three requirements measure cumulative grade point average, percent of credits earned relative to those attempted, and percent of attempted credits, including transfer credits, relative to the credits required for program completion.

A financial aid applicant is responsible for knowing the Financial Aid SAP Policy. The Financial Aid Office sends a notification of aid eligibility (or ineligibility) to a student who has been placed on probation or suspended status. Whether or not a student receives the notification, responsibility for meeting the minimum SAP requirements to qualify for student aid remains with the student. Students who are ineligible for aid may enroll at BCC if they are able to pay for tuition and fees. Payment arrangements can be made by contacting the BCC Business Office.
To maintain satisfactory academic progress and aid eligibility, an aid recipient must meet all three of the following minimum requirements.

1. **Completion Rate**
   A student must successfully complete a minimum of 66.67% of all credits attempted to be making Satisfactory progress and maintain aid eligibility. Credits with a grade of A, B+, B, C+, C, D, or P are successfully completed. If a completion rate is below 66.67%, a student will be considered on suspended status.

2. **Maximum Time Frame**
   A student must complete a program of study within 150% of the number of credit hours required for degree graduation or certificate completion to be making Satisfactory progress and maintain aid eligibility. The 150% is measured on the basis of attempted credits, including transfer credits. For example, if an associate's degree program requires 64 credits for graduation, it must be completed within 96 credits to maintain aid eligibility. Since credit hour requirements for academic programs vary, check the College Catalog for the precise number of credits required. Multiply the number by 1.5.

   NOTE: The measure of maximum time frame will exclude up to 30 credits of developmental course work and all English as a Second Language (ESL) course work in the calculation of attempted credits.

   If the number of attempted credits exceeds 150% of the active program's requirement for graduation, the student is placed on suspended status. The student may appeal based on special circumstances or a change in the academic program of study. See Appeal Process below.

   NOTE: BCC permits the pursuit of more than one academic program concurrently. Maximum Time Frame will be measured using the credit number requirements of the longest standing active program.

3. **Cumulative Grade Point Average**
   A student must maintain at least a 2.0 cumulative grade point average (GPA) to be making Satisfactory progress and maintain aid eligibility. The GPA is calculated by dividing total number of grade points earned by the total credits attempted for courses with grades of A, B+, B, C+, C, D, and F.

   If the cumulative GPA is less than 2.0, the student is placed on suspended status.

**Status Definitions and Aid Eligibility**

- **Satisfactory Status** – Student is eligible for financial aid. This category may include students with no SAP issue at all, students who have successfully completed their Warning period of enrollment and are following their Academic Plan, and students who have met SAP requirements after being ineligible previously.
- **Warning** – Defined as any student not making SAP standards for the first time. Student may automatically receive aid for one semester while on Financial Aid Warning and no appeal is necessary.
  - The Financial Aid Warning period will consist of the next semester the student is enrolled in classes.
  - Students will continue to receive financial aid while on Financial Aid Warning.
  - If student has not met SAP requirements after Warning period, he/she will need to submit an Appeal. If appeal is approved, student will be placed on Probation status.

- **Suspended** - Failure to meet the three minimum requirements, but student is eligible to appeal. If the appeal is approved, the student can continue financial aid eligibility for another period of enrollment under a Probation status. Students may also choose not to appeal and attempt to regain financial aid eligibility by meeting SAP requirements by paying out of pocket (without any financial aid). Students in this category are ineligible for financial aid.

- **Probation** - Failure to make SAP, but appeal is approved and student is financial aid eligible for one more period of enrollment, or possibly more if following required Academic Plan (which may include documentation requirements not directly related to academic performance).
- **Ineligible** - Failure to make SAP and/or failure to follow required Academic Plan. This status also applies to appeals that are not approved - the student is not eligible for financial aid until cumulative SAP standards are met.

**Academic Amnesty for Financial Aid**

Federal regulations make no provision for academic amnesty. If a student's prior coursework was given special treatment under BCC's provisions for Academic Amnesty, the student's cumulative GPA must be calculated based on the inclusion of all credits attempted at BCC. If the recalculated GPA is less than 2.0, the student may appeal to the Financial Aid Office for special circumstances.

**Transfer Credits for Financial Aid**

Credits transferred from another college are counted in the number of credits attempted and completed to measure completion rate and maximum time frame. Transfer credits are not counted in the calculation of grade point average.
Withdrawals/Incompletes/Repeats/Other Grades for Financial Aid
NOTE: None of the following grades are included in the calculation of cumulative GPA with the one exception of the highest grade earned on a repeated course.

Credits with a grade of “W” (withdrawal) assigned after the drop/add period of a term are treated as attempted but not earned.

Credits with a grade of “I” (incomplete) or “X” (extended incomplete) are treated as attempted but not earned.

Credits for repeated courses are treated as attempted but not earned, except for the course with the highest grade, which is included in the GPA calculation.

Credits for developmental and ESL coursework with a grade of “P” (passing), “O” (outstanding), or “S” (satisfactory) are treated as attempted and earned. A grade of “U” (unsatisfactory) is treated as attempted but not earned.

Credits with a grade of “NA” (non-attendance) are treated as attempted but not earned.

A grade of “AU” (audit) is not included in attempted or earned credits.

Second Degree Students for Financial Aid
Financial aid is available for students pursuing a second degree. Credits hours attempted and/or completed toward a prior degree will be included in the measures of Completion Rate and Maximum Time Frame, along with any transfer credits.

Change in Program for Financial Aid
If a student changes academic programs, the credits from the prior program will be counted in attempted and earned credits.

If the student does not meet the minimum SAP requirements, the student may appeal on the basis of a change in program and request that only credits applicable to the new program be included in the calculation of cumulative GPA, completion rate, and maximum time frame.

Ineligibility for Financial Aid
Students classified as on Academic Dismissal by BCC are immediately ineligible for financial aid. Any aid disbursed for a term in which the student has been dismissed must be repaid to the College.

Students who do not meet the minimum SAP requirements and have a SAP status of suspended are ineligible for financial aid. Any aid disbursed for a term in which the student is disqualified must be repaid to the College.

Appeal Process for Financial Aid
Students placed on suspended status may appeal their status and eligibility for financial aid. Appeals must be submitted in writing to the Financial Aid Office and will be evaluated by the Financial Aid SAP Committee for special circumstances. Special circumstances with documentation that may be approved:
1. student has a serious illness or accident,
2. death, accident, or serious illness in the immediate family,
3. unanticipated military deployment, or
4. change in academic program

Documentation of the student’s special circumstances, past academic performance, and assessment of ability to make up the SAP deficiencies will be evaluated. If the appeal is approved, the student is placed on Probation for one term if pursuing a degree or certificate. Approval of financial aid based on an appeal is normally granted for one academic year. Appeals must be submitted in writing to the Financial Aid Office and will be evaluated by the Financial Aid SAP Committee for special circumstances. As of July 01, 2011 Students are responsible for the most current version of this policy, which is reviewed annually and published in the financial aid section of the BCC website.
Registration

An official registration must be processed online or in person to attend classes. No student is permitted to attend a class if his/her name does not appear on the class list. Only students who have officially registered and paid and whose names appear on the official class list are permitted to attend the class and receive a grade or credit for the course.

Prerequisite and Corequisite Courses
Some courses require that a student successfully complete a prerequisite course or courses before enrollment. In some cases students are required to take a corequisite course or courses. In certain special circumstances, students may obtain the permission of the faculty member or appropriate academic administrator to take a course without the prerequisite or corequisite.

Certification/Verification
All certifications/verifications of enrollment and academic status are processed by the Registrar's Office. These verifications will normally be done after the end of the add period.

Veterans certifications are processed by the Financial Aid Office. Please allow five days for processing.

Cancellation of Classes
Regularly scheduled classes may be cancelled due to snow or other conditions beyond the control of the college. See page 7 for more information.

Classes may be cancelled due to lack of or low enrollment. Affected students are informed by telephone and/or in writing by the academic division offering those classes. Students are given a choice of selecting other sections and/or other courses if they so desire or their tuition and fees are refunded.

Registration Schedule Changes
Students wishing to make changes to their schedule following initial registration may do so through the last day of the Drop/Add period. Deadlines are published in each semester/term course brochure. A drop/add must be processed in the student WebAdvisor account or a drop/add form submitted to the Registration Office to make such changes. There is a $15 fee for schedule changes. The course drop may also incur additional costs.

Students who drop a course prior to the first day of the semester/term will receive a 100% refund and no record of the course will appear on the academic transcript.

Once the semester has begun and through the Drop/Add period, the student will receive a 50% refund and no record of the course will appear on the academic transcript.

Withdrawal From Courses
A student may withdrawal from a course and receive a grade of “W” up to the end of the ninth week of classes in a semester or up to an equivalent time in a given term. For information on refunds see page 19.

Students who desire to withdrawal from a course or courses must complete a withdrawal form and return the completed form to the Registration Office within the established deadline.

Students who fail to withdrawal according to established procedures will receive grades of “ST” for college-level courses and “SR” for for developmental courses in which they were registered but stopped attending.

Administrative Withdrawals
A student may have the need to withdraw after the official withdraw date due to an extenuating circumstance. In these instances, students may request an Administrative Withdrawal from the Associate Dean of Admissions and Registration and his/her decision is final.

The following are Administrative Withdrawal criteria:

1. Requests must be submitted in writing and substantiated by official documentation.

2. Requests will only be considered if the date(s) of the extenuating circumstance coincide with the applicable semester/term in which courses are being attempted.

3. Requests will only be considered up to 30 business days after the end of the semester in question.

4. Administrative Withdrawals will be applied to all courses taken within the semester/term of the request.

5. Administrative Withdrawal decisions do not eliminate a student's financial obligation to the College. Students are responsible for their tuition and fees.

6. Petitions for tuition must be submitted to the Exceptions and Appeals Committee.

7. If there are other extenuating circumstances not presented in the original request to the Associate Dean of Admissions and Registration, a second and final appeal may be submitted to the Provost.
College Action
Consistent with law, Burlington County College reserves the right to dismiss at any time students who in its judgment are undesirable and whose continuation in the school is detrimental to themselves, the staff and/or their fellow students.

When a student is withdrawn from the college as a result of administrative action or for the convenience of the college (except for disciplinary reasons), he/she is entitled to full refund of tuition and fees. If the student is withdrawn from a course or courses for disciplinary reasons, he/she is not entitled to a refund.

Change of Major
1. Students must follow the appropriate steps to change and/or declare a new major.
2. Complete a Change of Major form.
3. The form can be obtained from an Advising representative by stopping at a Student Services counter located at our various campuses/centers, or by printing the form from the College's website at bcc.edu/PDFFiles/Forms/ChangeOfMajorForm0610REV.pdf
4. Upon obtaining the form, it must be submitted to the Registration Office in Student Services for processing.

Student Appeals
College policy establishes the following student-related committees:

Academic Standards Committee
Forms to appeal academic dismissal are available in the Office of Academic Advisement at the Pemberton and Mt. Laurel campuses and the Willingboro and Mt. Holly Centers. See page 38 for deadlines.

College Motor Vehicle Committee
Adjudicates appeals against motor vehicle traffic violations issued on campus. Forms are available at the College Relations and Publications Office on the Pemberton Campus and Public Safety Offices on the Pemberton and Mt. Laurel campuses.

Student Grievance Committee
Reviews any item not covered by other committees. Appeals can be made through the Office of the Provost.
Services for Student Success

Academic Advising – ext. 1557
Educational Opportunity Fund (EOF) Program – ext. 1462
Student Support Services – ext. 1208
Student Support Counseling – ext. 1557/ext. 1582
Transfer Services – ext. 2737

Academic Advising (bcc.edu/advising)
The Office of Academic Advising is committed to providing up-to-date information on academic programs consistent with students’ degree and/or career objectives. Early academic planning is the key to ensuring students graduate within the expected timeline and successfully transition to the job market and/or to their selected four-year transfer institution. Academic advising is available through walk-in sessions, appointments and via the use of e-advising technology to serve you from the convenience of your home.

Academic advisors/counselors work with students regarding academic, career, transfer, personal and/or social matters. They are available for individual appointments and walk-in hours during the day and evening at the Pemberton and Mt. Laurel campuses and the Willingboro Center. Students are also encouraged to see a generalist in academic advising for selection of academic majors, placement testing information, general programmatic questions, and assistance with WebAdvisor, academic amnesty, administrative withdrawals, and student-instructor advocacy. For a list of generalists in Academic Advising, go to the Academic Advising website (above). In addition, members of the academic advising staff offer various group activities, including short-term workshops in assertiveness training, skills identification and transfer planning.

Assignment to Faculty Advisors
Generally, students in good academic standing may be assigned to a faculty advisor in their major. Students assigned to a faculty advisor are first-time, full-time, degree-seeking students. The goal in assigning students to a faculty advisor is to assist students in planning academic programs consistent with their degree and/or career objectives. The assignments are designed to provide each student with academic information and assistance with managing the college requirements. Faculty advisor assignments will normally remain unchanged until such time as students complete their educational program, change their vocational goal or withdraw from the college.

Educational Opportunity Fund (EOF) Program (bcc.edu/EOF)
The Educational Opportunity Fund (EOF) program was established in 1968 by the legislature of the state of New Jersey. The program offers a gateway to higher education for those students who are highly motivated but who are significantly burdened by economic disadvantages. The EOF program at BCC is dedicated to providing access to higher education for students who have the potential and demonstrated motivation to succeed in college but who have not been able to realize their potential because of their economic background. The program typically recruits applicants who are historically underrepresented in higher education and who are first-generation, first-time, full-time freshman. The program is comprehensive in its approach and ensures student success by providing financial assistance and special support services.

You are eligible for EOF funding if:
- You plan to enroll full-time and obtain a degree from BCC.
- You plan to transfer to a four-year college after obtaining your BCC degree.
- You have held legal residence in New Jersey for at least 12 months.
- You demonstrate the need for substantial financial assistance, which is determined after you submit the FAFSA application. To complete a FAFSA form go to: (federalfafsa.ed.gov).
- You have both the potential and motivation to succeed in college as determined by a personal interview with the EOF Director.

Student Support Services (bcc.edu/studentsupport)
In accordance with Section 504 of the Americans with Disabilities Act of 1973, the Student Support Services Office’s mission is to ensure all students with disabilities are provided access to educational and extracurricular activities while on college premises through support in the form of reasonable accommodations such as adaptive learning, counseling, note-takers, American Sign Language interpreters and the like. Documentation of disability (ies) and a Disability Release Form (bcc.edu/PDFFiles/SP/Disability_Release_Form.pdf) are needed prior to the start of each semester to ensure reasonable accommodations. Copies of the Dispute Resolution for Students with Disabilities are available from Dennis Haggerty, Title IX and Section 504 Coordinator, located in the Parker Building, Room 401 on the Pemberton Campus or by calling him at (609) 894-9311, Ext. 1399.

Student Support Counseling (bcc.edu/advising/counseling)
“You are not alone, talk to someone.” BCC recognizes that attending college paired up with life circumstances, can be stressful and at times overwhelming. Student Support Counseling is available to provide students with the support and referral services needed in order to become productive members of the college community. Counseling services are confidential and free of charge to currently enrolled students.

Transfer Center (bcc.edu/transfer)
BCC has multiple partnerships with in-state and out-of-state 4-year colleges and universities. Articulation and Guaranteed Admission agreements have been designed to help students transition to a baccalaureate degree with ease. Transferring to a 4-year college/university involves significant planning. Therefore, all students interested in transferring must begin the planning and application process immediately upon entering BCC. Call and sign up for a transfer information session or an individual appointment.
The Test Center
Burlington County College Test Center provides testing services to the college community. There are two Test Center locations, one on the Pemberton campus and the other on the Mt. Laurel campus. The Test Center administers and proctors exams to both BCC students as well as external testing customers.

The Pemberton Test Center is located in Parker Building Room 428 and the Mt. Laurel Test Center is located in the TEC Building Room 219. The College placement test is offered online on a walk-in basis at both campuses. Scheduled Assessments are also offered at the Willingboro Center, the Mt. Holly Center, McGuire AFB and Burlington County High Schools during Spring Ahead testing. See the test center website at staff.bcc.edu/testctr/ for more information.

Tutoring Program
Tutoring is available to currently enrolled BCC students. The program provides academic assistance to students who are experiencing difficulty in their courses, including distance education. The service is free and available at the Pemberton and Mt. Laurel campuses and Willingboro Center. All tutoring takes place in designated locations on college property. Appointments are scheduled at the mutual convenience of the student and tutor.

Anyone interested in becoming a tutor is welcome and encouraged to contact the Tutoring Office for an interview. All tutoring takes place in designated locations on college property. Appointments are scheduled at the mutual convenience of the student and tutor.

For further details contact the Tutoring Office, Pemberton Campus, (609) 894-9311, ext. 1495.

Career Planning and Services
The Career Services Center provides a full range of free resources and assistance to students and alumni of Burlington County College. Through Career Services Center, local employers post full-time, part-time and seasonal positions as well as internships. On campus student employment opportunities are also posted online. Additionally, the Center provides a career assessment to assist with identifying a career path and choosing a major.

To support the resources listed above, the Career Services Center conducts free workshops throughout the year on career exploration, resume and cover letter writing, cleaning up your online image and interview in preparation for future employment. Furthermore, an annual Dress for Success Show is held each Spring in which twenty BCC students receive a complete professional makeover and model their new looks in front of a live audience. Industry focused career fairs are also held throughout the year. All workshops are free and open to all students, alumni and community residents.

These free career services provide a variety of resources for BCC students and alumni. To view all of the free resources and services available, visit: bcc.edu/careers. For more information, email careerservices@bcc.edu.

Career Services Locations:
Pemberton Campus
Lewis Parker Center Rm. 132
(609) 894-9311 x1034

Mount Laurel Campus
TEC Bldg Rm. 101
(856) 222-9311 x2000

Employment While in College
Many students at Burlington County College work part-time or full-time while pursuing a degree. To aid in achieving a proper balance between work hours and academic load, the college recommends that:

1. The total number of work, class and study hours should be limited to about 60 hours a week, and
2. A student should spend at least two hours of outside study for each class hour.

On this basis, calculate as follows:

<table>
<thead>
<tr>
<th>Total Class Hours</th>
<th>Study Hours</th>
<th>Work Hours</th>
<th>Total Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>17</td>
<td>34</td>
<td>0</td>
<td>51</td>
</tr>
<tr>
<td>15</td>
<td>30</td>
<td>15</td>
<td>60</td>
</tr>
<tr>
<td>12</td>
<td>24</td>
<td>20</td>
<td>56</td>
</tr>
<tr>
<td>9</td>
<td>18</td>
<td>30</td>
<td>57</td>
</tr>
<tr>
<td>6</td>
<td>12</td>
<td>40</td>
<td>58</td>
</tr>
</tbody>
</table>

Students having questions about this should check with a college academic advisor/counselor.

Cooperative Education students or those receiving credit for employment should contact the co-op coordinator at (609) 894-9311, ext. 1280 for special work and class recommendations.

Service-Learning Scholars
The Service-Learning Scholars Program provides an opportunity for students to become leaders in campus and community engagement through a guided service-learning experience. Scholars commit to one full year in the program and participate in a minimum of 200 hours of service. The program is highly selective and successful Scholars are awarded a $1,000 scholarship. For details regarding the application process, interested students should contact servicelearning@bcc.edu.
Public Safety/Parking

The Burlington County College Public Safety Department is committed to enhancing the quality of life on campus by providing the highest level of professional security and safety services. This is accomplished by integrating the optimum combinations of state-of-the-art technology and personal service to the college community.

In accomplishing our mission we are guided by following values that serve as a foundation for every action we take: Service, Integrity, Respect, Professionalism, Accountability, Mentoring, and Appreciation.

Contact Information

Pemberton (609) 894-9311, ext. 1100
Mt. Laurel (856) 222-9311, ext. 2100
Willingboro (609) 877-4520, ext. 3100
Mt. Holly (609) 267-5618, ext. 4100

A Public Safety Officer is available at the Pemberton Campus at (609) 894-9311, ext. 1100 and the Mt. Laurel Campus at (856) 222-9311, ext. 3100, 24 hours a day to answer your call. At the Willingboro Center, (609) 894-9311, ext. 3100 and the Mt. Holly Center at (609) 894-9311, ext. 4100, Public Safety is only available during hours of operations. After hours, all incoming emergency calls will be routed from the centers to one of the campuses.

For life threatening emergencies call 911, then Public Safety:
• Explain the nature of the emergency
• Your name
• The building and campus from which you are calling
• Your exact location (room number)
• Answer all questions and do not hang up until the operator if finished

The Public Safety Department has access to all areas, buildings, classrooms, custodial closets, offices, etc. The parking lots, walkways, and outside patios are well illuminated, patrolled, and monitored by the Public Safety Department.

ID Cards
The student ID card is your official college identification and must be carried at all times while on the college premises. Students must obtain an ID card to use college services such as the Library, computer labs, Test Center, College Store, and PE Center. There will be a $20 replacement fee for each additional card required. ID cards are issued seven days per week from 8 am to 10 pm. Your ID card must be validated each semester by visiting the BCC Public Safety office nearest you providing a copy of your current class schedule.

Registration of Motor Vehicles
Faculty, staff and students must register their vehicles with BCC’s Public Safety Department. Vehicles can be registered at the Public Safety Office at each BCC campus. You must show your state registration and a valid photo driver’s license in order to receive your BCC vehicle registration. All privately owned vehicles driven by students will be parked only in student lots. Failure to comply will result in a citation.

Should a student, faculty or staff member need to temporarily park a vehicle on campus other than the vehicle registered with the BCC Public Safety Department, the individual must immediately report to the Public Safety Department. A temporary parking pass will be issued for the necessary duration of time. Failure to comply will result in a citation.

For students, failure to temporarily park a vehicle on campus properly will result in a citation. The individual must immediately report to the Public Safety Department. A temporary parking pass will be issued for the necessary duration of time. Failure to comply will result in a citation.

Users of the college parking lots will be issued two parking decals at no expense. There will be a $10 charge for additional decals. Decals may be obtained in the Public Safety Office at any BCC campus. Students must notify Public Safety when a vehicle should be deleted from the Public Safety records.

To obtain an ID card and parking permit, each student must be registered for classes, have paid all charges by the establish deadlines, and have a valid photo ID, driver’s license, or passport.

Parking is restricted to designated parking lots. Students must park only in designated spaces. Complete parking rules and regulations will be found in the Student Handbook.

Traffic and Parking Violations
Users of the college campus who fail to comply with parking and traffic regulations and parking regulations on college grounds are subject to the following fines:

1. Failure to register a motor vehicle .............$10
2. Parking violation
   First offense ..........................$10
   Second offense .........................$20
   Third offense ..........................$30
   Four or more offenses .................$40
   and/or towing and/or loss of parking privileges
3. Moving violation
   First offense ..........................$25
   Second offense .........................$40
   Third offense ..........................$75
4. Parking violation in posted
   disabled area without
   NJ disabled decal .....................$250
   and/or towing and/or loss of parking privileges
5. A service charge of $10 will be added to all violations.

PLEASE DO NOT PARK ON THE GRASS, IN FIRE ZONES OR IN THE ROADWAYS.

Failure to pay fines or appeal within the time limits will result in the freezing of student records. Students whose records are frozen may not register at any time in the future until their financial obligation is fulfilled. Fines may be paid by mail or in person at the Accounting Office.

BCC reserves the right to tow vehicles (at the owner's expense) for traffic violations.
Libraries

William K. McDaniel Integrated Learning Resource Center, Pemberton

The William K. McDaniel Integrated Learning Resource Center on the Pemberton campus is located in front of the Academic Center near the first entrance onto the campus from Route 530 after the Pemberton bypass (Pemberton Parkway).

The William K. McDaniel Integrated Learning Resource Center houses the main library, the Distance Education Office, the Tutoring Center, Writing and Math Labs, the Teleconference Center, the Grants Office, the Center for Social Justice, the Pinelands Collection, a Faculty Reading Room, student media viewing rooms, a computer lab for students with special needs, a wide variety of student study areas suited for many academic purposes, a presentation area and a student lounge.

The library, which is accessible to the community, provides free wireless internet access as well as public access computers which are fully equipped with Microsoft Word, Excel, Access, and PowerPoint programs and USB ports. Study rooms and carrels throughout the library, and the adjacent student lounge, offer many areas for students to study and collaborate on projects with others.

Specific study rooms are equipped with DVD/TV and VHS/TV combination viewing units.

Technology and Engineering Center (TEC) Library, Mt. Laurel

BCC's Mt. Laurel branch library is located in Room 111 on the first floor of the TEC building on the Mt. Laurel campus. It serves the information and research needs of BCC students, faculty and staff. The library supports all BCC programs, houses the paralegal collection and has full access to all BCC library online resources. Although smaller than the Pemberton library, the TEC Library maintains a substantial in-house collection to support BCC programs and classes. Materials from the main college library can be requested through the public access catalog and are generally delivered within two business days.

The TEC library is also accessible to the community and provides free wireless internet access as well as public access computers which are fully equipped with Microsoft Word, Excel, Access, and PowerPoint programs and USB ports. There are study carrels and small tables throughout the library. A single study room is available as are DVD/TV and VHS/TV combination viewing units.

Library Holdings

There are over 100,000 items, both print and non-print (media), in the circulating, reference, reserve and special collections, including many current textbooks. These holdings are listed in the library's online catalog. The majority of the library's physical holdings are housed at the Pemberton location. Additional resources, available from anywhere in the world, are provided via inter-library loan services.

Electronic databases, most featuring full-text documents, provide an ever-growing selection of scholarly and reference works and can be easily accessed on campus. Our electronic materials can also be utilized off-campus, via the internet, using your BCC library barcode and PIN. Online databases support academic programs such as psychology, nursing, education, and literature just to name a few.

The library maintains special collections on the college's history, the Pinelands and local history, the popular Lou Gaul cinema collection, the H. James Saxton Collection and the Professional Development area for teaching professionals, which includes books, DVDs and news journals for educators. Additionally, the Burlington County Center for Social Justice is located in the ILRC and includes select books and videos as well as a site for presentations on topical social issues.

Thanks to an innovative partnership with the Burlington County Library System, the BCC libraries act as the academic branch libraries for Burlington County residents and can provide certain library services not available elsewhere in the county, while at the same time working collaboratively to provide seamless borrowing privileges for most items between and among the county branch locations.

Materials borrowed from BCC libraries can be returned at other county branch locations and vice-versa. The Library's catalog is merged with the BLInC (Burlington Libraries Information Consortium) system, to give users potential access to over 1 million items.

Other items within the region, state, country or around the world can be requested via inter-library loan. If your research should lead you to a book, an article or a journal that BCC does not own, BCC can borrow them for you to use at BCC from almost any library in the world. This service is available at no cost to BCC students and effectively multiplies our holdings to meet your academic needs.

The library provides a few electronic resources, including online databases, which are utilized off-campus, via the internet, using your BCC library barcode and PIN. Online databases support academic programs such as psychology, nursing, education, and literature just to name a few.
Library Cards
Burlington County College library cards are issued to all BCC students taking credit courses at the college, all BCC faculty and all BCC staff members. BCC library cards provide access to a wealth of print, non-print, media and online resources. Your college ID serves as your BCC library card and you will find your library barcode on the back of your ID.

Your BCC library card not only entitles you to use on-campus facilities and resources, it also allows certain privileges to other Burlington County Library System resources and off-campus access to various electronic resources and databases. Because of this, we are required to positively verify your identity when issuing or renewing a library card. Library cards expire after three (3) years and must be renewed in person. Government issued photo identification must be shown at the time of renewal. All BCC library users must register their library card to have full access to all services.

Borrowers may easily renew materials online, by phone or in-person. Call ext. 1482 or visit the website at bcc.edu/library to renew your items.

Lending Periods and Fees
1. Materials in the general collection circulate for 28 days, with media circulating for one week.
2. An individual may borrow a maximum of five items on one subject, with a total of 35 items allowed to be borrowed at one time.
3. Borrowers are responsible for returning materials on or before the due date.
4. The library will attempt to send out notices advising the borrower of outstanding materials and/or outstanding charges. We will use the contact information in our system to send these notices. Borrowers are responsible for notifying the Library directly of any changes in contact information.
5. A fine of 15¢ per day, per item is charged on overdue materials, excluding media (DVDs, VHS tapes etc.) which are $1.00 per day, per item.
6. Incurring $10.00 or more in charges results in suspension of library privileges until the borrower’s account is paid to below the $10.00 threshold.
7. Fines due to any BCC library or any branch of the County library system may result in suspension of borrowing or library access privileges. Fines may be paid at either BCC Library or any branch of the County library system.
8. Failure to return any Library material results in a minimum charge of $50.00 per item or the actual replacement cost, whichever is higher, plus a processing fee. Replacement of the item is at the discretion of the Library.
9. Reserve items may not be removed from the Library and may only be used in the Library for one hour at a time. Any reserve item removed from the Library will immediately result in a substantial item replacement fee being applied to the borrower’s account.
10. Current textbooks are always considered reserved items.

Library Hours and Contact Information
A Library Information Specialist and a paraprofessional are available at each location whenever the library is open, and can be reached by telephone, e-mail, live chat or text message. Visit our website at bcc.edu/library, call (609) 894-9311, ext. 1482 or (856) 222-9311, ext. 2021 or email us at library@bcc.edu with your inquiries.

Hours
(except holidays and semester breaks):
Monday–Thursday 9 am – 8 pm
Friday 9 am – 5 pm
Saturday Noon – 5 pm
Sunday CLOSED

Library hours may vary. Before making a trip to campus, please visit us at bcc.edu/library or call us for specific library hours.
Military and Veteran Benefits

The Military Education and Veteran Services Department offers assistance to military affiliated students attending BCC (Military Active, Guard and Reserve), Veteran, and military dependents. While primary emphasis is placed on education, information and assistance is provided to students and community residents for veteran, military and military dependent educational benefits (state and federal). The office supports eligible veteran students through the Veteran Affairs work-study program and provides a supportive and understanding environment from their own experiences.

The office provides an “I’ve been there” attitude through the employment of student veterans under the VA work-study program. These student veterans assist new applicants in the initial process of enrolling in the college and applying for educational benefits, as well as performing veterans office duties. Student veterans are paid with funds provided by the VA work-study program. This program enables them to supplement their income while providing a valuable service to fellow veterans. The work-study veterans add an important personal touch to the services provided by the Military Education and Veteran Services Department.

To qualify for benefits, veterans must be enrolled in a degree-seeking program. Students entering BCC for the first time, who believe they are eligible for veterans’ educational assistance, should apply for benefits at the Military Education and Veteran Services Department located in the Student Services Center Parker 202 on the Pemberton Campus. The office has both day and evening hours to ensure access to all veteran students seeking information and assistance. Appointments are also available if needed.

Veterans must submit proper documenta- tion with their application. It may take from approximately six to ten weeks to receive the first payment following submission of the application package and certification of enrollment. The Military Education and Veteran Services Department serves as a focal point of contact for student veterans. The staff is sensitive to the needs of veterans and their families. BCC strives to assure each a successful academic experience.

**Academic Program at Fort Dix and McGuire AFB**

BCC offers courses at the Fort Dix and McGuire Air Force Base Education Centers, as well as on the Pemberton campus, which is only 10 minutes from either base. Any veteran needing information concerning eligibility for educational assistance is welcome to visit the office or call (609) 894-9311, ext. 1299.

**Change in Status**

It is essential that every person using Veteran Education benefits contact the Military Education and Veteran Services Department each semester to report their registration, and to make sure they have been certified for that semester. Veterans must also report any course changes during the semester, to keep their file updated and to avoid any unnecessary conflict in their pay status.

**Veteran Absenteeism**

Excessive absenteeism can result in benefits being decreased or terminated. The Military Education and Veteran Services Department is kept informed of attendance records and will take appropriate action to prevent overpayments by VA. Reported changes sent to VA are based on the student veteran's date of last attendance. According to VA, the date of last attendance is defined as one of the following:

1. Date officially withdrawn. A drop/add form must be submitted to the Registration Department.
2. Date that the veteran failed to demonstrate satisfactory progress, as defined by the institution’s Standards of Academic Progress.
3. Definite date of last attendance from instructor’s records.
4. For classes where attendance is not mandatory, the date is determined from the last activity date reflected in the instructor's records; either the last paper submitted or the last examination completed.

VA does not pay for non-punitive grades such as auditing of a course (AU), or for courses that will not fulfill criteria for graduation in the chosen major. If student veterans anticipate being absent from classes, they should notify their instructors and VA certifying official to discuss the situation with them, which may prevent an excessive absence report.

**Disabled Veterans – Chapter 31**

Any veteran with a disability rating from the Department of Veterans Affairs of 10% or more is entitled to apply for Vocational Rehabilitation. Voc Rehab provides payment of tuition, fees, books, and required supplies along with a monthly subsistence allowance. Those veterans who believe they are eligible for Chapter 31 benefits should contact the Military Education and Veteran Services Department, Student Services, Parker Center 202 on the Pemberton campus, for more information.

**Benefits for Members of the Selected Reserve – Chapter 1606**

Effective July 1, 1985, members of the selected reserve of the U.S. Armed Forces may be eligible for Chapter 1606 educational assistance. The Unit Commander will provide a “Notice of Basic Eligibility” (NOBE). Veterans must bring this NOBE in and fill out an application for GI Bill benefits online at gibill.va.gov. These will be submitted to the DVA with a certification of enrollment at BCC. Veterans are entitled to 36 months of training under Chapter 1606, and it must used within ten years of the date of eligibility on the NOBE.

**Dependents of Military Personnel and Veterans – Chapter 35**

Children and spouses of veterans who died or are permanently and totally disabled as the result of a service-connected disability are eligible for benefits under Chapter 35 of the Montgomery GI Bill.

Children must be between 18 and 26 years of age. Spouses must use the benefit within ten years of becoming eligible.
New Jersey Educational Benefits
Veterans Tuition Credit Program
New Jersey offers a stipend to certain veterans who are or were eligible for GI Bill benefits, who served on active duty between December 31, 1960 and May 7, 1975, and who were legal residents of New Jersey at the time of induction, the time of discharge, or for one year prior to application for this benefit.

National Guard Tuition-Free Program
Available to members of the New Jersey National Guard, use of this program requires the student to produce a Commanders Certificate each semester, and file for all available state and federal financial aid for each academic year by completing the Free Application for Federal Student Aid (FAFSA). The FAFSA application can be completed online at fafsa.ed.gov.

General Information
Information is available from the Military Education and Veteran Services Department or the Financial Aid Office, Student Services Center Parker 202 on the Pemberton Campus. The number is (609) 894-9311, ext. 1299.

Post 9/11 – Chapter 33
Eligibility is for individuals with at least 90 days of aggregate service on or after September 11, 2001 or individuals discharged with a service connected disability after 30 days. You must have received an honorable discharge to be eligible for the post-9/11. The post-9/11 will become effective for training on or after August 1, 2009. Qualifying active duty includes:

- full-time duty in the armed forces, other than active duty for training;
- a call order to active duty under Title 10.

For more information please contact the Military Education and Veteran Services Department at (609) 894-9311, ext. 1299, email vets@bcc.edu or visit bcc.edu/vets for the most current information.

VetCenter Outreach for Veteran Counseling
BCC recognizes the unique experiences of military personnel, and their family members and works with the Trenton Vet Center to conduct on-sight counseling for eligible veterans and their family members. The counselor may be reached through the BCC website (bcc.edu/vets) or contact the Military Education and Veteran Services Department for the next campus visit. Services are offered free of charge and are completely confidential.

In-County Tuition for Military, Veterans and their Eligible Dependents
Military members, veterans and their dependent family members are eligible to receive in-county tuition regardless of their residence. Members and dependents will be asked to substantiate their military affiliation and dependent status.

Spouses and domestic partners of active duty and activated Guard and Reserve members are eligible for a tuition scholarship. Spouses must follow the BCC process to receive benefits including mandatory completion of FAFSA and BCC Scholarship application as well as providing proof of eligibility, and comply with registration deadlines. Registration timelines are limited, and the most current information is available on the website: bcc.edu/vets.

The Student Veterans Club at BCC is a chapter of Student Veterans of America and SALUTE Veteran Honor Society (See Club for details)
Student Attendance Policy
General Attendance Requirement
Students are required to attend all class, clinical, laboratory, and studio sessions for the full duration of each such instructional session.

Faculty are required to take attendance, and grade penalties for absence will be imposed when a student exceeds a ten percent absence rate, not to exceed 10% of the final grade. However, class participation may be considered a separate grading component according to individual instructor’s syllabi. Additionally, students are responsible to be aware of and follow specific program requirements regarding attendance and participation.

Instructors will distribute their attendance and participation expectations at the beginning of the semester, and it is the student’s responsibility to understand and adhere to the expectations for each course. Faculty expectations for student attendance and participation are subject to review and approval by the appropriate division dean.

Students are responsible for communicating with instructors to make reasonable arrangements for the completion of course requirements not completed due to absence.

Appeal Procedure:
Appeals of grades affected by this policy may be made using the most current grade appeals process.

Special Note for Students Receiving Financial Aid and/or Veterans Aid:
Attendance will be reviewed by Financial Aid and Veterans Aid programs, and benefits will be contingent upon compliance with the program’s regulations.

Credit Unit and Loads
A credit hour, the unit of credit, is the equivalent of a subject pursued one 50-minute period a week for 15 weeks or 750 minutes of instruction. In general, for laboratory courses, 100 to 200 minutes per week for 15 weeks equals one credit hour. The 15th week of the semester will be exam week. Credits for clinical instruction vary with the program.

The normal academic load for students in the fall and spring semesters is 15-17 credits; the minimum full-time load is 12 credits and the maximum full-time load is 17 credits.

Students who would like to register for an overload – 18 or more credits, must have an overall GPA of a 3.0 or higher. Signed permission from a counselor/academic advisor is required on a schedule which contains an overload.

The normal academic load for students in summer terms is not to exceed a maximum of 10 credits per term.

Students who are receiving financial aid, veterans’ benefits, Social Security or other types of aids/grants must carry a 12-credit hour load during the fall or spring semester for full benefits.

International students who have been issued a student visa to attend the college must complete at least 12 credits in the fall and spring semesters. This is a requirement of the U.S. Immigration and Naturalization Service.

Students carrying a load of one to 11 credits are considered part-time students, during the fall or spring semester.

Student Classification (Applied to degree-seeking students only)
Earned Credit Hours Level
0–28 Freshman
29–64 Sophomore

Phi Theta Kappa
Phi Theta Kappa is the International Honor Society of the Two-year College. Each fall and spring semester, invitations to join Chi Iota, Burlington County College’s chapter, are sent to eligible students. Eligible students have completed at least 12 college-level credits at Burlington County College with a cumulative GPA of 3.5 or higher, and have received no grade of D, F, ST, or I and no more than one semester grade of X.

Participation in Assessment Activities
Burlington County College is committed to providing each student a quality college experience. In order that we continue to improve the quality of our programs and activities, it is necessary to assess our efforts in student learning, student satisfaction, student development and student involvement. Therefore, students will be requested to participate in college assessment activities.

Educational Technology Statement
Burlington County College advocates a technology enhanced teaching and learning environment. Advanced technological tools may be used in any course section to facilitate instruction. Many of our sections are web-enhanced, which means that some of your work will be submitted or completed online. Web enhancements may include on-line materials, grade books, testing and quizzes and assignment submission.

Many students enjoy the flexibility and convenience that these online enhancements have provided; however, if you have concerns about the technology involved, please speak to your instructor immediately.
Grading System

The following grades are used on the student’s permanent record (transcript) for all courses in which the student is enrolled after the initial registration and at the end of the schedule adjustment period (Drop/Add period): A, B+, B, C+, C, D, F, O, P, U, I, X, AU, W, AW, NA, SR and ST.

Grades remain on a student’s permanent record. They may only be changed by the course instructor following approval by the appropriate Division Dean. Extraordinary circumstances will be handled on a case by case basis.

Grades for Developmental Courses*

Developmental courses (those with numerical designations of less than 100) do not count toward graduation and are not computed into a student’s grade point average (GPA). Although no grade points are assigned, developmental courses count toward enrollment status (i.e. full-time, half-time, etc.). The symbols O, P, U, and SR are used only for developmental courses. I and X contracts may also be arranged with the instructor of the course.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Explanation</th>
<th>Grade Points Per Credit Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Mastery of essential elements and related concepts, plus demonstrated excellence or originality.</td>
<td>4</td>
</tr>
<tr>
<td>B+</td>
<td>Mastery of essential elements and related concepts, showing higher level understanding.</td>
<td>3.5</td>
</tr>
<tr>
<td>B</td>
<td>Mastery of essential elements and related concepts.</td>
<td>3</td>
</tr>
<tr>
<td>C+</td>
<td>Above average knowledge of essential elements and related concepts.</td>
<td>2.5</td>
</tr>
<tr>
<td>C</td>
<td>Acceptable knowledge of essential elements and related concepts.</td>
<td>2</td>
</tr>
<tr>
<td>D</td>
<td>Minimal knowledge of related concepts.</td>
<td>1</td>
</tr>
<tr>
<td>F</td>
<td>Unsatisfactory progress. This grade may also be assigned in cases of academic misconduct, such as cheating or plagiarism, and/or excessive absences.</td>
<td></td>
</tr>
<tr>
<td>O*</td>
<td>Outstanding: The student achieved mastery of the course content.</td>
<td></td>
</tr>
<tr>
<td>P*</td>
<td>Pass: The student met the objectives of the course and is eligible to register for the next course level.</td>
<td></td>
</tr>
<tr>
<td>U*</td>
<td>Unsatisfactory: The student demonstrated unsatisfactory work during the semester.</td>
<td></td>
</tr>
<tr>
<td>I</td>
<td>Temporarily Incomplete. At the discretion of the instructor, a grade of “I” may be assigned when the student cannot complete the requirements of the course during the semester. The grade of “I” is given only by mutual agreement between the faculty member and the student and requires completion of an “I” contract form. The student must complete all grade requirements satisfactorily within 30 calendar days of the onset of the following semester or term. If this condition is not met, the “I” will automatically become the grade assigned in the “I” contract form.</td>
<td></td>
</tr>
<tr>
<td>X</td>
<td>Extended Incomplete. The grade of “X” is awarded to allow the student additional time to master the content of the course. The grade of “X” is to be awarded only when the student shows that he/she is making satisfactory progress. This grade is given only upon mutual agreement between the faculty member and the student and requires completion of the “X” contract form. Students receiving a grade of “X” must register and pay to retake the course. If the course is not repeated, the “X” will become an “F”. Grades of “X” must be made up within the next 12 months that the student is enrolled at the college.</td>
<td></td>
</tr>
<tr>
<td>AU</td>
<td>A grade of audit is awarded to a student for a course that they registered for, but do not wish to accrue credit or grade points.</td>
<td></td>
</tr>
<tr>
<td>ST</td>
<td>Designation for students in college-level courses who stopped attending before sufficient evaluations were completed. ST may be assigned in lieu of “F” grade. Instructors will include last date of attendance.</td>
<td></td>
</tr>
<tr>
<td>SR</td>
<td>Designation for students in developmental courses who stopped attending before sufficient evaluations were completed. SR may be assigned in lieu of “U” grade. Instructors will include last date of attendance.</td>
<td></td>
</tr>
<tr>
<td>W</td>
<td>Denotes withdrawal from a course or courses. Any student who withdraws must complete a withdrawal form, stating the reason(s) for withdrawal, within the established semester/term withdraw deadlines. Students may withdraw up to the ninth week of classes in a semester or up to an equivalent time in a given semester or term. The Withdraw Form must be initiated by the student and submitted to the Registration Office in order for the withdrawal to be considered official. Students who fail to withdraw according to established procedures will receive a failing grade for all courses in which they are registered.</td>
<td></td>
</tr>
<tr>
<td>AW</td>
<td>Denotes an administrative withdrawal due to exceptional circumstances.</td>
<td></td>
</tr>
<tr>
<td>NA</td>
<td>Indicates that a student enrolled but never attended a course.</td>
<td></td>
</tr>
</tbody>
</table>

*Final grades for all BCC courses will be provided electronically at bcc.edu under the listing for WebAdvisor
**Semester Grades**
Grades are issued at the end of each semester/term. Final grades for all BCC courses will be provided electronically at bcc.edu under the listing for WebAdvisor.

**Grade Point Average**
To determine grade point average (GPA), multiply the number of grade points for each grade received by the number of credit hours (cr) for the course; then divide the total number of grade points by the total number of credit hours attempted. Grades in courses transferred from another institution are not included in computing grade point average. Example:

- HIS 103 3cr. with a grade “A” (4 points) = 12
- ENG 101 3cr. with a grade “B” (3 points) = 9
- BIO 101 4cr. with a grade “C” (2 points) = 8
- CIS 101 3cr. with a grade “C” (2 points) = 6
- Total points = 35
- Divide 35 grade points by 13 cr.
- 2.69 GPA

**Student Grade Appeals**
The Student Grade Appeal policy applies to all students enrolled in credit bearing courses, offered under any mode of delivery. The Student Grade Appeal policy is to offer students an avenue to discuss and resolve problems, in a timely manner that may arise with his/her educational progress. This document establishes a policy that defines a grade appeal process that provides due process as articulated in Procedure 217, for students in the event of a final grade dispute with a course professor.

Grade appeals governed under this policy must be formally initiated by a student in a timely manner that shall not exceed the conclusion of the next successive semester of the regular academic year or, in the case of a summer term appeal, the next successive Fall semester. Student grade appeals that do not conform to this deadline for appeal shall be considered untimely and without merit.

This policy requires a written request for a formal meeting with the course professor related to the grade dispute (Step 1), a review and recommendation by the divisional Dean (Step 2), and an appeal to the Provost who will convene the Grade Appeal Committee (Step 3) to review the records relevant to any dispute and make a recommendation to the President or designee, whose decision will be final.

**Recognition of Scholastic Achievement**
Students who are recommended by the faculty, are honored at the annual Academic Awards Ceremony.

**Dean's List**
The Dean's List is an official recognition by the college during the fall and spring semesters of outstanding academic achievement by students with a declared major.

A break in enrollment of two or more semesters/terms results in a restart of the dean's list calculation. The new calculation will be based on the most recent enrollment.

**Audit Policy**
A student may audit a course if they do not want credit for the course. The student record will indicate at the time of registration that no grade, grade points or credits attempted/completed will be awarded for an audited course. A student may declare audit status at the time of registration or within the first eight weeks of each semester or up to an equivalent time in a given term. An audited course may be dropped during the Drop/Add period. Fees for an audited course are based on the regular credit value of the course.

**Repeating a Course Conditions**
1. Any course may be taken three times. Permission to exceed this limit may be granted by the Provost.
2. The grade of each attempt is entered on the permanent record of the student. However, only the highest grade is computed into the cumulative grade point average (GPA).
3. The credit hours assigned to the course will be counted only once toward meeting graduation requirements regardless of the number of times the course is repeated.
Change of Program,
Degree Status or Records
Students who wish to make any changes to their academic record must file proper forms with the Registration Office. Such changes include changes in name, address, telephone number, or other items on the original application.

Degree
Students who wish to declare or change their major must complete a “Change of Degree Status” form and have the form approved by an academic advisor/counselor.

Declaring Courses Non-Applicable
This provides a means by which a student may have certain grades removed from the calculation of her/his grade point average (GPA) as a result of a change of her/his program of study.

When a student changes her/his program of study, it may be possible to have certain grades declared non-applicable. While any such courses and initial grades remain a permanent part of the student's academic record, their weight is removed from the cumulative grade point average (GPA) calculation. Credits earned in courses declared non-applicable are not considered as credits completed toward graduation.

The criteria used in determining non-applicability are as follows:
1. The student must have officially declared a new major or changed from non-degree to degree-seeking status.
2. The courses to be considered are not pertinent to the student’s new program of study and are not part of the general education requirements.
3. The student must have completed at least 12 credits of required courses (program or general education) in her/his new program of study with grades of “C” or better in each such course.

This policy may be applied for a student only one time. Contact the Advisement Office for procedural information.

Academic Amnesty
This policy allows a student to restart the calculation of her/his grade point average (GPA).

Requirement and Submission for Academic Amnesty
If a student has been away from BCC for three or more years, they may apply for Academic Amnesty by meeting with a counselor/advisor and completing the Academic Amnesty application. This application may be filed only one time. For further details please contact the Advisement Office at ext. 1557.

Calculation of GPA
1. All previous grades and credits will remain on the student’s permanent record but will be disregarded in the determination of the new GPA and the fulfillment of graduation requirements.
2. The student’s record will restart with a 0.00 GPA.
3. The transcript of the student will continue to reflect all of her/his old grades. However, the transcript will include a line indicating where the old record ends and the new record begins.

Satisfactory Academic Performance and Progress
This policy establishes the standards for academic performance and progress which must be met by all Burlington County College students.

Students receiving financial aid from federal and state sources must also comply with the provisions of “Special Conditions of Satisfactory Academic Performance and Progress for Financial Aid Recipients,” in order to maintain eligibility for financial aid.

Students using veteran education benefits who are placed on probation must be interviewed by a college academic advisor/counselor. A probationary student must consult with a college academic advisor/counselor prior to registering.

Definitions
For purposes of this policy the following terms are defined:

Student: An individual enrolled at Burlington County College in a degree-seeking program taking college-level or developmental courses.

Full-time Student: An individual enrolled for 12 or more credits during a semester.

Academic Probation
Any student whose GPA is less than 2.0 and/or who receives grades of F or U in 34% or more of all credits attempted will be considered to be on academic probation.

A student placed on academic probation will be notified of that action at the time grades are issued. Further, the student will be informed of the requirement to be interviewed by a college academic advisor/counselor. A probationary student must obtain approval of all course selections by consulting with a college academic advisor/counselor prior to registering.

Students using veteran education benefits who are placed on probation must be reported to Veteran’s Affairs and will be restricted from receiving benefits at another institution or from changing their program of study until their academic performance returns to satisfactory progress.

Please note that veteran education benefits restrict the number of times a course may be repeated.

Students who fail more than one course while using military education/tuition assistance benefits may be required to take two courses demonstrating satisfactory academic progress prior to eligibility for tuition assistance being restored.
Academic Dismissal

A student whose performance is unsatisfactory as evidenced by failure to meet the criteria stipulated for satisfactory academic performance will be placed on academic dismissal.

The criteria utilized in determining the decision to dismiss are as follows:

<table>
<thead>
<tr>
<th>Number of Credit Hours (All Course)</th>
<th>Student is Academically Dismissed for Failure to Achieve a Minimum G.P.A. of</th>
</tr>
</thead>
<tbody>
<tr>
<td>36</td>
<td>1.6</td>
</tr>
<tr>
<td>48</td>
<td>1.8</td>
</tr>
<tr>
<td>64</td>
<td>2.0</td>
</tr>
</tbody>
</table>

Students using veteran educational benefits on academic dismissal are not permitted to change schools or programs until they have achieved two semesters of successful academic progress.

Conditions of Dismissal

1. A student who has been dismissed may not enroll in any course which carries academic credit for a period of at least one calendar year from the date of dismissal.

2. A student who has been dismissed may not appeal for permission to re-enroll in credit course(s) until at least one semester or two terms transpire from the date of dismissal. Any exceptions must have the approval of the Provost or her/his designee.

3. Permission for a dismissed student to re-enroll in a credit course(s) is granted only by the Academic Standards Committee.

Deadlines for petitions are as follows:

- April 5: Summer I, II
- August 5: Fall Semester
- December 5: Spring Semester

If permission to re-enroll is granted by the Academic Standards Committee, the student must have written approval of a college academic advisor/counselor for course selection. See below for Petition to Re-Enroll for Academic Credit Course process.

Petition to Re-Enroll in Courses that Carry Academic Credit

Students who are academically dismissed due to poor academic performance, based on the College’s Satisfactory Academic Performance and Progress Policy, will need to sit out for an entire academic year. Toward the end of the year’s time, the student meets with an academic advisor and completes a Petition to Re-Enroll in Courses that Carry Academic Credit form. The form is found at the following link: bcc.edu/PDFFiles/Forms/PetitionToReEnroll0510.pdf

The form is reviewed by the Academic Standards Committee and the student would appear before the Committee. As a result of the Committee meeting with the student, a decision will be rendered regarding a student’s next step.

Note: During the dismissal period students are allowed to take courses that do not carry academic credit (i.e. developmental/remedial courses).
Graduation

All students who plan to graduate must apply for graduation. Graduation is not automatic. The Registrar’s Office recommends that a student submit a graduation application during the semester he/she will have earned the 48th credit. A graduation application must be on file during the student’s final semester. (The graduation application is accessible within the Student WebAdvisor main menu.)

Diplomas are ordered at the end of the fall, spring and summer semesters.

NOTE: A student cannot graduate until the requirements for “X” and “I” contracts are fulfilled.

Graduation Application Deadlines
Students should submit an application for graduation no later than the listed dates. No applications for graduation for a specific semester will be processed after the deadline.
Fall: November 1
Spring: March 1
Summer: June 1

Note: To participate in the May commencement ceremony students need to apply by the Spring deadline.

Catalog that Applies to a Student’s Graduation
A candidate for graduation will be evaluated based on the catalog that is most advantageous for the student. The status of the catalog and/or applicable courses must be active and the catalog year must be on or after the year in which the student matriculated.

Graduation with Honors
Graduation with Honors is official recognition by the College of outstanding academic achievement by a student during the entire period of her/his enrollment at the college.

Criteria
1. To be considered for Graduation with Honors, a student must have earned a minimum of 30 semester hours at Burlington County College.
2. Only courses that carry College credits will be used in computing grade point averages (GPA) for graduation.
3. Graduation with Honors is available only to individuals receiving Associate of Applied Science, Associate of Science, Associate of Arts, or Associate of Fine Arts degrees.
4. Requests for exceptions due to circumstances of an extraordinary nature may be submitted to the Provost.

Types of Honors
Cum Laude (Honors) – Required
Cumulative GPA: 3.50 – 3.74
Magna Cum Laude (High Honors) – Required Cumulative GPA: 3.75 – 3.89
Summa Cum Laude (Highest Honors) – Required Cumulative GPA: 3.90 & above.

Participation in Commencement Ceremony
Students who wish to participate in the annual May commencement ceremony must meet the following criteria:
1. Student has met all degree requirements for declared degree program by the current year’s fall or spring terms or is registered for the final courses necessary to meet degree requirements in the summer term of that same academic year.
2. Student has applied for graduation and is listed as IP (In Progress) or CP (Degree Complete) in the Graduation Application Status field of their Student Web Advisor.
3. Selected ‘Yes’ to participate in the annual commencement ceremony on the graduation application.
4. Has a cumulative GPA of 2.0 or higher.

Diplomas
Diplomas are mailed to the graduate’s address on file 10-12 weeks after degree conferral. Diplomas will not be released/mailed if the student owes money to the college.

Multiple Degrees
Students pursuing more than one degree from Burlington County College must meet the following criteria:
1. Satisfy the General Education Requirements for each degree,
2. Satisfy the program requirements for each major, and
3. Earn at least 15 additional credits for each additional degree.

Students pursuing multiple degrees should meet with a college academic advisor/counselor to prepare a program. This should be done prior to the completion of 32 credits.

Transcript of Final Grades
Grades are issued at the end of each semester/term. Final grades are accessible by logging into WebAdvisor and selecting the ‘Grades’ link located under the Academic Profile section.

Students may also use Academic Profile to request an official transcript showing degree completion. A review of the transcript information is recommended to ensure that the degree is posted prior to submitting the online transcript request.

Transfer of Academic Record (Transcript)
In accordance with the Family Educational Rights and Privacy Act of 1974, Burlington County College is not permitted to release a student’s academic record without the student’s written permission.

An official transcript bearing the college seal and the signature of the Registrar will be sent directly to another educational institution or employer upon receipt of a written or online WebAdvisor request from the student. Written requests should be submitted to the Registration Office. Allow at least one week for processing. Transcripts of students who owe money to the college will not be sent until the balance is paid.

To protect the security of student records, any transcript which will be handled by a student bears the notation “Issued to Student.” Most institutions will not accept as official a transcript bearing this notation.

Transcript Errors
Errors on transcripts regarding grades must be brought to the Registrar’s attention within one year of the occurrence of the error. No changes to the transcript will be made after one year. Under extraordinary circumstances, appeals can be made to the Provost.
The Convenient, Affordable Route to a Bachelor’s Degree

A primary mission of Burlington County College is to help prepare students to transfer to four-year colleges and universities. Toward this end, BCC has created a wide range of transfer opportunities, including GUARANTEED ADMISSIONS and ARTICULATION AGREEMENTS, with a considerable number of colleges and universities. These agreements are designed to help students plan for transfer during the time they are students at BCC and help ease the process of transfer after they graduate from BCC.

Transfer to Other Institutions

Students should be aware that BCC offers four different associate degree programs: the Associate of Arts (AA); the Associate of Science (AS); the Associate of Fine Arts (AFA); and the Associate of Applied Science (AAS). The AA and AS degrees are designed to provide the freshman and sophomore level courses for a baccalaureate program and therefore, are designated as Transfer Degree Programs at BCC. The AAS and the AFA programs are not designed for transfer. Students should be aware of this distinction so they do not experience disappointment if they seek to transfer to four-year schools.

The Transfer Center

Students planning to transfer to four-year schools are advised to speak with staff of the Transfer Center early in their academic program at BCC. The Transfer Center staff will assist students in developing an academic plan for graduation from BCC and transfer to four-year schools. In addition, students should consult the catalogs/ websites of the schools they are interested in to learn more about their academic programs and requirements. The BCC Transfer Center can provide information and resources to help students plan for the next step in their academic career. Students can also access information about many New Jersey four-year institutions through NJ Transfer at njtransfer.org.

Guaranteed Admissions Programs

Burlington County College’s Guaranteed Admissions Programs are an inexpensive way for students to complete their bachelor’s degrees by providing a seamless transfer of courses and credits from BCC to many four-year colleges and universities. Through this program, students are guaranteed admission to “partner schools” from BCC provided that all criteria associated with the Guaranteed Admission Program have been fulfilled.

Students who are interested in transferring into one of the Guaranteed Admissions partner schools should contact the Transfer Center during their first semester at BCC.

The steps for entering the Guaranteed Admissions Program (GAP) are as follows:

1. Students must sign and submit an Intent to Transfer form to the Transfer Center for the school they wish to transfer to before they have registered for their 30th credit at BCC.
2. Students must identify their intended major at the four-year school.
3. Students must meet with a Transfer Advisor either before, or soon after they submit the Intent to Transfer form, to receive an academic plan for graduation and transfer.

Intent to Transfer forms are available online through the BCC website (go to “FORMS”) as well as in the Transfer Center on the Mt. Laurel Campus.

Criteria for successful transfer through the Guaranteed Admission (GAP) Program are:

1. Students must take all their courses at BCC (please note that students who took courses at other institutions of higher education are not eligible for the GAP).
2. Students must follow an academic plan, created by the Transfer Center, for graduation from BCC and transfer to the four-year school.
3. Students should meet with a Transfer Advisor at least once a year.
4. Students must earn a grade point average established between BCC and their intended major.
5. Students must graduate from BCC with an Associate of Arts or Associate of Science degree.
6. Students must submit all required admissions application materials to the Transfer Center in advance of the application deadlines for the GAP partner school.
What are BCC's Partner Schools?
Please see bcc.edu/transfer for an updated list of majors and for more information about BCC's partner schools.

Guaranteed Admissions
American Public University – 10 majors
Arcadia University – 21 majors
Berkeley College – 5 majors
Centenary College – 11 majors
Central Michigan University – 3 majors
Delaware Valley College – 17 majors
Drexel University – 26 majors
Fairleigh Dickinson University – 7 majors
Georgian Court University – 13 majors
Holy Family University – 12 majors
Immaculata University – 17 majors
Montclair State University – 11 majors
Morgan State University – 27 majors
NJIT – 10 majors
New Jersey City University – 19 majors
Peirce College – 7 majors
Regis University – 8 majors
Rider University – 32 majors
Richard Stockton College – 53 majors
Rosemont College – 5 majors
Rutgers University – 3 majors
St. Joseph’s University – 10 majors
St. Peter’s College – 34 majors
Seton Hall University – 41 majors
Strayer University – 4 majors
Temple University – 118 majors
The College of New Jersey – 39 majors
Thomas Edison State College – 22 majors
Thomas Jefferson University – 6 majors
Wesley College – 21 majors
Wilmington University – 14 majors

Transfer Articulation Agreements
Cabrini College – Biotechnology
Dowling College – Most majors
Franklin University – Accounting; Business Administration; Information Technology
Rowan University – Accounting; Finance; Management; Marketing
Thomas University – Criminal Justice
University of the Arts – Communications; Graphic Design and Digital Media
University of Phoenix – Business Management
University of Wisconsin (Green Bay) – Nursing
Widener University – Engineering

Degree Completion Programs at BCC
After earning an associate degree, students can pursue a bachelor's degree at BCC with four onsite partners. Drexel University, Fairleigh Dickinson University, Rutgers University – School of Business Camden and Wilmington University each provide their same quality programs with their own faculty in BCC classrooms.

These partnerships allow BCC graduates to enroll in a high-quality baccalaureate program while remaining in Burlington County.

To learn more about a four-year degree program at BCC, visit the Transfer Center web page at bcc.edu/transfer, which has a link to each of the four universities and their specific BCC programs.

Students may also contact each onsite partner directly:

Drexel University

Transfer Tips
• Be certain you are enrolled in an academic program that is designed for transfer (A.A. and A.S. degree programs are designed for transfer, while most A.A.S. and A.F.A. programs are not).
• Meet with a Transfer Advisor early in your academic career at BCC to talk about your interests and transfer goals; learn how BCC can help you transfer; and build an academic plan for graduation from BCC and transfer to four-year schools.
• Attend the college/university visitation days and transfer fairs, sponsored by the Transfer Center, to meet with admissions representatives from four-year schools and get more information about those schools.
• Begin to identify schools that have the major(s) you are interested in. Students can visit the BCC transfer website to use college search engines to assist them in their research on four year college/universities.
• Arrange to visit the four-year schools you are interested in and meet with admissions representatives and faculty who can tell you more about their academic programs and requirements.
• Arrange follow-up meetings with Transfer Center staff regarding your transfer plans.
• Make sure you are aware of the application process and deadline dates for the schools you are considering for transfer.
• Study hard and set aside the appropriate amount of time for your academic work each semester so you can earn the best grades possible.

The CEEB college code for Burlington County College is 2180.
Student Activites, Government, Clubs & Organizations

Office of Student Activities
The Office of Student Activities is located on the Pemberton Campus in the Lewis M. Parker College Center. For information about clubs, organizations and Student Government you may call (609) 894-9311, ext. 1238. If you need information about athletics, intramurals, recreation activities or the use of the Physical Education facilities please call (609) 894-9311, ext. 1435.

Student Participation in College Governance
Students have opportunities to participate in the college decision-making process through the Student Government Association and Student Senate.

Student Government Association
Student Government is composed of a group of active students involved in representing the interests of the Associated Students of BCC on college governance committees and programs. Participation allows a student to work cooperatively with fellow students, faculty, staff and administration. The BCC Student Government is composed of the following branches: Executive Board, Programming Board and Student Senate.

Clubs and Organizations
In order for a club or organization to be officially recognized, students must follow the procedure for recognition developed by the Student Activities Office and the Student Government Association. Packets for recognition are available in the Office of Student Activities, room 126 in the Parker Center. Recognition allows funding for events and the use of a variety of college facilities. All clubs, in addition to adhering to the stated purpose of the group, are involved in campus service projects. Clubs bring to the college a variety of events including but not limited to speakers, films and entertainers. The following is a list of current clubs and organizations on campus. New groups are always being formed.

Ambassadors – A group of students selected based on GPA and recommendations, who serve the college through various functions. Some responsibilities include serving as campus tour guides, making high school visitations, assisting in marketing aspects of the college, and working at official BCC functions.

American Sign Language (ASL) Club – Open to all students who are interested in sign language.

Art Club – Open to all students to foster enjoyment and appreciation of the arts through trips, demonstrations, discussions, community service outreach, and other activities.

Bodies N’ Motion Dance Club – This is BCC’s own student dance club committed to a variety of dance genres. This group welcomes students who may have never danced before, to veterans of the art, and performs at various college and community events. Meetings and rehearsals are held in Pemberton and Mr. Holly.

Business Club – Open to all business majors, and those interested in business or related fields, such as marketing and communications.

Campus Crusade for Christ – Provides resources and dialogue with students interested in learning more about the Christian faith, helps students understand how the values and principles of the Christian faith can impact their everyday lives, and provides a supportive fellowship for Christians of all denominations.

Cheerleading Club - Cheering for the men’s and women’s basketball games, the Cheerleading Club takes the lead on spreading school spirit all over BCC.

Creative Writers Guild – Open to all students interested in writing prose, poetry, news, etc.

Criminal Justice Club – Criminal Justice majors share their career goals and pursue mutual interests in this club.

Dental Hygiene Club – Dental Hygiene majors and other interested students participate in out-of-class educational workshops and conferences related to their professional development.

Diagnostic Medical Sonography (DMS) Club – DMS majors and other interested students participate in activities to develop, promote, and uphold the skill and science of this growing profession.

Education Club – Sponsored by BCC and the Garden State Council of Boy Scouts of America, this co-curricular club/Explorer Post enables interested individuals to learn about career opportunities in the field of education.

Equestrian Club – The BCC Equestrian Club gives students the opportunity to educate themselves on basic horsemanship while meeting new people. The Equestrian Club accepts riders from beginner to advanced, and students have the opportunity to participate in team lessons, fundraisers, activities, and competitions.

Fashion Club – Lead by Fashion Design majors, the club is open to all interested students who are looking to explore the world of fashion trends and clothing design.

GLASS: Gay, Lesbian, and Straight Supporters – GLASS is open to all students and focuses on equality, celebrating diversity, and social issues. GLASS does keep members’ names and information confidential.

Graphic Designers’ Guild – Students interested in computer graphics and multimedia meet to share work. The goal of the club is to provide an opportunity for students to compile and critique work. Students work toward creating a portfolio.

Human Services Club – This club is designed for all students. Our mission is to help others to help themselves. We sponsor events throughout the year to enhance students’ interpersonal and professional development.

International Club – The International Club is an organization open to all BCC students who are interested in promoting international and intercultural activities. This group focuses on the multicultural/multilingual backgrounds of Burlington County College students.
Photography services and can help hone a student’s photography skills by providing photography or would like to learn more to students who have an appreciation for Photography Guild membership.

Grades of D, F, X, or I are eligible for calendar year, with a GPA of 3.5, and no students who complete 12 credits in one regional, and national activities. All and fellowship through various chapter, and provides a means for students to collectively analyze problems philosophical ideas and provides a means for students to collectively analyze problems facing societies of yesterday and today.

This honors organization recognizes and promotes scholarship, leadership, service, and fellowship through various chapter, regional, and national activities. All students who complete 12 credits in one calendar year, with a GPA of 3.5, and no grades of D, F, X, or I are eligible for membership.

This club is an organization open to all students who have an interest in theater. Activities such as speakers, trips, membership parties, and involvement in plays allow students an opportunity to explore different aspects of theater.

Lamplight Players Theater Club –
This club is a member of the MSU identifies and plans educational and social programs to meet the needs of minority students, provides a forum and mechanism to encourage the advancement of services for minority students, and assists the college at various functions.

Music Club – Membership is open to all students who have an interest in music. Whether you are a musician or a singer, this group offers performance opportunities on campus and enhances individual skills.

Paralegal Club – A club and gathering place for BCC’s Paralegal majors to explore professional development opportunities outside the classroom.

Philosophy Club – The Philosophy Club promotes awareness of important philosophical ideas and provides a means for students to collectively analyze problems facing societies of yesterday and today.

Phi Theta Kappa (Chi Iota Chapter) –
This honors organization recognizes and promotes scholarship, leadership, service, and fellowship through various chapter, regional, and national activities. All students who complete 12 credits in one calendar year, with a GPA of 3.5, and no grades of D, F, X, or I are eligible for membership.

Photography Guild – This club is geared to students who have an appreciation for photography or would like to learn more about it. This group participates in student activities events by providing photography services and can help hone a student’s photography skills.

Psychology Club – The Psychology Club is open to all students with an interest in the field of psychology. Members participate in the planning and facilitation of campus events, trips and service projects. The club is also involved in several co-sponsored activities with other student clubs.

Quidditch Club – Invites all fans of the Harry Potter series to try out for BCC’s own Quidditch team. The chance to catch the Golden Snitch is open to all ages.

Radiography – Students enrolled in the BCC Radiography program have the opportunity to pursue common interests.

Student Nurses Association – All nursing majors at BCC are members of the Student Nurses Association. The local chapter is affiliated with the New Jersey Student Nurses Association and the National Student Nurses Association.

Veterans Club – The Veterans Club provides camaraderie and support to military, veteran, and military-affiliated (children, spouses, etc.) students attending BCC. The club encourages networking and sharing to facilitate the best possible campus experience through a supportive and inclusive environment through resources, experience, and a “been there” mentorship support team. The Veterans Club supports its members and participates in community service projects, hosts information seminars and provides a voice to the Student Government on member issues. The club is a member of Student Veterans of America and SALUTÉ, the national veteran’s Honor Society.

Public Notices
Any student wishing to post public notices must have them approved by the Office of Student Activities. Notices may only be placed on official bulletin boards.

Classified Services
The college has a bulletin board in Parker Center on the first floor in the corridor leading to the bookstore which is dedicated to the posting of sale items by students.

Activity Period
In an effort to help students take full advantage of their college experience, the college has set aside times for students to participate in college activities and governance. There are no classes scheduled during activity periods. Many events and programs are offered during Tuesday and Thursday. Both activity periods are scheduled from 12:20–1:50 pm.

Student Areas on Campus
There are various areas on campus where students can congregate for social interaction.

Student Lounges
There are a number of lounge areas situated throughout college buildings. The largest is in the Pemberton Campus Parker Center, and includes a television for the enjoyment of our students. All activities in lounges must be requested through the Office of Student Activities. At the Mt. Laurel Campus, there is a student lounge on the first floor of the Science Building. This lounge also has a vending area. There are several student lounges and study lounges located in Laurel Hall at Mt. Laurel.

Cafeteria
The Pemberton Campus cafeteria is located in the lower level of the Parker Center. The Mt. Laurel Campus cafeteria is located on the first floor of the Technology and Engineering Center. The cafeteria is a main gathering place for students. It is a self-busing area and your cooperation is requested in keeping it clean.

Snack Bar Areas
These areas are located on both campuses. The snack bars are contracted through the cafeteria.
Athletics and Recreation

Intercollegiate Sports
The College belongs to the National Junior College Athletic Association (NJCAA), which has over 500 members across the United States. The NJCAA sponsors national championship events and selects All-American teams.

The NJCAA member colleges in New Jersey, Delaware, and eastern Pennsylvania make up Region XIX of the NJCAA. This organization holds post-season tournaments which are the stepping stones to the NJCAA national tournament and All-American honors for players.

Call the Athletic Office at (609) 894-9311, ext. 1493, for more information.

Participation on Athletic Teams
In order for students to participate in intercollegiate athletics in an NJCAA sport, they must:

1. Have a high school diploma or its equivalent. In the event a student is not a high school graduate or does not possess its equivalency, there are certain circumstances that may allow participation.
2. Be enrolled for 12 credits or more during the semester(s) the sport is in season and in addition be in attendance within 15 calendar days from the beginning of classes during each semester.
3. Have passed a physical examination.
4. Maintain an appropriate GPA as determined by the NJCAA and the college.
5. Show evidence of making satisfactory progress toward graduation as determined by the NJCAA and the college.
6. Not have been paid as a player or as a coach.

(There are several instances when a professional athlete or an individual who has been paid for services as a coach may be eligible.) If you have a question about eligibility related to this rule you should contact the athletic director for a case evaluation.

Caution: dropping a course may affect an athlete's eligibility to participate. Check with the athletic director before dropping any courses.

Notes:
- Transfer students from a two-year or four-year college/university may be immediately eligible for participation on an NJCAA sponsored team.
- There are many exceptions and variations to these regulations. See the athletic director if you have questions.

Athletic Teams sponsored by the College
Baseball (men)
Basketball (men)
Basketball (women)
Soccer (men)
Soccer (women)
Softball (women)
Golf (coed)

Athletic Facilities
On campus facilities include a gymnasium with seating for 1,500, a 25-yard, six-lane swimming pool, a soccer field, six tennis courts, a baseball diamond, a softball field, whirlpool and sauna. Intramural fields are laid out on the athletic field space to provide for optimum utilization of the field area.

The Wellness Center is very popular with students and consists of free-standing stacked weight units and aerobic equipment. The use of the Wellness Center is by membership. All students currently registered for classes are eligible for free membership in the Wellness Center. Membership applications can be completed at the attendants area in the Physical Education Center. When applying for membership, students must present their currently certified ID card.

The college training room located in the Physical Education Center is fully equipped and staffed to provide injury care, prevention and rehabilitation for athletes. An aerobic dance room is equipped with mats for aerobic dance activity, martial arts, etc. Locker rooms and showers for students, faculty and staff are available.

Intramurals and Recreation
Recreational activities are those that are informal in nature, while intramurals are more formally structured competitive activities. Burlington County College offers a variety of both.

Competition
Seasonal competition is offered on the intramural level in a variety of sports.

Activities
Intramural and recreational activities are usually scheduled for weekdays but some activities are held on weeknights and weekends. Not all activities are offered each year.

Information
Announcements about both intramural and recreational activities will be advertised on bulletin boards and on TV monitors throughout the college campus.

Eligibility
Any BCC student or employee is eligible to participate in intramural/recreation events, provided he/she has a validated ID card. Students who are members of an intercollegiate team may participate in that sport on the intramural level according to specific guidelines established by the athletic director.

Awards
Each member of the winning team in a sport and persons finishing in first place in individual activity tournaments will receive an intramural T-shirt.

Uniforms
In team competition, each member of a team should wear similar colored jerseys. All teams or individuals must provide their own apparel.

Waiver of Liability
All individuals participating in an organized recreation/intramural activity will be required to sign a waiver of liability form.

Accidents/Incidents
All accidents/incidents occurring in the Physical Education Center or as a result of participation in college sponsored events should be reported to the intramural/recreation person in charge of the activity, the athletic director and Public Safety personnel.
Special Programs and Courses

Community Enrichment
The Office of Community Enrichment non-credit courses are offered in addition to the college’s regular academic programs. They have no entrance requirements. Members of the community have the opportunity to upgrade present skills, pursue new ones or explore a hobby in these special courses. All age groups are represented in the credit-free courses. Students are registered on a first-come, first-served basis and fees are usually nominal.

Other programs under Community Enrichment are: the Retired and Senior Volunteer Program, the Learning Is For Everyone (LIFE), the Creations Art Gallery, the Pinelands Institute for Natural and Environmental Studies (P.I.N.E.S.), the Aquatic program and the Volunteer Center of Burlington County.

The Office of Community Enrichment concentrates on playing an active role in the planning of conferences and meetings at the BCC campus and also handles the rental of college facilities by community organizations.

A brochure listing non-credit courses and other Community Enrichment programs is published by the college three times a year. To obtain one, or for further information, contact the Office of Community Enrichment at (609) 894-9311.

Service Learning
Burlington County College offers students the opportunity to participate in Service Learning activities. Service Learning enhances the academic curriculum by extending learning experiences outside the classroom. It encourages students to develop a sense of civic responsibility and caring for others. Students will devote a specified number of hours to community service through the coordination of their classroom instructor. Interested students should check with their instructor or contact the Division of Liberal Arts at (609) 894-9311, ext. 1601.

Corporate College and Workforce Development
The Institute for Professional Development focuses on career-related training programs in:
- Management Certificates and courses
- IT Certificates and courses
- Leadership
- Allied Health
- Professional Licensing Preparation

Through the institute, the College offers more than 400 courses and customized training programs in many locations throughout the county such as:
- The Enterprise Center at BCC
- Pemberton Campus
- Willingboro Center
- Mount Holly Center
- Other locations

The Institute offers certificate programs designed to improve career skills in business as well as classes to assist small business owners. The college has partnered with Ed2Go and ACT Gatlin Education to provide a variety of distance learning courses for both the general public and business/industry customers.

A brochure listing Personal and Professional Development certificate programs and courses is produced by the College three times a year and posted online at bcc.edu.

Cooperative Education Work Experience
A student majoring in any field may apply for a cooperative education work experience related to his/her academic goals. A student will usually earn money for the work performed. Students already employed may also participate in this program.

Earning Co-op credit is based upon developing and achieving learning objectives based on new learning and/or increased proficiency. Students are assigned to a Cooperative Education Faculty Coordinator who oversees the development and achievement of the objectives and visits the students and their supervisor at the work location.

The cooperative education program at Burlington County College has a “rolling registration” which allows a 15-week co-op semester to begin at any time that a student is selected for a position or a currently employed student receives approval to earn co-op credit for his/her position.

The number of credits that a student earns during a 15-week co-op semester is determined by the number of work hours performed, as shown in the following chart:

<table>
<thead>
<tr>
<th>Credit Hours Per Week</th>
<th>Total Work Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>115–229</td>
</tr>
<tr>
<td>2</td>
<td>230–344</td>
</tr>
<tr>
<td>3</td>
<td>345–459</td>
</tr>
<tr>
<td>4 plus</td>
<td>460 plus</td>
</tr>
</tbody>
</table>

Co-op students may earn up to four credit hours per co-op semester and a maximum of 12 credit hours toward their degree requirements. Full-time or part-time students are eligible for part-time or full-time jobs depending on which best suits the student’s and employer’s schedule.

Students interested in obtaining a cooperative education position or who have a position which may qualify for co-op credit should contact the Employment Coordinator at (609) 894-9311, ext. 1280.

Air Force GEM (Global Education Mobile)
BCC is one of the original 50 colleges to support the Air Force GEM (Global Education Mobile) program and consistently offers at least one of the five core courses required for completing the CCAF degrees in an online format in conjunction with the seven week military terms offered on McGuire and Ft Dix.
Servicemembers Opportunity College (SOC)

Burlington County College has been designated as an institutional member of Servicemembers Opportunity Colleges (SOC), a group of over 400 colleges and universities providing voluntary postsecondary education to members of the military throughout the world. As an SOC member, Burlington County College recognizes the unique nature of the military lifestyle and has committed itself to easing the transfer of relevant course credits, providing flexible academic residency requirements and crediting learning from appropriate military training and experiences. SOC has been developed jointly by educational representatives of each of the Armed Services, the Office of the Secretary of Defense and a consortium of 13 leading national higher education associations. It is sponsored by the American Association of State Colleges and Universities (AASCU) and the American Association of Community Colleges (AACC).

Distance Education

Burlington County College has been actively involved with distance learning since 1978, providing classes for those who want or need an alternative to classroom based courses. Each semester classes are offered which span the disciplines from Art to Music and from Biology to Physical Science. Our online courses utilize a state-of-the-art course management systems to deliver dynamic college level instruction over the Internet.

Online courses typically include textbook readings, web-based resources, interaction with highly qualified faculty, interaction with fellow students, projects and exams. College faculty are available to answer questions and direct student learning. Distance Education courses are part of the curriculum, allowing students to learn whenever and wherever it’s convenient for them, while satisfying degree requirements. Students who are self-motivated and highly organized tend to be successful in Distance Education courses. For the latest and most up-to-date information on distance learning and current course offerings, please visit our website at staff.bcc.edu/distance/ or contact the Office of Distance Education by emailing dlearn@bcc.edu or by calling (609) 894-9311 or (856) 222-9311, ext. 1790

Developmental Education Courses

(Students whose native language is English)

Developmental education courses provide students with the skills needed to succeed in college. These courses are designed to serve several types of students, including the student:

1. who has been away from school for some time and needs to “brush up” in some area of study,
2. who did not complete a college preparatory program in high school,
3. whose placement assessment scores indicate the probability of future difficulty in successfully completing college-level courses,
4. whose SAT scores fall below 540 in Verbal/Critical Reading and/or 530 in Math.

The college offers a variety of developmental courses. These courses are not calculated as part of a student’s grade point average and do not count towards graduation. Students who place into developmental courses must see an academic advisor to register for courses. These students are permitted to enroll in college-level courses once the appropriate developmental courses have been successfully completed.

Students who take developmental courses in English, Reading, Mathematics or Algebra skills, may extend the time required to graduate.

English as a Second Language

(Students whose native language is not English)

Students whose native language is not English often need specialized instruction in English before attempting college-level courses. BCC offers a program in English as a Second Language for this purpose.

Participation in the program is open to all students, both full-time and part-time. Courses included in the ESL program are in Reading, Writing, Speech and Pronunciation, TOEFL, and English for Academic Purposes. Interested students can look for a complete list of courses on pages 175-176.

For information about ESL courses, contact the ESL office at (609) 894-9311 or (856) 222-9311, ext. 1599.

Study Abroad

Students may apply to study abroad through Burlington County College. Several world locations are available for academic semesters or summer offerings. Information about the application process and eligibility requirements is available at bcc.edu/study-abroad or by contacting the Study Abroad Coordinator.
SMOKING POLICY

Smoking Prohibited on College Premises

Policy 604 adopted by the BCC Board of Trustees March 11, 2014 (superseding the policy of April 18, 2007)

Introduction

1. Smoking on College property by any person at any time anywhere is strictly prohibited. College property includes all College vehicles as well as real estate owned by the College.

2. Burlington County College recognizes the health hazards associated with smoking. These health hazards can have serious implications both for the smoker and the non-smoker. Enactment of this policy will promote the health and welfare of all individuals on campus and enhance the comfort of non-smokers, particularly those with health conditions aggravated by exposure to smoking.

3. The effect of this Policy is to prohibit smoking not only in all buildings but also on all areas of College property. This means that smoking is prohibited on the grounds, playing fields, walkways, roadways, parking lots, in and around the perimeter of any building.

“Smoking” Defined

For purposes of this policy, “smoking” is defined as the burning of a lighted cigar, cigarette, pipe, or any other matter or substance that contains tobacco as well as the use of smokeless tobacco, snuff and electronic cigarettes or any product that simulates the act of smoking.

Legal Authority

This policy has been enacted in accordance with the provisions of Chapter 383, Public Laws of 2005, and codified in N.J.S.A 26:3D-55 et scq.

Sanctions Against Violators

Any employee who violates this policy shall be subject to appropriate disciplinary action. Any student who violates the policy shall be subject to disciplinary measures in accordance with the provisions of the Student Code of Conduct. Other individuals, including visitors to the College, who violate this policy, may be asked to leave the College property. All violators are also subject to sanctions provided by applicable laws and regulations.

Signage

Signs designating Burlington County College a smoke-free campus will be posted. Additionally, signs requesting individuals to extinguish their smoking materials prior to exiting vehicles will be placed in each parking lot. This policy will also be placed in the College Catalog, Student Handbook, and other selected publications.

CODE OF CONDUCT

A. Purpose

The purpose of this Code of Conduct is to protect Burlington County College, its academic and social community, and its property from harm resulting from acts of its students causing injury thereto, or threat of injury.

To this end, this Code defines prohibited conduct and provides for imposition of appropriate discipline upon those students whose acts are in violation of its standards of conduct, by means of hearing procedures affording both prompt disciplinary determinations and appropriate due process to the alleged violator.

Students at Burlington County College may be accountable to the civil authorities, as well as to the College, for acts which constitute violations of law as well as violations of this Code. In such event, College disciplinary actions will proceed notwithstanding the pendency of any criminal, drug or disorderly persons proceedings. Similarly, dismissal or acquittal of such concurrent legal proceedings will not necessarily result in dismissal of College disciplinary actions.

The College recognizes that its inherent powers and responsibilities to act so as to protect the safety and well-being of the campus community are broad, and that the potential range of student misconduct which could harm persons and property on campus is also broad. Accordingly, these regulations are to be interpreted broadly so as to effectuate to the fullest extent the protection of the Burlington County College community. These written regulations are intended to define prohibited offenses with precision so as to give students notice of the behavioral standards expected of them and of the consequences should violations to the Code occur. They are not meant to define misconduct in exhaustive terms.

B. Prohibited Conduct

The following acts when committed by students of Burlington County College shall be deemed misconduct subject to imposition of discipline under this Code. In addition to this Code, students will be held accountable to the policies on Civility on Campus, Racial/Ethnic Harassment, Sexual Harassment, Smoking on Campus, and Substance Abuse/Use on Campus.

Harassment, Anti-Discrimination, Equal Opportunity, Non-Retaliation, Whistleblower and Complaint and Reporting.

1. In compliance with the State of New Jersey’s “Anti-Bullying Bill of Rights Act”, the College will maintain zero-tolerance towards behavior involving harassment, intimidation, and/or bullying of any kind that is directed to students, members of the College community, and/or visitors. Harassment, intimidation and/or bullying includes but is not limited to any gesture, written, verbal or physical act, or any electronic communication that targets another individual and/or that is reasonably perceived as being motivated either by any actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression, or a mental, physical or sensory disability, or by any other distinguishing characteristic, that takes
Physical or Psychological Harm

2. Conduct of a sexual nature that creates an intimidating, hostile or offensive campus, educational or working environment for another person. This includes unwelcome sexual advances or requests for sexual favors, inappropriate sexual or gender-based activities, comments or gestures, or other forms of verbal or physical conduct or communications constituting sexual harassment.

3. Obscene or indecent behavior, which includes, but is not limited to, indecent exposure or the display of sexual behavior that would reasonably be offensive to others.

4. Causing physical or psychological harm to any person on College property or at College sponsored activities, or recklessly causing reasonable apprehension of such harm.

5. Commission on or off campus of any offense involving danger to the person, as specified in part 1 of sub-title 2 of the New Jersey Code of Criminal Justice, N.J.S.A. 2C:11-1 et seq., or in a comparable law of the jurisdiction in which said offense was committed if other than New Jersey. If said student has been named as a defendant in a criminal complaint and if said student’s presence on campus endangers his physical or emotional safety and well-being, or endangers the safety and well-being of other students, teachers, and members of the College community.

6. Unauthorized use, possession or storage of any weapon on College property or at College sponsored activities.

7. Initiating or causing to be initiated any false accusation, false report, defamation of character, warning or threat of fire, explosion or other emergency on College property or at College sponsored activities.

8. Interfering with normal College or College sponsored activities, including, but not limited to, studying, teaching, research, extracurricular activities, job placement activities, College administration, or fire, police or emergency services.

9. Violating the terms of any disciplinary sanction imposed in accordance with this code.

10. Unauthorized distribution, use, or possession of any substance constituting a “controlled dangerous substance” within the meaning of the New Jersey Controlled Dangerous Substance Act, N.J.S.A. 24:21-1 et seq., or any illegal drug, on College property or at College sponsored activities.

11. Misusing or damaging fire safety equipment and/or lab equipment.

12. Furnishing false information to the College.

13. Forgery, unauthorized alteration, or unauthorized use of any College document or instrument of identification.

14. All forms of academic dishonesty, including cheating, fabrication, and facilitating academic dishonesty and plagiarism.

15. Substantially interfering with the freedom of expression of others on College property or at College sponsored activities.

16. Theft of property or of services on College property or at College sponsored activities; knowing possession of stolen property on College premises or at College sponsored activities.

17. Destroying or damaging the property of others on College property or at College sponsored activities.

18. Failure to comply with the directions of College officials, including campus Public Safety officers, acting in performance of their duties.

19. Violation of College regulations or policies as published on the College’s website, Student Handbook, and/or College catalog, as approved and compiled by the Board of Trustees, President, or their designates. Such regulations or policies include, without limitation, regulations relating to entry and use of College facilities, sale or consumption of alcoholic beverages, use of vehicles and amplifying equipment, campus demonstrations, and misuse of identification cards.

20. Unauthorized presence in or use of College premises, facilities or property.

21. Unauthorized use or possession of fireworks on College premises.
C. College Policy on Student Violations of Law

On-campus misconduct constituting a criminal, drug or disorderly persons offense will be immediately reported to the appropriate authorities for their investigation. Where a student’s illegal act also is violative of this Code, proceedings will be instituted under this Code. Where the College itself is a victim of the illegal act, and where witnesses are available to present statements to investigators and to testify in court, the College will file a court complaint against the student.

The Office of Public Safety is responsible for investigating all student violations of law that occur on campus, and should be notified immediately upon detection of any such violation. As soon as practicable upon receipt of such notification, it shall advise the appropriate civil law enforcement authority of such violation and that an investigation is being made. It shall take whatever action may be necessary, legal and proper within the scope of its authority with respect to such violation, for the protection of persons and property on campus, and shall cooperate fully with the civil authorities in the apprehension of suspects, preservation of evidence, aid to victims, and all other aspects of the case. A complete factual report shall be prepared by the Office of Public Safety promptly after the occurrence of each such violation and a copy thereof sent to the Vice President of Student Success. Said report shall be prepared whether or not the violation is also investigated by a civil law enforcement authority.

D. Procedure When Misconduct Occurs

1. When misconduct occurs, any person observing it should immediately tell the Vice President of Student Success, who shall immediately speak to the alleged violator and to any persons harmed by the misconduct or witness to it. The Vice President of Student Success shall discuss the matter informally with the alleged violator, telling him/her what he/she is accused of doing and what the basis of the accusation is and giving the student an opportunity to explain his/her version of the facts if he/she wishes to do so. If after this informal discussion the Vice President of Student Success reasonably concludes that the alleged violator’s presence on the campus poses a continuing danger to a person or property or an ongoing threat of disrupting the academic process, the Vice President of Student Success may immediately remove such student from campus, with the aid of the Public Safety Office if necessary. After such removal, the student shall not be permitted to return to the campus until a final decision on his or her case is rendered, except to participate in the disciplinary proceedings. Following such removal, the Vice President of Student Success shall issue a complaint. If the misconduct occurs at an external campus, the site supervisor will assume the role of the Vice President of Student Success. As soon as practicable, the site supervisor will contact the Vice President of Student Success.

2. In all other cases, the Vice President of Student Success shall have the following options:
   a. If he/she reasonably concludes that the alleged misconduct did not constitute a violation of this Code or that the alleged violator did not commit misconduct, he/she shall advise such student that no further disciplinary proceedings will be taken in connection with the incident unless a written complaint is filed by a person other than the chief student development officer.
   b. If he/she reasonably concludes that the alleged misconduct probably constituted a violation of this Code and was probably committed by the student, he/she shall issue a complaint.

3. Any person having knowledge of a violation of this Code by a College student may file a written complaint with the Public Safety & Security Department. The chief student development officer in such case shall issue the complaint. If the Public Safety & Security Department has not discussed the matter informally with the alleged violator as provided in section f.1., he/she may do so, and thereafter may remove such student from campus as further provided in section f.1.

4. The Vice President of Student Success or Designee shall immediately notify the Department of Public Safety of occurrence of any misconduct constituting a student violation of law. (See Section C above).
E. Complaints: Pre-Hearing Procedures

1. Disciplinary proceedings under this Code shall be initiated by the filing and issuance of a complaint. An Official Complaint Form found on the BCC intranet under “forms” is required; it includes the following information:
   • Name of alleged violator;
   • Date, time and place of the alleged violation;
   • A factual description of the alleged violation, including persons or property harmed and the nature of the harm;
   • Names of all witnesses who will be called to testify against the alleged violator, and a summary of the facts to which each witness will testify; and
   • The provisions of this Code (section B) that were violated.

2. A complaint is filed when it is received by the office of the Vice President of Student Success. A complaint is issued when it is served upon the alleged violator. Any person having knowledge of a violation may file a complaint, or the Vice President of Student Success may file it on his/her own motion. Only the Vice President of Student Success may file it on his/her own motion. Only the Vice President of Student Success may file it on his/her own motion. Only the Vice President of Student Success or his/her designee may issue a complaint.

3. Upon issuance of a complaint, copies shall be submitted to the chairperson of the Code of Conduct Committee and to the President of the College.

4. The complaint shall be set down for hearing by the chairperson of the Code of Conduct Committee, who shall notify the alleged violator of the date, time and place of the hearing and shall include with said hearing notice a copy of this Code. The hearing date shall be within 10 working days of receipt by the Chairperson of the complaint. A request by the alleged violator for postponement or rescheduling of the hearing shall be made promptly to the chairperson, who may (but is not required to) honor it if good cause is shown.

F. Hearings

1. Disciplinary hearings by the Code of Conduct Committee shall be closed to the public. Only the following may attend: The alleged violator and his/her representative; the Vice President of Student Success and his/her representative; the complaining party (if other than the Vice President of Student Success) and his/her representative; and witness. Failure of the alleged violator to appear at the hearing, personally or by a representative, after proper notice shall not be cause to postpone or cancel the hearing which may proceed in such person’s absence.

2. The alleged violator may bring an advisor or counsel or other representative at his/her own expense. The alleged violator’s advisor or counsel shall not speak for the student. The advisor’s/counsel’s sole presence will be to advise/counsel the student.

3. The complaining party may bring an advisor or counsel or other representative at his/her own expense. The complaining party’s advisor or counsel shall not speak for the student. The advisor’s/counsel’s sole presence will be to advise/counsel the student.

4. The hearing shall be presided over by the chairperson. All members of said Committee may question witnesses. In the event the Chairperson is absent or is unable to act as chairperson for any reason, an acting chairperson shall be designated from the membership of said Committee by the Vice President of Student Success.

5. The alleged violator shall not be compelled to testify on his/her own behalf, but may do so upon his/her own request.

6. All testimony shall be given under oath.

7. The hearing shall be recorded and, in the event of an appeal, shall be transcribed.

8. All relevant evidence is admissible at the hearing, except as otherwise provided herein. Evidence deemed repetitious, unduly prejudicial, or likely to cause confusion, may be excluded. Evidence not within the personal knowledge of a witness, or not within that witness’s experience or training if such be material to the testimony, may be excluded. Rule of privilege recognized by law or by the New Jersey Rules of Evidence shall apply to the extent permitted by the context and similarity of circumstances. Hearsay evidence shall be admitted, and shall be given whatever weight the Committee deems appropriate considering its nature and reliability.

9. The complainant and alleged violator, may examine and cross-examine witnesses.

10. The complainant and alleged violator, may present a closing argument or statement to the Committee.

11. Immediately after the hearing, the Code of Conduct Committee shall meet, in private, to determine whether the alleged violator has committed the violation or violations as charged. Said decision shall be by majority vote. In the event of a tie vote, the complaint will be dismissed. In the event the Committee finds that the alleged violator has committed a violation, the Committee shall also determine an appropriate sanction by majority vote.

12. The Chairperson shall promptly announce the decision of the Committee. A written report of this decision, along with the stated disciplinary measures, if applicable, shall be forwarded to the President of the College and to the violator, for implementation.
G. Sanctions

One or more of the following disciplinary measures may be imposed upon students found to have violated this Code or any of the policies listed in section B (above).

1. Expulsion. Permanent dismissal from the College.
2. Suspension. Separation from the College for a specified period of time.
3. Disciplinary probation. Loss of participation in extracurricular activities, athletics, and/or holding of office in student organizations, for specified time period.
4. Restitution. The obligation to replace, or pay for property damaged, or to compensate for losses incurred, as a result of the violation.
5. Loss of privileges. Temporary revocation of such privileges as driving on campus, use of the cafeteria, library borrowing privileges, etc.
6. Warning to the student.
7. Performance of conciliatory act. If the student and the College are mutually agreeable and if circumstances of the violation and the student’s attitude so warrant, a disposition may be made that will avoid imposition of a sanction yet will require some conciliatory act of the student evidencing a positive attitude toward his/her conduct in the future.

Examples include:
   a. Behavioral counseling (at the student’s expense if obtained off campus);
   b. Involuntary withdrawal with opportunity to resume studies at a later time as long as a psychological, counseling and/or psychiatric report (at the student’s expense) states the student is stable to be on campus. Students are still held responsible for payment of tuition and fees after being involuntarily withdrawn from the college.
   c. Performance of some service for the College in mitigation of harm caused by the misconduct.

H. Range of Sanctions

1. Violations of sections B.1. through B.10. of this Code may result in expulsion, unless specific and significant mitigating factors are present. Factors to be considered in mitigation shall be the present demeanor and past disciplinary record of the alleged violator, as well as the nature of the violation and severity of any damage, injury or harm resulting from it.
2. Violations of sections B.11. through B.13. of this Code may result in suspension, unless specific and significant mitigating factors as specified in section e.1 are present.
3. Repeated or aggravated violations of any section of this Code may also result in expulsion or suspension or in the imposition of such lesser sanctions as may be appropriate.
4. Attempts to commit acts prohibited by this Code may result in imposition of the same discipline as for actual misconduct.
5. The sanction imposed in a particular case should be appropriate and just depending on the facts of that case. The burden of establishing facts in mitigation of expulsion or suspension will be upon the alleged violator.

I. Appeals

1. Any student found to be in violation of this Code under the foregoing procedures may appeal the decision of the Code of Conduct Committee directly to the President of the College. An appeal shall stay implementation of sanctions, but shall not permit a student removed from campus to return.
2. The notice of appeal must be received at the office of the President of the College within five College working days of the date of the Committee’s decision. No particular form of notice is required.
3. A copy of the notice of appeal must be filed with the Chairperson of the Code of Conduct Committee.
4. After a notice of appeal has been filed, a transcript of the hearing shall be prepared as soon as practicable and shall be forwarded to the President of the College and the appellant or his representative.
5. The President of the College or Designee, within ten College working days of receiving the notice of appeal, shall either affirm, reverse, or modify the decision of the Code of Conduct Committee. The President’s or Designee’s written decision shall be forwarded to the student or his/her representative, to the chief student development officer, to the complainant and to the Chairperson of the Code of Conduct Committee. The President’s or Designee’s written decision shall include his/her reasons for arriving at said decision. Said decision shall be final.
ASSOCIATE DEGREE PROGRAMS

Associate of Arts (A.A.)
The Associate of Arts is a transfer degree designed to complete the first half of a baccalaureate or four-year liberal arts degree program. Traditionally, the purpose of this degree has been to give students a broad, highly academic background in the fine arts, humanities, and social sciences.

Programs of Study Leading to the A.A. Degree
Art (AA.ART)
Communication Arts (AA.COM)
Education (AA.EDU)
English (AA.ENG)
Fashion Studies (AA.FAS)
History (AA.HIS)
International Studies (AA.IGS)
Journalism (AA.JOU)
Liberal Arts (AA.LIB)
Philosophy (AA.PHI)
Political Science (AA.POL)
Psychology (AA.PSY)
Sociology (AA.SOC)
Theatre (AA.THR)

Associate of Fine Arts (A.F.A.)
The Associate of Fine Arts is a transfer degree designed to complete the first half of a baccalaureate or four-year liberal arts degree program. Traditionally, the purpose of this degree has been to give students a broad, highly academic background in the fine arts, humanities, and social sciences.

Programs of study leading to the A.F.A. degree
Art (AFA.ART)
Photography (AFA.PHO)

Associate of Science (A.S.)
This degree offers students a program emphasizing course work in mathematics, science, business and the social sciences. The Associate of Science is also a transfer degree, designed to complete the first half of the requirements for a baccalaureate.

Programs of Study Leading to the A.S. Degree
Accounting (AS.ACC)
American Sign Language/Deaf Studies (AS.ASL/DEA)
Biology (AS.BIO)
Biotechnology (AS.BIT)
Business Administration (AS.BUS)
Chemical Engineering (AS.CGR)
Chemistry (AS.CHE)
Chemistry-Pre-Medical Technology (AS.CPM)
Computer Information Systems (AS.INF)
Computer Science (AS.CSE)
Construction Management (AS.CON)
Criminal Justice (AS.CRJ)
Culinary Arts (AS.CUL)
Education (AS.EDU)
Engineering (AS.EGR)
Environmental Science (AS.ENV)
Fashion Product Merchandising (AS.FPM)
Hospitality & Tourism Management (AS.HOS)
Liberal Arts and Sciences (AS.LSC)
Mathematics (AS.MTH)
Music (AS.MUS)
Physics (AS.PHY)
Sustainable Energy Studies (AS.SES)
Sustainability – Policy and Management (AS.SPM)
Associate of Applied Science (A.A.S.)
This degree differs from the Associate of Arts and Science degrees previously outlined. The Associate of Applied Science is not generally intended as a transfer program. It is a degree available to students who expect to enter a career field upon graduation. Students who may later wish to continue studies leading to a baccalaureate degree are advised that, as a general policy, only the general education credits will be useful for transfer. Exceptions to this policy may be made by colleges and universities whose curricula in specific study areas are very nearly identical to those of Burlington County College.

Programs of Study Leading to the A.A.S. Degree
Accounting Technology (AAS.ACC)
Agriculture Business (AAS.AGB)
Alternative Energy Technologies (AAS.ALT)
American Sign Language/Interpreter Education (AAS.ASL/IE)
Biotechnology (AAS.BIT)
Business Management Technology (AAS.BMT)
Casino & Resort Management (AAS.CRM)
Computer-Aided Drafting & Design Technology (AAS.CAD)
Computer Servicing & Networking Technology Option (AAS.PCN)
Culinary Arts (AAS.CUL)
Dental Hygiene (AAS.DHY)
Diagnostic Medical Sonography (AAS.DMS)
Electronics Engineering Technology (AAS.EET)
Energy Management (AAS.NRG)
Entertainment Technologies
  Sound & Recording Engineering (AAS.ETS)
  Video & Digital Media Production (AAS.ETV)
Fashion Design (AAS.FAD)
Fire Science Technology (AAS.FSC)
Food Service Management Technology (AAS.FSM)
Geospatial Technology (AAS.GIS)
Graphic Design & Digital Media (AAS.GDD)
Health Information Technology (AAS.HIT)
Health Sciences (AAS.HSC)
Hearing Instrument Sciences (AAS.HRS)
Human Services (AAS.HUS)
Nursing (AAS.NUR)
Paralegal (AAS.LEX)
Pastry Arts (AAS.PAS)
Radiography (AAS.RAD)
Respiratory Therapy (AAS.RST)
Retail Management Technology (AAS.RMT)
Technical Studies (AAS.TES)

Academic Certificate Programs
Some career areas require less than two years of postsecondary education for entry into the field. At Burlington County College, these programs are generally one year in duration and include courses specifically related to career requirements as well as general education courses designed to assist students to better understand the world in which they live and work.

Certificates
Accounting (CRT.ACC)
*Alternative Energy Technologies (CRT.ALT)
*Building Energy Management (CRT.BEM)
Diagnostic Medical Sonography (CRT.DMS)
Geospatial Technology (CRT.GIS)
*Liberal Arts and Sciences (CRT.LSC)
Photography (CRT.PHO)
Small Business (CRT.BUS)

Career Certificates
The following Career Certificates encompass courses specifically related to employment requirements. In some cases, general education coursework may also be required.
*Addictions Counseling (SPC.HSA)
Business Paraprofessional (SPC.BPC)
Business Technology (SPC.BTC)
*Cancer Registry Management Certificate (SPC.MCR)
Coding Certificate (SPC.ACO)
*Computed Tomography Certificate (SPC.CTC)
Computer Networking Support and Servicing Certificate (SPC.EET)
Cooking and Baking (SPC.FCB)
Disaster Preparedness (SPC.DPC)
Elder-Adult Companion Care (SPC.EAC)
Electronic Health Record (SPC.EHR)
Family Helper (SPC.FHC)
Fire Investigation (SPC.FSI)
Fire Science (SPC.FSC)
Food Service & Hospitality Management (SPC.FSM)
*Human Services (SPC.HUS)
Social Services – Department of Human Services (SPC.HSS)
*Specification Technology for Fashion Design (SPC.CTF)
*Technical Fashion Design (SPC.TFD)

*These certificates are NOT eligible for Financial Aid.
Burlington County College offers four degrees: the Associate of Arts, Fine Arts, Associate of Science, and the Associate of Applied Science. In addition, the college offers a variety of one-year certificate programs, certain special programs, non-credit programs, and workshops for the college and the community.

Advisory Statement
All degree-seeking students must show an ability to benefit from college-level courses. Proficiency is demonstrated either by receiving appropriate scores on the College Assessment or by completion of coursework in the areas where the student did not receive appropriate assessment scores.

All degree-seeking students must demonstrate proficiency in reading, writing, and mathematics. Students who successfully achieve a passing grade on the College Assessment or are exempt should register for ENG 101 during their first semester. Students enrolled in a developmental writing course must follow the appropriate sequence of courses leading to ENG 101.

Students who have not completed ENG 101 at the point of having attempted 15 college-level credit hours (100 or higher), should enroll in ENG 101 concurrently with their other coursework.

If the selected program requires a second written communication course and students have not completed this course at the point of having attempted 32 college-level credit hours, they should enroll in the appropriate English course concurrently with their other coursework.

Students who successfully achieve a passing grade on the algebra portion of the College Assessment or are exempt should refer to the catalog page describing their program of study. Generally, AS and AAS Degree programs require or recommend specific mathematics courses to fulfill the general education mathematics requirement. Students may enroll in MTH 107 or a higher mathematics course if a specific mathematics course is not required.

Degree Requirements
To receive an associate degree (A.A., A.F.A., A.S., or A.A.S.) students must:

1. apply and be admitted to the program in which they seek a degree.
2. complete the General Education Requirements for the degree sought.
3. fulfill all the course and credit hour requirements with a cumulative 2.0 GPA for their particular curriculum as outlined in the Academic Programs section of the catalog.
4. complete at least 25% of the credits required in attendance at Burlington County College.
5. fulfill all financial obligations to the college.
6. apply for graduation. Applications are available online through WebAdvisor and at the Mt. Laurel Campus, the Willingboro Center and the Registration Office on the Pemberton Campus. All applications must be accompanied by a graduation fee. See page 39 for deadline dates.

General Education Philosophy
Burlington County College is committed to providing educational opportunities shaped by the traditions of higher education and the demands of the contemporary world. The General Education program provides a foundation in the knowledge and skills needed to develop a life of personal fulfillment and contribution to society.

Students enrolled in the General Education requirements will be able to:
- Communicate effectively in both speech and writing.
- Use appropriate mathematical and statistical concepts and operations to interpret data and to solve problems.
- Use the scientific method of inquiry, through the acquisition of scientific knowledge.
- Use social science theories and concepts to analyze human behavior and social political institutions and to act as responsible citizens.
- Use computer systems or other appropriate forms of technology to achieve educational and personal goals.
- Analyze works in the fields of art, music or theater; literature; and philosophy and/or religious studies; and will gain competence in the use of a foreign language.
- Understand historical events and movements in World, Western, non-Western or American societies and assess their subsequent significance.
- Understand the importance of a global perspective and culturally diverse people.
- Understand ethical issues and situations.

The General Education requirements are grouped into major categories (Communication, Mathematics, Science, Social Science, Technology, Humanities, History, Diversity, Ethical Reasoning and Action) and by degree (A.A., A.F.A., A.S., or A.A.S.)

Students have considerable flexibility in selecting courses in most of the categories. However, there are some categories where the options are limited. These courses are called the core curriculum. It is the philosophy of the College that all students graduate with knowledge, skills, and abilities in a core of courses regardless of major. These core course requirements are identified on pages 55-59.

NOTE: Specific General Education Requirement courses are required and suggested for each program. See each program page for specific requirements and suggested coursework.
General Education Requirements

Associate of Arts (A.A.) Degrees

1. Written and Oral Communications – 9 credits
   ENG 101 College Composition I
   ENG 102 College Composition II
   *SPE 102 Public Speaking

2. Mathematics – 3 credits
   MTH 107 Introduction to Statistics
   OR higher math course

3. Natural Science – 7 or 8 credits
   Group A – 4 credits chosen from:
   BIO 103 & 104 General Biology I and lab
   BIO 107 & 108 General Biology II and lab
   BIO 110 & 111 Fundamentals of Anatomy and Physiology I and lab
   BIO 114 & 115 Fundamentals of Anatomy and Physiology II and lab
   BIO 120 & 121 Basic Biology and Human Affairs and lab
   BIO 130 & 131 Environmental Science and lab
   BIO 155 & 156 Basic Microbiology and lab
   CHE 107 & 108 Chemistry and lab
   CHE 115 & 116 General Chemistry I and lab
   PHY 110 & 111 Principles of Physics I and lab
   PHY 120 & 121 Introduction to Astronomy and lab
   PHY 210 & 211 General Physics I and lab
   PSC 105 & 106 Physical Science I and lab
   CHE 114 & 115 General Chemistry and lab
   PHY 110 & 111 Principles of Physics I and lab
   PSC 105 & 106 Physical Science I and lab
   Group B – 3 or 4 additional credits chosen from Group A (above) or any 101 or higher course from BIO, CHE, PHY or PSC

4. Technology – 3 credits
   CIS 101 Introduction to Computers
   CIS 161 Computer Applications

5. Social Science – 6 credits
   Take 6 credits from different disciplines from the following:
   ANT 102 Introduction to Cultural Anthropology
   ECO 203 Principles of Microeconomics
   ECO 204 Principles of Macroeconomics
   GEO 102 Principles of Geography
   POL 101 American National Government & Politics
   POL 103 Comparative Government and Politics
   POL 220 Political Philosophy
   POL 250 International Politics
   *PSY 101 Introduction to Psychology
   PSY 251 Child and Adolescent Psychology
   PSY 256 Developmental Psychology
   *SOC 101 Principles of Sociology
   *SOC 160 Society, Ethics & Technology
   *PSY 101 Introduction to Psychology
   PSY 251 Child and Adolescent Psychology
   PSY 256 Developmental Psychology
   *SOC 101 Principles of Sociology
   *SOC 160 Society, Ethics & Technology

6. Arts and Humanities – 9 credits
   Group A – 3 credits chosen from:
   ART 101 Introduction to Art
   MUS 101 Introduction to Music
   *PHI 101 Introduction to Philosophy
   THR 101 Introduction to Theatre
   Group B – 6 additional credits chosen from Group A (above) or:
   ART 250 Art History I
   ART 251 Art History II
   ARA 101 Elementary Arabic I
   ARA 102 Elementary Arabic II
   ASL 101 Elementary American Sign Language I
   ASL 102 Elementary American Sign Language II
   ASL 201 Intermediate American Sign Language I
   ASL 202 Intermediate American Sign Language II
   ASL 203 Advanced American Sign Language I
   CHI 101 Elementary Chinese I
   FRE 101 Elementary French I
   FRE 102 Elementary French II
   FRE 201 Intermediate French I
   GER 101 Elementary German I
   GER 102 Elementary German II
   HIS 101 United States History I
   HIS 102 United States History II
   HIS 103 Ancient and Medieval Foundations of Western Civilization
   HIS 104 Modern European History
   HIS 230 Islamic Civilization
   HIS 266 African-American History I
   HIS 267 African-American History II
   ITA 101 Elementary Italian I
   ITA 102 Elementary Italian II
   LIT 206 Women's Literature
   LIT 207 British Literature I
   LIT 208 British Literature II
   LIT 209 American Literature I
   LIT 210 American Literature II
   LIT 218 Literature and Film
   LIT 220 Shakespeare
   PHI 105 Introduction to Logic
   PHI 112 Eastern Philosophy
   *PHI 205 Ethics
   REL 205 Comparative Religion
   SPA 101 Elementary Spanish I
   SPA 102 Elementary Spanish II
   SPA 201 Intermediate Spanish I
   SPA 206 History and Culture of Spanish Speaking Peoples of Latin America

General Education Requirements

Associate of Applied Science (A.A.S.)
and Associate of Fine Arts (A.F.A.) Degrees

1. Written and Oral Communications – 6 credits
   ENG 101  College Composition I
   ENG 102  College Composition II
   *SPE 102  Public Speaking

2. Mathematics – 3 credits
   See appropriate program page in catalog for recommended course.

3. Natural Science – 4 credits
   Four credits chosen from:
   BIO 103 & 104  General Biology I
   BIO 110 & 111  Fundamentals of Anatomy & Physiology I
   BIO 120 & 121  Basic Biology and Human Affairs
   BIO 130 & 131  Environmental Science
   BIO 155 & 156  Basic Microbiology
   CHE 107 & 108  Chemistry
   CHE 115 & 116  General Chemistry I
   PHY 110 & 111  Principles of Physics I
   PHY 120 & 121  Introduction to Astronomy
   PHY 210 & 211  General Physics I
   PSC 105 & 106  Physical Science I
   PSC 107  Physical Science II

4. Social Science – 3 credits
   Three credits chosen from:
   ANT 102  Introduction to Cultural Anthropology
   ECO 203  Principles of Microeconomics
   GEO 102  Principles of Geography
   POL 101  American National Government & Politics
   *PSY 101  Introduction to Psychology
   *SOC 101  Principles of Sociology
   *SOC 160  Society, Ethics & Technology

5. Arts and Humanities – 3 credits
   Three credits chosen from:
   ART 101  Introduction to Art
   MUS 101  Introduction to Music
   *PHI 101  Introduction to Philosophy
   THR 101  Introduction to Theater

6. Additional General Education Requirements – 3 credits
   See appropriate program page in catalog for required and/or recommended course.

*This course meets the ethical reasoning and action goal.
General Education Requirements

Associate of Applied Science (A.A.S.) Degrees for Allied Health Programs

1. Written Communications – 6 credits
   See appropriate program page in catalog for required course.
   ENG 101 College Composition I
   ENG 102 or *SPE 102 College Composition II
   or Public Speaking

2. Mathematics – 3 credits
   See appropriate program page in catalog for required course.

3. Natural Science – 4 credits
   See appropriate program page in catalog for required course.
   BIO 103 & 104 General Biology I
   BIO 110 & 111 Fundamentals of Anatomy and Physiology
   CHE 115 & 116 General Chemistry I
   PHY 110 & 111 Principles of Physics I
   PHY 210 & 211 General Physics I

4. Social Science – 3 credits
   See appropriate program page in catalog for recommended course.
   ANT 102 Introduction to Cultural Anthropology
   ECO 203 Principles of Microeconomics
   GEO 102 Principles of Geography
   POL 101 American National Government & Politics
   *PSY 101 Introduction to Psychology
   *SOC 101 Principles of Sociology

5. Additional General Education Requirement – 6 credits
   These 6 credits are determined by each specific allied health program. Please see appropriate program page in catalog for required courses.

*This course meets the ethical reasoning and action goal.
**Recommended Semester Sequences**

The recommended course sequence is designed for full-time students who average twelve (12) to fourteen (14) credits per semester, enroll in mini-semester courses or attend summer term courses. It is intended only as a guide. Students may need more time to complete major requirements based on placement testing and the meeting of course prerequisite skills.

** Program courses are specified in the Program Outlines section of this catalog.

### Important Note

Decisions regarding the transferability of courses are made by the baccalaureate degree granting colleges/universities and differ from school to school. Students who are planning to transfer should select courses according to the expectations of the transfer institution. Transfer articulation guides for New Jersey colleges can be found at [njtransfer.org](http://njtransfer.org) or by meeting with a Transfer Advisor in the Transfer Office. Transfer deadlines can be found on the Advising Website at [staff.bcc.edu/advising](http://staff.bcc.edu/advising).
Advising Form

Associate of Arts (A.A.) Degree Requirements

Student Name__________________________________________ Major __________________________

Note: A.A. and A.S. degree programs are designed to be transfer programs to four-year institutions. A.A.S. and A.F.A. programs are career-oriented and do not contain the necessary liberal arts basis to prepare a student for transfer to a four-year institution.

**GENERAL EDUCATION REQUIREMENTS – 45 CREDITS**

Cancer Registry Management Certificate (SPC.MCR) §

The Cancer Registry Management Certificate is offered to individuals who possess the technical and clinical knowledge and skills required to maintain cancer-related data collection systems. These individuals manage and analyze clinical cancer information for the purposes of processing, maintaining, compiling, and reporting health information in many areas including: Research, Quality Management and Improvement, Facility Planning and Marketing, Long-Term Patient Follow Up, Cancer Program Development, Survival Data, Compliance with Reporting Standards, Evaluation of the Results of Treatment, National Accreditation Standards.

Cancer registrars are data management experts who report cancer statistics for various healthcare agencies. Registrars work closely with physicians, administrators, researchers, and health care planners to provide support for cancer program development, ensure compliance of reporting standards, and serve as a valuable resource for cancer information with the ultimate goal of preventing and controlling cancer. The cancer registrar is involved in managing and analyzing clinical cancer information for the purpose of education, research, and outcome measurement.

This 25 credit certificate program is geared towards professionals who currently have an associate degree and wish to obtain the necessary knowledge to sit for the National Cancer Registry Associations (NCRA) Certified Tumor Registrar credential (CTR).

Coding Certificate Program (SPC.ACO)

This program will prepare students for entry level employment as a medical coder in the inpatient or other medical settings such as clinics, physician offices, health insurance companies, and consulting firms. Student will acquire basic knowledge to: assign diagnoses/procedure codes using ICD-10-CM/PCS Volumes I-III; assign procedure codes using CPT-4; validate coding accuracy using clinical information in the patient's health record; use electronic application and work processes to support clinical classification and coding; understand Diagnostic Related Groups (DRG's); interpret and apply regulatory guidelines; and prepare for the coding certification exam of the student's choice. Students will receive a career certificate and 26 credits that can easily transfer to the HIT Associate's degree. (Credits required are subject to change with the addition of the Professional Practice Experience.) The program is part time over an 18 month period to accommodate employed students. Classes are typically offered in the evenings.

Admission requirements: Graduation from high school or attainment of a GED with C grade or higher; High school biology or equivalent college course work; Completion of the Psychological Services Bureau (PSB) Health Occupations Aptitude examination; and criminal background check with satisfactory outcome conducted by Adam Safeguard.

Computed Tomography Certificate (SPC.CTC) §

This program is designed to give the ARRT, American Registry of Radiologic Technologists, credentialed radiologic technologist the ability to seek a position as a Computed Tomography Technician upon completion. The 15 career credits are based on the ASRT, American Society of Radiologic Technologists, Curriculum Guide for Computed Tomography. The enrolled student will be given the knowledge and clinical time necessary to prepare for the ARRT CT examination. The program includes courses utilizing hybrid (online and in class) instruction. The courses are generally offered in 7-week blocks during the Fall and Spring semesters. The 14-week clinical component of 120 hours may be taken in the Fall or in the Spring.

**Admission Requirements:** ARRT, RT(R) credentials, completed application, clean criminal background check and drug screening (conducted by Adam Safeguard).

**Limitation:** Limited to a cohort of 20 students.

- CUL 235 Advanced Baking 4

**Total Required Credits** 27

### Disaster Preparedness Certificate (SPC.DPC)

This program provides the student with the fundamentals of planning for risk events before they occur. In our post-9/11 society, disaster events include but are not limited to terrorist attacks in the form of nuclear, biological, chemical and cyber events. The program also examines man-made, natural and accidental disasters caused by weather, accidents, public health events and many other causes. The program is designed for the student interested in advancement of specialized security skills, further education in the field via transfer and increased knowledge in this rapidly expanding field. The certificate program requires a minimum of 24 credits.

Electronic Health Record Certificate (SPC.EHR)

This program will prepare students for workforce roles that will facilitate the conversion of a paper-based medical record system to an electronic system. Some key employment settings include, but are not limited to: healthcare provider's offices or clinics, healthcare facilities, state and local health agencies, health IT vendors, and regional extension centers.

Students will acquire knowledge to:
- develop revised workflow and information management models for a practice based on meaningful use of a certified E.H.R. product, apply project management and change management principles to create implementation project plans, and apply a user oriented approach to training on a range of health IT applications.
- This program offers a comprehensive nationally validated curriculum developed by the Health IT Consortium Education Project.
- After successful completion of the program students will receive a career certificate in the Electronic Health Record. Students will also be prepared to sit for a HIT Pro Competency examination. The HIT Pro Competency exam is given by the American Health Information Management Association and students who pass the exam are awarded a HIT Pro credential.
- The program includes courses utilizing hybrid (online and in class ) and distance learning (online) instruction.
- Admission Requirements: Graduation from high school or attainment of a GED with a C grade or higher and a current background in Allied Health or IT preferred.

Required Courses Include Credits
- HIT 105 Medical Terminology 2
- HIT 120 Introduction to Healthcare and Public Health 3
- HIT 121 Introduction to Health IT 3
- HIT 122 Health IT Systems 4
- HIT 123 Networking and Health Information Exchange 3
- HIT 228 Fundamentals of Health IT Workflow Process 3
- Select one 4-credit course from the following:
  - HIT 229 IT Project Management 4
  - HIT 230 Training & Instructional Design in Healthcare 4
- Total Required Credits 22

§ This certificate is NOT eligible for Financial Aid.

Family Helper Certificate (SPC.FHC)

This two-semester certificate program is designed for students who are interested in providing in-home child care as a “Family Helper.” Through the program, students will attain a general knowledge base of the teaching/learning field. Students will also develop skills to assist children and adolescents with varied school assignments and projects. It is recommended that all students have current CPR Certification.

This program requires a minimum of 24 credits distributed between required Certificate courses and electives in the following manner:

Fire Investigation Certificate (SPC.FSI)

This certificate is designed to provide the technical knowledge and specific skills necessary for fire investigation to those already active in the field of firefighting and prevention as well as for those who may be interested in these areas.

This program requires a minimum of 29 credits. The four Fire Science (FSC)* courses are offered through the Burlington County Emergency Services Training Center in Westampton. Attendance at these courses requires sponsorship by a county fire company. Applicants needing assistance for sponsorship should contact the Burlington County Emergency Services Training Center at (609) 702-7157. The two Criminal Justice (CRJ) courses are offered at Burlington County College.

General Education Course

ENG 101 College Composition I 3

Program Courses Credits

FSC 101 Introduction to Fire Science* 7
FSC 103 Fire Detection and Suppression Systems* 3
FSC 201 Fire Service Construction Principles* 4
FSC 204 Fire Inspector Certification* 6
CRJ 113 Criminal Investigation 3
CRJ 213 Arson Investigation 3

Total Required Credits 29

*These courses are offered at the Burlington County Emergency Services Training Center in Westampton.

Fire Science Certificate (SPC.FSC)

This certificate recognizes the completion of program courses offered through the Burlington Emergency Services Training Center. These courses are designed for the professional education needs of firefighters as well as those interested in a career or volunteer service in the field of firefighting and prevention. Students who complete this program will develop a working understanding of the fundamentals of fire science technology and fire protection engineering using the most advanced fire science technology available.

This program requires students to be sponsored by a county fire company. Applicants needing assistance for sponsorship should contact the Burlington County Emergency Services Training Center at (609) 702-7157.

This certificate requires 27 credits. Coursework can be applied to the Associate of Applied Science degree in Fire Science Technology.

Program Courses Credits

FSC 101 Introduction to Fire Science* 7
FSC 102 Fire Department Organization and Management* 4
FSC 103 Fire Detection and Suppression Systems* 3
FSC 201 Fire Service Construction Principles* 4
FSC 202 Tactics and Strategies* 3
FSC 204 Fire Inspector Certification* 6

Total Required Credits 27

*These courses are offered at the Burlington County Emergency Services Training Center in Westampton.

Food Service and Hospitality Management Certificate (SPC.FSM)

This certificate provides career development for food service and lodging professionals. Students will be able to:

Demonstrate the knowledge of risk management in the maintenance of a safe and sanitary facility; Understand the methods to control costs; Display an understanding of basic human resource issues; and Understand the basic fundamentals of operational areas.

Program Courses Credits

FSM 107 Introduction to Food Service & Restaurant Management* 2
FSM 110 Hospitality Supervision & Personnel Management* 3
FSM 122 Quality Service/ Food/Restaurant Ops 3
FSM 125 Food Service Sanitation & Accident Prevention 3
FSM 210 Controlling Costs in Food Service* 3
HOS 150 Hospitality Purchasing 3
FSM 215 Elementary Nutrition 2
FSM 217 Hospitality Marketing* 3
CUL 107 Culinary Arts I 4
MTH 104 Business Mathematics 3

Total Required Credits 29

§ This certificate is NOT eligible for Financial Aid.
### Human Services Certificate (SPC.HUS)

The Human Services Certificate is designed to provide continuing education opportunities for staff directly supporting individuals with disabilities. Direct support professionals may apply to receive college credit for successful completion of fourteen educational modules that include Level One and Level Two of NJ Career Path in Developmental Disabilities non-credit courses. This certificate program requires a minimum of 27 credits. Credits earned with this certificate may be applied toward degree in Human Services.

---

### Social Services Certificate – Dept. of Human Services (SPC.HSS)

This career certificate is designed for the Department of Human Service employees and is offered by community colleges as part of the Career Ladders Program. This certificate provides a strong foundation in social services. This certificate program requires a minimum of 27 credits. Transfer credits from five educational modules (150 hours):

#### Transfer Courses

- Family Centered Protective Services
- Communications
- Cultural Competence
- Understanding Mental Health (Abuse & Neglect)
- Assessment and Documentation

**Total Transfer Credits** 12

### Social Services Certificate – Developmental Disabilities (SPC.HSS)

This career certificate is designed for the NJDHS (New Jersey Department of Human Services) and is part of the Career Ladders Program. This certificate supports a strong foundation in social services. This certificate program requires a minimum of 27 credits. Transfer credits from five educational modules (39 hours):

#### Transfer Courses

- How to Teach People with Profound Disabilities
- AAMR – Positive Behavior Supports for Psychologists
- AAMR – Positive Behavior Supports for Direct Care Staff
- Common Disorders and Diagnosis
- Dual Diagnosis – Introduction to the Mental Health Needs of People with Developmental Disabilities
- Autism

§ This certificate is NOT eligible for Financial Aid.
Specification Technology for Fashion Design Certificate (SPC.CTF)§

This 8-credit certificate program is intended to upgrade the computer skills of employed fashion design and apparel production professionals. Students who successfully complete the certificate program will: demonstrate competence in flat sketching for the visual documentation of apparel, both manually and with the assistance of computer software; demonstrate competence writing garment specifications, for both knitted and woven garments; and use industry appropriate software to execute fashion related materials for record keeping, presentation and promotional purposes.

GDD 101  Introduction to Graphic Design & Digital Media 3
FAD 105  Introductory Fashion Drawing 2
FAD180  Digital Portfolio Development for Fashion Design 3

Total Required Credits 8

Technical Fashion Design Certificate (SPC.TFD)§

This 11-credit certificate program is for students who wish to develop only the technical skills required for apparel design and development. Students may use this certificate to support their own entrepreneurial activities related to sewn products, including apparel. They may also make use of the certificate program to gain skills that enhance personal development and/or facilitate self-expression.

Students who successfully complete the certificate program will: use industrial equipment to demonstrate competence in executing the construction and assembly skills required for sewn product development; demonstrate competence in beginning to intermediate level pattern drafting, and beginning level draping, as required to develop basic garments and styling details used in basic garments; and test an original garment style through the construction prototypes in both muslin and fashion fabric, making use of draping, pattern-making, and construction/assembly skills.

§ This certificate is NOT eligible for Financial Aid.
Accounting

Option to Liberal Arts and Sciences, (AS.ACC)

The Associate in Science program in Accounting is designed to provide the first two years of a four-year program leading to a baccalaureate degree. Graduates of this program have transferred to area institutions.

Students may study full-time or part-time. Courses are offered both in the day and evening.

Students who wish to transfer to a baccalaureate program are strongly advised to seek information regarding admission and transfer requirements for those programs.

Graduates of this program should be able to:

- Perform all the steps in the accounting cycle;
- Record business transactions;
- Prepare financial statements for different types of organizations;
- Utilize the computer to record accounting information and perform spreadsheet analysis;
- Demonstrate an understanding of the legal and ethical decision making process;
- Apply economic concepts to current events to understand causes for situations.

Accounting Technology

Associate of Applied Science, (AAS.ACC)

This A.A.S. program is designed primarily to meet the needs of those students who intend to seek immediate employment in the accounting field upon graduation.

Graduates typically enter public accounting firms, private industry, or government service in the capacity of junior accountants.

Students wishing to transfer are strongly advised to seek information regarding admission and transfer requirements for those programs.

Graduates of this program should be able to:

- Perform all the steps in the accounting cycle.
- Record business transactions.
- Prepare financial statements for different types of organizations.
- Utilize the computer to record accounting information and perform spreadsheet analysis.
- Demonstrate an understanding of the legal and ethical decision making process.

**Total Required for Degree**                 | 64      |
This certificate program provides the knowledge, skills, and practice in accounting and related fields for a person with work experience or educational background in a non-accounting field. This certificate program requires a minimum of 33 credit hours. Persons with either a bachelor's degree or associate degree may substitute business courses or computer science courses in place of math and English courses. In other words those with an AS, BS or BA degree may use this program to gain a foundation in accounting. Certificate holders can also enter either private or public service areas.

Students may be able to transfer certificate credits for use in associate or baccalaureate degree program. Students are strongly advised to seek information regarding admission and transfer requirements for those programs.

Graduates of this program should be able to:

• Perform all the steps in the accounting cycle.
• Record business transactions.
• Prepare financial statements for different types of organizations.
• Utilize the computer to record accounting information and perform spreadsheet analysis.
• Demonstrate an understanding of the legal and ethical decision making process.
• Apply economic concepts to current events to understand causes for situations.

Agricultural Business Technology

Associate of Applied Science, (AAS.AGB)

This program prepares students for careers in a variety of businesses involved with the agricultural industry. Careers range from growing and marketing produce, livestock and field crops to marketing products and providing services needed in farm production. Advances in technology have changed agriculture not only in Burlington County but across the country. Today’s agriculture professional is challenged to protect natural resources while managing a productive, viable business.

The Agricultural Business Technology Program curriculum emphasizes effective management and business skills along with providing a solid background in soil science, plant protection, and plant propagation.

Graduates of the program should be able to:

- Demonstrate a fundamental understanding of practical principles of marketing, management, economics and accounting as they pertain to agricultural business;
- Identify major plant pests, including weed, insects and diseases, and recommend methods to control these plant pests based on environmental, social and legal considerations;
- Identify plant nutrient deficiencies and recommend corrective measures based on environmental, social and legal considerations;
- Demonstrate a fundamental understanding of crop production;
- Communicate effectively both verbally and in writing.

Alternative Energy Technologies

Associate of Applied Science, (AAS.ALT)

This program is designed to prepare students to move directly into the workforce upon graduation. Graduates will be qualified for entry-level positions in the specification, design, and operation of alternative energy systems including solar photovoltaic, solar thermal, wind, geothermal heat pump, and biofuels/biomass systems. Students will be exposed to the theory, materials and equipment necessary to work in the alternative energy field. Graduates will be qualified to sit for industry-recognized certification exams in applicable disciplines, such as the NABCEP PV Entry Level Exam.

Career Opportunities

Entry level positions in:

- Energy systems design and installation – solar photovoltaic, solar thermal, geothermal heat pump, wind, biofuels/biomass
- Green technologies manufacturing
- Sales representatives/estimators
- Site surveyors/assessors

Types of Employers

- Green technologies installation companies
- Green technologies manufacturers
- Builders/construction management companies
- Engineering/architecture firms

Graduates of the program should be able to:

- Explain the concepts of energy conversion and how energy is used in various applications;
- Apply appropriate methods and technology to evaluate energy generation needs;
- Specify, design and implement solutions to energy generation needs;
- Demonstrate effective oral and written communication skills;
- Develop a written analysis report based upon evaluation of energy needs and suitable solutions.

**Total Required for Degree** 66

*Prerequisite for SST 282 – Successful completion of the first two semesters of coursework required for the Alternative Energy Technologies AAS degree. Students must see Career Services to register for this course.
This certificate offers a direct route to obtaining technical knowledge and skills in a variety of alternative energy technologies. It is designed to prepare students to move directly into the workforce upon completion or, alternatively, to offer existing workers an opportunity to enhance their credentials in the alternative energy field. The courses are designed to provide students with a solid foundation in basic scientific principles as well as extensive hands-on training with alternative energy technologies.

Students who decide to continue with further study may readily transfer program credits to BCC’s Associate of Applied Science degree program in Alternative Energy Technologies.

Graduates of the program should be able to:

- Explain the concepts of energy conversion and how energy is used in various applications.
- Apply appropriate methods and technology to evaluate energy generation needs.
- Specify, design and implement solutions to energy generation needs.
- Demonstrate effective oral and written communication skills.

American Sign Language/Deaf Studies

Option to Liberal Arts and Sciences, (AS.ASL/DEA)

This program is designed for students who intend to complete a baccalaureate degree in a chosen field (e.g. Biology, Business Administration, Computer Science, Criminal Justice, Education, Nursing, Medicine, Social Sciences, the Arts) which serves individuals who are deaf and who use ASL to communicate.

Students planning to transfer after graduation should consult the catalog of the college where they intend to complete their studies.

Graduates of this program customarily transfer to baccalaureate institutions. Graduates not immediately pursuing an additional degree frequently work as paraprofessionals in the student's chosen field of study which serves individuals who are deaf and who use ASL to communicate. (Positions include lab technician; office technician in a business, criminal justice or social services organization; teacher's aide; a substitute teacher.)

Graduates of this program should be able to:

• Be proficient in all aspects of American Sign Language across registers and dialects;
• Demonstrate comprehensive knowledge of American Deaf Culture;
• Explain the historical, social, political, recreational, medical, educational, and linguistic issues that affect individuals who are Deaf/Hard of Hearing;
• Identify the laws and legislations that impact the civil rights of Deaf people;
• Demonstrate knowledge of the prevalent models (pathological vs. humanistic) of deafness;
• Identify the various types, causes, and levels of deafness.

Electives* (SPE 101, SPE 102, ENG 252 recommended) 15

Total Required for Degree 64-65

Selection of electives should be based upon knowledge of prospective major of the receiving college and of the acceptability of transfer to that receiving college.
American Sign Language/Interpreter Education

Associate of Applied Science, (AAS.ASL/IE)

The mission of this program is to provide a competency-based foundation for entry into American Sign Language/English Interpreter profession, or continuation in a baccalaureate degree program at a four-year institution. AAS.ASL/IEP would provide education in liberal arts, American Sign Language, Deaf Culture and History, and American Sign Language Linguistics to prepare students to understand the meanings and intentions expressed in one language (the source language) and then express those meanings and intentions in other language (the target language).

Students will be encouraged to continue their education and obtain national interpreter certification through the Registry of Interpreters for the Deaf. Students interested in working in K-12 education will be encouraged to pursue NJ Department of Education licensure for educational interpreters.

Graduates of this program should be able to:

- Demonstrate comprehensive knowledge of the ethical standards for professionals working in the field of American Sign Language-English interpreter/transliterating as published by the Registry of Interpreters of the Deaf;
- Demonstrate comprehensive knowledge of American Deaf Culture;
- Employ the fundamentals of basic business organization and management;
- Express proper English in written and spoken communication across registers;
- Be proficient in consecutively and simultaneously interpreting and transliterating between American Sign Language and English across registers;
- Demonstrate an understanding of interpreting in various settings and fields such as education, mental health, medicine, law, social services and with varied clientele including individuals who are deaf and blind;
- Identify the laws and legislations that regulate the field of American Sign Language-English interpreting;
- Apply knowledge of the social, emotional, and political impact of an interpreter on interpreted events;
- Obtain an entry-level position as an Interpreter of the Deaf.

Art

Option to Liberal Arts, (AA.ART)

The A.A. Art program provides students with both a broad-based liberal arts education and a strong foundation in the visual arts. Art students learn technical skills and the basic principles of drawing, design, and color. Students may also elect courses in painting, sculpture, ceramics, photography, art history, and an introduction to computer graphics. Students develop competency in studio arts, an appreciation of the role of visual art in society, and an understanding of the works of past and present major artists.

This transfer program is designed for students interested in a career in the arts but not necessarily as working artists. Many career opportunities in the arts require a broad liberal arts education along with studio competency. Some of these professions include: art conservation, museum studies, and curatorial studies.

Graduates of this program should be able to:

- Demonstrate proficiency in the basic materials and techniques of drawing, design and color theory;
- Demonstrate effective oral and written communication skills;
- Demonstrate an understanding of the style and significance of major art works from the past;
- Discuss and analyze major issues facing the art world today;
- Apply an understanding of the basic elements of design involved in analyzing and critiquing works of art;
- Demonstrate an understanding of how to select, prepare, describe and exhibit arts works for exhibition.

The Associate in Fine Arts degree in Art provides a strong foundation in drawing, design, and 3 dimensional design. This degree is not a transfer degree but is designed as an immersion experience in program, studio, and art history courses for students planning to pursue a four-year degree in studio art. Students will prepare a comprehensive portfolio demonstrating competence in all areas of art foundations.

Graduates of this program should be able to:

- Demonstrate their proficiency in the basic artistic materials, techniques and principles of art and design.
- Demonstrate effective oral and written communication skills.
- Demonstrate an understanding of major art works from the past, the styles they represent, and their significance for artists today.
- Discuss and analyze major issues facing the art world today.
- Demonstrate an ability to select and prepare artworks for exhibition.
- Demonstrate the ability to document their artwork.
- Prepare a comprehensive portfolio that demonstrates competence in all areas of art foundations.

This program prepares students to transfer to a four-year institution to complete a baccalaureate degree with a major in one of the following areas: biology, microbiology, biotechnology, physical therapy, pharmacology or physician assistant programs. Students in this program engage in a broad-based liberal arts and sciences curriculum that is typical of freshman and sophomore biology major at a four-year institution.

Graduates of baccalaureate biology programs can enter professional programs such as medicine, dentistry, veterinary medicine, chiropractic medicine, and physical or occupational therapy. Biology graduates can also continue graduate work beyond their baccalaureate degree and enter exciting research fields such as molecular biology, microbiology, botany, and zoology.

Graduates of this program should be able to:
- Understand and apply biological concepts and principles;
- Apply critical thinking and problem solving skills in the analysis of data, in the design of experimental procedures and in the evaluation of outcomes;
- Communicate effectively both verbally and in writing.

This program prepares students for transfer to a four-year college or university or for a laboratory technician position in laboratories engaged in biotechnology. Graduates of this program may choose career paths in medical, pharmaceutical, agricultural, environmental, or forensic science industries, as well as basic biological research.

This program provides both theoretical and practical knowledge of the biotechnology field along with a solid foundation in biology, chemistry, and mathematics. Through lecture courses and extensive laboratory experiences the student will be trained in a broad range of techniques involving molecular genetics, protein recovery, cell culture, and microbial growth control. Record keeping, interpretation and trouble shooting of experiments, and interpersonal skills are also emphasized.

Students planning to transfer after graduation should consult the catalog of the college where they intend to complete their studies and enroll in courses, which will meet transfer requirements.

Graduates of this program should be able to:

• Communicate effectively both verbally and in writing;
• Apply critical thinking and problem solving skills in the analysis of data, in the design of experimental procedures and evaluation of outcomes;
• Knowledge of the terms, techniques and theories applied to Biotechnology;
• Demonstrate good laboratory skills.

Biotechnology

Option to Liberal Arts and Sciences, (AAS.BIT)

This program prepares students for laboratory technician positions in research and industrial laboratories engaged in biotechnology. Graduates may choose career paths in medical, pharmaceutical, agricultural, environmental, or forensic science industries, as well as basic biological research.

The program provides both theoretical and practical knowledge of the biotechnology field. Hands-on training utilizing industry standard equipment to perform both routine and specialized experimental techniques is emphasized. Through lecture courses and extensive laboratory experiences the student will be trained in a broad range of techniques involving molecular genetics, protein recovery, cell culture, and microbial growth control. Record keeping, interpretation and trouble shooting of experiments, and interpersonal skills are also emphasized.

Graduates of this program should be able to:

• Enter the field as a biotechnology laboratory technician.
• Communicate effectively both verbally and in writing.
• Apply critical thinking and problem solving skills in the analysis of data, in the design of experimental procedures and evaluation of outcomes.
• Knowledge of the terms, techniques and theories applied to Biotechnology.
• Demonstrate good laboratory skills.

Building Energy Management

Certificate (CRT:BEM) §

This certificate offers a direct route to obtaining technical knowledge and skills in the area of building energy management. The program is designed to introduce students to the fundamentals of building energy management. It provides the basics of energy use assessment and management to prepare students to enter the job market as well as for individuals who are already employed who wish to enhance their career credentials.

Students who decide to continue with further study may readily transfer program credits to BCC’s Associate of Applied Science degree program in Energy Management.

Graduates of the program should be able to:
• Explain the concepts of building energy use and efficiency.
• Apply appropriate methods and technology to evaluate energy use and efficiency.
• Recommend solutions to reduce energy use and improve efficiency.
• Demonstrate effective oral and written communication skills.
• Develop a written analysis report evaluating building energy usage and recommending solutions.

Business Administration

Option to Liberal Arts and Science, (AS.BUS)

The Business Administration curriculum is designed for the student who plans to earn a business-related baccalaureate degree at a four-year college or university. The program provides the necessary preparation in the business disciplines, accounting, business law, economics, management, statistics, and other business-related courses necessary for acceptance into third-year status at a four-year college.

Some four-year colleges and universities have mathematics-oriented programs, and all business schools require a high level of written and oral communication skills. Students should consult college and university catalogs before selecting a particular BCC business program and/or courses.

Graduates of this program should be able to:
- Demonstrate an understanding of accounting theory and practice.
- Attain the knowledge of economic concepts and their applications.
- Understand the importance of effective communication skills.
- Demonstrate an understanding of the legal and ethical decision-making process.
- Demonstrate competency in finding solutions to business problems.

Electives* (MTH 243 and ENG 106 recommended) | 6

Total Required for Degree | 64

*Selection of electives should be based on knowledge of their acceptability in transfer to the receiving college.
This program prepares students for entry-level and middle management positions in business, government, and social service agencies. A combination of general business, management, and general education courses provides the necessary decision-making and problem solving skills needed in a changing business environment.

Students wishing to transfer to baccalaureate degree programs are strongly advised to seek information regarding admission and transfer requirements for those programs.

Graduates of this program should be able to:

- Recognize the importance of the global market;
- Demonstrate the capacity to utilize terminology common to the business environment in order to facilitate effective communication;
- Demonstrate an awareness of and a concern for the ethical implications of institutional policies and individual practices;
- Demonstrate an understanding of accounting systems;
- Be proficient in the use of technology for business applications and research.

Casino and Resort Management

Associate of Applied Science, (AAS.CRM)

This program prepares students for entry-level management positions in the casino and resort industry. There is an emphasis on tourism and developing tourism opportunities within the State of New Jersey.

Graduates of this program should be able to:
- Maintain a working knowledge of casino and resort operation;
- Analyze the best hospitality practices;
- Demonstrate effective written and oral communication skills;
- Determine mathematically casino profits;
- Explain the basics of casino games;
- Identify the concepts of hotel operations;
- Interpret the social and economic impact of casino gaming;
- Obtain an entry-level manager position in a hotel, casino or resort.

Chemical Engineering

Option to Liberal Arts and Sciences, (AS.CGR)

This program is designed to parallel the first two years of a program in Chemical Engineering at a four-year college or university. Some of the area institutions offering programs in Chemical Engineering are: New Jersey Institute of Technology (Newark), Drexel University (Philadelphia), and Rutgers University (New Brunswick). Selection of courses should be made on the knowledge of their acceptability in transfer to the receiving college or university. Graduates of Chemical Engineering work at manufacturing companies in chemical processes such as petrochemical refineries and pharmaceutical companies to name a few.

Graduates of this program should be able to:

• Demonstrate a thorough knowledge of chemistry by analyzing information and solving problems;
• Have the skills required to work safely and effectively in a scientific laboratory;
• Demonstrate the chemistry concepts required to take the dental, medical and pharmacy admissions tests;
• Discuss areas related to chemistry such as ethics, information technology, intellectual property and regulatory compliance;
• Demonstrate the ability to communicate effectively both verbally and in writing.

Chemistry

Option to Liberal Arts and Sciences, (AS.CHE)

This program prepares students for transfer into baccalaureate programs leading to careers in fields such as industrial chemist, pharmaceutical chemist, medicine, pharmacy, and environmental technology.

Graduates of this program should be able to:

- Demonstrate a thorough knowledge of chemistry by analyzing information and solving problems.
- Have the skills required to work safely and effectively in a scientific laboratory.
- Discuss areas related to chemistry such as ethics, information technology, intellectual property and regulatory compliance.
- Demonstrate the ability to communicate effectively both verbally and in writing.

Chemistry, Pre-Medical Technology Option

Option to Liberal Arts and Sciences, (AS.CPM)

This program is designed for those students interested in transferring into a four- or five-year Medical Technology program. Medical Technologists find employment in pharmaceutical laboratories, hospitals, and medical laboratories.

Graduates of this program should be able to:

- Demonstrate a thorough knowledge of chemistry by analyzing information and solving problems.
- Have the skills required to work safely and effectively in a scientific laboratory.
- Discuss areas related to chemistry such as ethics, information technology, intellectual property and regulatory compliance.
- Demonstrate the ability to communicate effectively both verbally and in writing.

Communication Arts

Option to Liberal Arts, (AA.COM)

Communication Arts trains students in interpersonal, group, and public communications. The Communication program has as its goal the education of individuals who will actively engage in successful communications in various areas of public life. This preparation is concentrated in two areas: writing and production. The first area is concerned with providing students with the education needed in fields such as print and broadcast journalism, public relations, advertising, and marketing. The second area is concerned with providing students with education needed in radio and television behind the scenes production. Students are advised that employment in both of these fields traditionally requires education beyond the A.A. degree and practical experience in the field.

Students planning to transfer after graduation should consult the catalog of the college where they intend to complete their studies.

Graduates of this program should be able to:

• Demonstrate practical application of skills in their area of specificity;
• Form critical judgments about the interaction of society and the various media;
• Make ethical decisions about the duties and responsibilities of the media and those involved in public communications;
• Analyze the effective use of language in a variety of environments and modes.

This program is designed primarily to meet the needs of those students who intend to seek immediate employment as a draft person in an engineering consulting firm, architectural firm, or in a government civil or mechanical engineering design office. This program stresses computer aided drafting skills and physical understanding of structures, machinery, and physical principles. While the program is designed to prepare the student for employment, an individual may, upon selecting proper courses, choose to transfer to a four-year degree program in related areas.

Graduates of this program should be able to:
- Understand drafting and design standards used in industry;
- Demonstrate proficiency in using computer aided drafting software in creating drawings;
- Communicate effectively both verbally and in writing;
- Enter the workforce upon graduation as a computer assisted draft person.

*An internship can be counted as elective credit.
This program is designed for students who intend to complete a baccalaureate degree in Information Systems with an emphasis on business applications of information systems in the decision-making and data processing environment.

Students should consult the catalog of the college where they intend to complete their studies and enroll in courses which will meet transfer requirements.

Graduates of this program should be able to:
- Demonstrate proficiency in designing database systems.
- Demonstrate proficiency in programming database systems.
- Demonstrate an understanding of software packages.
- Solve problems effectively.
- Demonstrate critical thinking skills.
- Work effectively as part of a development team.

Computer Management Information Systems

Associate of Applied Science, (AAS.MIS)

This program is designed primarily to meet the needs of those students who intend to seek immediate employment in the business world. The student will receive background in theory and practice in modern computer programming, applications, and business systems analysis.

Management Information Systems is a very specialized area within the computer field. In addition to courses in information processing, the curriculum includes courses in business-related subjects.

Graduates of this program should be able to:

• Understand and apply sound principles of system design to a range of problems found in a business environment;
• Apply skills in basic networking settings and concepts;
• Be programming competent using a modern programming language;
• Be proficient in database design and application software to meet the specific needs of an employer;
• Demonstrate good business communication and interpersonal skills.

This program is designed to prepare graduates for transfer to four-year colleges and universities offering baccalaureate majors in computer science, information systems, and related fields.

Students should consult the catalog of the college where they intend to complete their bachelor’s degree studies and enroll in courses which will meet transfer requirements.

Graduates of this program should be able to:

• Deploy appropriate theory, practices, and tools for the specification, design, implementation, and evaluation of computer based systems.
• Analyze criteria and specifications appropriate to specific problems, and plan strategies for their solution.
• Use critical thinking skills to solve problems using a programming language.
• Understand and analyze algorithms.
• Understand and design data structures.
• Analyze and design fundamental hardware components of computer systems.
• Analyze a programming language.
• Work effectively as part of a development team.

Computer Servicing & Networking Technology Option**

Option to Electronics Engineering Technology, (AAS.PCN)

The Computer Servicing & Networking Technology option to the Electronics Engineering Technology program provides a solid theoretical foundation as well as practical “hands-on” laboratory experiences in electronics and computers. This option includes some electronic courses as well as computer and networking courses to enable graduates to peruse a career as a computer and network technician.

The mission of the Burlington County College Electronics Engineering Technology program and Computer Servicing & Networking Technology option is to produce graduates who are able to obtain employment as a technician or transfer to a four-year college. In addition, graduates will be technically competent, able to communicate effectively, work well with others and demonstrate professionalism.

Graduates of this option should be able to:

- Apply the knowledge, techniques, skills, and modern tools of the discipline to engineering technology activities;
- Apply knowledge of analog and digital electronics, computers, networks, mathematics and science to technical problems or projects;
- Conduct standard laboratory tests and measurements, and to analyze and interpret experiments;
- Function effectively as a member of a technical team;
- Identify the characteristics of, analyze and solve technical problems;
- Apply written, oral, and graphical communication in both technical and nontechnical environments; and an ability to use appropriate technical literature;
- Express the need for continuing professional development through conferences, seminars, courses and the pursuit of advanced degrees;
- Express a commitment to address professional and ethical responsibilities, including societal and global issues and a respect for diversity;
- Recognize a commitment to quality, timeliness and continuous improvement;
- Demonstrate knowledge and hands-on competence in the application of circuit analysis and design, computer programming, associated software, analog and digital electronics, and microcomputers, and engineering standards to the building, testing, operation, and maintenance of electrical/electronic(s) systems;
- Demonstrate knowledge and hands-on competence in the applications of physics or chemistry to electrical/electronic(s) circuits in a rigorous mathematical environment at or above the level of algebra and trigonometry.

Graduates of this option can transfer to Drexel University at BCC or New Jersey Institute of Technology, Newark, New Jersey to continue their education towards a Bachelor’s of Science degree in Engineering Technology.

**Please note, this page has been modified from the original version to accurately represent degree requirements for this program. If you have any questions about the current version, please contact the Dean of Science, Math and Technology at (609) 894-9311, ext. 1239 or smt@bcc.edu.

Construction Management

Option to Liberal Arts and Sciences, (AS.CON)

Construction management is a dynamic profession – a combination of technology, art and science. While an understanding of the technical aspects of construction is extremely important, it is also essential that construction professionals have a comprehensive knowledge of the business and management aspects of the profession.

And though construction has traditionally been a very conservative industry, the increasing rate of technological development and competition in the industry have served to accelerate the development of new construction methods, equipment, materials, and management techniques. As a result of these forces, there is an increasing need for innovative and professionally competent construction professionals. Students enrolled in the Construction Management program receive broad academic, technical, business, and construction management courses that are designed to produce well-rounded construction professionals.

Graduates of this program should be able to:

• Demonstrate an understanding of management and supervision principles;
• Apply construction law and knowledge of contracts to construction projects;
• Interpret construction documents and drawings;
• Conduct research as a foundation for construction methods and materials;
• Evaluate construction projects for conformity with construction documents;
• Communicate effectively with a wide variety of stakeholders;
• Use technology to support management projects.

Options after graduation:

Career Opportunities: Graduates of the Construction Management program have secured entry-level positions as assistant project managers, estimators, schedulers, and field superintendents for general contractors, subcontractors, and construction managers. Some are employed as owner-representatives working for architectural firms, consulting engineering firms, commercial companies, and institutions that have needs for building or other construction projects.

Drexel at BCC: Graduates of the program can make a smooth transition to the Drexel University Construction Management B.S. degree program offered at BCC on a full- or part-time basis.

Criminal Justice

Associate of Science, (AS.CRJ)

The Criminal Justice program provides students with an education based in a liberal arts core and interdisciplinary criminal justice curriculum. The criminal justice aspect focuses on law, law enforcement, and corrections. It examines legal systems, the impact of crime, the criminal justice system’s role, and organization and techniques of applied criminal justice through a group of program and specialized elective courses, as well as a program of internship and independent study.

The program prepares students for continuing education in the field, as well as careers in the major institutions of criminal justice and law enforcement on a local, state and federal level. It also acquaints students with the growing career opportunities in the private security and investigation industries.

Students who wish to transfer to a baccalaureate program are strongly advised to seek information regarding admission and transfer requirements.

Criminal justice is an aspect of our lives that is continuously changing with new case decisions, advanced technology and changes in public opinion and policy. The need for educated professionals in the public and private sectors of criminal justice has created many fascinating and rewarding career options. The extreme media and public interest in the system has also provided tremendous increases in the professions of criminal justice.

Graduates of this program should be able to:

• Apply critical thinking skills to resolve criminal justice practitioner issues;
• Demonstrate knowledge of the rights of citizens guaranteed in the Bill of Rights;
• Describe the various causal factors of crime;
• Define the four basic theoretical aspects of the criminal sanction;
• Describe the effects of the U.S. Constitution on criminal law;
• Define the role of science in the courtroom;
• Demonstrate knowledge of historical and contemporary aspects of the legal, penal and law enforcement systems;
• Apply their understanding of the operation of the police, correctional and court systems and their interrelationships.

The Culinary Arts curriculum provides specific training required to prepare students to assume positions as trained culinary professionals in a variety of food service settings including full service restaurants, hotels, resorts, clubs, catering operations, contract food service, and health care facilities. Course offerings emphasize practical application, a strong theoretical knowledge base, professionalism, and provide the critical competencies to successfully meet industry demands. Graduates should qualify for entry-level positions, such as line cook, station chef, and assistant pastry chef. With experience, graduates may advance to positions such as sous-chef, executive chef, or food service director.

Graduates of this program should be able to:

- Identify the characteristics of various ethnic cuisines;
- Discuss the basic principles and techniques used in the professional kitchen;
- Practice sanitary food handling;
- Analyze recipes according to the science of nutrition;
- Create recipes using fundamental culinary techniques, processes and methods;
- Manage a meal event from its planning to service;
- Critique a meal and its recipes for their culinary qualities;
- Identify and implement factors required in running a successful food service operation;
- Obtain an entry level position as a cook in foodservice establishments across all business lines.

**Total Required for Degree** | **63-64**
Dental Hygiene

Associate of Applied Science, (AAS.DHY)

This program prepares students for a career as a Registered Dental Hygienist by combining classroom instruction with laboratory and clinical experience. It is a rigorous and demanding program, both physically and academically, providing students with a knowledge base to integrate manual skills with the delivery of high-quality oral health care services.

The program emphasizes skills in communication, critical thinking, personal integrity, assessment and evaluation of a variety of treatment options. It prepares students to interact with patients as clinician, health educator, prevention specialist, and counselor in order to deliver a total health maintenance package.

The New Jersey Board of Dentistry regulates dental hygiene licensure. All persons desiring to practice dental hygiene in New Jersey shall first secure a license from the Board. Licensure applicants must demonstrate competence by passing both the National Dental Hygiene Boards and the American Dental Hygiene Licensing Examination. Successful completion of the New Jersey Jurisprudence examination and an affidavit of good moral character are also required. Additionally, the Board of Dentistry requests a criminal background check.

Students interested in Dental Hygiene should attend one of our informational seminars, held periodically throughout the year. Enrollment is limited, with preference given to Burlington County residents. Admitted students must:

• hold current certification in CPR for health care providers
• satisfactorily complete a physical examination which indicates that they can participate in all clinical activities
• maintain malpractice/liability insurance and personal health insurance throughout the program

Attendance at extramural clinical sites for enrichment of experience is mandatory. Students are also responsible for their own transportation to specified sites.

The program includes clinical experience in the process of dental hygiene care. Students are apprised that they may be exposed to bloodborne pathogens and potentially infectious diseases. They are also required to sit as patients for their student partners.

The program includes education and training to ensure the safety of the student, the public, and the faculty and staff.

Graduates of this program should be able to:

• Develop self-awareness, self-direction, critical think skills, self-evaluative skills, and professional accountability;
• Obtain entry-level positions as professional dental hygienists with the ability to transfer to accredited institutions of higher learning;
• Practice within the legal, ethical, and regulatory framework and standards of professional dental hygiene practice;
• Participate as members of their professional organizations and serve their community as healthcare professionals.

Diagnostic Medical Sonography

Associate of Applied Science, (AAS.DMS)

This program prepares students for a career as Diagnostic Medical Sonography Technologist (Ultrasound Technologist). The Ultrasound Technologist is a skilled medical professional who works under the guidance of a radiologist, a highly trained physician. The field of Diagnostic Ultrasound uses the state-of-the-art ultrasound equipment to diagnose a variety of diseases.

The program consists of academic, laboratory, and clinical components. General Education and program courses provide a foundation in the knowledge and skills needed to develop a life of personal fulfillment and contribution to society. Content areas of the academic component include radiology organization and procedures, physiology and pathology of organs and vasculature of the abdominal and pelvic cavities, OB/GYN pathology and physiology, vascular pathology and physiology, patient care, ultrasound equipment, and future uses of ultrasound technology. Experience at the clinical education setting and the on-campus lab is required to successfully complete the competency-based clinical component.

The program emphasizes communication, critical thinking, personal integrity, assessment and evaluation of ultrasound images and performance of diagnostic ultrasound exams. It prepares students to interact with patients as well as all health care professionals.

The number of available clinical sites limits enrollment into this program. Students who are interested in this program should plan to attend a DMS Information Seminar, which is held periodically throughout the year. A DMS program application must be submitted and the applicant must meet specific criteria for admission. The application forms are available in the Nursing and Allied Health office.

Students admitted must be CPR certified (for health care professionals), complete a satisfactory physical examination indicating they can perform the rigorous program activities, undergo a criminal history background check, and maintain malpractice/liability insurance and personal health insurance throughout the program. DMS students are responsible for their own transportation to clinical sites.

Graduates of this program should be able to:

- Demonstrate the knowledge of Abdominal, OB/GYN, and Vascular Pathophysiology while performing the ultrasound examinations;
- Apply their technical knowledge while operating ultrasound equipment;
- Utilize their knowledge in the outpatient and/or hospital settings;
- Discuss healthcare related issues with other healthcare professionals;

Total Required for Degree  66

Commission on Accreditation of Allied Health Education Programs (CAAHEP)
1361 Park Street, Clearwater, FL 33756, (727) 210-2350
In collaboration with: Joint Review Committee — Diagnostic Medical Sonography (JRC-DMS)
6021 University Boulevard, Suite 500,
Ellicott City, MD 21043, (443) 973-3251
The Diagnostic Medical Sonography Program curriculum was designed so that a student who is a licensed radiologic technologist and possesses an A.A.S. degree can take ultrasound courses and receive a certificate upon completion. The curriculum will consist of four semesters of study of sonography courses, including scanning labs, lectures and clinical hands-on training courses.

Graduates of this program should be able to:

- Demonstrate the knowledge of Abdominal, OB/GYN, and Vascular pathophysiology while performing the ultrasound examinations;
- Apply their technical knowledge while operating ultrasound equipment;
- Utilize their knowledge in the outpatient and/or hospital settings;
- Discuss healthcare related issues with other healthcare professionals.

In accordance with New Jersey State guidelines and the requirements of many four-year colleges, students who plan to enter the field of education should engage in a broad-based liberal arts curriculum during their freshmen and sophomore years. Students in this program will also study (1) the historical and philosophical foundations of education and (2) the application of psychological theories to educational practices.

Students are advised to select academic courses which will coincide with the subject matter they intend to teach. All students should become familiar with the college catalog of the intended transfer institution.

Graduates of this program customarily transfer to baccalaureate institutions. Graduates not immediately pursuing an additional degree are eligible to substitute teach in New Jersey schools.

Graduates from this program should be able to:

- Describe the historical and philosophical foundations of American education today;
- Demonstrate a knowledge of the most widely accepted theories and philosophies of education;
- Apply an understanding of psychological concepts to the learning behavior of children;
- Develop personal responses to classroom situations based on educational theories;
- Demonstrate effective oral and written communication skills;
- Display an awareness of the history and variety of human achievement, experiences, values and modes of expression;
- Identify the elements of good teaching;
- Compare and contrast the role of federal, state and local governments in education.

Please Note: The New Jersey Board of Education revised teacher education guidelines in 2004. It is important that all students who choose a teacher education program contact the Transfer Office at BCC or the college/university where they intend to complete the program to determine the content areas which are acceptable majors for teacher education candidates. Students graduating on or after September 1, 2004 must achieve a cumulative GPA of at least 2.75 or higher for NJ certification. Courses taken at accredited two-year colleges are accepted toward meeting requirements for NJ teacher certification only if such courses appear on an official transcript of a regionally accredited four-year college.

**Total** | **21-22**

Electives* (SPE 102, EDU 112, EDU 105, LIT 215 or PSY 251 recommended) | 9-10

**Total Required for Degree** | **64**

*Students are encouraged to meet with a Transfer Advisor to determine which of the following courses will transfer to their intended four-year college or university: EDU 105, EDU 112, LIT 215, or PSY 251.
The Electronics Engineering Technology program provides a solid theoretical foundation as well as practical “hands-on” laboratory experiences in Electronics. This program includes traditional EET courses as well as some computer courses to enable graduates to pursue a career as an industrial electronics-engineering technician.

The mission of the Burlington County College Electronics Engineering Technology program and Computer Servicing & Networking Technology option is to produce graduates who are able to obtain employment as a technician or transfer to a four-year college. In addition, graduates will be technically competent, able to communicate effectively, work well with others and demonstrate professionalism.

Graduates of this program should be able to:
- Apply the knowledge, techniques, skills, and modern tools of the discipline to engineering technology activities;
- Apply knowledge of analog and digital electronics, computers, networks, mathematics and science to technical problems or projects;
- Conduct standard laboratory tests and measurements, and to analyze and interpret experiments;
- Function effectively as a member of a technical team;
- Identify the characteristics of, analyze and solve technical problems;
- Apply written, oral, and graphical communication in both technical and nontechnical environments; and an ability to use appropriate technical literature;
- Express the need for continuing professional development through conferences, seminars, courses and the pursuit of advanced degrees;
- Express a commitment to address professional and ethical responsibilities, including societal and global issues and a respect for diversity;
- Recognize a commitment to quality, timeliness and continuous improvement;
- Demonstrate knowledge and hands-on competence in the application of circuit analysis and design, computer programming, associated software, analog and digital electronics, and microcomputers, and engineering standards to the building, testing, operation, and maintenance of electrical/electronic(s) systems;
- Demonstrate knowledge and hands-on competence in the applications of physics or chemistry to electrical/electronic(s) circuits in a rigorous mathematical environment at or above the level of algebra and trigonometry.

Graduates of this program can transfer to Drexel University at BCC, New Jersey Institute of Technology, Newark, NJ or Fairleigh Dickinson University to continue their education towards a Bachelor’s of Science degree in Engineering Technology.

The Burlington County College Electronics Engineering Technology Program is Accredited by: Engineering Technology Accreditation Commission (ETAC) of ABET, 415 North Charles St., Baltimore, MD 21201 (410) 347-7700

The Computer Servicing & Networking Technology Option is on page 99.

**Total Required for Degree** 64

1 If the student has a previous background in circuits, he/she can get permission to take EET 121. EET 101 cannot be taken after passing EET 121.

2 Required for Drexel at BCC as well as: MTH 119, ECO 203, and CHE 115/116
Energy Management

Associate of Applied Science, (AAS.NRG)

This program is designed to prepare students to move directly into the workforce upon graduation. Graduates will be qualified for entry-level positions in residential and commercial building energy management, including energy auditing, building systems management, and evaluating and recommending appropriate energy management solutions. Students will be exposed to the theory, materials and equipment necessary to work in the energy management field. Graduates will be qualified to sit for industry-recognized certification exams in applicable disciplines, such as BPI Building Analyst.

Career Opportunities:
- Building energy analyst
- Commercial building energy technician (or with experience, manager)
- Controls-focused service technician
- Energy program coordinator
- Lighting specialist

Types of Employers:
- Residential energy auditing companies
- Facilities/physical plant departments of colleges, hospitals, government buildings, commercial and industrial facilities
- HVAC controls companies
- Energy equipment and services companies
- Engineering/architecture firms

Graduates of the program should be able to:
- Explain the concepts of building energy use and efficiency;
- Apply appropriate methods and technology to evaluate energy use and efficiency;
- Specify, design and implement solutions to reduce energy use and improve efficiency;
- Demonstrate effective oral and written communication skills;
- Discuss and analyze the interrelationship between energy use, economic factors, societal needs, and environmental health;
- Develop a written analysis report evaluating building energy usage and appropriate solutions.

*Prerequisite for SST 280 – Successful completion of the first two semesters of coursework required for the Energy Management AAS degree. Students must see Career Services to register for this course.*
Engineering

Option to Liberal Arts and Sciences, (AS.EGR)

This program is designed for students who intend to transfer to a baccalaureate degree in Engineering. Students planning to transfer after graduation should consult the catalog of the college where they intend to complete their studies and enroll in courses which will meet transfer requirements.

Graduates of this program should be able to:
• Communicate effectively both verbally and in writing;
• Demonstrate effective mathematical skills and application of scientific principles in solving engineering problems;
• Apply critical thinking and problem solving skills in the analysis of data, in the design of experimental procedures and evaluation of outcomes.

BCC has formal transfer agreements with several area four-year institutions.

Electives* (CSE 110, 135, EGR 113, 202, 220, & MTH 230 recommended) 9

Total Required for Degree 64

* ECO 203 required as one of the Social Science courses for Drexel at BCC.

*The required electives for Drexel at BCC are BIO 103 and BIO 104; CSE 110 or CSE 135; MTH 201, and MTH 230.
The English major option provides students with a Liberal Arts concentration aimed at developing excellent reading and writing skills. Students develop the ability to analyze text, collect and organize research data, and write clearly and effectively. In addition, the program emphasizes critical reading and writing skills required in a variety of career fields including law, medicine, teaching, communications, business, and industry.

Graduates of this program should be able to:

• Demonstrate the importance of using sensitive and precise language;
• Write for different audiences and purposes;
• Develop strategies for generating ideas and organizing thoughts;
• Analyze the effectiveness of their own academic and professional writing;
• Utilize the writing process to develop and argue a thesis supported in coherent paragraphs;
• Critically and thoughtfully read select texts that comment on human experience;
• Use various critical perspectives to analyze fiction, poetry and dramas;
• Relate the cultural, historical, and social significance of texts ranging from ancient to contemporary world literature.

Students planning to transfer after graduation should consult the catalog of the college where they intend to complete their studies.

| **Total Required for Degree** | **64** |
The Entertainment Technology Program provides students with a solid foundation in the knowledge and skills needed for entry into the entertainment field or to transfer to a baccalaureate program. Students may choose from the following two options: Sound and Recording Engineering (AAS.ETS) and Video and Digital Media Production (AAS.ETV). Students who wish to transfer to a baccalaureate program are strongly advised to seek information regarding admission and transfer requirements.

The Sound and Recording Engineering Option provides students with opportunities for entry-level positions in theatrical performance, entertainment events, audio production for theatre, concerts, theme parks, industrial/corporate settings, and in sound and recording studios. Graduates may also work as freelancers and entrepreneurs.

Students will learn amplification, sound reinforcement, and recording of live performances. They will develop a practical and operational understanding of the various hardware elements includes speakers, mixers, amplifiers, microphones, analog and digital recording, mixing consoles, signal routing and processors (equalizers, compressors, limiters, gates, etc.). Students will also have hands-on experiences that enable them to edit audio, mix audio, utilize acoustics, synchronize audio with video and multimedia, and add sound effects.

Graduates of this program should be able to:
- Operate audio amplification and recording equipment.
- Edit and mix audio, add sound effects and produce video and multimedia.
- Configure, operate, and serve on a “crew” while utilizing sound and live recording systems.
- Obtain entry-level employment in the entertainment and associate fields, particularly in the field of sound amplification (public address and concerts), recording, audio for video production, concert and events venues, recording companies, music entertainment fields, as freelancers, or self-employment careers.

| Total Required For Degree | 64 |
The Entertainment Technology Program provides students with a solid foundation in the knowledge and skills needed for entry into the entertainment field, or to transfer to a baccalaureate program. Students may choose from the following two options: Sound and Recording Engineering (AAS.ETS) and Video and Digital Media Production (AAS.ETV). Students who wish to transfer to a baccalaureate program are strongly advised to seek information regarding admission and transfer requirements.

The Video and Digital Media Production option of the Entertainment Technology Program prepares students for jobs such as broadcast or production engineers, producers and assistant producers, video editors, camera operators, master control and technical directors, freelance business persons, and the associated video production opportunities in the expanding video and Internet areas.

Non-linear digital video editing is the industry standard for professionals working in television and film — and now on Web pages and the Internet. Industry demand for editors skilled in the leading digital post-production techniques has caused non-linear editing to emerge as a rapidly growing specialty.

With the expansion of digital video, DVDs, webstreaming, video CDs, and the associated media, opportunities exist for employment on production teams, serving as freelancers or operating as independent producers, or entrepreneurs for recording special events, weddings, social functions, corporate content media, instructional and multimedia productions, and a host of varied content and media applications.

Graduates of this program should be able to:

- Produce “content” such as television programs, videos used for broadcast, cable, web streaming, interactive multimedia projects, entertainment productions, and a wide variety of applications used within public and private institutions.
- Utilize various types of cameras.
- Produce videos in both studio and field settings.
- Write various forms of scripts and projects.
- Use computerized non-linear editing equipment.
- Be competent with associated audio technologies and output-finished products used in various media such as videotape, DVD, video CDs, and the Internet.
- Obtain entry-level employment in the field of video production.

Environmental Science

Option to Liberal Arts and Sciences, (AS.ENV)

This program is designed for the student who wishes to pursue a bachelor's degree at a four-year institution in the field of Environmental Science, Environmental Technology, Environmental Engineering, Wildlife Management, Ecology, and Wastewater Engineering.

Graduates of this program should be able to:

• Discuss ecological concepts by critically analyzing data sets and figures;
• Understand and employ the scientific method when performing an experiment;
• Demonstrate knowledge of the world's major ecosystems;
• Describe the diversity of human populations as they relate to the distribution of natural resources;
• Demonstrate an understanding of the ethical, economic and political framework in which environmental issues are enmeshed.

Fashion Design

Associate of Applied Science, (AAS.FAD)

The Fashion Design program prepares a student to begin work in the field of fashion immediately after graduation.

Students who successfully complete this program will receive a solid introduction to the foundations of apparel design and to the current practices in the apparel industry. The business aspects of developing and designing fashion apparel in a global marketplace are emphasized.

Students will explore the employment opportunities available to them in the apparel industry. Positions available to individuals with an education in fashion design include:

- Fashion Designer
- Fashion Product Developer
- Product Manager
- Merchandise Director
- Fashion Director
- Technical Director

Graduates of this program should be able to:

- Conceptualize a group of related pieces of apparel;
- Execute documentation that shows how to successfully produce a prototype piece of apparel;
- Solve a variety of problems routinely presented to the apparel designer;
- Demonstrate knowledge of the current international textile, apparel design, and apparel marketing industries;
- Place in historical context and describe individual pieces of apparel and apparel ensembles;
- Enter the field of apparel development as assistants in design, technical design, or production.

This program allows a student to prepare for careers in apparel marketing and merchandising. The program is structured with the understanding that individuals will be electing to transfer to a four-year program in Business Administration or Marketing. Positions available to those with this educational specialization include:

- Retail Product Developer
- Corporate Apparel Manager
- Merchandising Director
- Sourcing Specialist

Graduates of this program should be able to:

- Demonstrate knowledge of the process currently used for apparel product development in the global manufacturing industry;
- Develop a marketing tool addressing a target market for apparel product;
- Acquire knowledge of a wide variety of textile products;
- Place in historical context and describe individual pieces of apparel and apparel ensembles.

Students who wish to prepare for more technically-oriented or artistically expressive careers in fashion are encouraged to review the Associate in Applied Science Fashion Design program in this catalog.

Fashion Studies

Associate of Arts, (AA.FAS)

This program prepares a student to transfer to four-year programs in fashion design, fashion/retail merchandising, fashion marketing, fashion product development, marketing or business, one-year accelerated associate of applied science programs in fashion-related areas or four-year programs in marketing or business.

A student in Fashion Studies may transfer credit earned at BCC to other apparel related programs; however, care must be taken to confirm transferability of each course to a specific institution or program.

Graduates of this program should be able to:

- Place in historical context and describe individual pieces of apparel and apparel ensembles;
- Demonstrate knowledge of the current international textile, apparel design, and apparel marketing industries.

Whatever their academic goals, students who successfully complete Burlington County College's Fashion Studies program will receive a comprehensive introduction to the foundations of apparel development and marketing, and to current practices in the apparel industry. In this program, the business aspects of developing and designing fashion apparel in a global marketplace are emphasized.

Students will also explore entry-level employment opportunities ultimately available to them in the industry, which include:

- Fashion Design Assistant
- Production Assistant
- Assistant Product Manager
- Assistant Merchandiser
- Assistant Product Developer

**Total Required for Degree** 64
Fire Science Technology

Associate of Applied Science, (AAS.FSC)

This program was designed in cooperation with the Burlington County Emergency Services Training Center and other members of the firefighting community. It is designed to address the professional education needs of firefighters as well as to provide an educational path for those seeking a career or volunteer service in the field of firefighting and prevention.

The program courses are offered at the Emergency Services Training Center in Westampton. Registration is available through the Center. Students register for the general education courses and Arson Investigation through the College. Courses previously completed at the Center are evaluated for credit toward the degree. Courses taken at other institutions and agencies will be similarly evaluated.

Graduates of this program should be able to:

• Understand fire hazards and controlling mechanisms, detection and alarm systems, fire behavior, and the physical and chemical effects of combustion;
• Demonstrate fire prevention techniques and procedures;
• Demonstrate fire suppression tactics and strategies;
• Employ local, state, and federal fire standards and legislation;
• Understand fire safety codes and implement code enforcement and effective inspection;
• Identify fire patterns, causes, origins, and arson;
• Understand the organization and management of fire service systems;
• Develop a working understanding of the fundamentals of fire science technology and fire protection engineering;
• Develop skills using the most advanced fire science technology available.

Attendance at the Emergency Services Training Center requires sponsorship by a county fire company. Applicants needing assistance for sponsorship should contact the Burlington County Emergency Services Training Center at (609) 702-7157.

A student may earn credit for EMS 101 Basic Emergency Medical Technician by submitting evidence that she/he is a state certified Emergency Technician.

*These program courses are offered at the Burlington County Emergency Services Training Center.
Food Service Management Technology

Associate of Applied Science, (AAS.FSM)

This program prepares students for an entry-level, food service supervisory position in commercial and institutional facilities, and also provides career development for food service employees. This program emphasizes management skills.

Employment opportunities exist in restaurants, hospitals, schools, hotels, convenience stores, nursing homes, cafeterias, clubs, recreation, fast-food, and catering. Students who wish to transfer to a baccalaureate program are strongly advised to seek information regarding admission and transfer requirements.

Graduates of this program should be able to:

- Gain the technical and scientific knowledge of hospitality management;
- Demonstrate the knowledge of risk management in the maintenance of a safe and sanitary facility;
- Understand the methods used to control costs;
- Display an understanding of basic human resources issues;
- Identify the unique aspects of marketing hospitality services;
- Understand the basic fundamentals in the operational areas of food production, customer service, purchasing and nutrition;
- Perform satisfactorily at an entry-level management trainee position at a food service or hospitality operation.

Geospatial Technology

Associate of Applied Science, (AAS.GIS)

This program consists of a sequence of introductory courses in geographic information systems (GIS), global positioning systems (GPS), and remote sensing (RS).

These courses will emphasize the application of geospatial technology to a broad range of issues such as sustainable population growth, land use management, transportation route planning, and water-quality management.

Graduates of this program should be able to:

- Demonstrate an understanding of geographic information systems and how they can be used to manage and analyze spatial information;
- Demonstrate an understanding of the principle of data acquisition and management with the global positioning system;
- Demonstrate an understanding of the principle of remote sensing and image processing;
- Explore geospatial technology's role in social, behavioral, life, and physical sciences;
- Apply critical thinking and communication skills through problem-solving projects.

**Total Required for Degree** 64
The certificate program provides training in geospatial technologies to individuals who are interested in obtaining employment or enhancing their workplace skills within the field of geospatial technology.

Graduates of this program should be able to:
- Demonstrate an understanding of geographic information systems and how they can be used to manage and analyze spatial information;
- Demonstrate the principle of data acquisition and management with the global positioning system;
- Demonstrate an understanding of the principles of remote sensing and image processing;
- Discuss the value and applicability of geospatial technology in the real world.

Graphic Design & Digital Media

Associate of Applied Science, (AAS.GDD)

The Graphic Design and Digital Media program provides students with a solid foundation in design concepts and practices, and encourages the development of informed responses to issues surrounding visual communication.

In completing the Graphic Design and Digital Media program, students prepare themselves for entry-level positions in the design professions, such as junior designers, designers’ assistants, and production artists.

Students who wish to transfer are strongly advised to seek information about the admission requirements to a four-year institution of their choice early in their studies at BCC.

Students of graphic design should display an aptitude in the visual arts. An interview and/or portfolio review may be helpful before enrolling in this program to assess student interests and aptitudes, and to ensure appropriate placement in the program.

Graduates of this program should be able to:

- Demonstrate an understanding of the principles of visual composition, typography, and symbolic representation;
- Communicate effectively verbally and in writing concerning issues relevant to the design problem-solving process;
- Demonstrate proficiency with the tools and technologies relevant to the creation of visual images for print and digitally-based distribution;
- Demonstrate an understanding of the ethical and legal considerations relevant to common design practices;
- Demonstrate effective working habits, including an ability to meet deadlines, and incorporate constructive criticism while generating alternative solutions to design problems;
- Produce a portfolio of original work demonstrating an ability to solve problems in visual communication in a unique and meaningful way;
- Develop a strategy to research and pursue employment opportunities suitable to the level of personal abilities and talents evidenced by the portfolio.

126 | Burlington County College
Health Information Technology

Associate of Applied Science, (AAS.HIT)

This program prepares students for a career in the field of health information management. A Registered Health Information Technician’s responsibilities typically include: maintaining, compiling, analyzing and evaluating health data, controlling the use and release of health information, and supervising staff. Employment opportunities exist in hospitals, outpatient and ambulatory care facilities, physicians’ offices, nursing homes and other long-term care facilities, pharmaceuticals, health insurance groups and companies as well as local, state and federal health agencies. The curriculum combines didactic courses with professional practice experience in selected health care facilities. Graduates of this program are eligible to apply to the American Health Information Management Association to establish eligibility to take the certification examination and earn the credential RHIT, Registered Health Information Technician.

Students who are interested in this program should plan to attend the HIT information seminar, which is held periodically throughout the year. The Health Information Technology Program applies selective admission standards. Therefore, admission to the College does not guarantee admission to the program. Students must apply to the program and meet all admission standards prior to taking program level courses (see program brochure). Enrollment in this program is limited by the number of available professional practice sites. Qualified applicants will be accepted until all places are filled. Interested applicants are encouraged to review the technical standards of the program prior to applying for admission, they must take the PSB exam and undergo a criminal history background check. Students admitted must have a satisfactory history and physical examination prior to beginning HIT 110 (PPE I) and HIT 212 (PPE II). Students also must maintain personal health insurance coverage throughout the program. HIT students are responsible for their own transportation (including all parking and/or toll expenses) to professional practice sites.

Graduates of this program should be able to:

- Demonstrate knowledge of Health Data Structure, Content and Standards.
- Demonstrate an understanding of quality management and performance improvement programs, be able analyze clinical data and identify trends that demonstrate quality, safety, and effectiveness of healthcare.
- Demonstrate an understanding of human resources including, leadership, teams, committees, orientation and training programs, performance measurement, benchmarking and QI tools.
- Demonstrate knowledge of Healthcare Delivery Systems, including information system policies and procedures, current laws, accreditation, licensure and certification standards, comply with the changing regulations in reimbursement systems, and differentiate the roles of various providers and disciplines throughout the continuum of healthcare.
- Demonstrate the use of Information and Communication Technologies including hardware and software to ensure data collection, storage, analysis, and reporting of information, common and specialized software applications used in healthcare, and apply policies and procedures necessary in the use of the electronic health records, personal health records and public health applications.

Total Required for Degree 68

This program is accredited by Commission on Accreditation for Informatics and Information Management Education (CAHIIM) Accreditation Services c/o AHIMA, 233 N. Michigan Avenue, 21st Floor Chicago, IL 60601-5800, (312) 233-1131
Health Sciences

Associate of Applied Science, (AAS.HSC)

The Associate of Applied Science Degree in Health Science is for practicing allied healthcare paraprofessionals who have graduated from an accredited postsecondary education program with a certificate and/or diploma and who are certified or licensed to practice in their chosen field. This curriculum is designed for healthcare paraprofessionals who have completed a non-credit postsecondary healthcare program culminating in a certificate or licensure. Certification or licensure must be recognized by the appropriate accrediting agencies. This program offers the general education component which, when completed and combined with credit awarded for prior postsecondary healthcare education, qualifies the student to be awarded an Associate of Applied Science (A.A.S.) Degree in Health Science.

Applicants must meet the general admission criteria of the College and are required to submit the following documentation for review: A copy of current license and or certificate, official transcripts and diploma from the completed training program, and a current resume.

The number of credits awarded for non-credit post-secondary healthcare education will be determined after a review of the documentation. A maximum of thirty credits for certification/licensure will be granted after completion of the required Burlington County College degree requirements (with grades of “C” or higher) resulting in an A.A.S. Degree in Health Science.

Postsecondary accredited allied health programs consisting of a minimum of 500 hours will earn 30 college credits. Accredited allied health programs with no less than 300 and up to 499 hours will earn a minimum of 22 college credits.

Students receiving less than 30 credits for their postsecondary work should select additional courses to graduate with a minimum of 62 credits. See page 55, Associate of Arts (A.A.) Degree.

It is important to note that this curriculum will not confer eligibility for advanced certification nor advanced licensure within the healthcare disciplines.

Graduates of this program should be able to:

• Practice within the parameters of individual knowledge and experience;
• Practice within the ethical, legal and regulatory frameworks of professional practice;
• Serve as a positive role model within the healthcare setting and community at large;
• Recognize the impact of economic, political, social and demographic forces on the delivery of healthcare;
• Participate in lifelong learning.

The Hearing Instrument Sciences Program provides both an academic and clinical experience that will enable students to develop the knowledge and skills necessary for successful employment within the spectrum of care, and licensed scope of practice, of a Hearing Aid Dispenser. Competencies developed will include the evaluation of the range of human hearing, the making of ear impressions, the cleaning and alteration of earmolds, the adaptation of hearing aids, and the physical examination of a person's ear in conjunction with the dispensing of hearing aids.

Content areas of the academic component include anatomy and physiology of the auditory and vestibular systems, communication and communication disorders, acoustics and psychoacoustics, auditory rehabilitation, patient counseling and communication dynamics, and legal and ethical responsibilities. Experience at the clinical setting and lab is required for successful completion in competency based clinical areas of auditory assessment and hearing aid selection, fitting, verification, outcome assessment and infection control.

The program develops graduates who will provide hearing healthcare services ethically, and in accordance with State practice regulations. It is anticipated that graduates would, upon successful completion of their degree, sit for both the practical and written state licensing exam. A primary function of the program is to teach the theoretical background and the laboratory skills to prepare graduates for successful passage of their State boards.

Licensed Hearing Instrument Dispensers find a variety of professional employment opportunities including independent contracted employment, professional consulting, and the establishment and the technical support of related professional and private practice patient services.

Additional Available Benefit
The American Conference on Audioprosthology (ACA) is the only academic professional recognition in hearing instrument sciences in the United States. Completion of the Hearing Instrument Sciences Program at BCC qualifies a graduate to apply for ACA designation through the International Institute for Hearing Instrument Studies. Following a successful clinical portfolio review by the ACA and the attainment of two years of professional experience, the BCC Hearing Instrument Sciences Program graduate will be entitled to use the professional designator “ACA” after his or her name.

Interested applicants should obtain a Hearing Instrument Sciences Program Admission Information booklet and plan on attending an information session.

Graduates of this program should be able to:
- Demonstrate an understanding of the scope of professional services provided by Licensed Hearing Instrument Dispensers;
- Establish the best practice of integration of hearing health care team services for optimum patient outcomes;
- Illustrate an understanding of the physical attributes of sound and their psychological correlates, characteristics of sound transmission and propagation, ear canal and earmold acoustics;
- Demonstrate an understanding of the basic psychoacoustic methods and their applications in measuring such auditory phenomena as threshold, differential sensitivity, frequency-pitch relationships, intensity-loudness relationships, masking and binaural hearing;
- Demonstrate sound practice in acquiring and recording patient medical histories, including appropriate areas of inquiry and methods of eliciting information;
- Exhibit proper techniques for otoscopy (examining the external canal and tympanic membrane of the ear), and for pure tone audiometry including air and bone conduction, masking, and knowledge of calibration and infection control techniques;
- Display knowledge with the processes of auditory habilitation and rehabilitation and the role of the Hearing Instrument Specialist in this process.

Hearing Instrument Sciences

Associate of Applied Science, (AAS.HRS)
This program is designed to introduce students to the changes in human society over time, to expose students to the diversity of the human experience, to chronologically examine the global struggle of all people, and to assist students to scientifically evaluate their own heritage.

Written composition, oral presentation, problem solving, and critical thinking are essential skills used in historical study. The history curriculum prepares students for study in a variety of fields including education, public service, and political science. Moreover, the study of history prepares students for careers in law, journalism, business, public relations, international relations, archives, museums and historical societies. Majoring in history provides an excellent bridge to any career requiring an in-depth study of the human condition.

Students planning to teach History on the Elementary or Secondary level, should include the following as open Electives; EDU 112 History Foundations and PSY 250 Educational Psychology.

Students planning to transfer after graduation should consult the catalog of the college where they intend to complete their studies.

Graduates of this program should be able to:

• Demonstrate a factual knowledge of significant past events;
• Demonstrate an understanding of history as a process of cause and effect, rather than solely as memorization of facts, dates, or people;
• Utilize critical thinking to evaluate the impact of complex human behavior on significant past events;
• Demonstrate an understanding of historical perspective as an instrument to determine what makes a past event significant;
• Use their knowledge of recurring historical themes to understand varied outcomes in differing historical time periods.

Hospitality and Tourism Management

Associate of Science, (AS.HOS)

This program prepares students for entry level management positions in the hospitality and tourism industry. There is an emphasis on tourism and developing tourism opportunities within the State of New Jersey. In addition, this degree emphasizes ecotourism and using New Jersey's natural resources as tourist attractions.

Graduates of this program should be able to:

• Apply the concepts and theories of hotel and tourism operations;
• Analyze the best hospitality practices;
• Demonstrate effective written and oral communication skills;
• Describe the principles of what travelers look for in hospitality and tourism services;
• Interpret basic resort development theory;
• Explain food and beverage management.

The Human Services program is designed to educate and train individuals in the human services profession. The human services worker is a generalist who can work in a variety of settings including community health centers; agencies serving the physically and mentally disabled; rehabilitation, drug and alcohol programs and halfway houses. Employment opportunities also exist in services for youth; detention centers; community living arrangements; hospitals; senior citizen; and social agencies and organizations, welfare and human services departments. The generalist approach is achieved through a core of courses which stress the holistic nature of individuals. Emphasis is placed upon becoming competent in the skill areas required for working in the human services field. The Human Services degree program combines classroom learning and a field placement.

Human services students learn to help people to understand their problems and motivate them to seek assistance. They assist in obtaining services for people in need through advocacy, outreach and brokering, and the collection of client personal, social, and vocational data for the preparation of intake reports and case records. The human services student understands how to arrange for and follow-up with specific educational, social, and vocational programs for clients, and gather and evaluate data concerning human services programs. The human services student becomes an effective participant in local planning and development of programs, and learns how to educate and facilitate behavior change in individual clients, their families, and groups in effective problem solving, in daily living skills and in more effective interpersonal relationships.

Human service workers are “people-helping professionals.” They serve individuals and groups of all ages in a variety of settings. Human service workers care about others and dedicate themselves to bettering the lives of the persons they work with directly and the community.

Graduates of this program should be able to:

- Demonstrate competency in the core skill areas of the Human Services profession including direct service skills, administrative skills, interpersonal skills and clinical skills;
- Apply fundamental theoretical perspectives to practical experience;
- Develop a professional identity in human services;
- Be fully knowledgeable of community services;
- Gain employment at the mid-level of paraprofessional level in a variety of programs covering the full range of social service agencies in the human services field.

132 | Burlington County College
International Studies

Option to Liberal Arts, (AA.IGS)

The A.A. program in International Studies provides a course of study for those students interested in understanding the political, social, economic and cultural elements present in the contemporary world. This transfer program provides a strong liberal arts foundation with an international focus. This program provides a curriculum that examines international relations from an historical background; the influence of language and literature and geography on cultures; and the significance of different religions and develops fluency in a foreign language in a cross-cultural context. The International Studies prepares students for transfer to four-year colleges to prepare for such fields as Foreign Service, international relations, international business, international aid and development, international news analysis and communication. Students interested in careers in law, communications, government, language translation and education will benefit from this program.

Graduates of this program should be able to:

• Write at a more sophisticated level.
• Analyze a variety of issues and present objective surveys of public debates on these issues.
• Explain the ramifications of legal and governmental decisions.
• Demonstrate ethical judgments about matters of public information.
• Use various criticized perspectives to analyze non-fiction texts.
• Translate complex information into easily understood prose;

Students planning to transfer after graduation should consult the catalog of the college where they intend to complete their studies.

Journalism

Option to Liberal Arts, (AA.JOU)

The Journalism program prepares students to communicate effectively in writing. This preparation enables students to succeed in a variety of fields as well as to contribute in meaningful ways to society. The Journalism program prepares students to work in print and broadcast journalism, organizational communications, public relations, marketing, and advertising. Journalism graduates work in communication organizations of various sizes and in a variety of positions. Students are advised that employment in Journalism traditionally requires education beyond the AA degree and practical experience in the field.

Graduates of this program should be able to:
- Communicate more effectively in writing;
- Translate complex information into easily understood prose;
- Make ethical decisions about duties and responsibilities of the media and those involved in public communications;
- Demonstrate ethical judgments about matters of public information;
- Analyze the concept of media convergence;
- Explain the fundamental nature and elements of news and information delivery;
- Use various methods to analyze and contribute to online and Internet sources.

Students planning to transfer after graduation should consult the catalog of the college where they intend to complete their studies.

Electives (COM 103, POL 103, or POL 215 recommended) 6

**Total Required for Degree** 64
The Liberal Arts major, with its twin “Liberal Arts and Sciences” major, is the basic major to prepare one for entering many occupations, especially the professions at a higher level. Liberal arts training has long been considered the mark of becoming an educated person.

At the AA (two-year) level, the major can be taken either as a whole, or by concentrating in one of its “options” (see English, History, Sociology, etc.). Whichever way one chooses, this degree would be the usual preparation for entering a BA (four-year) degree program at a transfer institution. Students should familiarize themselves with specific recommendations of that four-year program to determine whether it would be better to concentrate or to stay with the general Liberal Arts major. Most students who stay with the general major have decided to postpone the narrowing process until they have had more time to explore specific interests.

By studying liberal arts before specializing, the student is making the choice to widen his/her ability to question and to form sound judgements, based on studying the rich world traditions that give us guidance as to what it is to lead a full human life. Technical training without liberal arts training is considered to prepare one for making technical decisions, but not for overall human or social decisions.

Graduates of this program should be able to:

- Demonstrate an understanding of concepts in a variety of fields;
- Identify a specific field based on an exploration of interests;
- Critically read and write the English language;
- Demonstrate an appreciation of Western culture and global diversity;
- Evaluate the complexities of human behavior;
- Appraise human and social decisions with some sophistication and authority.

Liberal Arts and Sciences

Associate of Science, (AS.LSC)

This curriculum is designed for students who desire to pursue an academic concentration in one of the natural science or allied health areas. Included is the appropriate General Education foundation with sufficient flexibility to accommodate the requirements of the four-year institution(s) to which students may wish to transfer. Students must be familiar with the catalog(s) of the transfer college(s) to enable them to select courses wisely.

Graduates of this program should be able to:

- Understand and employ the scientific method of inquiry to draw conclusions based on verifiable evidence;
- Apply critical thinking and problem solving skills in the analysis of data, in the design of experimental procedures and evaluation of outcomes;
- Understand and explain scientific theories that have had a broad impact on society;
- Demonstrate knowledge of current scientific advances and techniques;
- Demonstrate good laboratory skills;
- Communicate effectively both verbally and in writing.

§ This certificate is NOT eligible for Financial Aid.
This program is designed to prepare graduates for transfer to a baccalaureate degree program in mathematics or a related area.

Graduates of this program should be able to:

• Differentiate and integrate algebraic and transcendental functions;
• Perform double and triple integrals;
• Perform partial differentiation;
• Solve first order differential equations and second order differential equations with constant coefficients;
• Reason critically, analyze, and solve mathematical problems objectively.

Music

Option to Liberal Arts and Sciences, (AS.MUS)

The Associate of Science in Music degree provides students with a variety of courses in music appreciation, theory, harmony, and performance. In addition to music teaching, students who complete the Music major may pursue employment opportunities as a church musician or director, professional performer, or in the music industry.

All students are advised to select academic courses which will coincide with their intended careers. Students should become familiar with the college catalog of the intended transfer college.

Graduates of this program should be able to:

- Demonstrate proficiency on an orchestral/band instrument, piano, voice, or guitar;
- Demonstrate knowledge of the fundamentals of music;
- Write harmonizations in both diatonic and chromatic styles;
- Utilize aural skills developed through sight-singing, ear training and musical dictation;
- Perform in a recital, demonstrating both the technical and artistic components of music.

Students who plan to transfer are encouraged to check the catalogs from four-year colleges or universities for baccalaureate requirements.

Nursing

Associate of Applied Science, (AAS.NUR)

This program combines classroom instruction with laboratory and clinical experiences. Students are admitted twice yearly, into day courses in the fall semester and into primarily evening courses in the spring semester. Graduates are prepared to take the National Council Licensing Examination for Registered Nurses and to provide care as beginning practitioners in health care agencies. Nursing licensure is regulated by the New Jersey Board of Nursing; legal limitations for eligibility to take the licensing examination include having no history of substance/chemical abuse and no convictions for violating any federal or state law relating to narcotic drugs. A criminal history background check is a prerequisite for Registered Nurse licensure.

Interested applicants should obtain a Nursing Program Admission Standards booklet and plan on attending an information session. Students who have applied to the College, taken the Assessment test or are current students at the College should meet with a counselor. Requirements for Admissions into the Nursing program include:

- High School diploma or G.E.D;
- High school level algebra, biology and chemistry with labs or equivalent college course work with a grade of “C” or better
- BCC GPA of 2.50;
- TEAS V Test score of 60 percent or higher achieved no earlier than 3 years prior to admission to the nursing program;
- Completion of all remedial work as determined by the College Assessment test.

TOEFL within 2 years of admission for students educated outside the United States. Required Internet-based scores (iBT): Reading 22, Listening 22, Speaking 26, and Writing 25. TOEFL scores must be submitted with “Intent to Enroll” forms.

Qualified applicants will be accepted until all seats are filled. If the number of qualified applicants exceeds the number of seats, priority will be established on basis of county residency, GPA and number of applicable General Education courses completed towards the nursing degree.

All Intent-to-Enroll forms must be mailed. No hand-delivered forms will be accepted. Forms postmarked prior to acceptance dates listed will not be considered for program admission.

Graduates of this program will be able to:

- Practice within the ethical, legal, and regulatory frameworks of nursing and standards of professional nursing practice;
- Practice within the parameters of individual knowledge and experience;
- Use standards of nursing practice to perform and evaluate client care;
- Recognize the impact of economic, political, social, and cultural forces on the delivery of healthcare;
- Develop and implement a plan to meet life long self-learning needs.

The Burlington County College Nursing Program is accredited by: The New Jersey Board of Nursing, 124 Halsey Street, 6th Floor, Newark, NJ 07102 (973) 504-6430 and National League for Nursing Accrediting Commission (NLNAC), 3343 Peachtree Road, NE, Suite 850, Atlanta, GA 30326 (404) 975-5000 • Fax (404) 975-5020
This program is intended to prepare individuals for employment as a paralegal, also referred to as a legal assistant. A paralegal is a person, qualified by education, training or work experience, who is employed or retained by a lawyer, law office, corporation, governmental agency or other entity, and who performs specifically delegated substantive legal work for which a lawyer is responsible.

This program prepares students to perform the functions of a paralegal which typically include communicating with clients, drafting legal documents, performing research, and case management. Paralegals may not engage in the practice of law.

This rigorous program combines an in-depth study of legal concepts and the application of those concepts with a strong background in general education. This combination prepares students to work in diversified legal environments.

Students who plan to complete a baccalaureate program should consult with the program director early in the enrollment process regarding transfer opportunities or with the receiving institution regarding the transfer of credits.

Graduates of this program should be able to:
• Demonstrate an understanding of legal terminology;
• Conduct client interviews and collect relevant information for the preparation of a case;
• Demonstrate an understanding of the distinctions between the judicial systems at the local, state and national levels;
• Locate, research and cite sources of law;
• Draft documents typically required of working paralegals;
• Develop high standards of legal ethics and professional conduct.

In order to ensure the quality and integrity of the program, transfer credit for any legal specialty (LEX designated) course will only be accepted from institutions approved by the American Bar Association. In this regard, a limit of 15 credits of legal specialty courses will be accepted.

The course entitled Paralegal Skills and Practices and the course entitled Paralegal Internship are excluded from transfer in all cases.

In any instance wherein the transfer of a course from an American Bar Association approved institution has a course title or description that is not an obvious match to a corresponding course at Burlington County College, the Coordinator of the Paralegal Program will determine the acceptance of the transfer course.

No credit is currently awarded for legal specialty courses other than by transfer or attendance.

Students are required to take at least 10 semester credits or equivalent of legal specialty courses through traditional classroom instruction.

*If planning to transfer into the Legal Studies Program at Pierce College, please select ACC 112 Principles of Financial Accounting I with Spreadsheets.
The Pastry Arts Associate of Applied Science program provides specific preparation training required to prepare students to assume positions as trained pastry professionals in a variety of food service settings including full service restaurants, hotels, resorts, clubs, catering operations, contract food service, and health care facilities. Course offerings emphasize practical application, a strong theoretical knowledge base, professionalism, and provide the critical competencies to successfully meet industry demands. Graduates should qualify for entry-level positions such as pastry cook and assistant pastry chef. With experience, graduates may advance to positions such as pastry-chef, executive pastry chef, or food service director.

Graduates of this program should be able to:

- Identify the characteristics of proper pastry and confectionary techniques;
- Discuss the basic principles and techniques used in baking;
- Exhibit satisfactory performance in an entry-level baking trainee position;
- Practice sanitary food handling;
- Analyze recipes according to standard industry formulation;
- Create recipes using fundamental pastry techniques, processes and methods;
- Manage a dessert event from its planning to service;
- Critique a dessert and its recipes for their technical qualities.

Elective (any Culinary) 3

**Total Required for Degree** 65
Philosophy training teaches students how to think, especially about the most fundamental questions. Growing out of this belief, the Philosophy program has two general aims.

The first is to provide students who may enter a variety of majors at the upper division level with a liberal arts foundation centered in disciplined thought and moral awareness. Such a foundation is important for many professions today, including law, and other graduate programs.

The second is to provide students whose eventual goal is teaching and/or research in philosophy, religion or ethics with a strong two-year foundation for entering a philosophy major at a transfer college.

Students planning to transfer after graduation should consult the catalog of the college where they intend to complete their studies.

Graduates of this program should be able to:

- Think critically about a variety of philosophical or religious issues;
- Write at a level that uses discourse and analysis appropriate to philosophy or comparative religion;
- Demonstrate breadth and diversity by discussing approaches from a variety of philosophical or religious traditions;
- Demonstrate sound judgment in approaching contemporary moral problems.

Photography

Associate of Fine Arts, (AFA.PHO)

The photography program provides students with a foundation in the skills necessary for continuation and/or completion of a baccalaureate photography program at a four-year institution. The program also prepares students for entry-level work in commercial, editorial, corporate, portrait, wedding, and public relations photography. In addition, graduates of the program may choose to work as a self-employed freelance photographer.

Students planning to transfer to a baccalaureate program should consult the catalog of the college where they intend to complete their studies.

Graduates of this program should be able to:
• Operate traditional and digital cameras;
• Use photo imaging software;
• Process and print film;
• Design lighting for studio and location photography;
• Operate scanners and ink jet printers;
• Work collaboratively with colleagues in photography and related occupations;
• Develop critical thinking skills related to effective photography;
• Demonstrate entry-level competence in the photography profession.

Physics is the study of the basic principles of the natural world. This program is designed for those students interested in transferral into a baccalaureate program in physics. The goals of the program are to provide students with a clear understanding of the basic concepts and principles of physics, and to strengthen their understanding through problem solving and laboratory experiments.

Graduates of this program should be able to:

- Apply critical thinking skills and equations to solve numerical problems;
- Apply critical thinking skills to solve conceptual problems;
- Demonstrate good laboratory skills;
- Demonstrate effective oral and written communication skills.

Political Science

Option to Liberal Arts, (AA.POL)

The study of political science encompasses the human experience within the constantly changing world political system. The Political Science program provides studies in United States, foreign, and international politics, and government. Political Science courses offer a range of basic requirements for careers in law, criminal justice, corrections, business, industry, government service, teaching, public policy, political journalism, lobbying, legislative service, and political research. Students who wish to transfer to a baccalaureate program upon completion of the AA in Political Science should check the catalogs of four-year colleges and universities in order to coordinate requirements.

Graduates of this program should be able to:

- Describe the types of governments currently part of the world political system;
- Describe the role of a chief executive in world political systems;
- Describe the role of legislatures in world political systems;
- Describe the judicial systems and definitions of law, justice, fairness and order;
- Define the role of public opinion, elections and the mass media in political systems;
- Describe the role of interest groups in a political system;
- Define the political, individual and civil rights in world political systems;
- Describe the methods of transferring power and authority from one leader to another in world political systems;
- Identify international organizations and their role in international politics;
- Demonstrate effective oral and written communication skills;
- Demonstrate effective analysis of quantitative methods.

Psychology

Option to Liberal Arts, (AA.PSY)

The Psychology Option to Liberal Arts provides students with an understanding of how individual behavior is connected to biological, developmental, cognitive, and social processes. This option presents a scientific framework for understanding their own feelings, thoughts, and behaviors, and that of others. In addition, students may be able to deal with their own lives more effectively. The Psychology program offers students the opportunity to gain knowledge of numerous topics in psychology, and to examine select areas in more depth.

Psychology studies are foundational to many career areas such as education, social work, medicine, and industry. Students who plan on transferring to a baccalaureate program in psychology should check the catalog of four-year colleges and universities before selecting courses.

Graduates of this program should be able to:

- Understand the body of material that constitutes modern psychology including various theoretical approaches and their historical roots;
- Apply the perspective of psychology to contemporary social issues;
- Apply critical thinking, analysis, and synthesis to develop and defend a position;
- Understand research methodology and results;
- Demonstrate effective oral and written communication.

Radiography

Associate of Applied Science, (AAS.RAD)

This program prepares students for entry into careers as Radiologic Technologists (RT). A Radiologic Technologist is responsible for the production of recorded radiographs. This is a full-time day program which begins each summer semester and lasts six consecutive semesters (24 months).

The program consists of both an academic and clinical component. General education and program courses provide a foundation in the knowledge and skills needed to develop a life of personal fulfillment and contribution to society. Content areas of the academic component include positioning, exposure, patient care, equipment, and radiation protection. Experience at the clinical education setting and lab is required to successfully complete the competency based clinical component.

The program emphasizes communication, critical thinking, personal integrity, assessment and evaluation of radiographs and perform radiography exams. It prepares students to interact with patients as well as all health care professionals.

Enrollment into this program is limited by the number of available clinical sites. Students who are interested in this program should plan on attending the Radiography Information Seminar, which is held periodically throughout the year. A Radiography program application must be submitted and the applicant must meet specific criteria for admission. The application form is available on the Radiography Program website, staff.bcc.edu/radtech

Students admitted must be CPR certified (for health care professionals), complete a satisfactory physical examination indicating they can perform the rigorous program activities, undergo a criminal history background check and drug screening, and maintain malpractice/liability insurance and personal health insurance throughout the program. Radiography students are responsible for their own transportation to clinical sites.

Graduates of the program are eligible to take the examination offered by the American Registry of Radiologic Technologists and/or the state licensing examination.

Graduates of this program should be able to:

• Students will have knowledge and skills required to be clinically competent in all radiographic tasks necessary for an entry level radiographer including; apply positioning skills, utilize safe radiation protection practices, and attain the technical knowledge appropriate for an entry level technologist on the ARRT examination.

• Students will demonstrate oral and written communication skills.

• Students will develop critical thinking skills including; adapt standard procedures for non-routine patients and critique images for diagnostic quality.

• Students will model professionalism including; demonstrate a good work ethic and participate in personal and professional growth opportunities.

Respiratory Therapy

Associate of Applied Science, (AAS.RST)

This is a cooperative program in conjunction with the University of Medicine and Dentistry of New Jersey–School of Health Related Professions (UMDNJ-SHRP). The pre-clinical phase of the curriculum will be conducted at Burlington County College (BCC). Program graduates will be eligible to take the New Jersey Licensing examination and examinations offered by the National Board for Respiratory Care (NBRC).

Acceptance to the Respiratory Therapy program is competitive. To be considered for admission, all first-year courses must be completed by the end of the summer term for fall admission. BCC is allotted a maximum of 5 student spaces annually, so student selection is based on the county of residency, date of application and BCC GPA of the required first-year (pre-clinical) courses. The number of seats is dependent upon available clinical placements. Students transferring credits to BCC must have their transcripts evaluated no later than January 31 of the year for which the student is applying to begin the Respiratory Therapy program.

Anatomy and Physiology I and II (BIO 110/111 and BIO 114/115) and Microbiology (BIO 155/156) must have been successfully completed (final grade of C or better) within 10 years of beginning the Respiratory Therapy Program.

Requirements for Admissions into the Respiratory Therapy Program include:

- High School Diploma or G.E.D.
- Completion of all remedial work as determined by the College Assessment Test
- High School level algebra, biology (with a grade of C or better) or equivalent college coursework
- BCC GPA of 2.00 or higher.

Preference is given to Burlington County residents.

The application deadline is April 30 for fall Professional Courses. Applications are available in the Department of Nursing & Allied Health (Parker 331). Students who are admitted must be CPR certified (for healthcare professionals) and undergo a criminal history background check deemed favorable by UMDNJ. RST students are responsible for their own transportation (including all parking and/or toll expenses) to clinical sites.

NOTE: UMDNJ-SHRP Professional RST Courses are taught at the UMDNJ Stratford location. Tuition and fees for the professional courses taught by UMDNJ will be paid directly to UMDNJ at UMDNJ's prevailing tuition and fee rates.

The Respiratory Therapy Program is accredited by both the Commission on Accreditation of Allied Health Education Programs (CAAHEP) and by the Committee on Accreditation for Respiratory Care (CoARC).

Graduates of this program should be able to:

- Assess a patient’s cardiopulmonary status;
- Perform case management of patients with cardiopulmonary and related diseases;
- Initiate and conduct prescribed pulmonary rehabilitation;
- Provide patient, family, and community respiratory health education;
- Participate in life-support activities.

Retail Management Technology

Option to Business Management Technology, (AAS.RMT)

The Retail Management Technology program prepares students to enter the diverse field of retail management.

It provides students with basic knowledge necessary for entry-level positions as assistant department managers, executive trainees, advertising assistants, assistant buyers or for those desiring to establish a retail business of their own.

Graduates of this program should be able to:

- Demonstrate an understanding of current management theories and principles used in the successful management of organizations;
- Demonstrate the ability to understand the role of advertising and sales promotion in a business organization;
- Demonstrate the ability to effectively merchandise a product;
- Demonstrate knowledge of the terminology and procedures of the retailing filed.

Students who wish to transfer to a baccalaureate program are strongly advised to seek information regarding admission and transfer requirements.

Small Business Certificate

Certificate, (CRT.BUS)

The Small Business certificate program is designed to provide students with the knowledge and skills necessary to operate or assist in the operation of a small business. Small business continues to be a major engine of growth in our economy, outstripping the rate of growth in all other business sectors.

Students may be able to transfer certificate credits for use in associate or baccalaureate degree program. Students are strongly advised to seek information regarding admission and transfer requirements.

Graduates of this program should be able to:
• Demonstrate an understanding of how new business is started;
• Demonstrate an understanding and knowledge of the concept of customer relationship management;
• Demonstrate an understanding of a strategic marketing plan, which effectively combines the marketing mix elements of product, price, promotion and place;
• Demonstrate effective communication skills;
• Demonstrate an understanding of accounting systems;
• Analyze and resolve problems common to small business.

Sociology is the study of society and human behavior, social action, and social change. The focus of study in this program involves application of critical thought to social processes and social problems. Specific areas of interest include social institutions, symbolic meaning, bureaucratic organizations, socialization, deviance, political systems, class society, social interaction, the family, gender, minority relations, social movements, and social change.

Students should also coordinate their course work with the catalog of the intended transfer institution since graduates of this program usually transfer.

A degree in sociology prepares the student for work in the public and private sectors, including such diverse fields as government agencies, advocacy groups, educational institutions, social services, counseling, corrections, business management, office administration, mass media, urban studies, ecology and the political arena.

Graduates of this program should be able to:

- Demonstrate a fundamental understanding of social life and human behavior in society;
- Analyze a social problem using sociological perspective;
- Develop an understanding and appreciation of human diversity as well as the commonalities of the human experience from a global perspective;
- Identify diversity, social catalysts, and the origin of detriments of social issues;
- Explain how contemporary social issues and sociological models can promote an understanding of the sociological perspective;
- Recognize current models of the research process and be able to analyze the data.

Sustainable Energy Studies

Associate of Science, (AS.SES)

The Associate of Science in Sustainable Energy Studies degree is designed to prepare students for careers in sustainable energy and for transfer opportunities to four-year colleges with sustainability-focused programs.

It provides a broad exposure to the types and principles of various alternative energy sources within a broader context of environmental, social, cultural, and ethical awareness. Additionally, foundational courses in the natural sciences and elective options such as applied computer and geospatial technologies provide the basis for future advanced study and specialization.

Career Opportunities:

Students generally elect an Associate of Science degree program with the intent of transferring to a four-year college in a related program area. This approach opens many career and continuing education pathways for the student completing BCC’s Sustainable Energy Studies AS degree, such as:

- Awareness/Education: environmental educators
- Business/Finance: energy forecasting, energy analysts, project/program management, energy managers, environmental underwriting
- Green Building & Utilities
- Legal/Regulation: environmental lawyers/attorneys, environmental protection
- Recycling: waste control, recycling coordinators
- Sales
- Scientists, Engineers, and Technicians: all solar, environmental, and energy engineers and technicians

Students planning to transfer upon graduation should consult the catalog of the college where they intend to complete their studies.

Graduates of this program should be able to:

- Identify the fundamentals of sustainability principles and practices;
- Discuss the advantages, disadvantages, drivers and implementation barriers of alternative energy sources;
- Demonstrate effective oral and written communication skills;
- Interpret the impact on the environmental and society of traditional and alternative energy sources;
- Develop solutions to energy related issues within a sustainability model.

Total Required for Degree 67

*CIS 101 is highly recommended if the student is considering eventual transfer to a 4-year degree program. Students should see the BCC Transfer Coordinator.
The Associate of Science in Sustainability degree is designed to prepare students for careers in sustainability policy and enterprise management and for transfer opportunities to four-year colleges with sustainability-focused programs, such as Sustainability Science, Environmental Studies and Sustainability, Sustainability, and Environmental Sustainability. It provides a broad exposure to the principles of sustainability, with an emphasis on public policy and enterprise management. It promotes an understanding of the interrelationships of environmental, social, cultural and ethical concerns.

Career Opportunities
Students generally elect an Associate of Science degree program with the intent of transferring to a four-year college in a related program area. This approach opens many career and continuing education pathways such as in the following sustainability sectors where existing demand or growth is especially strong:

Sectors:
• Sustainability enterprise management (private and not-for-profit companies and organizations)
• Sustainability-oriented urban and land use planning
• Green built environment
• Clean energy
• Traditional environmental professions

Opportunities:
• Municipal planner or sustainability officer
• Business or non-profit organization sustainability officer or manager
• Sustainability consultant
• Environmental specialist
• Community organizer and advocate

Graduates of the program should be able to:
• Comprehend the principles of sustainability and the interrelationships between the natural, social, and built environments;
• Apply systems approaches for analyzing and understanding sustainability challenges and opportunities;
• Distinguish the types of mechanisms and tools organizations use to develop and assess sustainability strategic plans and track and report sustainability-related metrics;
• Interpret how international, national, state, and local standards, policies, governance and regulatory frameworks are develop and applied;
• Effectively document and communicate the results of analyses, and demonstrate the ability to formulate strategic plans and policies and evaluate their effects.

It is strongly advised that students work with the BCC Transfer Staff early to plan their academic program for degree-completion at BCC and transfer.
Technical Studies

Associate of Applied Science, (AAS.TES)

This program allows students to earn credits toward an Associate of Applied Science (AAS) degree in Technical Studies through educational experience for approved apprenticeships and corporate, industrial, or military training programs. The technical core credits will be applied to an AAS degree up to 25 credits. Students must earn additional general education credits and program course credits, depending on their choice of concentration.

Students may choose to earn an AAS degree in Technical Studies in a Business Management, Construction Management, or General option.

All elective courses will be selected with the assistance of a faculty advisor.

*Credits awarded on successful completion of an approved apprenticeship or corporate, industrial or military training programs.
The Associate of Arts in Theatre is designed to prepare students for transfer to a four-year school offering a Bachelor of Arts or Bachelor of Fine Arts with concentration in Theatre or Speech and Theatre.

Students planning to pursue a Bachelor of Arts degree may intend to teach in the public schools, with proper school certification, either at the elementary or secondary level. Students who transfer to a four-year school offering a Bachelor of Fine Arts may intend to pursue a career in the professional theatre in acting, directing, scene design or technical theatre.

Students who earn degrees in Theatre often find careers in sales, marketing, broadcasting, public relations, and law or pursue higher degrees in Communications.

Graduates of this program should be able to:

- Demonstrate effective oral and written communication skills;
- Critically evaluate a play, a theatrical performance and other art forms;
- Apply technical skills in the areas of set design, construction and stage management;
- Develop critical perspectives, which guide aesthetic choices;
- Demonstrate a broad-based liberal arts education;
- Present an effective theatrical performance in college sponsored play;
- Develop their voice, body and imagination through creative expression.

Students who wish to complete a baccalaureate degree in theatre should become familiar with the college catalog for the intended transfer institution.

**Total Required for Degree** 64
Course Descriptions

Each description includes a key indicating the weekly hours assigned to lecture, laboratory or studio and clinical activities for the course. For example, 3/2/1 means the course involves 3 hours of lecture per week, 2 hours of lab or studio per week, and 1 hour clinical per week.

Certain courses are offered only once or twice a year or on a 15-week format only. Please check course descriptions and semester brochures. Some courses require a course or materials fee.

ACCOUNTING

ACC 112 Principles of Financial Accounting I with Spreadsheets 4 cr.
This course introduces accrual accounting theory and practice. It includes financial statements, the accounting cycle, accounting for assets and current liabilities, and preparation of financial statements for sole proprietorship and corporate business forms. It includes instruction in electronic spreadsheet applications.
Prerequisite: MTH 075, ENG 075
4/0/0 FA/SP Course fee charged

ACC 113 Principles of Financial Accounting II with Spreadsheets 4 cr.
This course examines partnership and corporation accounting, preparing and using financial statements, manufacturing and cost systems, financial statement analysis, budgeting and control, and federal income tax. It includes instruction in electronic spreadsheet applications.
Prerequisite: ACC 112
4/0/0 FA/SP Course fee charged

ACC 115 Managerial Accounting with Spreadsheets 4 cr.
This course examines the uses of accounting data in the management process. It includes cost behavior analysis, job order and process costing, planning and control, standard costing, capital budgeting, cash flows and financial statement analysis. It includes instruction in electronic spreadsheet applications.
Prerequisite: ACC 112
4/0/0 FA/SP Course fee charged

ACC 116 Computerized Accounting 3 cr.
This course will provide an introduction to computerized accounting practice in a realistic and practical manner. The student will apply accounting concepts and procedures in using the computer. Projects will include general ledger, accounts payable, accounts receivable and payroll. The emphasis of the course will be an in-depth knowledge of a computerized accounting package which will be used to enter transactions, make adjusting entries, and produce financial statements. In addition, Microsoft Excel will be used to computerize the accounting cycle.
Prerequisite: ACC 112
3/0/0

ACC 210 Intermediate Accounting I 3 cr.
This course demonstrates the application of current accounting principles and procedures to problems such as financial statement presentation, balance sheet, profit determination, depreciation and accounting for current assets.
Prerequisite: ACC 113
3/0/0 EA

ACC 211 Intermediate Accounting II 3 cr.
This course emphasizes investments, depreciable assets, intangibles, liabilities, leases, corporate capital, retained earnings, statement of cash flows, and earnings per share.
Prerequisite: ACC 210
3/0/0 SP

ACC 213 Cost Accounting 4 cr.
This course focuses on cost concepts, job order and process costing, analysis of materials, labor and factory overhead costs, budgeting, standard costing, and capital budgeting.
Prerequisite: ACC 113
4/0/0

AGRICULTURE BUSINESS

AGR 120 Soil Science 3 cr.
This course describes the fundamentals of soil science emphasizing the physical, chemical and biological properties of soils in relation to plant growth, environmental problems, and agricultural applications. Soil classification and mapping will also be discussed.
2/2/0

AGR 130 Principles of Plant Protection 3 cr.
This course describes the principles of plant pest control. Topics include the evaluation of pest problems, environmental considerations, insects, plant disease agents, integrated pest management, laws, liability, recordkeeping, equipment, and disposal.
3/0/0

AGR 140 Agribusiness Management 3 cr.
This course provides an introduction to agribusiness management principles and skills. Topics include supply and demand, the role of agriculture in the economy, economic systems, and decision making.
3/0/0

AGR 150 Agribusiness Marketing 3 cr.
This course covers basic marketing principles for agricultural products. Topics include buying, selling, advertising, processing, standardizing, grading, storing and marketing of agricultural commodities and products. Students will prepare a marketing plan for an agricultural product or commodity.
3/0/0

AGR 160 Floral Design 3 cr.
This course describes the fundamentals of commercial floral design theory. Fresh and silk flower care and handling will be covered as well as different styles of arrangements. Operation and management of a retail florist business will be discussed.
Note: This course can be taken as Adult Ed credit at BCIT or as a high school CAP course.
2/2/0 Course fee charged

AGR 210 Greenhouse Management & Crop Production 3 cr.
This course describes the production of plants under transparency. Topics include greenhouse construction and types; greenhouse management issues including heating, cooling and humidity control; and scheduling and cultural practices for greenhouse plants.
Prerequisite or Corequisite: AGR 120 and AGR 130 or permission
2/2/0 Course fee charged

AGR 220 Nursery Management 3 cr.
This course focuses on establishing and managing a nursery practice. Topics include principles, practices, and production of field grown and container stock; wholesale and retail nursery business practices; and employee management practices.
Prerequisite or Corequisite: AGR 120 and AGR 130 or permission
2/2/0 Course fee charged
AMERICAN SIGN LANGUAGE

ASL 101 Elementary American Sign Language I 3 cr.
This course introduces students to American Sign Language, visual-gestural communication, and deaf culture. Students begin to develop receptive and expressive communications skills with an introduction to American Sign Language transcription, non-manual behaviors, topic-comment structure, sentence types, noun-verb pairs, use of space, pronominalization, classifiers, and temporal and distributional aspects. A minimum of five contact hours in the deaf community is required.
Prerequisite: ASL 101
3/0/0 Course fee charged

ASL 102 Elementary American Sign Language II 3 cr.
This course develops the receptive and expressive communications skills acquired in ASL 101. It presents a more in-depth examination of American Sign Language transcription, non-manual behaviors, topic-comment structure, sentence types, noun-verb pairs, use of space, pronominalization, classifiers, and temporal and distributional aspects. A minimum of ten contact hours in the deaf community is required.
Prerequisite: ASL 101
3/0/0

ASL 103 American Deaf Culture 3 cr.
This course introduces students to deaf people as a cultural linguistic minority group. Students may or may not have had prior experience with deaf people. It examines the values, norms, and traditions of deaf people in North America. It emphasizes myths surrounding deafness, the historical treatment of deafness and deaf people, the anatomy of the ear and the etiology of hearing loss, the education of deaf children, the deaf identity, legislation that affects the deaf and hard of hearing population, interpreters and their work between cultures, deaf-blindness, and current controversies in technology and education. Although this course focuses on deaf people in the western world, global comparisons are drawn.
3/0/0

ASL 104 Fingerspelling 3 cr.
This course is for students with limited knowledge of deaf American culture or its language, American Sign Language (ASL). It builds on demonstrated receptive and expressive skills in the language and lays a foundation for and builds upon receptive and expressive skills in finger-spelling. It includes overviews of finger-spelling theory and practice through demonstrations and videos.
Prerequisite: ASL 101, ASL 103
Corequisite: ASL 102
3/0/0

ASL 201 Intermediate American Sign Language I 3 cr.
This course develops the expressive and receptive communications skills acquired in ASL 102. Students begin to demonstrate competency and understanding of non-manual behaviors, topic-comment structure, sentence types, noun-verb pairs, use of space, pronominalization, classifiers, and temporal and distributional aspects.
Prerequisite: ASL 102
Corequisite: IEP 111 (if admitted to Interpreter Education Program)
3/0/0

ASL 202 Intermediate American Sign Language II 3 cr.
This course develops the expressive and receptive communications skills acquired in ASL 201. Students demonstrate competency and an in-depth understanding of non-manual behaviors, topic-comment structure, sentence types, noun-verb pairs, use of space, pronominalization, classifiers, and temporal and distributional aspects.
Prerequisite: ASL 201
Corequisite: IEP 102 (if admitted to Interpreter Education Program)
3/0/0

ASL 203 Advanced American Sign Language I 3 cr.
This course develops the expressive and receptive communications skills acquired in ASL 202 so students begin to demonstrate fluency.
Prerequisite: ASL 202
3/0/0

ASL 204 Advanced American Sign Language II 3 cr.
This course develops the expressive and receptive communications skills acquired in ASL 203 so students demonstrate fluency.
Prerequisite: ASL 203
3/0/0

ANTHROPOLOGY

ANT 101 Introduction to Physical Anthropology 3 cr.
This course is a survey of the evolution of humans from early primate societies and how human societies have changed, particularly as a result of the agricultural and urban revolutions.
3/0/0

ANT 102 Introduction to Cultural Anthropology 3 cr.
This course covers the similarities and differences in human societies, from hunting and gathering to industrialized societies. It compares and contrasts American beliefs and practices with those of other societies.
3/0/0

ARABIC

ARA 101 Elementary Arabic I 3 cr.
This course is for students with no knowledge of Arabic. It focuses on laying a foundation for speaking, reading, and writing Arabic.
3/0/0

ARA 102 Elementary Arabic II 3 cr.
This course is for students with limited knowledge of Arabic. It focuses on building upon demonstrated skills in speaking, reading, and writing Arabic.
Prerequisite: ARA 101
3/0/0

ART

ART 101 Introduction to Art 3 cr.
This course provides an introductory knowledge and appreciation of art works from 30,000 BCE to the present. It introduces students to major art works and discusses major artistic styles. It demonstrates how these art works and styles reflect the artists who created them. It is intended to broaden appreciation of other cultures and their contribution to our common heritage.
3/0/0

ART 110 Design I 3 cr.
This course in two-dimensional design explores creative composition and experimentation with the basic elements of line, shape, texture, and value as well as the principles used to organize these elements: balance, rhythm, emphasis, scale and proportion.
1/4/0

Course fee charged
ART 112 Design II 3 cr.
This course explores experiences and technical knowledge in the use of the major theories of color. Emphasis is on studying the developments in art and painting in the nineteenth and twentieth centuries.  
Prerequisite: ART 110  
1/4/0  FA/SP  Lab fee charged

ART 120 Drawing I 3 cr.
This course uses traditional drawing media and experience in the representation of the human form, action structure, volume, design, and expressive potentialities.  
1/4/0  FA/SP  Course fee charged

ART 121 Drawing II 3 cr.
This course uses traditional drawing media and experience in drawings emphasizing still-life, landscape, and design.  
Prerequisite: ART 120  
1/4/0  Course fee charged

ART 122 Figure Drawing 3 cr.
This course emphasizes the fundamental elements of figure drawing (line, composition, proportion, and use of space). Students do a series of sketches as well as sustained drawings.  
1/4/0

ART 135 3D Design 3 cr.
3D Design is an introduction to the materials, techniques and procedures for creating art works and designs in 3 dimensions. This course will prepare the student for more advanced courses in a number of disciplines including: sculpture, architecture and other design fields that work in 3 rather than 2 dimensions.  
1/4/0

ART 214 Portfolio Preparation 3 cr.
This course guides students in portfolio preparation through discussions of what constitutes a good portfolio and through studio work, particularly in drawing. It also presents information on how to select, prepare for and secure a job in the field.  
Prerequisite: ART 120, ART 110, ART 112  
1/4/0

ART 220 Painting I 3 cr.
This course uses traditional painting media and techniques of application. It emphasizes developing individual skills and perceptions.  
1/4/0  FA/SP  Course fee charged

ART 221 Painting II 3 cr.
This course expands on the skills learned in ART 220 with an emphasis on exploring the media and additional development of painting skills and perceptions.  
Prerequisite: ART 220  
1/4/0  FA/SP  Course fee charged

ART 222 Sculpture I 3 cr.
This course examines the organization of forms, volumes, and space as a basis of creative sculpture. It provides experiences with traditional and contemporary techniques and the use of materials such as clay, wood, and stone.  
1/4/0  FA  Course fee charged

ART 223 Sculpture II 3 cr.
This course expands on the knowledge and techniques taught in ART 222. It emphasizes sculptural techniques in various media.  
Prerequisite: ART 222  
1/4/0  Course fee charged

ART 224 Ceramics I 3 cr.
This course introduces traditional and contemporary hand-building techniques, such as pinch, coil, and slab. Various skills in the preparation of clay, glazes, firing, and kiln maintenance are demonstrated.  
1/4/0  FA/SP  Course fee charged

ART 225 Ceramics II 3 cr.
This course emphasizes throwing techniques on the potter’s wheel and an intense investigation of combined hand-building techniques. Students are encouraged to develop their personal expression in clay.  
Prerequisite: ART 224 or permission  
1/4/0  Course fee charged

ART 250 Art History I 3 cr.
This course surveys the visual arts from prehistoric times through the Renaissance, emphasizing painting, sculpture, architecture, and the minor arts.  
3/0/0  FA

ART 251 Art History II 3cr.
This course surveys the visual arts from the Renaissance through the Modern era, emphasizing painting, sculpture, architecture, and the minor arts.  
3/0/0  SP

ART 252 Introduction to Modern Art 3 cr.
This course introduces modern art, from its origins in the nineteenth century to the present. Students investigate paintings, sculpture, architecture, graphics, and photography created by modern masters such as Van Gogh, Picasso, Dali, and Warhol. A museum visit with a guided tour by the instructor may be included.  
3/0/0

ART 294 Special Topics in Art—Model I 3 cr.
This course develops individual artistic style by having students work independently with the instructor on specific assignments.  
Prerequisite: Permission  
0/6/0  Course fee charged

ART 297 Special Topics in Art—Without Model II 3 cr.
This course develops individual artistic style by having students work independently with the instructor on specific assignments.  
Prerequisite: Permission  
0/6/0  Lab fee charged

BIOLOGY

BIO 103 General Biology I 3 cr.
This course considers the fundamental principles of biology with emphasis on the molecular and cellular basis of life. The topics covered include cell structure, function, mitosis, meiosis, genetics, evolution, and ecology.  
Prerequisite: High school chemistry or CHE 107; High school biology or BIO 120 or equivalent; MTH 075 or equivalent; college reading and writing level.  
3/0/0  FA/SP/SU

BIO 104 General Biology I Laboratory 1 cr.
This laboratory course includes experiments which require students to apply their knowledge of enzymes, diffusion, osmosis, cellular respiration, fermentation, mitosis, meiosis, genetics, bacteriology, and protist biology. This course may not be taken prior to the General Biology I lecture.  
Prerequisite or Corequisite: BIO 103  
0/2/0  FA/SP/SU  Course fee charged

BIO 107 General Biology II 3 cr.
This course is a comparative study of the kingdoms, including but not limited to morphology, physiology, organ systems, homeostasis, evolution, and taxonomy.  
Prerequisite: BIO 103, BIO 104  
3/0/0  FA/SP/SU

BIO 108 General Biology II Laboratory 1 cr.
This laboratory course examines the biodiversity of multicellular algae, plants, fungi, and animals. Students learn to use dichotomous keys for identification purposes and dissection skills to examine plant and animal anatomy. This course may not be taken prior to the General Biology II lecture.  
Prerequisite: BIO 103, BIO 104, BIO 107  
Corequisite: BIO 107  
0/2/0  FA/SP/SU  Course fee charged

BIO 110 Fundamentals of Anatomy and Physiology I 3 cr.
This course concentrates on cellular physiology and the following organ systems: integumentary, skeletal, muscular, nervous, and the special senses. This course is designed for allied health majors.  
Prerequisite: High school biology required or BIO 120, BIO 121  
3/0/0  FA/SP/SU
BIO 111 Fundamentals of Anatomy and Physiology I Laboratory 1 cr.
This laboratory course provides laboratory experiences that apply to the topics and concepts covered in the Fundamentals of Anatomy and Physiology I lecture. All dissections are performed via computer animation.
Prerequisite or Corequisite: BIO 110
0/0/0 EA/SP/SU Course fee charged

BIO 114 Fundamentals of Anatomy and Physiology II 3 cr.
This course concentrates on the following organ systems: cardiovascular, respiratory, urinary, digestive, endocrine, reproductive and genetics. This course is designed for allied health majors.
Prerequisite: BIO 110
3/0/0 EA/SP/SU

BIO 115 Fundamentals of Anatomy and Physiology II Laboratory 1 cr.
This laboratory course provides laboratory experiences that apply to the topics and concepts covered in the Fundamentals of Anatomy and Physiology II lecture. All dissections are performed via computer animation.
Prerequisite or Corequisite: BIO 114
0/3/0 EA/SP/SU Course fee charged

BIO 120 Basic Biology and Human Affairs 3 cr.
This course explores the scientific investigation of biological principles with emphasis on the cellular basis of life, plant and animal structure and function, genetics, reproduction, evolution, and ecology.
3/0/0 EA/SP/SU

BIO 121 Basic Biology and Human Affairs Laboratory 1 cr.
This course provides laboratory experiences that apply to the topics and concepts covered in Biology and Human Affairs.
Prerequisite or Corequisite: BIO 120
0/2/0 EA/SP/SU Course fee charged

BIO 130 Environmental Science 3 cr.
This course introduces students to laboratory and field techniques and equipment used in environmental science. Field trips acquaint students with methods of resource recovery and resource conservation.
Prerequisite: High school chemistry or biology
Corequisite: BIO 131
0/0/0 Course fee charged

BIO 131 Environmental Science Laboratory 1 cr.
This course introduces students to laboratory and field techniques and equipment used in environmental science. Field trips acquaint students with methods of resource recovery and resource conservation.
Prerequisite: High school chemistry or biology
Corequisite: BIO 130
0/2/0 Course fee charged

BIO 155 Basic Microbiology 3 cr.
This course discusses normal and abnormal microbiota of humans with emphasis on transmission, prevention, and control of pathogens. It is designed for students who have not taken BIO 103/104 (General Biology I), i.e., two-year nursing students and non-biology majors.
Prerequisite: High school chemistry or CHE 107; High school biology or BIO 120; MTH 075 or equivalent; college reading level; ENG 101
3/0/0 EA/SP/SU

BIO 156 Basic Microbiology Laboratory 1 cr.
This course focuses on the identification of normal and abnormal microflora and parasites common to humans.
Prerequisite or Corequisite: BIO 155
0/3/0 EA/SP/SU Course fee charged

BIO 208 Human Anatomy and Physiology I 3 cr.
This course covers the following organ systems in both the normal and diseased states: integumentary, skeletal, muscular, nervous, and special senses. This course is designed for biology majors or those intending to transfer to a four-year institution.
Prerequisite: BIO 107, BIO 108
3/0/0 EA/SU

BIO 209 Human Anatomy and Physiology I Laboratory 1 cr.
This course provides laboratory experiences that apply to the topics and concepts covered in Human Anatomy & Physiology I Lecture. The laboratory experiences involve structural and functional concepts of mammalian systems.
Prerequisite or Corequisite: BIO 208
0/3/0 EA/SU Course fee charged

BIO 212 Human Anatomy and Physiology II 3 cr.
This course covers the following organ systems in both the normal and diseased states: cardiovascular, respiratory, urinary, digestive, endocrine, reproductive, and genetics. This course is designed for biology majors or those intending to transfer to a four-year institution.
Prerequisite: BIO 208, BIO 209
3/0/0 EA/SP

BIO 213 Human Anatomy and Physiology II Laboratory 1 cr.
This course provides laboratory experiences that apply to the topics and concepts covered in Human Anatomy & Physiology II Lecture. The laboratory experiences involve structural and functional concepts of mammalian systems.
Prerequisite or Corequisite: BIO 212
0/3/0 EA/SP Course fee charged

BIO 221 Microbiology 3 cr.
This course is a study of the classification, structure, and fundamental aspects of microorganisms, including prokaryotes, protozoa, fungi, viruses, prions, and parasites. It includes discussions of the concepts of immunology and epidemiology.
Prerequisite: BIO 103, BIO 104
3/0/0 EA/SP

BIO 222 Microbiology Laboratory 1 cr.
This course includes laboratory exercises that deal with aseptic procedures, microbiological techniques, isolation and identification of representative groups in the protista and the monera.
Prerequisite or Corequisite: BIO 221
0/3/0 EA/SP Course fee charged

BIO 230 Ecology 3 cr.
This course studies the relationships between organisms and their environments. It includes population dynamics, nutrient cycling, community and ecosystem structure, evolution, natural selection, and current environmental issues.
Prerequisite: BIO 107, BIO 108
Corequisite: BIO 231
3/0/0

BIO 231 Ecology Laboratory 1 cr.
This course provides laboratory experiences that apply to the topics and concepts covered in the Ecology lecture.
Prerequisite: BIO 107, BIO 108
Corequisite: BIO 230
0/3/0 Course fee charged

BIO 291 Special Projects in Biology I 1 cr.

BIO 292 Special Projects in Biology II 2 cr.

BIO 293 Special Projects in Biology III 3 cr.
In these courses, students are provided with directed study and research in selected topics in biological sciences, including literature research and laboratory experience.
Lab hours depend on project (usually 2 hours per week per credit)
Prerequisite: Project approval by instructor
Course fee charged

bcc.edu | 161
BIOTECHNOLOGY

BIT 103 Introduction to Biotechnology 3 cr.
This course introduces the field of biotechnology. It discusses the history of biopharmaceutical industry, the drug discovery process, and bio-pharmaceutical drugs currently on the market. It also covers biotechnology applications such as gene therapy, reproductive cloning, genetic fingerprinting, recombinant DNA technology, and protein expression systems.
Prerequisite: High school biology or BIO 120 or equivalent
3/0/0

BIT 150 Basic Laboratory Techniques in Biotechnology 2 cr.
This course provides theoretical and practical knowledge of a working biotechnology laboratory. It covers how to operate standard equipment, prepare solutions, write protocols and present data. It introduces technical math, graphing and Good Manufacturing Practices. It provides hands-on experience with electrophoresis, PCR, and laboratory notebook maintenance.
Prerequisite or Corequisite: BIT 103
1/2/0 Course fee charged

BIT 210 Molecular Genetics 3 cr.
This course describes recombinant DNA techniques, as well as molecular biology of genes. It discusses molecular cloning, plasmid design, transfection and protein expression systems. It provides laboratory experience with plasmid isolation, transformation, electrophoresis, and PCR.
Prerequisite: BIO 103, BIO 104, BIT 150
2/2/0 Course fee charged

BIT 214 Cell Culture and Microbial Fermentation 3 cr.
This course describes cell physiology and prepares students for work with recombinant protein expression systems. It specifically addresses bioreactor design, large-scale manufacturing and fermentation conditions. It includes laboratory exercises on aseptic cell culture techniques, cryopreservation, cell quantification and viability assays.
Prerequisite: BIO 103, BIO 104, BIT 150
2/2/0 Course fee charged

BIT 220 Protein Recovery and Purification 3 cr.
This course provides an understanding of protein biochemistry. It introduces purification methods and protein characterization. It provides laboratory experiences in electrophoresis, Western blots, microarrays and chromatography.
Prerequisite: BIT 150, CHE 115, CHE 116
2/2/0 Course fee charged

BIT 291 Special Projects in Biotechnology I 1 cr.
BIT 292 Special Projects in Biotechnology II 2 cr.
BIT 293 Special Projects in Biotechnology III 3 cr.
In these courses, students develop an independent project which incorporates many of the biotechnology techniques learned in the program. Students collaborate with an advisor to design an experiment, collect and analyze data, and write a scientific report.
Lab hours depend on project (usually 2 hours per week per credit)
Prerequisite: Project approval by instructor
Course fee charged

BUSINESS ADMINISTRATION

BUA 101 Business Functions in a Global Society 3 cr.
This course covers the business functions of any organization: marketing, operations, production, accounting, finance, distribution, investments, human resource management, banking, and information handling in our current global society.
3/0/0 FA/SP/SU

BUA 102 Principles of Management 3 cr.
This course focuses on the fundamental concepts in the management process of planning, organizing, leading and control which specifically relate to the ever-changing world in which managers work. It emphasizes decision-making and the leadership roles of the manager.
Prerequisite: BUA 101 recommended
3/0/0 FA/SP/SU

BUA 108 Personal Finance and Money Management 3 cr.
This course introduces students to the complexities of modern personal money management and helps them avoid some problems in everyday living. It covers budgeting basics, intricacies of home ownership; income taxes and investments; and the wise use of insurance, wills, and trusts.
3/0/0 FA/SP/SU

BUA 205 Business Law I 3 cr.
This course is an introduction to legal principles and procedures. It includes an introduction to business law, ethics, crimes, torts, contracts, the uniform commercial code, sales, product liability and consumer protection.
3/0/0 FA/SP/SU

BUA 206 Business Law II 3 cr.
This course is an advanced examination of business law principles and procedures. It includes commercial paper, agency, partnership, corporations, rights of debtors and creditors, business regulation and the law of property.
Prerequisite: BUA 205
3/0/0

BUA 208 Labor-Management Relations 3 cr.
This course focuses on contemporary trends in employee-management relations. It examines the legal, social, and economic aspects of labor relations and the techniques and attitudes essential for development and leadership in employee-management relations.
3/0/0

BUA 211 Human Resource Management 3 cr.
This course is an examination of personnel management and administrative functions, such as philosophy, policies, organization; job analysis; recruitment; appraisal; development; promotion; discipline; communication; wage and salary; incentives system; and career development.
Prerequisite: BUA 102 or permission
3/0/0

BUA 215 Finance 3 cr.
This course examines money, the Federal Reserve System, and financial management. It includes capital budgeting, financial analysis, and the use of cash-flow analysis. Students analyze loan application forms, annual reports, and new securities prospectus reports.
Prerequisite: ACC 111 or ACC 113
3/0/0 SP
BUA 225 Human Relations in Management 3 cr.
This course examines human behavior and its effect on management. It focuses on individual and group behavior and interpersonal relationships, including motivation and organizational leadership.
Prerequisite: BUA 102
3/0/0

BUA 230 Small Business Management 3 cr.
This course gives a thorough understanding of small business operations. It focuses on the relationship of small business to the American economy, short-and long-range small business ownership, wholesaling, retailing, service, and franchised operations.
3/0/0 FA/SP/SU

CANCER REGISTRY

MCR 101 Cancer Registry Structure and Management 3 cr.
An introduction to the cancer registry and the cancer registrar profession. It will include the types of registries; central and hospital based legal and ethical standards, cancer registry management functions and operations. Emphasis will be placed on standard setting organizations.
Prerequisite: Admission to the Cancer Registry Program
3/0/0

MCR 104 Cancer Registry Operations 3 cr.
Introduction to disease registry files, principles of abstracting, data set identification and case ascertainment. Will focus on the Commission on Cancer, Cancer Program Standards as well as cancer committee, cancer conferences and quality monitoring.
Prerequisite: Admission to the Cancer Registry Program
3/0/0

CASINO AND RESORT MANAGEMENT

CRM 120 Introduction to Casino Management 3 cr.
This course will provide an overview of the history, development and operations of casinos and casino-resorts. Special emphasis will be placed on casino resorts within New Jersey and Southeastern Pennsylvania.
3/0/0

CRM 140 Introduction to Casino Games 3 cr.
This course will provide an overview to all casino games as well as a basic overview on detecting cheating and fraud. This course will also include a casino visit.
Prerequisite: MTH 107
3/0/0

CRM 210 Introduction to Surveillance Operations 3 cr.
This course will discuss the types of surveillance and security that is required in gaming operations. An overview of crowd control, terrorist threats, and other major incident responses will be covered. The course will also discuss cash and employee security measures.
Prerequisite: HOS 110
3/0/0

CRM 250 Economic and Social Aspects of Gaming 3 cr.
This course will outline the social costs of gambling and research what benefits and social costs (if any) of both large and small scale casino gaming. It will examine current gaming trends as well as evaluate anti-gaming campaigns and their possible cost.
Prerequisite: HOS 110
3/0/0

CHEMISTRY

CHE 107 Chemistry 3 cr.
This is an introductory course that covers the fundamental laws, terms, and mathematics of general chemistry. It includes treatment of nomenclature, stoichiometry, solution chemistry, and gas laws.
Prerequisite: High school algebra I or MTH 075
Corequisite: CHE 108
3/0/0 FA/SP/SU

CHE 108 Chemistry Laboratory 1 cr.
This course provides laboratory experiences that illustrate important theories and concepts in basic chemistry. It stresses standard laboratory techniques, scientific equipment and its proper use, and laboratory safety.
Prerequisite: High school algebra I or MTH 075
Corequisite: CHE 107
0/2/0 FA/SP/SU Course fee charged

CHE 115 General Chemistry I 3 cr.
This course is a systematic study of fundamental principles and concepts including: dimensional analysis; atomic structure; periodicity; chemical bonding; thermochemical equations; stoichiometry of chemical reactions; the liquid, solid, and gaseous states; and solution chemistry.
Prerequisite: High school chemistry or CHE 107 and CHE 108 and algebra skills equivalent to MTH 095
3/0/0 FA/SP/SU

CHE 116 General Chemistry I Laboratory 1 cr.
This course provides laboratory experiences that apply to the topics and concepts covered in General Chemistry I.
Prerequisite or Corequisite: CHE 115
0/2/0 FA/SP/SU Course fee charged

CHE 117 General Chemistry II 3 cr.
This course is a systematic study of thermodynamics, kinetics; equilibrium; ionic equilibria; electrochemistry coordination compounds; nuclear chemistry; and an introduction to organic chemistry.
Prerequisite: CHE 115, CHE 116 and MTH 112 or MTH 130
3/0/0 FA/SP/SU

CHE 118 General Chemistry II Laboratory 1 cr.
This course provides laboratory experiences that apply to the topics and concepts covered in General Chemistry II.
Prerequisite or Corequisite: CHE 117
0/2/0 FA/SP/SU Course fee charged

CHE 210 Nutrition 3 cr.
This course examines the basic concepts in the science of human nutrition and their relationship to the needs of man.
Prerequisite: CHE 107 or CHE 115 or high school chemistry with a grade of “B” or better or permission
3/0/0 FA/SP/SU
CHE 240 Organic Chemistry I 3 cr.
This course presents the fundamental principles of organic chemistry. It includes basic techniques of organic compound synthesis; structure, properties, and nomenclature of organic compounds; the addition, substitution, elimination and oxidation-reduction reactions of organic compounds; reaction mechanisms; infrared spectroscopy; and a brief introduction to mass spectrometry.
Prerequisite: CHE 117, CHE 118
Corequisite: CHE 241
3/0/0  EA/SP

CHE 241 Organic Chemistry I Laboratory 1 cr.
This course provides laboratory experiences that apply to the topics and concepts covered in Organic Chemistry I.
Prerequisite or Corequisite: CHE 240
0/3/0  EA/SP  Course fee charged

CHE 242 Organic Chemistry II 3 cr.
This course is a continuation of Organic Chemistry I. The topics covered in this course include: structure, properties and nomenclature of organic compounds; the complex synthesis of organic compounds; electrophilic, aromatic, free radical, nucleophilic substitution reactions and their mechanisms; NMR spectroscopy; and an introduction to biochemistry.
Prerequisite: CHE 240, CHE 241
Corequisite: CHE 243
3/0/0  EA/SP

CHE 243 Organic Chemistry II Laboratory 1 cr.
This course provides laboratory experiences that apply to the topics and concepts covered in Organic Chemistry II.
Prerequisite or Corequisite: CHE 242
0/3/0  EA/SP  Course fee charged

CHE 249 Special Projects in Chemistry I 1 cr.
CHE 292 Special Projects in Chemistry II 2 cr.
CHE 293 Special Projects in Chemistry III 3 cr.
Students investigate practical or theoretical problems of a chemical nature. Projects include a combination of literature, laboratory, and instrumental experiences in addition to the application of chemical laws and theories.
Lab hours depend on the project (usually 2 hours per week per credit).
Prerequisite: CHE 115, CHE 116 and project approval by the instructor
Course fee charged

CHINESE

CHI 101 Elementary Chinese I 3 cr.
This course presents the basics of Mandarin Chinese for those who have no knowledge of the language. It focuses on speaking, reading, and writing Mandarin Chinese.
3/0/0  EA

CHI 102 Elementary Chinese II 3 cr.
This course is for students with limited knowledge of Mandarin Chinese. It focuses on building upon demonstrated skills in speaking, writing, and reading Mandarin Chinese.
Prerequisite: CHI 101
3/0/0  SP

CINEMA

CIN 109 American Cinema 3 cr.
This course examines how business savvy, creativity, and technical skills drive the film industry. Studio executives, directors, cinematographers, and others share their thought and experiences. Clips from over 300 movies demonstrate why movies continue to captivate audiences.
3/0/0

COMMUNICATIONS

COM 103 Media Operations 3 cr.
This course prepares students to work in radio and television production. It emphasizes the physical use of and technical requirements needed to operate the range of equipment used to produce radio, television, and video programs.
3/0/0

COM 104 Writing for Mass Media 3 cr.
This course introduces writing for radio and television. It includes the narrative interview, personality sketches, and documentary writing. Students write narratives, speeches, reports, public service announcements, press advisories, and news releases.
Prerequisite: ENG 101
3/0/0

COM 120 Radio Production 3 cr.
This course teaches basic studio operations and editing for broadcast applications. Students produce commercials and public service announcements for radio. A major objective is creating a picture in the mind's eye with voice, music, sound effects, and other elements.
2/2/0  Course fee charged

COM 202 Television Production I 3 cr.
This course introduces the theory and operation of the modern television studio and control equipment for broadcast and closed circuit systems. It covers types of programming; production fundamentals; script analysis and blocking; lighting; sets; sound; graphics; and optics. Additional studio hours required
Prerequisite: COM 202
2/2/0  Course fee charged

COM 205 Television Production II 3 cr.
This course focuses on the principles and techniques of producing television programs. It examines the relationship of idea to visual image using exercises in composition and continuity. It requires work with script analysis and blocking, lighting, sets, sound, graphics, optics, and program forms and styles. Each student must conceive and direct a 15-minute videotape. Additional studio hours required.
Prerequisite: COM 202
2/2/0  Course fee charged

COM 268 Special Projects Internship 3 cr.
This course is for students who are employed as interns in an educational, corporate, business, or governmental agency. Students must apply for Burlington County College approval before registering for this course. The student must sign the learning agreement, receive three evaluations from the employer or designee, and work with a Burlington County College faculty member. All assignments, evaluations, and the required Capstone Project must be submitted before a grade is assigned.
Prerequisite: Specialized application form must be approved by the respective Dean in addition to a letter from the employer verifying the internship.
Course fee charged

COM 294 Special Projects in Communication Arts I 3 cr.
Students conduct advanced study in a selected area of Communication Arts. Each student's project must include a statement of objectives, literature research, project plan, and completed media production project.
Prerequisite: COM 120 or COM 202
0/6/0  Course fee charged

COM 295 Special Projects in Communication Arts II 3 cr.
Students conduct continued, advanced study in a selected area of Communication Arts. Each student's project must include a statement of objectives, literature research, project plan, and completed media production project.
Prerequisite: COM 294
0/6/0  Course fee charged
COMPUTED TOMOGRAPHY

CTP 110 Introduction to Computed Tomography 3 cr.
Content provides a foundation in ethics and law related to the practice of medical imaging. Basic understanding of the operation of Computed Tomography, CT, devices will be explained. Content is designed to introduce concepts related to the disease process. Content will provide the basic concepts of patient care, including physical and psychological needs of the patient and family. Routine and emergency care procedures are described. Basic concepts of pharmacology and venipuncture of contrast media are provided.
Prerequisite: ARRT, RT(R), ARRT, RT (NM)
3/0/0

CTP 120 Sectional Anatomy and Pathology 3 cr.
This course begins with a review of gross anatomy. Gross anatomical structures are located and identified in axial, sagittal, coronal and orthogonal planes. Illustrations of anatomical images will be compared with Computed Tomography, CT, and MR images in the same imaging planes. The characteristic appearance of each anatomical structure as it appears on CT, MR and US will be stressed.
Prerequisite: CTP 110
3/0/0

CTP 130 CT Procedures 3 cr.
Content provides detailed coverage of procedure for CT imaging of adults and pediatric patients. Procedures include but not limited to, indications for the procedure, patient education, preparation, orientation and positioning, patient history and assessment, contrast media usage, scout images, scan parameters and archiving of images. CT procedures will be taught for differentiation of specific structures, patient symptoms and pathology. CT images studies will be reviewed for quality and pathology.
Prerequisite: CTP 120
3/0/0

CTP 140 CT Physics and Equipment 3 cr.
Content is designed to impart understanding of the physical principles and instrumentation involved in computed tomography. The historical development and evolution of computed tomography is reviewed. Physics topics include x-ray radiation used in forming the image, beam attenuation, linear attenuation coefficients, tissue characterization and Hounsfield numbers. Data acquisition and manipulation techniques, image reconstruction algorithms will be explained. CT systems and operations will be explored with full coverage of radiographic tube configuration, collimator design and function, detector types, characteristic and function and the CT computer and array processor. CT image processing and display will be examined.
Prerequisite: CTP 130
3/0/0

CTP 150 CT Clinical Education 3 cr.
Clinical education consists of 120 hours in an affiliate hospital or imaging center. It is designed to enable the student to achieve the competencies necessary to meet the ARRT eligibility requirements.
Prerequisite: ARRT, RT(R), ARRT, RT (NM)
0/0/0

COMPUTER INFORMATION SYSTEMS

CIS 101 Introduction to Computers 3 cr.
This course is an overview of computer hardware, software, representation and processing of data, design of algorithms, systems, and procedures; and computer languages. It presents and applies the fundamentals of problem solving and programming in a high-level computer language.
3/0/0       FA/SP/SU    Course fee charged

CIS 111 Programming in BASIC 3 cr.
This course provides an introduction to programming using the QBASIC language and how to use a computer to solve a problem. It covers algorithms, flowcharts, pseudocodes, control structures, loops, subprograms, and arrays. It introduces and emphasizes structured programming techniques.
Prerequisite: MTH 095 or higher
3/0/0

CIS 130 Introduction to Visual Basic 3 cr.
This course introduces Graphical User Interfaces (GUIs) using Microsoft Visual Basic in the Microsoft Windows environment. Students design, code, and run integrated Visual Basic applications using the multiple-document interfaces, object-linking and embedding, and dynamic-link library features of Microsoft Windows.
Prerequisite: CIS 111 or knowledge of BASIC Programming language
3/0/0       Course fee charged

CIS 132 MS Access Techniques and Programming 3 cr.
This course covers a review of basic Access operations; relational data base concepts and operations; complex query design, custom form and report design; macros, and modules. Integrating Access with other Windows applications and an introduction to Visual Basic is also covered. It emphasizes specific techniques as well as concepts in data base design, data base programming, and typical data base applications.
Prerequisite: CIS 161
3/0/0       Course fee charged

CIS 138 Introduction to Operating Systems 4 cr.
This course introduces students to the basics of modern operating systems. Students learn concepts, commands and operations, in popular Operating systems, such as Microsoft Windows and Linux operating systems. It emphasizes basic hands-on skills in the following areas: operations and commands, accessing and installing application software, managing files and folders, controlling and configuring printers and other hardware, controlling and configuring the user environment, security configuration, troubleshooting and disaster recovery.
Prerequisite: CIS 101 or EET 101 or prior microcomputer experience
4/0/0

CIS 150 Networking Fundamentals 4 cr.
This course emphasizes the knowledge and application of basic concepts of networking technology. It presents the OSI model, industry standards, network topologies, IP addressing, subnet masking, networking components, and basic network design.
Prerequisite: CIS 101 or EET 101 or permission
4/0/0       Course fee charged

CIS 155 Fundamentals of Web Design 4 cr.
This course focuses on the overall production processes surrounding website design with particular emphasis on design elements involving layout, navigation and interactivity. Students are introduced to various Adobe Software packages. It uses on-line modules developed by the Cisco Academy program.
Prerequisite: CIS 101 or higher or CSE 110 or higher or permission

CIS 161 Computer Applications 3cr.
This course presents the concepts and operations of the main components of Microsoft Office: Word, Excel and Powerpoint. Students are taught to apply these office applications to a range of business and personal problems. Students also learn application in software integration, such as: linking, embedding, and web publishing. Instructions on the use of the Internet as an alternative to traditional classroom learning will also be taught, as well as the skills and strategies for finding and retrieving information on the Internet.
3/0/0       FA/SP
CIS 165 Network and Systems Administration 4 cr.
This course provides an advanced knowledge of networking as well as related equipment and terminologies. The course will cover local area network, wide area network, managing enterprise level networks using Active Directory and remote access. Advanced network management and environment customization techniques will be explored, including creating users/groups, managing file permissions, configuring server roles, using group policies to configure and secure the network, routine system maintenance and troubleshooting.
Prerequisite: CIS 150 or Permission 4/0/0

CIS 200 Fundamental of Network Security 4 cr.
This course is an introduction to network security focusing on the overall security processes with particular emphasis on hands on skills in the following areas: security policy design and management, security technologies; products & solutions; firewall and secure router design; installation; configuration; and maintenance; AAA implementation using routers and VPN implementation using routers.
Prerequisite: CIS 165 or permission 4/0/0

CIS 207 Introduction to Computer Forensics 3 cr.
This introductory course focuses on computer forensics principles and an exposure to computer technology concepts from operating systems and file types to data transmission and PDAs. Students are introduced to the foundation of electronic evidence collection and handling, as well as the role of evidence in detecting and prosecuting computer crimes, cyberterrorism; traditional and violent crimes; incident response; civil cases; fraud and information security verification. Demonstrations and hands-on investigations familiarize students with a number of relevant investigative techniques.
Prerequisite: CIS 150 or CIS 165 or permission 3/0/0

CIS 208 Introduction to Cybersecurity 3 cr.
This course introduces students to the field of cybersecurity. Students are introduced to various security topics, including: Internet security, spyware, vulnerability, virus attacks, network defense, passwords, firewalls, intrusion detection, risk management, disaster preparedness/recovery, privacy, policies and procedures, as well as mitigation strategies to potential cyber threats. Lectures and projects would be utilized to promote understanding of cyber threats and security.
Prerequisite: CIS 200 3/0/0

CIS 215 Penetration Testing Fundamentals 3 cr.
This course is an introduction to penetration testing. It focuses on penetration testing process, methodologies, and vulnerability assessment amongst other topics. Students will be introduced to various real world penetration testing tools and procedure through hands-on lab activities. Discussion topics include: vulnerability assessment, exploitation, wired and wireless networking intrusion, spoofing and scanning.
Prerequisite: CIS 200 3/0/0

CIS 218 Ethical Hacking Fundamentals 3 cr.
This course introduces ethical hacking, security testing and network defense/counter measures. Students who have a good knowledge of computer and networking learn how to protect networks by using an attacker's technique to compromise network systems security. Hands-on lab activities enable students to learn how to protect network/systems by using the tools and methods used by hackers to break into networks/systems. Discussion topics include: hacker methodology and tools, how hackers operate, as well as setting up strong countermeasures to protect networks/systems.
Prerequisite: CIS 215 3/0/0

CIS 219 Special Projects in Computer Science I 1 cr.
CIS 220 Special Projects in Computer Science II 2 cr.
CIS 230 Special Projects in Computer Science III 3 cr.
These courses are an opportunity for independent research and study on a relevant topic in computer science, such as a detailed system study or comprehensive program development project. Course credit is based on the scope and time required for the project (usually 2 hours per week per credit). Periodic progress reports are required.
Prerequisite: Project approval by the instructor Course fee charged

CIS 222 Cybersecurity Management 3 cr.
This course introduces students to the management of cybersecurity. Students are introduced to various management topics, including: security policy development, risk management, disaster recovery planning, security incident response, legal and regulatory compliance, as well as security management strategies to potential cyber threats. Lectures and projects would be utilized to promote understanding of cyber threats and security.
Prerequisite: CIS 200 3/0/0

CSE 110 Introduction to Computer Science I 4 cr.
This course introduces the fundamental concepts of programming and problem solving. It focuses on simple data types, control structures, and introduction to array and string data structures and algorithms, as well as debugging techniques and the social implications of computing. It emphasizes good software engineering principles and developing fundamental programming skills in the context of a language that supports the object-oriented paradigm. The lab component provides hands-on programming experience that is vital for beginning programmers and computer science students.
Corequisite: MTH 130 or permission 4/0/0 FA/SP Course fee charged

CSE 111 Introduction to Computer Science II 3 cr.
This course builds upon the work completed in CSE 110 to introduce the fundamental concepts of data structures and the algorithms that proceed from them. It focuses on recursion, the underlying philosophy of object-oriented programming, fundamental data structures (such as queues, stacks, linked lists, hash tables, trees, and graphs), sorting and searching techniques, and the basics of algorithmic analysis. The lab component provides hands-on programming experience that is vital for beginning programmers and computer science students.
Prerequisite: CSE 110 3/0/0 SP Course fee charged

CSE 135 Computer Programming and Problem Solving 3 cr.
This is an introductory course in programming in a high-level language and its use in solving engineering, business, and scientific programs. It includes data types, control structures, functions, arrays, files, and the mechanics of running, testing, and debugging. It emphasizes the fundamentals of problem solving, software engineering techniques, and algorithm design. The lab component provides hands-on programming experience for beginning programmers and computer science students.
Prerequisite: MTH 130 3/0/0 FA/SP Course fee charged
CONSTRUCTION MANAGEMENT

CON 101 Building Materials and Construction Methods 3 cr.
This introductory course provides an understanding of the fundamentals of residential and commercial construction materials and practices. Students gain an understanding of the types of construction, structural design requirements, and the properties of common construction materials such as wood, concrete, iron, and steel.
Prerequisite: MTH 075 or equivalent, college reading level and writing level
3/0/0

CON 102 Building Materials and Construction Methods II 3 cr.
This course is a second level course covering the advanced topics of building materials and construction methods in residential and commercial construction applications. Building on the competencies of CON 101, students will continue to develop their knowledge base of the most common building materials in use and their interrelationship in a construction project.
Prerequisite: CON 101
3/0/0

CON 210 Estimating 3 cr.
This course provides students with an understanding of the estimating procedures and techniques used for developing budgets and schedules to meet the performance requirements of the construction project. Students learn how to estimate labor, raw material, and capital equipment cost to develop meaningful construction budgets and schedules.
Prerequisite: CON 202
3/0/0

CON 220 Understanding Construction Drawings 3 cr.
This course is an introductory course covering the fundamentals of interpreting construction drawings. Students will learn how to examine a variety of construction documents, including drawings, details, graphic standards, sections, and quantities for competitive bidding of projects.
Prerequisite: CON 101
3/0/0

CRIMINAL JUSTICE

CRJ 101 Introduction to Criminal Justice 3 cr.
This course is an introduction to the philosophy and development of the system for dealing with social deviancy through criminal justice. It focuses on the concepts, agencies, and institutions involved in the administration of criminal justice.
3/0/0  FA/SP

CRJ 102 Police Operations and Procedures 3 cr.
This course is a survey of the role of traffic, investigative, juvenile, vice, and other specialized units within law enforcement agencies. It focuses on the line activities of law enforcement agencies with emphasis on the patrol function and the prevention of crime.
3/0/0  FA/SP

CRJ 103 Introduction to the Correctional System 3 cr.
This course is an introduction to the entire correctional system from law enforcement through the administration of justice, probation, parole, prison system, and correctional institutions.
3/0/0  FA/SP

CRJ 106 Introduction to Court Systems 3 cr.
This course is an overview of the criminal courts and their role within the criminal justice system. It examines some civil aspects of the court system and their interconnection with the criminal courts. It analyzes historical and current data regarding the structure and theory of criminal courts and investigates and questions criminal procedure and the dynamics of criminal court processes.
3/0/0

CRJ 111 Criminal Law 3 cr.
This course examines fundamental provisions and underlying assumptions of criminal law. It focuses on principles and doctrines, crimes against the person, crimes against property and habitation, and crimes against public order.
3/0/0  FA/SP

CRJ 113 Criminal Investigation 3 cr.
This course is a survey of the fundamentals of criminal investigation theory and history. The student follows evidence from the crime scene to the courtroom with emphasis on techniques appropriate to specific crimes.
3/0/0

CRJ 114 Criminalistics 3 cr.
This course focuses on the collection, identification, preservation, and transportation of physical evidence. It emphasizes examination of physical evidence within the investigator's resources and demonstration of laboratory criminalistics.
3/0/0
CRJ 119 Terrorism and Weapons of Mass Destruction 3 cr.
The focus of this course will be on Terrorism with an emphasis on Weapons of Mass Destruction (WMD), how they are used to intimidate our society. Students will learn how the Department of Homeland Security gathers intelligence and how that intelligence is shared. The student will become familiar with (CBRNE) chemical, biological, radiological, nuclear and explosive delivery systems, and potential targets. Students will participate in structural labs/tabletop exercises that will test the student's capability to identify a threat based on recent and historical information obtained from the scene of an incident. 3/0/0

CRJ 120 Introduction to NIMS 3 cr.
This course provides an introduction to the National Incident Management System for students who require a basic understanding of the system. The course will focus on the Incident Command System 100, NIMS 700.a and NIMS 800.b. 3/0/0

CRJ 121 Emergency Agency Coordination 3 cr.
This course provides an introduction to Emergency Management and the coordination used between emergency agencies before, during and after emergencies. This course will also examine the connection between the nation’s Homeland Security programs adopted in response to the September 11th attacks and its traditional emergency management programs developed over the last quarter century largely in response to natural and technological disasters. 3/0/0

CRJ 203 Legal Rights of the Convicted 3 cr.
This course examines the legal rights of the convicted offender in the criminal justice system. It focuses on the legal aspects of conviction and sentencing together with the legal rights of probationers, prison inmates, and parolees. 3/0/0

CRJ 213 Arson Investigation 3 cr.
This course introduces the study of arson, types of incendiary fires and laws covering arson; methods of determining fire causes, recognizing and preserving evidence; and interviewing and detaining witnesses. 3/0/0

CRJ 217 Juvenile Delinquency 3 cr.
This course examines the development and philosophy of dealing with juvenile delinquency, youth crime, and youth victimization through the juvenile justice system. It examines the role of probation, treatment approaches, and the Juvenile Justice Commission. 3/0/0

CRJ 218 Introduction to Private Security 3 cr.
This course examines the systems and organization of security with primary emphasis on the private sector. It focuses on historical and philosophical perspectives of security and compares the public and private sectors. It concentrates on contemporary issues in security including legal authority, the branches and functions of security in multiple industry and institutional settings, and the growing function of the private sector investigator. 3/0/0

CRJ 219 Organized Crime 3 cr.
This course examines and analyzes the theory on organized crime and terrorism; the controversy surrounding the phenomenon; and efforts at control. It focuses on the historical aspects; the structural components of various defined groups; the economic theory and business practices; and the sociological and criminological theory as it relates to current regional organized crime groups. 3/0/0

CRJ 220 Independent Study in Criminal Justice 3 cr.
This course is for in-service police officers and pre-service students. The student is required to work in a local police department or other agencies within the criminal justice system and/or pursue an extensive study of some aspect of the criminal justice system through research, observation, or extended reading. It requires a demonstration of scholarly achievement. Prerequisite: 30 credits, 2.8 GPA, ENG 101, CRJ 101, Student/College agreement 3/0/0

CRJ 221 Large Scale Incident Management 3 cr.
This course will explore the role of first responders and the creation of a unified command capable of dealing with multiple responses. Areas of instruction will include shelter vs. evacuation, jurisdiction of agencies, and Critical Incident Stress Management. Students will participate in table-top exercises and operational planning scenarios. 3/0/0

CRJ 222 Public Health Issues 3 cr.
This course is designed to familiarize the student with the role and capacity of the public health system in disaster preparedness and response to an all-hazards event. It will examine the potential public health consequences of disasters as well as preparedness strategies, emergency planning and the importance of a multi-disciplinary response approach. Lectures, reading assignments and individual projects will be used to introduce students to the diversity of public health issues associated with disasters. Simulation laboratory class time will be included in the students' classroom-to-field experience. 3/0/0

CULINARY ARTS

CUL 107 Culinary Arts 4 cr.
This introductory course in food preparation includes instruction and practice in sanitation, safety, tools, equipment, basic cooking principles, recipes, menus, work preparation, stocks, sauces, soups, meats, and poultry. This course also includes instruction and practice in the production of seafood; vegetables; potatoes and starches; garnish; international cuisine; and basic baking principles. Prerequisite: FSM 125 1/6/0  F/SP Course fee charged

CUL 110 Introduction to Commercial Baking 3 cr.
This course provides students with a general introduction to commercial baking and baking additivves. Additionally, the importance of the proper scaling of ingredients and following instructions will be emphasized. 1/4/0  Course fee charged

CUL 122 Techniques and Traditions 4 cr.
This course will cover the major cuisines of the world in a very broad and general overview. Each week covers a different geographical region and explores both general history and culinary aspects of the culture. Each week will include menus specifically for that region. Students will learn a variety of cooking methods and styles. Prerequisite: FSM 125, CUL 107 1/6/0  Course fee charged

CUL 125 Foundations of Professional Baking - Baking I 3 cr.
This fundamental course in baking includes instruction and practice in sanitation; safety; tools; equipment; basic baking principles; recipes; recipe conversions; weights and measures; yeast doughs; artisan breads; quick breads; doughnuts; fritters; pancakes; waffles; basic syrups; creams; sauces; pastry basics; and pies. Prerequisite: FSM 125 2/3/0  Course fee charged

CUL 160 Patisserie – Baking II 4 cr.
This course in desserts includes instruction and practice in the preparation of tarts, special pastries, cakes, icings, cake decorating, special cakes, cookies, custards, puddings, mousses, soufflés, an introduction to frozen desserts, and fruit desserts. Prerequisite: CUL 125, FSM 125 1/6/0  Course fee charged

CUL 200 Vegetarian Cuisine 3 cr.
This course in vegetarian food preparation includes instruction and practice in techniques, plate presentation, menu planning and terminology. Prerequisite: CUL 107, FSM 125 2/5/0  Course fee charged
CUL 203 Garde Manger 4 cr.
This culinary arts production course is designed to develop practical necessary skills for students to work in cold kitchen or garde manger positions in food-service operations. An overview on the preparation of classical garde manger techniques, salad and salad dressings, sandwiches, cured and smoked meats; sausage; terrines and pates; canapes; hors d’oeuvres, cold soups; vegetable and fruit displays; basic cheese knowledge; and buffet presentation.
Prerequisite: FSM 125, CUL 107
1/6/0 Course fee charged

CUL 206 Italian Traditions and American Regional Cuisine 4 cr.
This course in the Italian and American traditions is an intensive experience in classical and authentic Italian and American foods and culture. Since “Italian cuisine” is actually a composite of foods of Italian regions (20), many towns and many households, this course will stress the importance of understanding the term “Regional Cuisine.” Likewise, students will gain an understanding in American cuisine by examining the history, diverse cultures and regional culinary traditions of the evolving United States from Native American and first settlers to the present. Throughout this course students will be presented with a variety of authentic Italian and American ingredients, terms, preparations and recipes.
Prerequisite: FSM 125, CUL 107
1/6/0 Course fee charged

CUL 211 Purchasing and Menu Planning 3 cr.
This course will prepare students to plan, evaluate and purchase everything that is needed to produce a set menu, including smallwares and equipment. The course will also prepare students to evaluate vendors and determine suitability by price, service, and product line.
1/6/0

CUL 216 A la Carte 3 cr.
This course is designed to introduce students to the operation of a full service restaurant serving à la Carte menus. Students will take orders, work cooking stations, and provide service to customers. Students will learn how to manage both the front and back of the house.
Prerequisite: Permission of Instructor
2/3/0 Course fee charged

CUL 230 Culinary Arts Practicum 3 cr.
This work experience course consists of supervised-on-the-job learning experiences at college-approved work sites. This includes at least 150 hours in planned activities in cooking, food preparation, and related duties. Students also develop a personal portfolio.
Prerequisite: Completion of 15 CUL credits, FSM 125 and permission of CUL Director
0/10/0 Course fee charged

CUL 235 Advanced Baking – Baking III 4 cr.
This course will provide experience with fine decorating; showpieces; advanced dessert design; holiday themed desserts; cake decorating; and sugar and marzipan sculpture.
Prerequisite: CUL 125, CUL 160, FSM 125
1/6/0 Course fee charged

CUL 240 Confectionary Arts and Plated Desserts 4 cr.
This course will introduce students to the art of plated desserts and confections. The course will cover design, flavor profile, costing, presentation and feasibility for restaurant service of plated desserts. In addition, this course will provide an overview of the basic confectionary arts, including sugar candies; molded and filled chocolate; and packaging and product design for confections.
Prerequisite: FSM 125, CUL 125, CUL 160
1/6/0 Course fee charged

CUL 245 Café Operation and Artisanal Bread Baking 4 cr.
This course instructs students on the basics of running a simple café that specializes in baked goods, simple soups, salads and sandwiches, and dessert and confectionary items. As part of the course requirement students will be required to bake all the café’s breads, breakfast breads, and rolls. The laboratory is a café space open to the public.
Prerequisite: FSM 125, CUL 125, CUL 160
1/6/0 Course fee charged

CUL 270 Meat and Fish Fabrication 3 cr.
This course will cover the fundamentals of identification, fabrication, storage, purchasing and cooking of meats, poultry, fish and shellfish. The course will also include techniques for fabricating meats and fish for professional kitchens and briefly explore both the benefits and expenses of local fabrication.
Prerequisite: FSM 125, CUL 107
2/2/0 Course fee charged

DANCE

DNC 101 Introduction to Dance 3 cr.
This course provides an elementary dance foundation in modern, ballet, jazz, hip hop, and world dance forms. It explores space, time, and energy and emphasizes individual and group dance experiences. It includes improvisation, composition, and dance movement analysis.
3/0/0

DENTAL HYGIENE

DHY 101 Pre-Clinical Dental Health 4 cr.
This course introduces the basic knowledge, skills and judgments necessary for prevention of diseases of the teeth and surrounding tissue. Laboratory experiences provide for practical application of the principles of comprehensive dental hygiene treatment.
Prerequisite: Admission to program, CPR certification.
Corequisite: BIO 110, BIO 111, CHE 107, CHE 108, DHY 110, DHY 120, DHY 130
3/8/0 Course fee charged

DHY 110 Dental Head and Neck Anatomy 3 cr.
This course presents the basic structures of the oral cavity, including the nomenclature, structure, morphology, and function of the teeth. It emphasizes the clinical appearance of the anatomical features of the teeth and points out relationships to adjacent teeth, opposing teeth, and surrounding tissue. It also covers the configuration and function of gross structures of the head and neck and emphasizes the importance of anatomical concepts.
Prerequisite: Admission to program, CPR certification.
Corequisite: BIO 110, BIO 111, CHE 107, CHE 108, DHY 101, DHY 120, DHY 130
3/0/0 Course fee charged

DHY 120 Dental Radiology 3 cr.
This course integrates the didactic, laboratory, and clinical principles of dental radiography. It covers x-ray production, processing, intra- and extra-oral techniques, quality assurance, utilization of radiographic selection criteria, radiographic interpretation, radiation biology and safety, and infection control and hazardous waste disposal. It provides laboratory experiences which progress from mannequin simulation to assigned patients in order to explore clinical applications.
Prerequisite: Admission to Program, CPR certification (current)
Corequisite: BIO 110, BIO 111, CHE 107, CHE 108, DHY 101, DHY 110, DHY 130
2/4/3 Course fee charged

DHY 130 Medical and Dental Emergencies 1 cr.
This course emphasizes the importance of emergency prevention. It prepares students to recognize and manage medical emergencies that may occur in the dental environment.
Prerequisite: Admission to program, CPR certification (current)
Corequisite: BIO 110, BIO 111, CHE 107, CHE 108, DHY 101, DHY 110, DHY 120
1/0/0
**DHY 140 Oral Embryology and Histology 2 cr.**
This course provides a conceptual framework for understanding the growth and development of oral structures as well as an overview of the peri-natal events that begin their growth. It focuses on the microscopic structures of the oral tissues, growth and development of the face and oral cavity. It also covers the development of the deciduous and permanent dentition, including common disturbances and anomalies.
*Prerequisite:* BIO 110, BIO 111, CHE 107, CHE 108, DHY 101, DHY 110, DHY 120, DHY 130
*Corequisite:* BIO 114, BIO 115, BIO 155, BIO 156, ENG 101, DHY 151
2/0/0

**DHY 151 Clinical Services I 4 cr.**
This course focuses on information about oral physiotherapy, fluoride, treatment planning, adjunctive instrumentation, hypersensitivity, and air abrasive systems. There are examinations of case studies with respect to treatment planning, behavior modification strategies; and adult and pediatric preventive counseling. It requires clinical practice. Students must demonstrate advanced techniques of dental hygiene treatment.
*Prerequisite:* BIO 110, BIO 111, CHE 107, CHE 108, DHY 101, DHY 110, DHY 120, DHY 130
*Corequisite:* BIO 114, BIO 115, BIO 155, BIO 156, DHY 140, ENG 101, DHY 160
3/0/12 Course fee charged

**DHY 160 Periodontology I 2 cr.**
This course focuses on the basic concepts of the anatomy and pathology of the periodontium. It examines in depth classification, etiology, and treatment of periodontal disease. It integrates correlation of the relationship of the histopathologic changes of the supporting structures of the teeth by using case-based clinical studies.
*Prerequisite:* BIO 110, BIO 111, CHE 107, CHE 108, DHY 101, DHY 110, DHY 120, DHY 130
*Corequisite:* BIO 114, BIO 115, BIO 155, BIO 156, DHY 140, DHY 151, ENG 101
2/0/0

**DHY 200 Dental Pharmacology and Pain Control 2 cr.**
This course introduces pharmacology and methods of pain control as it relates to the practice of dentistry. It focuses on adverse drug reactions; pharmacological effects; and their usual indications and contraindications. It emphasizes the clinical application of topical and local anesthesia. It discusses systemic toxicity and local complications to prepare students for the prevention and management of emergencies that may develop during treatment as well as sedation methods and general anesthesia.
*Prerequisite:* BIO 114, BIO 115, BIO 155, BIO 156, DHY 140, DHY 151, ENG 101
*Corequisite:* DHY 222, PSY 101
2/0/0

**DHY 201 Clinical Services II 4 cr.**
This course allows students the opportunity to demonstrate advanced treatment techniques relative to the dental hygiene appointment in the clinical setting. It emphasizes skills in oral physiotherapy, treatment planning, behavior modification strategies, adult and child preventive counseling, and adjunctive instrumentation.
*Prerequisite:* DHY 160, DHY 200, DHY 222, PSY 101
*Corequisite:* CHE 210, DHY 210, DHY 220, DHY 241, MTH 107
3/0/12 Course fee charged

**DHY 210 Periodontology II 2 cr.**
This course builds on the information presented in DHY 160. It focuses on current information on clinical and adjunctive home care aids, as well as a variety of treatment modalities. It also presents surgical options, including implants. It requires student case presentations which cover complete charting; review of medical and dental histories; radiographs and/or study models; record of treatment; patient compliance; and recommended maintenance schedules.
*Prerequisite:* DHY 160, DHY 200, DHY 222, PSY 101
*Corequisite:* CHE 210, DHY 201, DHY 220, DHY 241, MTH 107
3/0/12 Course fee charged

**DHY 220 Oral Pathology 3 cr.**
This course investigates the study of abnormalities in morphology and function. It focuses on the cellular level first, including cellular alterations and response. It centers its approach on etiology; pathogenesis; clinical and microscopic signs and symptoms; differential diagnosis; treatment; follow-up and prognosis with emphasis on those lesions most frequently encountered. It focuses on the recognition of pathological conditions, both systemic and oral, as well as their risk factors so appropriate precautions and/or treatment may be taken.
*Prerequisite:* DHY 160, DHY 200, DHY 222, PSY 101
*Corequisite:* CHE 210, DHY 201, DHY 210, DHY 241, MTH 107
3/0/0

**DHY 222 Local Anesthesia 1 cr.**
This course is designed to prepare the student to provide local anesthesia to patients requiring pain management during the course of dental hygiene treatment. This course will provide the fundamental knowledge of choosing the appropriate agent, selection of injection, administering local anesthesia, and health history evaluation to avoid potential complications.
*Prerequisite:* DHY 101, DHY 110, DHY 130, DHY 140, DHY 151, DHY 160
*Corequisite:* DHY 200
2/1/1 Course fee charged

**DHY 240 Dental Public Health 3 cr.**
This course prepares students to provide patient education to individuals and groups, focusing on a holistic approach. It covers the development, implementation, and evaluation of dental health education programs in a variety of settings through analysis of patient lifestyle, values, behavior, and environment.
*Prerequisite:* CHE 210, DHY 201, DHY 210, DHY 220, DHY 241, MTH 107
*Corequisite:* DHY 251, SOC 101, SPE 102
3/0/0 Course fee charged

**DHY 241 Supportive Therapies 3 cr.**
This course provides lecture and laboratory experiences to apply the theory, techniques and applications of dental material manipulation to the clinical arena. All delegable expanded functions as outlined in the New Jersey Dental Auxiliaries Practice Act will be emphasized and taught to clinical competency. Exploration of the Dental Hygienists’ role in Dental specialty practice is included.
*Prerequisite:* DHY 200, DHY 222, PSY 101
*Corequisite:* DHY 201, DHY 210, DHY 220, CHE 210, MTH 107
2/2/2 Course fee charged

**DHY 251 Clinical Services III 4 cr.**
This capstone course offers an integrative clinical approach to the provision of patient care services. It emphasizes the honing of clinical skills, the synthesis of prior learning, and application to the delivery of care. It covers practice management and its application to the business of dental hygiene to prepare students for the modern workforce and its various demands.
*Prerequisite:* CHE 210, DHY 201, DHY 210, DHY 220, MTH 107
*Corequisite:* DHY 240, DHY 241, SOC 101, SPE 102
3/0/12 Course fee charged
DMS 101 Introduction to Sonography 2 cr.
Introduces the diagnostic foundations of diagnostic medical sonography, including terminology; scan plane orientations; anatomical relationships; departmental administrative operations; hospital organization; HIPPA regulations; blood and fluid precautions; and basic patient care principles.
Prerequisite: Acceptance in Program, BIO 110, BIO 111, HIT 105, PHY 107
Corequisite: DMS 102, DMS 103, BIO 114, BIO 115, PSY 101, ENG 101
2/0/0 FA Course fee charged

DMS 102 Cross-sectional Anatomy 2 cr.
This course will require the student to study sectional anatomy of the body in the transverse, longitudinal and coronal planes. Emphasis will be placed on the vessels and organs imaged sonographically. There will also be correlation of the anatomy to sono graphic images.
Prerequisite: Acceptance in Program, BIO 110, BIO 111, HIT 105, PHY 107
Corequisite: DMS 101, DMS 103, BIO 114, BIO 115, PSY 101, ENG 101
2/0/0 FA Course fee charged

DMS 103 Ultrasound Abdomen 2 cr.
This course will give the student a comprehensive understanding of the pathological processes that may affect the abdominal organs. Diseases of the liver, biliary tract, pancreas, urinary system, spleen, gastrointestinal tract, retro peritoneal and gynecological structures are included in this discussion along with correlation of sono graphic images.
Prerequisite: Acceptance in Program, BIO 110, BIO 111, HIT 105, PHY 107
Corequisite: DMS 101, DMS 102, BIO 114, BIO 115, PSY 101, ENG 101
2/0/0 FA Course fee charged

DMS 104 Ultrasound OB/GYN I 2 cr.
This course will prepare the student to perform sonograms of the female pelvis, encompassing both gynecological and obstetrical examinations. This course consists of normal and abnormal anatomy throughout the second and third trimesters of pregnancy. Cross sectional anatomy of these structures and their appearances on the sonogram will be discussed. Fetal abnormalities, high-risk pregnancies and maternal disease will also be correlated to the sonographic examination. Classroom instruction will be coordinated with lab and clinical activities in the DMS 221.
Prerequisite: DMS 104, DMS 110, DMS 120, PHI 101, SOC 101, MTH 107, ENG 102
Corequisite: DMS 211, DMS 221, DMS 224
2/5/0 SU Course fee charged

DMS 110 Ultrasound Physics I 2 cr.
This course will discuss and solve mathematical problems associated with human tissue, basic instrumentation and scanning technology.
Prerequisite: DMS 101, DMS 102, DMS 103, BIO 114, BIO 115, PSY 101, ENG 101
Corequisite: DMS 104, DMS 120, MTH 107, ENG 102, SOC 101, PHI 101
2/0/0 SP Course fee charged

DMS 120 Lab Practicum 1 cr.
This course is designed to develop the student's ultrasonic skills in the campus laboratory. Students will get accustomed to performing sonographic examinations by practicing proper scanning ergonomics; applying gel; scanning techniques; scanning protocols; and locating and identifying normal anatomy.
Prerequisite: DMS 101, DMS 102, DMS 103, BIO 114, BIO 115, PSY 101, ENG 101
Corequisite: DMS 104, DMS 110, ENG 102, MTH 107, SOC 101, PHI 101
0/3/0 SP Course fee charged

DMS 205 Ultrasound OB/GYN II 3 cr.
This course will prepare the student to perform sonograms of the female pelvis, encompassing both gynecological and obstetrical examinations. This course consists of normal and abnormal anatomy throughout the second and third trimesters of pregnancy. Cross sectional anatomy of these structures and their appearances on the sonogram will be discussed. Fetal abnormalities, high-risk pregnancies and maternal disease will also be correlated to the sonographic examination. Classroom instruction will be coordinated with lab and clinical activities in the DMS 221.
Prerequisite: DMS 104, DMS 110, DMS 120, PHI 101, SOC 101, MTH 107, ENG 102
Corequisite: DMS 205, DMS 221, DMS 224
2/0/0 SU Course fee charged

DMS 206 Diagnostic Imaging 3 cr.
This course represents the clinical component of the student experience for this semester. Certain lab activities and clinical procedures are designed to develop the student's scanning skills. Classroom instruction will be coordinated with certain lab and clinical activities in the DMS 222.
Prerequisite: DMS 205, DMS 211, DMS 221, DMS 224
Corequisite: DMS 207, DMS 222, DMS 225
2/5/0 FA Course fee charged

DMS 207 Vascular Ultrasound 3 cr.
This course will provide the student with an understanding of Doppler and color ultrasound in the diagnostic evaluation of vascular disease. Instruction will include a discussion of the principles of Doppler physics and instrumentation; hemodynamics; imaging protocols; and proper scanning techniques for performing DVT and carotid artery studies.
Prerequisite: DMS 205, DMS 211, DMS 221, DMS 224
Corequisite: DMS 206, DMS 222, DMS 225
2/3/0 FA Course fee charged

DMS 211 Ultrasound Physics II 2 cr.
This course will provide the student with a practical understanding of the principles of ultrasound physics as it applies to diagnostic medical imaging. The course material will focus on physical principles of sound energy; transducer and equipment design; sound productions/transmission/attenuation; imaging artifacts; and safety/biological effects.
Prerequisite: DMS 104, DMS 110, DMS 120, PHI 101, SOC 101, MTH 107, ENG 102
Corequisite: DMS 205, DMS 221, DMS 224
2/0/0 SU Course fee charged

DMS 221 Clinical Practicum I 2 cr.
This course was designed to integrate the didactic education into the clinical environment which may include scanning on campus laboratories, private office settings, as well as hospital rotations. Students will scan abdominal, pelvic, obstetrical and superficial structures.
Prerequisite: DMS 104, DMS 110, DMS 120, PHI 101, SOC 101, MTH 107, ENG 102
Corequisite: DMS 205, DMS 211, DMS 224
0/0/2 SU Course fee charged

DMS 222 Clinical Practicum II 2 cr.
This course was designed to develop the student's ultrasonic skills in a clinical environment; and may include scanning on campus laboratories, private office settings, as well as hospital rotations. Includes experience in abdominal, pelvic, obstetrical and small parts scanning.
Prerequisite: DMS 205, DMS 211, DMS 221, DMS 224
Corequisite: DMS 206, DMS 207, DMS 225
0/0/2 FA Course fee charged

DMS 223 Clinical Practicum III 3 cr.
This course was designed to develop the student's ultrasonic skills in a diagnostic environment; and may include scanning on campus laboratories, private office settings, as well as hospital rotations. Includes experience in abdominal, pelvic, obstetrical and small parts scanning.
Prerequisite: DMS 206, DMS 207, DMS 222, DMS 225
Corequisite: DMS 226
0/0/36 SP Course fee charged
DDT 205 Structural Systems I 3 cr.
This course applies the principles of statics and strength of materials to the analysis and design of structural steel, reinforced concrete, timber, and aluminum structures. Current specifications dealing with these materials are used. It also includes layout and detailing of a simple structure, as well as computerized beam selection.
Prerequisite: DDT 103
2/2/0

ECONOMICS

ECO 203 Principles of Microeconomics 3 cr.
This course focuses on basic economic principles with particular emphasis on microeconomic theory and problems. It covers graphs, supply, demand, the price system, resource allocation, distribution of income, socioeconomic problems, international trade, economic development, and comparative economic systems.
3/0/0 FA/SP/SU

ECO 204 Principles of Macroeconomics 3 cr.
This course is an introduction to the economic institutions of our society. It focuses on supply, demand, business organization, income, social security, management-labor relations, taxation, money and banking, consumption, savings and investments. It applies these concepts and their interrelationships to problems such as economic activity, employment and unemployment, and inflation and public policies.
3/0/0 FA/SP/SU

EDUCATION

EDU 105 Teaching as a Profession 3 cr.
This course addresses the professional characteristics and historical development of teaching as a profession. It discusses the role of the teacher, lesson preparation, and other issues facing teachers. It also provides an overview of select teacher education programs.
3/0/0

EDU 112 Historical Foundations of American Education 3 cr.
This course is a study of the historical and philosophical foundations of American education. It examines current trends and issues in education including but not limited to educational reform, diversity in the classroom, instructional approaches, and school effectiveness.
3/0/0

ELECTRONICS

ENGINEERING TECHNOLOGY

EET 101 Introduction to Electronics 3 cr.
This course explores the fields of electronics and computers for those who have no experience in these fields. It includes circuit components, Ohio's Law, basic DC and AC circuits, an introduction to power supplies, transistor and integrated circuit amplifiers, and opto-electronic communications. Laboratory experiments cover these topics and verify lecture theory. The laboratory also introduces measurement techniques using a multimeter, function generator, oscilloscope, and computer simulation using circuit analysis software.
Prerequisite: High school algebra or MTH 075
Note: EET 101 cannot be taken after passing EET 121
2/2/0 FA/SP Course fee charged

EET 111 Electronic Computer Graphics 3 cr.
This course uses computer software to perform computer aided drafting software related to the electronic industry. It covers electronic block diagrams, schematics, parts list, and production drawings. Printed circuit board design topics include layout, trace routing, assembly and hole drill drawings.
2/2/0 Course fee charged

EET 121 Circuits I 4 cr.
This course focuses on the basic principles of direct and alternating current and on the properties of passive electrical components. It covers atomic theory, current, voltage, resistance, resistive networks, network theorems, work power, capacitance, inductance and transformers. Laboratory exercises include building circuits from schematics, using laboratory equipment to make measurements, and to verify theory. Circuit analysis software is used to simulate and verify the laboratory analysis where appropriate.
Prerequisite: EET 101 or permission
Corequisite: MTH 130
3/3/0 FA/SP Course fee charged

EET 131 Solid State Devices 4 cr.
This course introduces the characteristics, operation, and application of solid state devices including diodes and bipolar and MOS field effect transistors. It covers diodes; power supplies; the transistor switch; and DC and AC analysis of various types of amplifiers. These include the bipolar common-emitter, common-collector, power amps, and MOS field effect transistor amplifiers. Laboratory experiments cover the course topics and verify lecture theory.
Prerequisite: EET 121 and MTH 130
3/3/0 Course fee charged
EET 141 Digital Circuits 4 cr.
This course introduces the theory and design of logic circuits used in computers and other digital instruments. It covers digital systems, binary numbers, binary logic gates, combinational logic and simplification techniques; combinatorial logic functions; flip-flops, sequential logic functions; finite state machines, memories, and Programmable Logic Devices. It uses computer-based development and simulation tools to develop and test digital circuits and includes a final project and oral presentation.
Prerequisite or Corequisite: EET 121
3/3/0 Course fee charged

EET 210 IT Essentials: A+ 4 cr.
This course is an in-depth exposure to information technology and data communications. Students develop the necessary skills to enter this field by building a computer, installing the operating system, adding peripherals, and connecting the computer to a local area network and to the Internet. This course helps students prepare for CompTIA's A+ certification exam.
Prerequisite: EET 101
3/3/0 Course fee charged

EET 222 Circuits II 3 cr.
This course covers the fundamentals of AC electrical circuits. It focuses on series/parallel RLC circuits, voltage and impedance phasor diagrams, power in AC circuits, filters, resonance, frequency response, and BODE plots. There is a final project with a written report and an oral presentation.
Prerequisite: EET 121, MTH 130
2/3/0 Course fee charged

EET 232 Analog Integrated Circuits 4 cr.
This course focuses on the characteristics and applications of analog integrated circuits including operational amplifiers and specialized linear integrated circuits. It investigates circuits including inverting, non-inverting and differential amplifiers, non-linear circuits, active filters, equalizers, oscillators, timers, and power supply regulator ICs. Laboratory experiments cover the course topics and verify lecture theory. Circuit analysis software is used to simulate and verify the laboratory analysis where appropriate.
Prerequisite: EET 121
3/3/0 Course fee charged

EET 242 Microprocessor Systems 4 cr.
This course examines microcomputer programming, analysis, and troubleshooting for real-time applications. The major emphasis is the verification of student-assembled programs that use both serial and parallel input-output devices on a microcomputer system. It includes numbering systems, microprocessor unit, memory, input/output, instruction sets, addressing modes, assembler techniques, systems configuration, hardware, subroutines, and example programs. There is a final project with a written report and oral presentation.
Prerequisite: EET 141 and take one of CIS 111 or CIS 130 or CSE 135
3/3/0 Course fee charged

EET 292 Special Projects in Electronics Engineering Technology II 2 cr.
EET 293 Special Projects in Electronics Engineering Technology III 3 cr.
These courses are special projects where students work on projects approved by the instructor. The projects require 3-6 hours per week depending on the course credit. Students are required to propose, design, construct, test, debug, and demonstrate the electronics project.
Prerequisite: Permission

EMERGENCY MEDICAL SERVICES

EMS 101 Basic Emergency Medical Technician 8 cr.
This course will cover all aspects of pre-hospital care and special circumstances that may be encountered. Students will be required to perform a 10 hour hospital observation rotation prior to the end of this course. Skills that will be learned during the course are: spinal immobilization; respiratory care; care of the pediatric patient; and care of the trauma patient. The following programs will also be covered in the course: IMS 100/700; Haz-Mat Awareness and CBRNE Awareness. Students successfully completing the course and the NJ Department of Health exam are certified as emergency medical technicians.
Prerequisite: CPR for Professional Rescuers
8/0/0

ENERGY MANAGEMENT

NRG 101 Introduction to Energy Management 3 cr.
This course defines the need for energy management as an integral part of society at all levels. Students will understand basic energy accounting and analysis protocol. The course will also present the various vocational opportunities available to energy management students through lectures, video and guest speakers.
3/0/0

NRG 112 Commercial Energy Use Analysis 4 cr.
Emphasis is on the analysis of energy use in commercial buildings. Topics include utility bill analysis, audit data, identifying energy efficiency measures, use of micro-dataloggers, energy savings and investment calculations, audit report writing. Students will complete a supervised field audit.
Prerequisite: PHY 110 & PHY 111
Corequisite: NRG 121
3/3/0 Course fee charged

NRG 113 Building Energy Simulations 4 cr.
The course covers the variety of computer programs available for analyzing commercial buildings. Topics include BIN methodology, hourly simulations and an overview of current programs on the market such as eQuest. Students perform supervised computer simulations.
Prerequisite: NRG 112
3/3/0

NRG 121 Air Conditioning Systems Analysis 3 cr.
Students will investigate the physical principles of heating, ventilation, and air conditioning systems commonly found in the commercial setting. Topics will include: the energy equation, change of state and refrigeration. The course will also cover sensible and latent heat equation; psychrometrics; heat and cooling load equations; solar effects; effects of thermal mass; central forced air furnaces; SEERs, EERs, AFUEs; fuels, and unitary single zone and multi-zone secondary systems.
Prerequisite or Corequisite: PHY 110, PHY 111
2/3/0

NRG 123 Energy Control Strategies 4 cr.
Topics include building system control theory and devices, including electric, pneumatic, and digital controls. An emphasis is placed on identifying and understanding control strategies related to energy-using systems and methods to estimate energy savings. Hands-on labs reinforce device identification and students complete an energy efficiency controls calculation project.
Prerequisite: NRG 124
3/3/0 Course fee charged

NRG 124 Energy Efficiency Methods 4 cr.
A systems approach is used to analyze the input, output, and efficiency of commonplace energy conversion devices. Included are motors, fans, pumps, heat engines, domestic hot water heaters, furnaces, boilers, refrigeration devices, and heat pumps. In so doing students (1) become fluent in the use of the many different units used to denote and measure energy/power (2) learn what quantities need to be measured to determine energy/power in different systems (3) determine the energy/cost savings associated with different efficiency improvement strategies.
Prerequisite: PHY 110 & PHY 111
Corequisite: NRG 121
3/3/0 Course fee charged
NRG 131 Lighting Fundamentals 3 cr.
This course will cover assessment of quantity and quality of light; light sources; luminaries; lighting controls; manufacturer lamp and ballast specifications; lighting power density; lighting-HVAC interactions; retrofit opportunities; cost savings analysis; and lighting codes/regulations. Course requirements include a directly supervised lighting audit project.
Corequisite: PHY 110 and PHY 111 or permission
2/3/0 Course fee charged

NRG 132 Lighting Applications 3 cr.
Topics in this course will include a review of terminology and lighting fundamentals. Students will critically evaluate lighting systems, luminaries and associated components; Understand and perform various types of illuminance calculations, including point-by-point, lumen method, and computerized procedures. Students will become familiar with the IES Illuminance selection procedure and IES recommended practices for various space types; Formulate objectives and develop an understanding of lighting applications, issues and concerns. Students will work effectively as a member of a team in the development of lighting.
Prequisite: NRG 131
2/3/0 Course fee charged

NRG 141 Energy Investment Analysis 3 cr.
This course includes: interest, simple payback and life-cycle cost analysis; time value of money; cash flow equivalence; cost-benefit analysis; effects of tax credits; depreciation; inflation and/or escalating fuel costs on energy investments; and cost estimating procedures. The emphasis will be on analysis of energy investments using spreadsheets to consider total cost-benefits over the life of the investment.
Prequisite: SST 110 or permission
2/3/0 Course fee charged

NRG 142 Energy Accounting 3 cr.
This course will include review of energy units; data gathering for energy accounting utility rates and schedules; energy data organization; adjusted baselines; cost avoidance; load factor; data analysis; data presentation; use EPA’s Portfolio Manager software. 3/0/0

ENGINEERING

EGR 103 Fundamentals of Engineering Design 3 cr.
This course involves interdisciplinary teams of students working on engineering design projects. Electronic and mechanical topics along with schematic drawing software are incorporated in lecture and lab modules, and are designed to give students the skills to design, build, document, and present a working project. Projects have elements of Electronic and Mechanical Engineering design. Each team prepares a written report, gives an oral presentation, and demonstrates their project.
Prerequisite or Corequisite: ENG 101
3/3/0 Course fee charged

EGR 110 Design Computer Graphics I 3 cr.
This course covers beginning to intermediate AutoCAD with emphasis on the AutoCAD language over drafting principles. All projects use AutoCAD software.
2/2/0 Course fee charged

EGR 111 Design Computer Graphics II 3 cr.
This course covers advanced AutoCAD techniques. It covers orthographic projection; isometric projection; sections; auxiliary views; three-dimensional detailed drawings and engineering design projects. All projects involve use of the AutoCAD software.
Prequisite: EGR 110
2/2/0 Course fee charged

EGR 113 Design Computer Graphics III 3 cr.
This course continues to develop the skills learned in EGR 111. It uses the advanced capabilities of AutoCAD for drafting and design to create complex three-dimensional models. It focuses on the application of solid modeling and rendering techniques and applies them to an advanced design concept.
Prequisite: EGR 113
2/2/0 Course fee charged

EGR 212 Material Science and Engineering 3 cr.
This course provides students with an introduction to material science and engineering. Students will apply the basics of chemistry, such as atomic bonding, to develop an understanding of the structure-property relationships in materials. Materials designed for mechanical, electrical, and optical applications will be studied.
Prequisite: CHE 115
3/0/0

EGR 210 Advanced CAD Project 3 cr.
This course is designed so a student selects and completes one or more projects throughout the semester. The student selects, with the approval of the instructor, an industrial application. The student prepares a formal proposal and a final project report based on the completed project.
Prequisite: EGR 210
2/2/0 Course fee charged

EGR 291 Special Projects in Engineering 1 cr.
Prequisite: Permission
Course fee charged

EGR 293 Special Projects in Computer Aided Drafting 3 cr.
Students create high quality, accurate drawings using design and modeling techniques.
Prequisite: Permission
Course fee charged
ENGLISH

**ENG 055 Intensive Basic Composition 4 cr.***
This course is intensive and highly tutorial, designed to prepare students for College Composition I and to help develop basic composition skills. It focuses on sentence recognition, standard mechanics and usage, and coherent paragraph development through speaking, listening, reading, and writing activities.
* Credits do not apply toward graduation.
Prerequisite: Placement based on assessment and recommendation of an academic advisor.
3/0/0  FA/SP  Course fee charged

**ENG 075 Fundamentals of Composition 4 cr.***
This course in composition reinforces students’ abilities to focus and develop organized, relevant support for a topic and to maintain standard usage and mechanics. Learning activities emphasize writing as process from pre-writing, composing, editing, and proofreading in paragraphs and longer papers, primarily illustration/example essays.
* Credits do not apply toward graduation.
Prerequisite: Successful completion of ENG 055 or placement based on assessment and recommendation of an academic advisor.
4/0/0  FA/SP/SU  Course fee charged

**ENG 101 College Composition I 3 cr.**
This course develops skills in expository writing. It emphasizes the writing process, organization, methods of development, and diction. It requires a research essay using the MLA documentation format.
Prerequisite: Successful completion of ENG 075 or assessment and completion of all required Developmental Reading or concurrent enrollment in REA 095
3/0/0  FA/SP/SU  Course fee charged

**ENG 102 College Composition II 3 cr.**
This course in composition focuses on reading, analyzing, and discussing literature. It emphasizes reading skills, the expression of insights in writing, and the pleasures of reading literature.
Prerequisite: ENG 101 and completion of all required Developmental Reading
3/0/0  FA/SP/SU

**ENG 105 Technical Writing 3 cr.**
This course focuses on the writing skills necessary for presenting information of a technical nature. There is intensive practice through students writing reports in their own technical or engineering field.
Prerequisite: ENG 101
3/0/0

**ENG 106 Business Communications 3 cr.**
This course focuses on effective communication using business vocabulary and its influence on human relations in business and industry. It emphasizes instruction and practice of the form, presentation, tone, and psychology of business letters and reports.
Prerequisite: ENG 101 or higher
3/0/0

**ENG 251 Creative Writing 3 cr.**
This writing course focuses on the short story and/or poetry, with occasional evaluation of the work of other writers. It requires a final portfolio.
Prerequisite: ENG 102 or permission
3/0/0

**ENG 252 Semantics 3 cr.**
This course examines the uses and impact of language in contemporary American society. It focuses on the effects of language manipulation in political, economic, and social areas. Special attention is given to the connotation of words, logical fallacies, propaganda, and doublespeak. It examines the distinction between responsible, persuasive language and exploitative language.
Prerequisite: ENG 102 or permission
3/0/0

**ENGLISH AS A SECOND LANGUAGE**

**ESL 066 ESL Reading I 4 cr.***
This course is for beginning non-native speakers of English. It introduces elementary grammar and helps students to develop basic paragraph writing skills through speaking and writing activities.
* Credits do not apply toward graduation.
Prerequisite: ESL 065 or placement based on assessment and recommendation of an academic advisor
4/0/0  Course fee charged

**ESL 067 ESL Writing I 4 cr.***
This intensive course is for beginning non-native speakers of English. It introduces grammar and helps students to develop basic paragraph writing skills through speaking and writing activities.
* Credits do not apply toward graduation.
Prerequisite: Placement based on assessment and recommendation of an academic advisor
4/0/0  Course fee charged

**ESL 077 ESL Writing II 4 cr.***
This intensive course is for non-native speakers of English who understand paragraph development and have elementary grammar skills. It focuses on intermediate grammar and introduces the organization and development of the basic five-paragraph essay through speaking and writing activities.
* Credits do not apply toward graduation.
Prerequisite: ESL 076 or placement based on assessment and recommendation of an academic advisor
4/0/0  Course fee charged

**ESL 078 ESL Writing III 4 cr.***
This intensive course is for non-native speakers of English who understand the organization and development of the five-paragraph essay and have intermediate grammar skills. It introduces advanced grammar and the refinement of longer essays through speaking and writing activities. It prepares students to enter ENG 101.
* Credits do not apply toward graduation.
Prerequisite: ESL 077 or placement based on assessment and recommendation of an academic advisor
4/0/0  Course fee charged

**ESL 068 ESL Reading III 4 cr.***
This advanced course is for non-native speakers of English who have an understanding of intermediate vocabulary, word usage; and reading strategies such as main idea; author’s purpose; and supporting details. It focuses on increasing reading with more advanced vocabulary development, word and dictionary usage, structural analysis, and additional pre-reading and reading strategies such as outlining and inference.
* Credits do not apply toward graduation.
Prerequisite: ESL 067 or placement based on assessment and recommendation of an academic advisor
4/0/0  Course fee charged
ESL 081 ESL Speech and Pronunciation I 4 cr.*
This basic course provides intensive drill in the phonetics and intonation uses of the English language for the non-native speaker of English. Students practice phonics and intonation uses in daily speech patterns to improve speaking skills and do active, guided listening of recorded materials.
*Credits do not apply toward graduation.
Prerequisite: Placement based on assessment and recommendation of an academic advisor
4/0/0  Course fee charged

ESL 082 ESL Speech and Pronunciation II 4 cr.*
This intermediate course is designed for non-native speakers of English who wish to develop more correct pronunciation with improved intonation. It addresses students' pronunciation difficulties as well as their use of idiomatic English. The intensive practice with more difficult daily and academic situations is supplemented by guided listening of recorded materials to improve listening skills in both academic and personal settings.
*Credits do not apply toward graduation.
Prerequisite: ESL 081 or placement based on assessment and recommendation of an academic advisor
4/0/0  Course fee charged

ESL 083 ESL Speech and Pronunciation III 4 cr.*
This advanced course is designed for non-native speakers of English who wish to reduce accent and develop near-native fluency with idiomatic expressions. Students focus on the organization and presentation of formal reports. It emphasizes academic language in class discussions. More advanced listening is provided and note-taking strategies are practiced to help students prepare for college-level communication demands.
*Credits do not apply toward graduation.
Prerequisite: ESL 082 or placement based on assessment and recommendation of an academic advisor
4/0/0  Course fee charged

ESL 093 English for TOEFL I 4 cr.*
The TOEFL I preparation course is designed to help students who are non-native speakers of English acquire the skills and confidence necessary to achieve a high TOEFL (Test of English as a Foreign Language) score. The TOEFL test is a requirement for admission to most four-year American colleges and universities. The class concentrates on the four areas of the TOEFL test: listening, speaking, reading, and writing, as well as test-taking skills and strategies.
*Credits do not apply toward graduation.
Prerequisite: ESL 067, ESL 077 or placement based on assessment
Corequisite: ESL 068, ESL 078
4/0/0

ESL 094 English for TOEFL II 4 cr.*
The TOEFL II preparation course is designed to provide further instruction and practice on reading and writing, as well as test-taking skills and strategies. Students will have a chance to take practice tests in each section and, based on the results, receive further suggestions for improvement on their performance from their instructor. There will be daily homework assignments in all language skill areas, including vocabulary. The TOEFL (Test of English as a Foreign Language) test is a requirement for admission to most four-year American colleges and universities.
*Credits do not apply toward graduation.
Prerequisite: ESL 093 or placement based on assessment
4/0/0

ESL 097 English for Academic Purposes 4 cr.*
English for Academic Purposes is an advanced level bridge course between ESL and college-level classes. The course gives students practice in undergraduate level academic writing and reading. Listening, speaking and grammar skills will also be integrated into the course. The course materials and assessments for English for Academic Purposes reflect the type of activities and situations students will encounter in college-level courses, such as note-taking, writing extended essays, reading academic texts, giving presentations, and participating in group discussions.
*Credits do not apply toward graduation.
Prerequisite: ESL 078, ESL 068 or placement based on assessment
4/0/0

ENTERTAINMENT TECHNOLOGIES: CORE

ETC 101 Introduction to Entertainment 3 cr.
This course covers the history, organization, economics, and control of mass communication in the United States. It focuses on the impact, the society and cultural influences of television, radio, film, newspapers, the Internet, magazines, videocassette, DVD, and associated media. It includes the various technology systems involved in live entertainment events, and a survey of industry job descriptions and employment opportunities.

ETC 105 Entertainment Law 3 cr.
This course introduces the legal aspects of the entertainment and digital technology industry. It covers ethics; copyright; the Digital Millennium Copyright Act and its implications; law in cyberspace; intellectual property; performance rights; songwriting and personal appearance contracts; trademarks; and other relevant topics.
3/0/0

ETC 220 Entertainment Technology Internship 1 cr.
The course provides students with opportunities to work in a selected field for course credits. It includes such opportunities as television stations, cable companies, video production houses and associated media departments of area businesses as well as industrial, educational, and organizational settings.
Prerequisite: ETC 105
0/0/3

ETC 225 Capstone Project 1 cr.
This course provides a capstone experience for the entertainment professional. Topics include planning, repairing, and developing a specific entertainment project, including selecting materials, setting up and monitoring budget, and overseeing a complete project. Upon completion, students should be able to create an entertainment project.
Prerequisite: ETC 101 and ETC 105
1/0/0

ENTERTAINMENT TECHNOLOGIES: VIDEO

ETS 101 Live Sound Production I 4 cr.
This course introduces the basic concepts of acoustics in sound recording and reinforcement in studios and live venues. It covers the operation and use of sound system components, consoles, amplifiers, speakers, microphones, and other equipment. It includes hands-on learning experiences in operating sound systems for live events.
3/3/0  Course fee charged

ETS 105 Recording Engineering I 4 cr.
This course provides hands-on learning experiences in the basic operation of a sound stage and recording studio. It covers audio theory; use of the console; tape and digital recording equipment; digital editing equipment; microphone placement; differentiation of microphones and their associated uses; multi-track mixing; and recording session procedures. It also includes the use of digital recording techniques and equipment.
3/3/0  Course fee charged

ETV 105 Editing for the Media 3 cr.
This course covers the operation of computerized digital, non-linear editing techniques. Students learn how to operate desktop, non-linear digital editors to create various forms of video for education, entertainment, special events, commercial, and industrial applications.
3/0/0
ETV 205 Interactive Digital Media 3 cr.
This course introduces the development of menus for interactive DVD and Video-CD, production and editing techniques, design of content branching, and production techniques. It explores and analyzes the uses of these types of media, including education, industrial, entertainment, and events production.
2/3/0 Course fee charged

FASHION DESIGN

FAD 105 Introductory Fashion Drawing 2 cr.
This course enables students to use a variety of media and techniques, including computer software, to execute fashion croqui (drawing aids), fashion illustrations, flat (technical) sketches of apparel, and fabric studies. There is some drawing of the live fashion figure.
Prerequisite: FAD 130
1/2/0 Course fee charged

FAD 130 Sewn Product Construction 3 cr.
This course introduces techniques and materials required to construct sewn products (primarily but not exclusively apparel) as well as the basic concepts and terminology of industrial garment production. Students demonstrate mastery of assembly methods through the use of commercial patterns, production patterns, and the text to produce samples and sample garments. A variety of industrial equipment is used and no prior experience with sewing is required.
2/2/0 Course fee charged

FAD 135 Introduction to Textiles 3 cr.
This course introduces textile materials and processes pertinent to apparel design and development and emphasizes textiles currently used in the apparel industry. It focuses on fibers, yarns, and textile structures and textile styling and advances in technology.
3/0/0 Course fee charged

FAD 137 History of Costume I 3 cr.
This course builds foundation knowledge concerned with the history of the technical and esthetic aspects of apparel, beginning with the pre-historical period and continuing to the era of economic expansion occurring at the end of the 17th century. Dress will be considered in historical, social, and economic contexts and as manufactured products reflecting available technologies and materials.
3/0/0

FAD 138 History of Costume II 3 cr.
This course builds foundation knowledge concerned with the history of the technical and esthetic aspects of apparel, beginning in the year 1700 and continuing to the present day. Dress will be considered in historical, social, and economic contexts, and as manufactured products reflecting available technologies and materials.
3/0/0

FAD 140 Technical Skills for Apparel Design and Development I 4 cr.
This course introduces flat pattern methods for designing basic apparel. Students demonstrate an understanding of the aesthetic and technical characteristics of a well-designed garment, including awareness of the role a target market plays in creation of the design.
Prerequisite: FAD 130
3/2/0 Course fee charged

FAD 145 Technical Skills for Apparel Design and Development II 4 cr.
This course builds upon demonstrated skills in flat pattern methods for designing basic apparel. Students create original designs for jacket and pant variations based on a target market. An original ensemble, drafted and then constructed in fashion fabric, is required.
Prerequisite: FAD 140, FAD 230
3/2/0 Course fee charged

FAD 150 The Fashion Industry 3 cr.
This course focuses on the structure of, and the relationships within, the international fashion industry. Students analyze the marketing of fashion products; the esthetic, social, psychological, and economics of dress; and current topics and careers in the industry.
3/0/0

FAD 180 Digital Portfolio Development for Fashion Design 3 cr.
This course uses industry-appropriate computer software to execute flat garment sketches and enhance fashion illustrations. Students also collect and document their previously completed program projects in digital form. A portfolio of this work is assembled, in both digital and traditional formats, for industry employment or for transfer to a four-year institution.
Prerequisite: GDD 101, CIS 101, FAD 105
2/2/0 Course fee charged

FAD 221 Fashion Design Problem 1 3 cr.
This course focuses on students' technical skills, design capabilities, and awareness of fashion marketing issues and techniques to further refine their execution of groups of prototype garments in fashion fabrics.
Prerequisite: FAD 140
2/2/0 Course fee charged

FAD 230 Advanced Sewing Techniques for Apparel Design 2 cr.
This course covers advanced techniques in the construction of sewn garments. Students will demonstrate mastery of the steps required to create a lined interfaced garment, and will incorporate original styling details in this piece.
Prerequisite: FAD 130
1/2/0 Course fee charged

FAD 240 Fashion Presentation 2 cr.
This course explores methods of fashion marketing communication. Students will develop appropriate communication and publicity strategies for fashion design projects.
Prerequisite: FAD 180
1/2/0

FAD 291 Special Projects in Fashion Design I 1 cr.

FAD 292 Special Projects in Fashion Design II 2 cr.

FAD 293 Special Projects in Fashion Design III 3 cr.
These courses provide practical or theoretical problems in apparel design, production and marketing, as well as in accessory development, fine art, and theater. Guidance, input, and oversight by an appropriate faculty member is provided. Projects include a combination of traditional research and studio work, and result in a documented body of work. Studio hours depend on the project (usually two hours a week per credit).
Prerequisite: FAD 130 and a project approved by the instructor
Course fee charged

FIRE SCIENCE

FSC 101 Introduction to Fire Science 7 cr.
This course will provide the training, knowledge and skills necessary to attain the minimum basic requirements to perform safely as an entry-level firefighter under direct supervision. The course is designed to meet the requirements of the NJ Division of Fire Safety for Firefighter I certification and follows NFPA 1001. Hazardous materials training in Awareness & Operations and CPR are part of the course. Incident Management System Orientation (I-100/700) as required by NJ State Statute will also be taught in this course.
Prerequisite: NPFA chapter 3.2 must be submitted with application
5/4/0 Course fee charged

FSC 102 Fire Department Organization and Management 4 cr.
This course is designed for firefighters, company officers, and training officers interested in learning management, leadership and human relations methods. Knowledge of essential firefighting skills is assumed. The curriculum corresponds to the NFPA 1021 (Professional Qualifications) requirements for Level 1 in personnel and fire ground management. The supervisory functions of planning, organizing, staffing, directing and fire ground control are discussed. The course addresses equal opportunity employment, professional development, employee health and safety and the officer's legal responsibilities.
Prerequisite: FSC 101
4/0/0
FRE 102 Elementary French II 3 cr.
This course is for students with limited knowledge of French. It focuses on building upon demonstrated skills in speaking, reading, and writing French.
Prerequisite: FRE 101 or one year of high school French
3/0/0 FA/SP

FRE 201 Intermediate French I 3 cr.
This course focuses on speaking French. Class discussion is based on the reading of selected short stories, plays, and novels. It reinforces grammar and composition skills.
Prerequisite: FRE 102 or two years of high school French
3/0/0

FRE 202 Intermediate French II 3 cr.
This course continues the emphasis on speaking French. Class discussion is based on the reading of selected short stories, plays, and novels. It reviews grammar and composition skills.
Prerequisite: FRE 201
3/0/0

FOOD SERVICE MANAGEMENT

FSM 107 Introduction to Food Service and Restaurant Management 2 cr.
This course provides an overview of food service management and shows the menu's effect on production, planning, and service. It emphasizes the history of food service, modern food service operations, menu planning, cost controls, menu pricing, menu design, menu analysis, alcohol, nutrition in menu planning, production, service, computers, and financial planning.
2/0/0

FSM 110 Hospitality Supervision and Personnel Management 3 cr.
This course provides hospitality operators, managers, and supervisors a foundation for developing sound people managing skills. It focuses on leadership, workplace diversity, communication, planning, decision making, training, evaluation, delegation, motivation, discipline, safety, ethics, unions, recruitment, coaching, work climate, control methods, and problem solving.
3/0/0

FSM 125 Food Service Sanitation and Accident Prevention 3 cr.
This course focuses on food safety information including food-borne illness; pest management; sanitation regulations; safe food storage; cleaning programs; accident prevention and safety; emergency actions; and crisis management.
3/0/0

FSM 210 Controlling Costs in Food Service 3 cr.
This course teaches the management of cost in all food service areas. It focuses on how to calculate and manage revenue, expenses, pricing, profit, food costs, labor costs, beverage costs, production costs, other costs, and to analyze results using basic accounting principles. Microsoft Excel is used as the basis for the formulas to determine cost percentage, profit, ideal expense, variance, sales per guest, waste, popularity, percent of budget, product yield, inventory value, productivity, selling price, assets, working capital, turnover, return on sales, breakeven point, and return on investment.
3/0/0

FSM 211 Purchasing for the Hospitality Industry 3 cr.
This course provide information that managers need to make sound selection and procurement decisions. It focuses on distribution systems, suppliers, payment policies, buying techniques, specification writing, ordering the variety and characteristics of food, beverages, nonfood supplies, equipment and furniture; receiving, security, and the buyer's role in the organization.
3/0/0

FSM 215 Elementary Nutrition 2 cr.
This course focuses on the basic concepts of nutrition. It focuses on a healthy lifestyle with an emphasis on personal nutrition; pregnancy; children; weight management; exercise; vegetarian eating; heart disease; cancer; diabetes; healthy recipe and menu planning; nutrition misinformation; and marketing nutrition in food service.
2/0/0

FSM 217 Hospitality Marketing 3 cr.
This course focuses on basic marketing principles, services marketing, marketing plans, research methods, information needs of hospitality managers, marketing segmentation, behavior of hospitality customers, advertising, promotions, promotional media, public relations, group sales, personal selling process, contemporary pricing strategies, and menu design.
3/0/0
## GEOGRAPHY

**GEO 102 Principles of Geography** 3 cr.
This course is a survey of geography, including place names, climate, land forms, and peoples. It covers the implications of historical geography, economics, and political systems.
3/0/0 FA/SP

## GIS TECHNOLOGY

**GIS 101 Fundamentals of Geographic Information Systems (GIS)** 3 cr.
This introductory course includes an overview of maps and computer systems; a look at models for attribute and spatial data; the organization of information in a GIS; how a GIS can be used; and future trends for this technology. Geographic Information Systems (GIS) deals with the development and use of maps and data. GIS integrates the display capabilities of a computerized map with the information management tools of a spreadsheet.
3/0/0 Course fee charged

**GIS 201 Advanced Applications in Geographic Information Systems** 3 cr.
This course provides skills and knowledge to explore problems using a GIS. Students learn how to convert data to digital format; import digital data; edit digital data; create and manipulate databases; analyze spatial relationships; provide map outputs; and create program user interfaces.
Prerequisite: GIS 101
3/0/0 Course fee charged

**GIS 202 Fundamentals of Remote Sensing** 3 cr.
This course focuses on the principles of remote sensing and image processing and their applications. It concentrates on aerial photography, but includes satellite imagery. It details the physical principle upon which a variety of photographic and non-photographic sensors operate, describes the existing satellite systems used for remote sensing, describes the principles behind image interpretation, and provides instruction with computer programs.
Prerequisite: GIS 101
3/0/0 Course fee charged

**GIS 203 Fundamentals of Global Positioning System (GPS)** 3 cr.
This course introduces the Global Positioning System (GPS), including the conceptual basis for GPS and hands-on operation of the technology, including computer interfaces, GIS software, and real-world applications.
Prerequisite: GIS 101
3/0/0 Course fee charged

**GIS 291 Geospatial Technology Projects/Internship I** 1 cr.
**GIS 292 Geospatial Technology Projects/Internship II** 2 cr.
**GIS 293 Geospatial Technology Projects/Internship III** 3 cr.
These courses enable students to complete a series of projects supervised by a faculty member or to complete an internship with a company or government agency. Both options provide experience in using GIS, GPS, and remote sensing technologies together to solve a variety of problems in areas such as mapping; marketing; environmental studies; town and regional planning; and facility management. Students use GIS, GPS, and image processing software to complete projects during the semester.
Prerequisite: Permission of the instructor
Course fee charged

## GERMAN

**GER 101 Elementary German I** 3 cr.
This course is designed for students with no knowledge of the language. Training is designed to lay a foundation for speaking, writing, and reading the language.
3/0/0

**GER 102 Elementary German II** 3 cr.
This course is for students with limited knowledge of the language. Training is designed to build on demonstrated skills in speaking, writing, and reading the language.
3/0/0

**GER 201 Intermediate German I** 3 cr.
This course focuses on speaking German. Class discussion is based on cultural readings from the German-speaking world. There is intensive grammar study and composition work.
Prerequisite: GER 102 or two years of high school German or permission
3/0/0

**GER 202 Intermediate German II** 3 cr.
This course focuses on achieving skill in speaking German. Class discussion is based on cultural readings from the German-speaking world. There is intensive grammar study and composition work.
Prerequisite: GER 201 or permission
3/0/0

## GRAPHIC DESIGN AND DIGITAL MEDIA

**GDD 101 Introduction to Computer Graphics** 3 cr.
This course introduces the elements and principles of graphic design. It explores industry design software in the Macintosh environment and how to use the computer as an artistic tool.
3/0/0 FA/SP Course fee charged

**GDD 110 Graphic Design I** 3 cr.
This course presents the basic principles of graphic design and explores them through problem-solving assignments. It gives an overview of the graphic design field and professional working methods. It emphasizes the development of strong conceptual content and solid craftsmanship in design execution.
Prerequisite: GDD 101
3/0/0 Course fee charged

**GDD 112 Illustration** 3 cr.
This course focuses on the basic principles of illustration such as color, form, composition, as well as concept development and communication. It presents the history of illustration and its importance in graphic design. Assignments focus on the creation of original artwork through traditional and digital media, including scans, vector-based, and pixel-based software.
Prerequisite: ART 120, GDD 101
3/0/0 Course fee charged

**GDD 115 Typography** 3 cr.
This course focuses on the basic principles of typography as an art form and its place and importance in graphic design. It also presents the history of typography and type classification as well as letterforms.
Prerequisite: GDD 101
3/0/0 Course fee charged

**GDD 160 Digital Photography** 3 cr.
This course introduces the basic principles of digital photography and explores them through problem-solving assignments. It emphasizes image manipulation and the use of digital photography in graphic design layouts.
Prerequisite: Digital camera with memory card required, GDD 101
3/0/0 Course fee charged

**GDD 214 Graphic Design II** 3 cr.
This course builds on the information in GDD 110. It emphasizes advanced visual problem-solving with digital media from concept development to final presentation.
Prerequisite: GDD 110, ART 110
3/0/0 Course fee charged
GDD 220 Portfolio 3 cr.
This course has students develop a portfolio for professional practice as a graphic designer from new assignments and from the refinement of work completed in previous courses. It addresses career options, portfolio presentation, resume writing, and professional practices. This course should be taken last in the GDD program.
Prerequisite: GDD 115, GDD 214
3/0/0 SP Course fee charged

GDD 221 Web Design I 3 cr.
This course introduces design concepts and techniques applicable to the World Wide Web, with an emphasis on the visual problem-solving process. It examines the creative possibilities as well as the technical aspects of web design as students learn to prepare pages for the Internet environment. It uses state-of-the-art 2D and 3D web design software.
Prerequisite: GDD 110
3/0/0 Course fee charged

GDD 225 History of Graphic Design 3 cr.
This course surveys the history of graphic design from the beginning of visual communication to the onset of the digital age. Students will study the cultural, economic and political impact of graphic design throughout history.
3/0/0

GDD 291 Special Projects in Graphic Design and Digital Media I 1 cr.
GDD 292 Special Projects in Graphic Design and Digital Media II 2 cr.
GDD 293 Special Projects in Graphic Design and Digital Media III 3 cr.
These courses provide an opportunity for students to take advantage of special opportunities that are worthy of college credit, such as freelance opportunities that can be supervised by an instructor or designing program materials.
Prerequisite: Permission of the instructor
Course fee charged

HEALTH INFORMATION TECHNOLOGY

HIT 101 Introduction to Health Information Technology 4 cr.
This course is an overview of the organization of health care in the United States. It addresses the structure of health care organizations; accrediting and governmental bodies that provide standards for the provision of health care to include the current flow of the acute care medical record. It introduces the allied health professions and the organizational structure of the medical staff and its composite members. It focuses on an overview of payer organizations including, but not limited to, managed care and capitation; the health information management profession’s history; current structure and career potentials; and projected future roles.
Prerequisite: Acceptance into the HIT Program
3/3/0 Course fee charged

HIT 103 Legal Aspects of Health Information 3 cr.
This course focuses on the legal aspects of the health record, health information, and the health information department. It emphasizes the implications of legal aspects for the health information practitioner; gives an in-depth study of the confidentiality of health information as well as the standards, regulations, and laws that govern the release of health information. It also covers how to monitor and implement legal changes, liability issues, and the risk management function.
3/0/0 Course fee charged

HIT 105 Medical Terminology 2 cr.
This course is the study of medical terminology, the language of medicine, focusing on prefixes, suffixes, word roots and their combining forms by review of each body system and specialty area. It also emphasizes word construction, spelling, usage, comprehension, and pronunciation. In addition, students gain information regarding anatomy and physiology, symptomatology, pathology, diagnostic/surgical procedures, pharmacology, and medical abbreviations.
2/0/0 Course fee charged

HIT 107 Health Information in Non-Acute Care 3 cr.
This course includes thorough discussion of the different types of non-acute care facilities. It emphasizes National and State accrediting, licensing and certifying standards regarding documentation and management of health information in non-acute patient records. It covers the development, content, and management of health information in the non-acute setting and students develop policy and procedures and perform qualitative/quantitative analysis on medical records. It also includes release of information and other basic functions of the Information Management Technologist in the non-acute care facility. Term paper completion is facilitated by an off-site visit to a non-acute care facility.
Prerequisite: HIT 101, HIT 103
3/0/0 Course fee charged

HIT 110 Professional Practice Experience I 2 cr.
This course is the first of two clinicals, which provide supervised professional practice experience in the acute care setting. It emphasizes the practical application of theory and concepts learned in HIT 101 and 103. Students are responsible for completing clinical objectives specific to the health information management department, the medical staff, and to other departments within the facility that work closely with the health information management department.
Prerequisite: HIT 101, HIT 103
0/0/7 Course fee charged

HIT 115 Pathology 3 cr.
This course focuses on the mechanisms of disease and disease effects on the human body. It emphasizes the disease process, basic concepts, terminology, the most common diseases of each body system, with normal anatomy and physiology compared to pathologic anatomy and physiologic malfunctioning due to the disease process. It also covers diagnostic methods, management, treatment modalities, and prognosis.
Corequisite: BIO 114
3/0/0

HIT 116 Pharmacology for Allied Health Professions 2 cr.
This course provides a framework of thinking for healthcare professionals, laying a foundation of knowledge about drug treatment. It focuses on a general understanding of the actions and reasons for use of various groups of pharmacologic agents. It discusses medications according to major drug classifications and body systems. It develops critical thinking through the use of relevant case studies and actual chart analysis.
Corequisite: BIO 114
2/0/0
HIT 120 | Introduction to Healthcare and Public Health 3 cr.
A survey of how healthcare and public health are organized and services delivered in the US. It covers public policy; relevant organizations and their interrelationships; professional roles; legal and regulatory issues; and payment systems. It also addresses health reform initiatives in the US. It discusses how care is organized within a practice setting, privacy laws, and professional and ethical issues encountered in the workplace.
3/0/0 | Course fee charged

HIT 121 | Introduction to Health IT 3 cr.
This course provides a basic overview of computer architecture: data organization, representation and structure; structure of programming languages; networking and data communication. It traces the development of IT systems in health care and public health, beginning with the experiments of the 1950s and 1960s and culminating in the HITECH act, including the introduction of the concept of “meaningful use” of electronic health records.
3/0/0 | Course fee charged

HIT 122 | Health IT Systems 4 cr.
This course includes an introduction to health IT standards, health-related data structures, software applications, enterprise architecture in health care and public health organizations will also be addressed. Students will work with simulated systems or real systems with simulated data. Security rules required by regulation and best practices for implementation and monitoring of security in EHR systems will also be included. Other topics include: Federal, state, and local health information regulations for EHRs; computer and network system vulnerabilities and best practices for identification and mitigation of those vulnerabilities; information access and protection measures; and user security training.
Prerequisite: HIT 105, HIT 120, HIT 121
4/0/0 | Course fee charged

HIT 123 | Networking and Health Information Exchange 3 cr.
This course provides an in-depth analysis of data mobility including the hardware infrastructure (wires, wireless, and devices supporting them), the ISO stack, standards, Internet protocols, federations and grids, the NHIN and other nationwide approaches. This course will also provide an overview of specialized public health applications such as registries, epidemiological databases, biosurveillance, and situational awareness and emergency response. In addition it will include information exchange issues specific to public health.
Corequisite: HIT 121
3/0/0 | Course fee charged

HIT 204 | Healthcare Management and Personnel 3 cr.
This course introduces the management and personnel skills necessary for entry-level employment at the supervisory level. It emphasizes management functions, including planning, organizing, controlling, and directing and personnel skills, such as communication, motivation, recruitment, discipline, and team building. Individual role playing and group activities are used.
Prerequisite: HIT 101 or permission
3/0/0 | Course fee charged

HIT 205 | HCPCS Coding (CPT-i) 3 cr.
This course introduces the student to Physicians' Current Procedural Terminology, with emphasis on evaluation and management; modifiers; and surgical procedure coding guidelines. Students are presented with referencing resources specific to current conventional and federally administered CPT-i coding guidelines. It discusses tumor and trauma registries. It uses a computerized classification system.
Prerequisite: HIT 209
2/3/0 | Course fee charged

HIT 206 | Reimbursement Methodology 2 cr.
This course presents Third Party Payer and Compliance Issues, Correct Coding Policy, and Government Prospective Payment Systems (e.g. RBRVS, APC, DRG, RUG). Students learn terminology and principles commonly applied in the Managed Care environment. Students conduct a review of billing practices, applying the compliance guidelines introduced in the course.
Prerequisite: HIT 209, HIT 210
Corequisite: HIT 205
2/0/0 | Course fee charged

HIT 209 | ICD-10-CM Coding 3 cr.
This course focuses on disease coding with the International Classification of Diseases Procedural Coding System (ICD-10-PCS). It covers history, structure and organization of the coding system. It also covers ICD-10-PCS attributes, characteristics and definitions. A review of each of the sections of the procedural coding systems is included. It also emphasizes the review of medical records to identify diagnoses treated, and/or services performed, and the correct sequencing for optimal reimbursement.
Prerequisite: HIT 210
2/3/0 | Course fee charged

HIT 210 | ICD-10-PCS Coding 3 cr.
This course focuses on procedure coding with the International Classification of Diseases Procedural Coding System (ICD-10-PCS). It covers history, structure and organization of the coding system. It also covers ICD-10-PCS attributes, characteristics and definitions. A review of each of the sections of the procedural coding systems is included. It also emphasizes the review of medical records to identify diagnoses treated, and/or services performed, and the correct sequencing for optimal reimbursement.
Prerequisite: HIT 209
2/3/0 | Course fee charged

HIT 211 | Professional Practice Experience II 2 cr.
This course provides supervised professional practice experience in acute and non-acute settings. Practice objectives are designed to focus the student on management-oriented activities; fostering development of observational skills; independent function; problem analysis and solution; as well as integration of a range of technical knowledge and skills previously acquired. Students have clinical practice in the non-acute (direct and non-direct care) settings that provide them with opportunities to compare and contrast fundamental information management practices of alternative sites.
Prerequisite: HIT 110, HIT 204, HIT 209, HIT 210
0/4/0 | Course fee charged

HIT 218 | Healthcare Quality and Performance Improvement 3 cr.
This course focuses on sources and use of health data, including health data collection through manual and automated systems, data retrieval, analysis and display. The course focuses on and uses techniques of continuous quality improvement (OQI) and associated tools of data analysis. It includes vital statistics; reportable disease registries and conditions; and standards and requirements of accrediting, licensing, fiscal, and other regulatory agencies.
3/0/0 | Course fee charged

HIT 219 | Healthcare Information Systems 4 cr.
This course is an introduction to the fundamentals of health information systems and their applications in the healthcare environment. Security and confidentiality of information stored in the electronic health record will be addressed as well as the logistics of monitoring and utilizing the information. This course will also review the history, acronyms, benefits and use of the EHR. Students will use actual electronic health records and learn how to use the system from the user “front end” to the programmer “back end”.
Prerequisite: CIS 101
3/3/0 | Course fee charged
HIT 226 Applications in Acute Care Coding 4 cr.
This course focuses on disease and procedural coding with major emphasis on the International Classification of Diseases 9th Edition, Clinical Modification (ICD-9-CM). DRG's and the prospective payment system for reimbursement will be discussed. Coding principles, conventions, clinical and technical guidelines, maintenance and referencing resources will be presented. This course will address the review and coding of medical records to identify treated diagnoses, procedures and/or services performed and correct sequencing for optimal reimbursement. Computerized grouping systems will be used.
Prerequisite: HIT 205, HIT 208, HIT 209, HIT 210 3/3/0

HIT 228 Fundamentals of Health IT Workflow Process 3 cr.
This course includes the fundamentals of health workflow process analysis and redesign is a necessary component of complete practice automation and includes topics of process validation and change management. It also introduces the concepts of health IT and practice workflow redesign as instruments of quality improvement. It addresses establishing a culture that supports increased quality and safety, and discusses approaches to assessing patient safety issues and implementing quality management and reporting through electronic systems. A discussion of rapid prototyping, user-centered design and evaluation, usability, understanding effects of new technology and workflow on downstream processes; facilitation of a unit-wide focus group or simulation will also be included in this course.
Prerequisite: HIT 105, HIT 120, HIT 121 Corequisite: HIT 122 3/0/0 Course fee charged

HIT 229 Health IT Project Management 4 cr.
This course provides an understanding of project management tools and techniques that result in the ability to create and follow a project management plan. This course develops the skills necessary to communicate effectively across the full range of roles that will be encountered in healthcare and public health settings. It helps prepare students for leadership roles, principles of leadership and effective management of teams with emphasis on the leadership modes and styles best suited to IT deployment.
Prerequisite: HIT 105, HIT 120, HIT 121 Corequisite: HIT 122 4/0/0 Course fee charged

HIT 230 Training and Instructional Design in Healthcare 4 cr.
This course develops the skills necessary to communicate effectively across the full range of roles that will be encountered in healthcare and public health settings. It also provides an overview of learning management systems, instructional design software tools, teaching techniques and strategies, evaluation of learner competencies, maintenance of training records, and measurement of training program effectiveness.
Prerequisite: HIT 105, HIT 120, HIT 121 Corequisite: HIT 122 4/0/0 Course fee charged

HEARING INSTRUMENT SCIENCES

HRS 101 Introduction to Applied Hearing Science 1 cr.
This course provides an introduction to the role and responsibilities of each member of the hearing healthcare team. Emphasis is placed on the professional services provided by Licensed Hearing Instrument Dispensers. Other topics include the daily duties and professional responsibilities of Licensed Hearing Instrument Dispensers, the requirements for state licensure, and opportunities for employment. Students will visit a Hearing Instrument Specialist’s office and a Hearing Instrument Manufacturer’s facility.
Prerequisite: HRS 101 3/0/0

HRS 110 Acoustics and Psychoacoustics 4 cr.
This course develops an understanding of sound, sound transmission and sound measurement as related to hearing and hearing instruments. Students also gain a knowledge and understanding of psychoacoustic principles and methods and their applications to the measurement of a variety of auditory phenomena.
Prerequisite: HRS 101, BIO 110, BIO 111 4/0/0

HRS 120 Anatomy & Physiology of the Auditory & Vestibular System 3 cr.
This course provides an understanding of anatomy and physiology of the auditory and vestibular systems; the role of the auditory system in the reception and perception of sound; and the effects of various pathologic conditions on auditory and vestibular function.
Prerequisite: HRS 101, BIO 110, BIO 111 3/0/0

HRS 130 Professional Patient Counseling and Communication Dynamics 3 cr.
This course aids the student in learning to recognize and overcome barriers to effective communication; listen and communicate more effectively with hearing impaired patients to help them move beyond their reluctance to accept treatment; and to communicate effectively through chart notes, reports, letters and consulting documents with physicians, audiologists and other professionals.
Prerequisite: HRS 101, PSY 101 3/0/0

HRS 140 Communication and Communication Disorders 3 cr.
This course provides a basic understanding of the intrinsic relationships among language, speech, and hearing; the basic characteristics of language, speech development and speech production; and the terminology and classifications of speech and language disorders.
Prerequisite: HRS 101 3/0/0

HRS 150 Legal and Ethical Responsibilities 2 cr.
In this course, students acquire an understanding of legal issues and legal responsibilities associated with the practice of Hearing Instrument Dispensing. They will also gain knowledge of the agencies and laws concerning the hearing handicapped and the hearing aid industry.
Prerequisite: HRS 101 2/0/0

HRS 200 Hearing Assessment I 4 cr.
This course introduces the theory and practice of auditory assessment through the use of patient history information; otoscopy; pure tone audiometry and acoustic impedance (immittance) measures; and special population assessment. Calibration requirement and otologic considerations and understanding of infection control are also covered.
Prerequisite: HRS 110, HRS 120, CIS 101 3/2/0

HRS 205 Hearing Assessment II 4 cr.
This course continues to develop an understanding of the theory and practice of auditory assessment, using speech audiometry techniques. The rationale for an application of self assessment inventories/scales in hearing health care are covered and commonly used electrophysiologic auditory tests are introduced.
Prerequisite: HRS 200 3/2/0
HRS 210 Hearing Instrument Technology I  
This course covers the physical and the acoustic characteristics of hearing aids, including analog and compression amplifiers as well as digitally controlled analog and digital signal processing instruments, and special compressions options. Hearing aid test standards and required measurements of hearing aid performance, types of acoustic couplers and effects of coupler modifications in transferring sound to the human ear are also covered. The student will develop an understanding of an effective infection control program in a Hearing Instrument Dispensing practice.
Prerequisite: HRS 110, HRS 120, HRS 140  3/2/0

HRS 215 Hearing Instrument Technology II  
This course covers advanced clinical skills necessary to prescribe hearing aid performance characteristics for individual patient requirements. Concepts that are covered include binaural versus monaural fittings, types of digital systems covering basic to advanced technologies, measurements to verify aided hearing improvement and techniques for troubleshooting hearing aid problems from initial adjustment to amplification through long term care and maintenance.
Prerequisite: HRS 210  3/2/0

HRS 230 Auditory Rehabilitation  
This course helps students develop an understanding of and appreciation for the basic processes of auditory habilitation and rehabilitation.
Prerequisite: HRS 110, HRS 120, HRS 130, HRS 140  3/0/0

HRS 250 Clinical Practicum and Externship  
This course provides students with an opportunity to observe and gain practical experience in assessment, fitting, and trouble shooting techniques in a practitioner’s office.
Prerequisite: HRS 150, HRS 205, HRS 215, HRS 230  0/0/12

HIS 101 United States History I  
This course examines the political, economic, social and military history of the United States from its beginnings through Reconstruction.
Prerequisite or Corequisite: ENG 101  3/0/0

HIS 102 United States History II  
This course focuses on the political, economic, social, and military history of the United States since Reconstruction.
Prerequisite or Corequisite: ENG 101  3/0/0

HIS 103 Ancient and Medieval Foundations of Western Civilization  
This course examines the evolution of Western culture from the Stone Age to the end of the Thirty Years War. It emphasizes the medieval and early modern periods.
Prerequisite or Corequisite: ENG 101  3/0/0

HIS 104 Modern European History  
This course is an appraisal of the enduring values of western civilization. It focuses on the power politics, scientific, political, and industrial revolutions from their origins in the seventeenth century to the 20th century.
Prerequisite or Corequisite: ENG 101  3/0/0

HIS 212 The American Civil War  
This course examines the causes, character, and consequences of the American Civil War. It identifies the multiple origins of the conflict; the cost to the nation socially, economically, politically, and militarily; and demonstrates the impact it has had upon the twentieth century.
Prerequisite: HIS 101 and ENG 101  3/0/0

HIS 213 Genocide  
This course presents the history of intolerance and bigotry through an analysis of genocide. Human rights violations and challenges to social justice will be analyzed and students will witness how such consequences lead to acts of atrocity. Recognition and prevention will be discussed through issues of conscience, ethics, and moral responsibility. Students will participate in independent and collaborative activities while surveying and analyzing the history of genocide (from Namibia and Armenia to Rwanda and Darfur).
Prerequisite: HIS 101  3/0/0

HIS 215 Renaissance and Reformation  
This course deals with two distinct upheavals that took place in Western Europe between 1300 and 1700. The first investigates the Renaissance—its classical bases; its characteristics and developments in the various arts; and the major figures involved in those areas. The second concentrates on the Reformation—its precedents in Christian church history; theological ideas proposed by various Protestant reformers; and the Roman Catholic reaction to the upheaval. Long-term results of both movements will be covered.
Prerequisite: HIS 103  3/0/0

HIS 220 Modern Britain  
A survey of Britain from the late 18th century to the present. Topics include the industrial revolution, political and social reform, society and social issues, Ireland, the British Empire, the World Wars, the welfare state, economic decline and the transformation of Britain into a modern European state.
Prerequisite: HIS 104 and ENG 101  3/0/0

HIS 230 Islamic Civilization  
This course introduces the history, culture and art of Islam from the 7th century to the present. It examines the historical development, spread and significance of Islam as a religious, social and political force.
3/0/0

HIS 266 African-American History I  
This course examines the economic, political, and social history of African people from seventeenth century west Africa through the Atlantic Slave Trade; colonial and antebellum America; the Civil War; and Reconstruction up to 1877.
Prerequisite: ENG 101  3/0/0

HIS 267 African-American History II  
This course focuses on the political, economic, cultural, and social evolution of African Americans from America’s Reconstruction period to the present.
Prerequisite: ENG 101  3/0/0
HOSPITALITY

HOS 110 Introduction to Hospitality 3 cr.
This introductory course will provide a general overview introduction to the hospitality, travel and tourism industry. In addition, the course will provide students a basic success map so they can evaluate, prepare, and plan for their future success in the hospitality field. The success map will include job evaluation techniques, resume writing, case management studies, the importance of lifelong learning, and basic job success skills.
3/0/0

HOS 130 Food and Beverage Management 3 cr.
This course will provide an overview of food and beverage management for restaurants; foodservice operations; hotels and resorts; and casinos.
3/0/0

HOS 150 Hospitality Purchasing 3 cr.
This course will provide a general overview of hospitality purchasing. Topics will be applicable to all hospitality areas, including institutions and resorts and casinos.
Prerequisite: HOS 110
3/0/0

HOS 160 Accounting for Hospitality 3 cr.
This course will outline the basic hospitality accounting rules and discuss topics specific to hotel and hospitality accounting practices.
Prerequisite: MTH 104 or higher
3/0/0

HOS 225 Hotel Operations 3 cr.
This course is designed to provide the students with a general understanding of the daily operations of the lodging industry, and specifically the operations and management of full service hotels and resorts.
Prerequisite: HOS 110
3/0/0

HOS 230 Global Tourism Overview 3 cr.
This course will provide a general overview of tourism around the world, with an emphasis on varied types of tourism experiences.
Prerequisite: HOS 110
3/0/0

HOS 235 Ecotourism Destinations with a New Jersey Focus 3 cr.
This course will discuss the rise of ecotourism as a sub-development of hospitality. The course will have a strong focus on New Jersey tourism development in this area.
Prerequisite: HOS 110
3/0/0

HOS 252 Managing for Quality of Service 3 cr.
This course will explore the importance of managing for excellent service. The course will explore customer service; staff development; staff and customer retention; and explore case studies of organizations that excel in managing quality of service.
Prerequisite: HOS 110
3/0/0

HOS 255 Hotel and Resort Development 3 cr.
This course will provide an overview on resort, hotel and casino development and management; the environmental impact of resorts; and the processes used to determine their amenities and services.
Prerequisite: HOS 110, HOS 225
3/0/0

HOS 260 Hospitality Law 3 cr.
This course will provide a basic introduction to hospitality law and provide a basis in which to make decisions with proper legal outcomes.
Prerequisite: HOS 110
3/0/0

HOS 265 Hospitality Practicum 3 cr.
This course is 160 hours of practical study with directed writing and research.
Prerequisite: HOS 110
0/6/0

HUMAN SERVICES

HUS 101 Human Services I 3 cr.
This introductory course offers an overview of helping strategies and interventions with attention to principles, methodology, practitioner skills and knowledge. It addresses social issues and problems and the attendant service systems of social care, social control, and social rehabilitation. It introduces the fields of human services, social work, counseling and case management. It emphasizes legal issues of the human services profession.
3/0/0 Course fee charged

HUS 102 Human Services II 3 cr.
This course introduces students in the human services, public administration, criminal justice, child-care, gerontology, and related curricula to intervention skills and activities and their uses in working with others. It examines ethical dilemmas in the helping professions.
Prerequisite: HUS 101
3/0/0 Course fee charged

HUS 104 Interviewing Techniques 3 cr.
This course defines and discusses issues from various aspects of social service practice. It proposes and analyzes intervention methodologies and solutions for problems such as family violence; mental health and chemical dependency; foster care; adoption; delinquency; and crime. It prepares students to work with diverse populations as helping professionals.
3/0/0 Course fee charged

HUS 105 Introduction to Group Dynamics 3 cr.
This course focuses on group functioning and leadership and the factors involved in group cohesion and group conflict; communication systems; emotional styles; and group role function. It examines how to design and facilitate task groups and therapy groups.
3/0/0

HUS 106 Contemporary Issues in Social Welfare 3 cr.
This course defines and discusses issues from various aspects of social service practice. It proposes and analyzes intervention methodologies and solutions for problems such as family violence; mental health and chemical dependency; foster care; adoption; delinquency; and crime. It prepares students to work with diverse populations as helping professionals.
3/0/0 Course fee charged

HUS 201 Introduction to Counseling 3 cr.
This course examines the theoretical foundations and various counseling styles and techniques. It develops student skills in the understanding of developmental, nondirective, psychodynamic, transactional and other approaches to individual, marital, and family counseling. It examines the characteristics of a workable counseling relationship.
3/0/0 Course fee charged

HUS 202 Interviewing Techniques 3 cr.
This course trains students to understand and effectively utilize the interviewing process to assist clients with problem resolution. It examines various interviewing styles and techniques and the theoretical foundation of each. It develops interviewing skills through the use of student interaction, role-playing, videotape, and recordings of actual student interviews. It focuses on the concepts of communication, interaction, and the self.
3/0/0 Course fee charged

HUS 205 Social Work Process 3 cr.
This course surveys practices, concepts, methods, and current trends in human service work. It stresses basic skills inherent in casework, group work, and community organization. It examines methods of data collection used by a variety of social service agencies. It utilizes a strength-based empowerment approach and emphasizes skills for working with older adults and persons with developmental disabilities.
Prerequisite: HUS 102
3/0/0 Course fee charged
HUS 207 Addiction Dynamics and Interventions 3 cr.
This course provides a working knowledge of the helping process as it applies to drug and alcohol counseling. It focuses on assessment and diagnostic skills; the pharmacology of commonly abused substances; appropriate goals and treatment plans; individual, group and family treatment approaches; the levels of care available to drug and alcohol clients and their families; current research, trends and success rates in treatment; the impact of sex, age, and ethnicity on the treatment process; the ethical guidelines of practice; and the American Psychiatric Association's diagnostic criteria for substance use disorders and their relationship to other mental health disorders. It also covers the procedure for applying for state, national and international drug and alcohol counselor certification.
Course fee charged

HUS 210 Human Services Field Placement 3 cr.
This course places students in a social service agency for eight hours per week for fourteen consecutive weeks to perform tasks and engage in learning activities associated with acquiring professional standards, behaviors, and conduct. Students are supervised by a faculty member and field supervisor and are expected to attend a weekly seminar to discuss their experiences and observations. Students learn how to prepare for clinical supervision and complete a professional portfolio.
Prerequisite: HUS 205
Course fee charged

INTERPRETER EDUCATION

IEP 102 Introduction to Interpreting I 3 cr.
This course introduces students to the art and profession of interpreting for deaf and hearing persons and is designed for students who have completed their battery of American Sign Language courses (ASL 101, 102, 201, and 202). It covers professional requirements, knowledge of the demands and controls in the interpreting triad; analysis of interpretation theory; intercultural and interlingual demands; development of processing skills; and guidelines for interpreting in specialized situations. Students learn through classroom discussions, role playing, videotapes, and interviews of professional interpreters and deaf/hearing consumers.
Prerequisite: ASL 202

IEP 111 Linguistics of American Sign Language 3 cr.
This course introduces the study of American Sign Language, its “phonology”, morphology, grammar (syntax) and meaning (semantics). It investigates geographical, generational, racial, and gender differences. It includes similarities and differences between English and American Sign Language.
Prerequisite: ASL 102
Corequisite: ASL 201

IEP 201 Introduction to Interpreting II 3 cr.
This course focuses on the ethics, professional behavior and skills necessary to prepare and perform as an interpreter in a variety of settings. It focuses on interpreting in the mental health and social services fields and interpreting with a varied clientele including blind and deaf individuals.
Prerequisite: IEP 102

IEP 203 Discourse Analysis for Interpreters 3 cr.
This course focuses on the analysis of discourse in dialogic genres of English and American Sign Language (ASL) so that interpreting students become explicitly aware of the features of language use in everyday life. Students transcribe and analyze interaction discourse features of conversations, explanations, interviews, discussions, and other types of dialogue genres while reading and discussing theoretical notions underlying language use.
Prerequisite: IEP 201

IEP 204 Cognitive Processing Skills 3 cr.
This course is an introduction to the mental processing skills (pre-interpreting skills) of consecutive and simultaneous interpretation. This course includes an overview of the theoretical models of interpretation, provides skill development activities for isolated interpreting sub-tasks and practice activities for the integration of these tasks in translation and consecutive interpreting activities. Course content includes interpreting theory; visualization; listening and comprehension; shadowing; paraphrasing; abstracting; dual task training; text analysis (including identification of main point, summarizing and structuring); cloze skills; and translation. Twelve hours of interpreter observations are required.
Prerequisite: IEP 201

IEP 211 Interpreting Process Application in ASL to English 3 cr.
This course focuses on building expressive interpreting skills, such as changing a message from American Sign Language into spoken English. It emphasizes theoretical components, principles, and ethics; and discusses and applies strategies for effective receptive “listening” and text analysis.
Prerequisite: ASL 204, IEP 203, IEP 204

IEP 221 Interpreting Process Application in English to ASL 3 cr.
This course focuses on building expressive interpreting skills, such as changing a message from spoken English into American Sign Language. It emphasizes theoretical components, principles, and ethics; and discusses and applies strategies for effective receptive “listening” and text analysis.
Prerequisite: ASL 204, IEP 203, IEP 204

IEP 232 Transliteration 3 cr.
This course focuses on changing a message spoken in English into an English-based language (i.e. contact language), and then reversing the process by changing a message from an English-based sign language into spoken English. Practice and evaluations are accomplished through demonstrations and audio and/or video taped sessions.
Prerequisite: IEP 211, IEP 221
Corequisite: IEP 242

IEP 242 Practicum in Interpreting 3 cr.
This course involves observation by and placement of the student in interpreting situations both on- and off-campus to gain on-the-job experience. It requires a minimum of 135 interpreting hours.
Prerequisite: IEP 211, IEP 221
Corequisite: IEP 232
Course fee charged

ITALIAN

ITA 101 Elementary Italian I 3 cr.
This course is for students with no knowledge of Italian. It focuses on laying a foundation for speaking, reading, and writing Italian.

ITA 102 Elementary Italian II 3 cr.
This course is for students with limited knowledge of Italian. It focuses on building upon demonstrated skills in speaking, reading, and writing Italian.
Prerequisite: ITA 101 or one year of high school Italian

ITALIAN

ITA 201 Intermediate Italian I 3 cr.
This course focuses on speaking Italian. Class discussion is based on readings from the Italian-speaking world. There is intensive grammar study and composition work.
Prerequisite: ITA 102 or two years of high school Italian or permission
3/0/0

ITA 202 Intermediate Italian II 3 cr.
This course focuses on achieving skill in speaking Italian. Class discussion is based on readings from the Italian-speaking world. There is intensive grammar study and composition work.
Prerequisite: ITA 201 or permission
3/0/0

JOURNALISM

JOU 101 Introduction to Journalism Writing I 3 cr.
This course introduces investigating, reporting, and writing the variety of news stories typically found in newspapers. Students practice writing news stories and also study and analyze samples of contemporary American journalism.
Prerequisite or Corequisite: ENG 101
3/0/0 FA

JOU 102 Introduction to Journalism Writing II 3 cr.
This course requires students to practice reporting and writing feature stories, editorials, and columns. It also focuses on editing of copy as well as writing headlines and picture captions. Special attention is paid to samples from contemporary American newspapers and magazines.
Prerequisite: JOU 101
3/0/0

JOU 291 Special Projects in Journalism I 1 cr.

JOU 292 Special Projects in Journalism II 2 cr.

JOU 293 Special Projects in Journalism III 3 cr.
These courses involve specific, advanced projects in journalism approved by the instructor. It requires three hours per week per credit.
Prerequisite: Project approval by the instructor

LITERATURE

LIT 203 Masterpieces of World Literature I 3 cr.
This course is a sampling of significant Biblical and classical literature (Greek and Roman) as well as mythological literature. The emphasis will be on reading and discussing the origins of the allusions found in modern arts.
Prerequisite: ENG 102 or permission
3/0/0

LIT 205 Introduction to Poetry 3 cr.
This course divides the study of poetry into four parts. It examines what poetry is and how it differs from other literary forms; how it evolved (the tradition of poetry); what special skills are needed to understand it; and what purpose it serves in a utilitarian culture. Students read, analyze, and discuss poems.
Prerequisite: ENG 102 or permission
3/0/0

LIT 206 Women's Literature 3 cr.
This course examines the roles assigned to women in society as reflected in poetry, short stories, novels, and autobiographical writings by women. It reflects the views of women held in different countries and at different times in the recent past.
Prerequisite: ENG 102 or permission
3/0/0

LIT 207 British Literature I 3 cr.
This course focuses on British literature from its origins to the late eighteenth century. It emphasizes critical reading and analysis of selected fiction, poetry, drama, and essays.
Prerequisite: ENG 102 or permission
3/0/0 FA

LIT 208 British Literature II 3 cr.
This course focuses on British literature from the Romantic to the contemporary period. It emphasizes critical reading and analysis of selected fiction, poetry, drama, and essays.
Prerequisite: ENG 102 or permission
3/0/0 SP

LIT 209 American Literature I 3 cr.
This course is a survey covering American literature from the Puritan period to the Civil War. It emphasizes major trends in literary development during that time span.
Prerequisite: ENG 102 or permission
3/0/0 EA

LIT 210 American Literature II 3 cr.
This course is a survey covering American literature from the Civil War to modern times. It emphasizes major trends in literary development during that time span.
Prerequisite: ENG 102 or permission
3/0/0 SP

LIT 211 Masterpieces of World Literature II 3 cr.
This course will cover both fictional and non-fiction works from the eleventh century to the present with a focus on European and non-Western traditions. Students will explore the historical, social, and cultural contexts of chosen texts in order to trace the development of modern literary genres.
Prerequisite: ENG 102
3/0/0

LIT 215 Introduction to Children's Literature 3 cr.
This survey course introduces the history, psychology, and literary techniques of quality children's literature. It emphasizes the evaluation and analysis of children's literature to assess what makes a quality piece of literature.
Prerequisite: ENG 102
3/0/0 FA/SP/SU

LIT 216 Poetry of the Holocaust 3 cr.
This course examines the poetry that reflects upon the Nazi destruction of 6,000,000 Jews during the Holocaust of World War II. The poetry is a testimony to the lost lives and the devastated souls. Poets re-create both the sorrow and the inspiration of varied Holocaust experiences. It focuses on communal and individual identity; memory; and the desire for self-representation.
3/0/0

LIT 217 The Holocaust in World Literature 3 cr.
This course examines the literature that reflects upon the extermination of 6,000,000 Jews during the Holocaust of World War II. The literature stands as testimony to the broad range of Holocaust experiences, both sorrowful and inspirational. These events are re-experienced through fiction; dramatic works; memoirs; diaries; film and guest lecturers; and artists. It includes selected works by men and women; Jews and non-Jews; figures famous and unknown; eyewitnesses, survivors, and second- and third-generation writers.
3/0/0

LIT 218 Literature and Film 3 cr.
This course explores the complex interplay between film and literature. Selected novels, short stories, and plays are analyzed in relation to film versions of the same works in order to gain an understanding of the possibilities—and problems—involved in the transposition to film.
Prerequisite: ENG 102 (or ENG 101 with permission)
3/0/0
LIT 220 Shakespeare 3 cr.
This course focuses on Shakespeare's life and times and the study of a selection of his plays: historical, comedic, and tragic.
Prerequisite: ENG 102 or permission
MTH 055 Pre-Algebra 4 cr.*
This developmental course focuses on skills needed to prepare students for algebra. It includes the operations of integers, exponents, order of operations, understanding variables, and solving equations. It also introduces operations of rational numbers in the form of signed fractions and decimals as well as problem solving in terms of perimeter and area.
*Credits do not apply toward graduation.
4/0/0 FA/SP/SU
MTH 075 Elementary Algebra 4 cr.*
This developmental course is designed for students who have not taken a full year of high school algebra or who require a review of certain topics in elementary algebra. It focuses on signed numbers; polynomial algebraic expressions and their operations; rational algebraic expressions; factoring; the solving and graphing of first degree equations in one variable; and systems of linear equations (algebraic and graphic solutions).
*Credits do not apply toward graduation.
Prerequisite: Demonstrated competency in arithmetic skills covered in MTH 055
4/0/0 FA/SP/SU
MTH 095 Intermediate Algebra 4 cr.*
This course is designed for students who have mastered elementary algebra. It focuses on linear and absolute value equations; inequalities; functions; rational exponents; radicals; complex numbers; solving and graphing of quadratic equations and inequalities; and systems of linear equations and inequalities.
*Credits do not apply toward graduation.
Prerequisite: MTH 075 or equivalent skills
4/0/0 FA/SP/SU
MTH 107 Introduction to Statistics 3 cr.
This is a first course in basic statistical concepts. It focuses on frequency distributions of empirical data, calculations of descriptive statistics, probability distributions, confidence intervals, hypothesis testing, chi square, regression, and correlation.
Prerequisite: MTH 075 or equivalent skills
Note: Students may receive credit for either MTH 107 or MTH 143, but not credit for both courses.
3/0/0 FA/SP/SU
MTH 111 Trigonometry 3 cr.
Course content includes definitions of the functions of an angle, development and use of the usual formulas; identities; solutions of triangles; trigonometric equations; inverse functions; radian measure and applied problems. Emphasis will be on the analytic phases of trigonometry rather than numerical solutions.
Prerequisite: MTH 095 or two years of high school algebra
3/0/0
MTH 112 College Algebra 3 cr.
This course prepares students for upper level college mathematics courses. It focuses on graphs and transformations of functions; inverse and combinations of functions; solving linear and absolute value equations; polynomial equations; quadratic equations; and polynomial, rational, exponential, and logarithmic functions and their graphs.
Prerequisite: MTH 095 or two years of high school algebra
3/0/0
MTH 113 Modern College Mathematics I 3 cr.
This course satisfies the mathematics requirements for students in non-science fields. It emphasizes sets; logic; numeration and mathematical systems; whole numbers; integers; rational numbers; irrational numbers; and elements of number theory.
Prerequisite: MTH 075 or equivalent skills
3/0/0 FA/SP
MTH 118 Calculus I and Analytic Geometry 4 cr.
This course focuses on selected content from plane analytic geometry; limits and continuity; derivatives of algebraic, trigonometric, logarithmic, and exponential functions; extrema; differentials; antiderivatives; definite integrals; and applications. Graphical and symbolic calculation software is provided and applied to selected topics.
Prerequisite: MTH 111 and MTH 112, or MTH 130 or permission
4/0/0 FA/SP/SU
MTH 119 Calculus II and Analytic Geometry 4 cr.
This course focuses on differentiation of inverse trigonometric functions and application of implicit and logarithmic differentiation. It also emphasizes the completion of the Basic Integration Formulas, techniques of integration, improper integrals, parametric equations, sequences, and series. Application of integration include area and volumes of solids of revolution. Symbolic calculation software is provided and applied to selected topics.
Prerequisite: MTH 118
4/0/0 FA/SP/SU
MTH 130 Precalculus 4 cr.
This course is the analytic study of elementary relations and functions including linear, quadratic, higher order polynomial, exponential, logarithmic, and trigonometric. Upon successful completion of this course, the student is expected to begin the formal study of calculus. A graphing calculator is required.
Prerequisite: MTH 095 or equivalent skills
3/0/0
MTH 141 Elementary Quantitative Methods for Management 3 cr.
This course satisfies the mathematics requirement for business and social science majors in transfer programs. It focuses on linear, quadratic, exponential and logarithmic functions and their graphs; matrices; linear systems; and linear programming, including simplex method.
Prerequisite: MTH 095 or equivalent skills
3/0/0
MTH 142 Calculus: Techniques and Applications 3 cr.
This course satisfies the mathematics requirement for business and social science majors in transfer programs. It focuses on topics from applied calculus: limits; derivatives; maxima and minima; anti-derivatives; and the definite integral. It emphasizes developing the calculus skills necessary to solve problems of management and the social sciences.
Prerequisite: MTH 111 and MTH 112, or MTH 130 or MTH 141 or permission
3/0/0
MTH 143 Statistics 4 cr.
This course presents basic statistical principles and methods. It focuses on descriptive statistics; probability theory; Binomial; Poisson; z, t, and Chi-square distributions; central limit theorem; confidence intervals; and hypothesis testing. One hour per week is spent in the microcomputer laboratory exploring software applications of statistical concepts presented in the lecture. No previous computer experience is assumed.
Prerequisite: MTH 112 or MTH 141 or MTH 130
Note: Students may receive credit for either MTH 107 or MTH 143, but not credit for both courses.
4/0/0 FA/SP Course fee charged
MTH 201 Linear Algebra 3 cr.
This course focuses on the basic theory and applications of real finite dimensional vector spaces and linear transformations. It includes vectors; linear dependence; basis and dimension; matrices; applications to systems of linear equations; change of basis; and eigenvalues.
Prerequisite: MTH 118
3/0/0

MTH 220 Calculus III and Analytic Geometry 4 cr.
This course focuses on vectors in the plane and space; vector calculus; multivariate functions and partial derivatives; directional derivatives; multiple integrals and surface integrals; vector fields; line integrals; Green’s theorem; Divergence theorem; and Stokes’s theorem.
Prerequisite: MTH 119
4/0/0

MTH 226 Discrete Mathematics 3 cr.
This course is an elementary introduction to certain topics in Discrete Mathematics appropriate for work in computer science and in the further study of mathematics. It focuses on sets; logic; proof and counting techniques; combinatorics; graphs; trees; and Boolean Algebra.
Prerequisite: MTH 111 and MTH 112, or MTH 130
3/0/0

MTH 230 Differential Equations 4 cr.
This course focuses on methods of solution, applications, and theory of ordinary differential equations. It includes first order differential equations, linear differential equations of higher order, power series solutions, Laplace transforms, and systems of linear differential equations.
Prerequisite: MTH 220
4/0/0

MTH 243 Statistics II 3 cr.
This course focuses on test of fit, test of independence; analysis of variance; simple and multiple regression; correlation analysis; time series; index numbers; and non-parametric statistics.
Prerequisite: MTH 143
3/0/0

MTH 291 Special Projects in Mathematics I 1 cr.

MTH 292 Special Projects in Mathematics II 2 cr.

MTH 293 Special Projects in Mathematics III 3 cr.
These courses involve independent study and research on some topic or in some area of mathematics. Projects include a statement of objectives, a literature search, and a written report.
Lab hours depend on the project (usually two hours per week per credit).
Prerequisite: Permission

MUSIC (APPLIED)

MUC 101, 102, 103 Class Piano I, II, III 1 cr. ea.
This course involves class instruction in one one-hour class session per week. Daily practice sessions are required. This course may also be taken for non-credit through Community Enrichment.
1/1/0 FA/SP Course fee charged

MUSIC (PRIVATE APPLIED)

MUP 131-139 Applied Music I 1 cr.
These courses involve one half-hour class session per week of private instruction in Woodwind 131/141; Brass 132/142; Strings 133/143; Percussion 134/144; Voice 135/145; Composition 136/146; Piano 137/147; Guitar 138/148; and Secondary Instrument 139/149. These are offered for one credit, at a time mutually agreed upon by the student and the instructor. An authorized signature is required.
Prerequisite: Permission
0/2/0 FA/SP Course fee charged

MUP 231-239 Advanced Applied Music I 1 cr.

MUP 241-249 Advanced Applied Music II 1 cr.
These courses involve one half-hour class session per week of continued private instruction in Woodwind 231/241; Brass 232/242; Strings 233/243; Percussion 234/244; Voice 235/245; Composition 236/246; Piano 237/247; Guitar 238/248; and Secondary Instrument 239/249. These are offered for one credit, at a time mutually agreed upon by the student and the instructor. An authorized signature is required.
Prerequisite: Permission of the instructor
0/2/0 FA/SP Course fee charged

MUSIC APPRECIATION THEORY/HARMONY

MUS 101 Introduction to Music 3 cr.
This course discusses the place of music in the life of humans. It emphasizes stimulating the enjoyment of music. It focuses on methods of comprehending music, listening techniques, discernment of musical elements, and the recognition of primary musical forms in an attempt to develop intelligent and discriminating listeners.
3/0/0

MUS 105 Fundamentals of Music 3 cr.
This course is an integrated study of the construction and language of music through musical notation, scales, rhythm, and harmony, with rudimentary performance on a melody instrument. It is for the student with or without previous musical training.
3/0/0

MUS 110 Aural Perception 2 cr.
This course develops the ability to sight-sing melodic passages and to notate rhythmic, melodic, and harmonic examples through ear training exercises.
Prerequisite: MUS 105 or permission
2/0/0

MUS 115 Harmony 3 cr.
This course focuses on traditional diatonic harmony covering primary and secondary triads and their inversions. It emphasizes a four-part harmonization of a melody and bass lines. It continues sight-singing, rhythmic, and melodic dictation.
Prerequisite: MUS 105
3/0/0

MUS 210 Aural Perception II 2 cr.
This course further develops aural skills including the ability to sight-sing melodic passages and to notate rhythmic, melodic, and harmonic examples through dictated ear training exercises.
Prerequisite: MUS 110
2/0/0

MUS 215 Chromatic Harmony 3 cr.
This course continues the focus on diatonic harmony, providing an opportunity for the students to write in the harmonic style of the romantic period. It emphasizes four-part writing with figured bass, analysis of harmonic materials, and reproduction of the keyboard.
Prerequisite: MUS 115
3/0/0
MUSIC (PERFORMANCE)

MUS 111-114 Brass Ensemble I-IV 1 cr. ea.
MUS 121-124 Jazz Ensemble I-IV 1 cr. ea.
MUS 125-128 Vocal Jazz Ensemble I-IV 1 cr. ea.
MUS 131-134 String Ensemble I-IV 1 cr. ea.
MUS-135-138 Guitar Ensemble I-IV 1 cr. ea.
MUS 141-144 Woodwind Ensemble I-IV 1 cr. ea.
MUS 145-148 Percussion Ensemble I-IV 1 cr. ea.

These ensembles involve class rehearsals, instructor presentation and demonstration of performance techniques, and public performances. Each ensemble meets once per week. These performance courses are recommended electives for music majors and are open to all students who play musical instruments and read music.

Note: Student participation in ensembles is determined by the instructor of the course.

Prerequisite: Courses should be taken in sequence I-IV

MUS 150 – MUS 153 Chorus I-IV 1 cr.
This study and performance-oriented course in representative choral literature is open to all students.

Prerequisite: Courses should be taken in sequence I-IV.

0/2/0  FA/SP  Course fee charged

MUS 161 – MUS 164 Burlington County College/Community Concert Band I-IV 1 cr.
The BCC College/Community Concert Band rehearses once per week. The Concert Band performs at the end of each semester. Other performances may be scheduled during the semester. Concert Band members are required to audition for the one credit music performance course.

0/2/0

MUS 291 Honors Performance 1 cr.
This course provides a student of exceptional ability particular instruction in preparation for the performance of an honors recital.

Prerequisite: Permission

0/2/0

NURSING

NUR 103 Medication Administration 1 cr.
This course focuses on the ability to accurately prepare dosages for medication administration. Basic principles are introduced for use as guidelines for accurate amounts of medication and their forms (pills, milliliters, drops-per-minute) to be administered. Converting among household, apothecary, and intravenous dosages is discussed. Reading and interpreting medication labels are stressed. Adult and pediatric dosages are covered.

1/0/0  Course fee charged

NUR 119 Fundamentals of Nursing 7 cr.
This initial nursing course explores and applies concepts basic to nursing. Fundamental psychomotor and communication nursing skills are developed and applied within a framework of the nursing process and Maslow’s human needs. Clinical experiences focus on alterations in basic needs of adult and senescent patients with chronic medical conditions. The course includes classroom, college-based laboratory, and clinical experiences.

Prerequisite: Acceptance into the BCC nursing program by meeting the acceptance criteria.

Corequisite: BIO 110, BIO 111, PSY 101
4/3/6  FA/SP  Course fee charged

NUR 120 Nursing of Families 9 cr.
This course examines the health and social situations of today’s family. Areas of focus are the birth process; children from newborns to adolescents; and women’s health needs. It emphasizes physical assessment; health promotion; growth and development and general needs identification as related to healthy and ill childbearing families. Psychomotor, communication and medication administration skills are developed. The course includes classroom, college-based laboratory and clinical experiences.

Prerequisite: BIO 110, BIO 111, NUR 119, PSY 101
4/3/6  FA/SP  Course fee charged

NUR 127 Pharmacology Essentials 3 cr.
This elective course introduces the principles of pharmacokinetics and pharmacotherapy. It presents current content with regard to contemporary medications in relevant drug groups. Critical thinking case studies highlight pertinent information.

Prerequisite: NUR 119 or one nursing course or RN or LPN

3/0/0  Course fee charged

NUR 214 Nursing of Patients in Stress 8 cr.
This course focuses on the patient who has experienced acute stress through surgical and psychological trauma. Using the nursing process, it emphasizes the care of complex patients through all phases of the surgical experience and mental health rehabilitation. Observational opportunities are provided in mental health facilities and multiple peri-operative surgical settings. This course includes classroom and clinical experiences.

Prerequisite: BIO 114, BIO 115, NUR 120, PSY 256
Corequisite: BIO 155, BIO 156, CHE 210
4/4/12  FA/SP  Course fee charged

NUR 215 Advanced Concepts in Nursing Practice 9 cr.
This course is the culmination of the exploration of the health needs of the individual. It focuses on the patient having multiple unmet needs, requiring complex nursing interventions. It emphasizes providing care to individuals and groups of patients. It stresses mastery of intricate psychomotor techniques, medication administration skills, and the administration of continuous IV (drip meds) pharmacotherapeutics. The course includes classroom and clinical experiences.

Prerequisite: BIO 155, BIO 156, CHE 210, NUR 214
Corequisite: NUR 216
5/4/14  FA/SP  Course fee charged

NUR 216 Management and Professional Issues 1 cr.
This course covers current issues affecting health care delivery; management techniques; legal and ethical concerns; and political/legislative strategies. It involves discussion, role playing, and individual projects to analyze and synthesize the issues.

Prerequisite: NUR 214
Corequisite: NUR 215
1/0/0  FA/SP  Course fee charged

PARALEGAL

LEX 110 Introduction to Paralegal Studies 3 cr.
This course is an overview of the legal system and focuses on basic legal concepts and paralegal skills. It emphasizes careful reading for detail; developing analytical and critical thinking skills; and written presentation of arguments. It also covers professional ethics and conduct; issues of confidentiality; conflicts of interest; and unauthorized practice of law.

3/4/0  FA/SP  Course fee charged
LEX 111 New Jersey Legal Systems 3 cr.
This course focuses on New Jersey's court system, including an examination of the various types of legal practices as they relate to the courts. It covers rules and procedure of appellate practice, including briefs, filings, petitions, and motions as well as elements of the Federal court system.
3/0/0 FA/SP Course fee charged

LEX 112 Legal Writing 3 cr.
This course introduces basic concepts in legal writing. Paralegals are expected to prepare a variety of legal instruments to provide hands-on practice with various types of documents and forms as well as their use.
Prerequisite: LEX 113, ENG 101
3/0/0 SP Course fee charged

LEX 113 Legal Research and Library Use 3 cr.
This course introduces practical experience in the techniques of legal research, references to citations, and the use of a law library. It includes practice in locating and using legal forms.
Prerequisite or Corequisite: LEX 110, LEX 111
3/0/0 FA/SP Course fee charged

LEX 122 Family Law 3 cr.
This course examines family law practice including complaints, interrogatories, depositions, motions, and pleadings in the areas of divorce, separation, and custody, annulment, adoption, name change, guardianship, legitimacy, and other Family Court procedures.
Prerequisite or Corequisite: LEX 110, LEX 111
3/0/0 FA/SP Course fee charged

LEX 123 Bankruptcy Law 3 cr.
This course outlines basic debtor/creditor bankruptcy law and provides guidelines, practices, and procedures that a paralegal in this field may use. It covers sources of law, consensual debt creation, creditor interest in real estate, general provisions of the Bankruptcy Code and case administration (Chapter 7, Chapter 11 and Chapter 13).
Prerequisite: LEX 113
3/0/0 SP Course fee charged

LEX 124 Real Property 3 cr.
This course focuses on the legal and financial requirements of residential real estate transactions. It examines deeds, contracts, mortgages, and other documents commonly associated with real estate. Students learn the historical background which makes real estate unique, along with a practical understanding of the different local practices affecting its purchase and sale. Some basic math skills are helpful in understanding surveys, the proper calculation of taxes, and the settlement statement.
Prerequisite: LEX 110
3/0/0 FA/SP Course fee charged

LEX 125 Comparative Business Entities 3 cr.
This course focuses on the sole proprietorship, partnership (general and limited), the limited liability company, and the general business corporation, including an analysis of formation, operation, dissolution, financing, and tax implications of each entity. It reviews legal documents including initial organizational documents; stock certificates; stock transfer ledger; by-laws and minutes; trade name certificates; and means of dissolution. It examines law practice and procedure in buy-sell agreements, employment agreements, and non-competition agreements.
Prerequisite: LEX 113
3/0/0 FA/SP Course fee charged

LEX 212 Civil Litigation Practice 3 cr.
This course covers general rules governing lawyers, courts, and civil practice. Students become familiar with the court rules, pre-trial procedure, and common legal issues. Special emphasis is placed on understanding ethics rules and professional responsibility. Students are also taught the requirements for filing complaints, answers, and for pre-trial discovery, including interrogatories, depositions, subpoenas, and motion practice.
Prerequisite: LEX 110 and LEX 111
3/0/0 FA/SP Course fee charged

LEX 214 Administration of Decedents' Estates 3 cr.
This course focuses on practice and procedures with respect to estates; wills and their legal effects; administration of estates; trusts; accountings; devises, bequests; distribution of estates; law of interstate distribution; obligations of fiduciaries; and the Probate Division of the courts. It also includes an examination of New Jersey inheritance tax and federal estate tax returns.
Prerequisite: LEX 111 and LEX 124
3/0/0 FA/SP Course fee charged

LEX 225 Paralegal Skills and Practices 3 cr.
This course focuses on the practical application of substantive law concerning civil litigation; personal and real property; probate practice; family law; administration of decedents' estates; and legal research. Students prepare and analyze documents simulating practice in offices where paralegals may serve, using skills gained in prerequisite courses.
Prerequisite: LEX 112, LEX 122, LEX 125, LEX 212 and LEX 214
3/0/0 FA/SP Course fee charged

LEX 235 Paralegal Internship 3 cr.
The internship program provides an opportunity for students to gain a workplace experience. The student is placed in a law office or other firm using paralegals, under the supervision of an attorney. The internship is guided by prescribed learning outcomes that are specific to the type and orientation of the law firm or business in which the student is placed.
Prerequisite: LEX 112 and LEX 212
By arrangement 0/0/9 Course fee charged

PHI 101 Introduction to Philosophy 3 cr.
This course examines some of the fundamental questions concerning knowledge, existence, and value. Does God exist? What constitutes good and evil? Is there an afterlife? What is free will? It emphasizes examining the original works of important philosophers.
3/0/0 FA/SP

PHI 105 Introduction to Logic 3 cr.
This course introduces the principles of valid reasoning, with emphasis upon their practical uses in the development of critical thinking. It focuses on conditions of clear statements; semantics of definitions; adequate evidence; common fallacies; and inductive and deductive logic.
3/0/0

PHI 112 Eastern Philosophy 3 cr.
This course focuses on the traditional philosophies of China, such as Confucianism and Taoism, and the Buddhist philosophic tradition, stretching from India to Japan, with an emphasis on reading and interpreting original texts. Comparisons are made with appropriate Western traditions, such as the Greeks and the existentialists.
3/0/0

PHI 205 Ethics 3 cr.
This course focuses on the ethical concerns of humans. Readings from significant philosophers are used to show the major ethical problems from ancient to modern times.
Prerequisite: PHI 101 or permission
3/0/0

PHI 210 History of Philosophy 3 cr.
This course focuses on an overview of Western thought from antiquity to the present. It emphasizes the development of civilization through the living ideas of past ages so the students can view contemporary ideas in the perspective of their roots in past societies. It stresses the impact of social and cultural factors upon the spirit of the times throughout history.
Prerequisite: PHI 101 or permission
3/0/0
PHI 220 Environmental Ethics  3 cr.
This course examines such questions as, “What are the rights of animals?”, “Is there a land ethic?”, and “How can we achieve environmental justice?” Such problems are discussed within the larger context of environmental philosophy, including such perspectives as utilitarianism, holism, social ecology, deep ecology, ecofeminism and postmodernism. Applications to local issues in land use, wilderness, civic agriculture and food will be included.
3/0/0

PHOTOGRAPHY

Note: Each student must have a 35mm camera with manual settings. Students are required to purchase printing paper, film, a processing tank and mounting supplies. The cost of these supplies is approximately $150-$250 per semester.

PHO 102 Black and White Photography I  3 cr.
This beginning course in photographic techniques includes simple optics, camera formats, lenses, light meters, choice of proper film, and basic composition. Additional lab time is required.
3/0/0  FA/SP  Course fee charged

PHO 115 History of Photography  3 cr.
This course is an overview of the history of photography from its origins to the present day. It focuses on the development and history of photography as an art form and the impact this medium has had on both art and culture. It also emphasizes major photographers and their work.
3/0/0

PHO 120 Digital Photography I  3 cr.
This is a beginning course focusing on the use of scanners, digital cameras, image editing software, and inkjet printers. Students will explore content and composition while developing technical skills to improve their photographs. The course covers all steps of a photographer’s digital workflow from capture to output.
3/0/0  Course fee charged

PHO 202 Black and White Photography II  3 cr.
This intermediate course is for the student who has mastered basic Black and White Photography I. The student will improve exposure techniques and will refine black and white printmaking for the purpose of more successfully achieving the aesthetic and practical intent of the photograph. Assignments reflect individual expression through photography. A thematic fifteen print portfolio will also be produced.  
Prerequisite: PHO 102 or permission
3/0/0  Course fee charged

PHO 203 Portfolio Production  3 cr.
Advanced students are given the opportunity to produce a comprehensive thematic portfolio that they will develop and print. The prints may be produced either traditionally or digitally. Individual and group critiques will be ongoing in order to aid the student in the direction and realization of the photographic theme. 
Prerequisite: PHO 102, PHO 202, PHO 215, PHO 207, PHO 220
3/0/0  Course fee charged

PHO 207 Portrait Photography  3 cr.
This course will explore a range of portrait styles from formal studio portraiture to environmental portraiture and their application to editorial, executive, family, or wedding portraiture. There is a strong emphasis, with hands on experience, in the use of available light as well as the use of artificial light including both strobe and tungsten. 
Prerequisite: PHO 102, PHO 120, PHO 215
3/0/0  Course fee charged

PHO 215 Digital Photography II  3 cr.
This intermediate course continues the use of digital cameras while focusing on advanced image editing with industry standard software. Students will become skilled in advanced color and exposure correction, retouching, and compositing through masking and layers. Students will produce both color and black and white inkjet enlargements. 
Prerequisite: PHO 102, PHO 120
3/0/0  Course fee charged

PHO 220 Studio Photography  3 cr.
This course is an introduction to all aspects of studio photography. Students will gain a working knowledge of artificial lighting techniques, using both strobe and tungsten, while discovering the creative advantage of working with controlled lighting. Assignments will emphasize a variety of lighting practices for products and people in a studio environment. Studio equipment and tools will be provided, but students are required to have a digital SLR cameras for this course.
Prerequisite: PHO 120, PHO 215
3/0/0  Course fee charged

PHO 291 Special Projects in Photography I  1 cr.

PHO 292 Special Projects in Photography II  2 cr.

PHO 293 Special Projects in Photography III  3 cr.
These courses involve advanced study in a selected area of photography. Each individual's project must include a statement of objectives, literature research, project plan, and completed media production project. It requires 3 hours of work per week per credit. 
Prerequisite: PHO 202 and project approval by the instructor
Course fee charged

PHYSICAL SCIENCE

PSC 105 Physical Science I  3 cr.
This course is an introduction to physical science designed especially for students without an extensive science background. It focuses on the Earth, the ocean, weather, and the universe as separate systems and as one dynamic system. 
3/0/0  FA/SP/SU

PSC 106 Physical Science I Laboratory  1 cr.
This laboratory course provides experiences that apply to the concepts and topics covered in Physical Science I. 
Prerequisite or Corequisite: PSC 105
0/2/0  FA/SP/SU  Course fee charged

PSC 107 Physical Science II  3 cr.
This course applies physical science concepts to relevant topics such as air and water pollution, food additives, benefits and risks of nuclear power, alternative energy sources, toxic substances in our everyday experiences, and the effect that science policies have on our lives. It is intended for non-science majors. 
3/0/0

PSC 108 Physical Science II Laboratory  1 cr.
This laboratory course provides experiences that apply to the concepts and topics covered in Physical Science II. 
Prerequisite or Corequisite: PSC 107
0/2/0  Course fee charged

bcc.edu | 191
PHYSICS

PHY 107 Fundamentals of Physics 3 cr.
This course is an introduction to the basic principles of physics. The topics of motion, mechanics, heat, energy, properties of matter, sound, light, electricity and magnetism will be presented in a conceptual context. Application of principles to environmental and health problems are included. This course is recommended for students with no previous physics experience.
Prerequisite: MTH 075
3/0/0

PHY 110 Principles of Physics I 3 cr.
This non-calculus level course reviews the physical properties of matter, mechanics, heat, and sound. The course stresses the relationship between physical laws and applied problems in various disciplines. It is designed for students majoring in the applied sciences, allied health, life sciences, and the liberal arts.
Prerequisite: MTH 150
3/0/0

PHY 111 Principles of Physics I Laboratory 1 cr.
This laboratory course provides experiences that apply to the topics and concepts covered in Principles of Physics I.
Prerequisite or Corequisite: PHY 110
0/2/0

PHY 112 Principles of Physics II 3 cr.
This course is a continuation of Principles of Physics I. It focuses on electricity, magnetism, light, optics, and an introduction to atomic and nuclear physics.
Prerequisite: PHY 110, PHY 111
3/0/0

PHY 113 Principles of Physics II Laboratory 1 cr.
This laboratory course provides experiences that apply to the topics and concepts covered in Principles of Physics II.
Prerequisite or Corequisite: PHY 112
0/2/0

PHY 120 Introduction to Astronomy 3 cr.
This is an introductory astronomy course intended for non-science majors. It focuses on the nature of light; operation of telescopes; our solar system; birth, evolution, and death of stars; black holes; galaxies; and cosmology. There are sessions for observing the night sky with a Meade ETC 125 telescope.
3/0/0

PHY 121 Astronomy Laboratory 1 cr.
This laboratory course complements the PHY 120 course. The laboratory experiences include computer simulations, experiments on basic phenomenon, and observations of the night/day sky.
Prerequisite or Corequisite: PHY 120
0/2/0

PHY 210 General Physics I 3 cr.
This course is a study of the fundamental concepts and laws of mechanics with emphasis on the conservation laws. It focuses on scalar and vector qualities of mechanics; rectilinear and circular motion; equilibrium and Newton’s laws of motion; work; energy; momentum; and the conservation laws. It is designed for students majoring in engineering, the sciences, mathematics, and computer science programs.
Prerequisite: High school physics or PHY 107 and MTH 118
3/0/0

PHY 211 General Physics I Laboratory 1 cr.
This laboratory course provides experiences that apply to the concepts and topics covered in General Physics I.
Prerequisite or Corequisite: PHY 210
0/2/0

PHY 212 General Physics II 3 cr.
This course is an introduction to thermodynamics, electricity, and magnetism. It focuses on heat and thermal energy; electric and magnetic fields; basic DC circuit analysis; and electromagnetic waves.
Prerequisite: PHY 210, PHY 211
3/0/0

PHY 213 General Physics II Laboratory 1 cr.
This laboratory course provides experiences that apply to the concepts and topics covered in General Physics II.
Prerequisite or Corequisite: PHY 212
0/2/0

PHY 291 Special Projects in Physics I 1 cr.
These courses offer students the opportunity to conduct independent study and research of a theoretical or experimental nature in physics. Projects include a literature search and laboratory or instrumental experience in the application of physical laws.
Prerequisite: Project approval by the instructor
Course fee charged

PHY 292 Special Projects in Physics II 2 cr.

PHY 293 Special Projects in Physics III 3 cr.

POLITICAL SCIENCE

POL 101 American National Government and Politics 3 cr.
This course is a comprehensive examination of the basic principles of the U.S. constitutional system. It focuses on the operation of the democratic process; the organization, powers, and procedures of Congress; the presidency and the federal judiciary; interest groups; political parties; media; and voting. It emphasizes the leading political, economic, and social influences affecting democratic government.
3/0/0

PSYCHOLOGY

PSY 101 Introduction to Psychology 3 cr.
This course is designed to provide a general understanding and application of the basic principles of psychology. Topics will include history of psychology; scientific methods; physiological basis of behavior; development; principles of learning; personality theory and assessment; abnormal behavior; psychotherapy; and social psychology.
3/0/0

PSY 203 Human Sexuality 3 cr.
This course is an academic interdisciplinary study of human sexuality. It focuses on sexual biology, developing sexual relationships; love and intimacy; sexual choices; contraception; S.T.D.; sexual customs; and sex education.
3/0/0
PSY 250 Educational Psychology 3 cr.
This course is specifically designed for prospective teachers. It focuses on the application of the principles of psychology to the teaching and learning processes. 
Prerequisite: PSY 101 or permission
3/0/0

PSY 251 Child and Adolescent Psychology 3 cr.
This course is a study of growth, adjustment and capacities of individuals from conception through adolescence. It emphasizes the study of normal children. 
Prerequisite: PSY 101 or permission
3/0/0

PSY 255 Abnormal Psychology 3 cr.
This course is a study of the characteristic features of various types of mental abnormalities, dynamics, and therapeutic methods. 
Prerequisite: PSY 101
3/0/0

PSY 256 Developmental Psychology 3 cr.
This course considers human psychological and physiological development from conception to old age. It examines a comprehensive review of the basic biological psychological principles of growth in conjunction with major research findings. 
Prerequisite: PSY 101
3/0/0

PSY 257 Psychology of Adjustment 3 cr.
This course examines the psychological concepts relevant to the problems of personal adjustment in today's computer world. To foster student growth in self-awareness and self-understanding, it will focus on research and themes of adjustment; self-image; stress and coping; emotions; interpersonal relationships; aging; dying; and death. 
Prerequisite: PSY 101
3/0/0

PSY 258 Psychology of Personality 3 cr.
This course explores the major theoretical approaches and current research findings in the study of personality. It focuses on biological, social, and cultural influences. 
Prerequisite: PSY 101
3/0/0

PSY 259 Social Psychology 3 cr.
This course examines the interactions of individuals and groups, both the ways the ideas and beliefs of an individual are affected by the environment and the way that individuals form groups. It focuses on the causes of social behavior; the influences of groups; the evolution and stages of different societies; and the major theories that seek to explain and predict behavior. 
Prerequisite: PSY 101
3/0/0  EA/SP

RADIOGRAPHY

RAD 107 Principles of Radiation Protection and Biology 2 cr.
This course focuses on the radiation effects on cells and living tissues. It presents the principles and responsibilities of radiation protection and identifies federal and state regulations. 
Corequisite: RAD 114
2/0/0 FA Course fee charged

RAD 114 Radiographic Exposure II 3 cr.
This course focuses on the prime factors of image production, imaging standards, and analysis techniques. It identifies concepts of quality control and quality assurance. Various exposure systems are compared and radiological science theories and techniques are applied in the clinical setting. 
Prerequisite: RAD 130
Corequisite: RAD 122
3/0/0 FA Course fee charged

RAD 121 Clinical Procedures I 5 cr.
This course provides basic information concerning ethical and legal behavior in a health care environment. Emphasis is placed on patient care principles, radiation protection measures, and sterile technique applicable to radiographic procedures. The pharmacology of radiology is explained. The student is taught to perform radiographic procedures of the upper extremity, shoulder girdle, chest, and thorax. Hands-on instruction in the proper use of fixed and mobile radiographic equipment and application of theoretical principles are demonstrated in a laboratory setting. Subsequent hands-on experience is provided under the direct supervision of qualified radiographers. 
3/2/8 SU Course fee charged

RAD 122 Clinical Procedures II 5 cr.
This course focuses on the radiographic procedures of the lower extremity, pelvic girdle, and abdomen. Hands-on instruction in the proper use of fixed and mobile radiographic equipment and application of theoretical principles are demonstrated in a laboratory setting. Subsequent hands-on experience is provided under the direct supervision of qualified radiographers. 
Prerequisite: RAD 121
Corequisite: BIO 110, BIO 111, RAD 107, RAD 114
2/2/16 FA Course fee charged

RAD 123 Clinical Procedures III 6 cr.
This course focuses on students learning to perform radiographic procedures of the spine and skull. Hands-on instruction in the proper use of fixed and mobile radiographic equipment and application of theoretical principles are demonstrated in a laboratory setting. Subsequent hands-on experience is provided under the direct supervision of qualified radiographers. Achieved competency is measured and pertinent initial and continual clinical competency is performed. 
Prerequisite: RAD 107, RAD 122
Corequisite: BIO 114, BIO 115
3/0/0 SP Course fee charged

RAD 124 Clinical Procedures IV 6 cr.
This course focuses on students learning to perform radiographic procedures of the biliary, digestive, reproductive, and urinary systems. Hands-on instruction in the proper use of fixed and mobile radiographic equipment and application of theoretical principles are demonstrated in a laboratory setting. Subsequent hands-on experience is provided under the direct supervision of qualified radiographers. Achieved competency is measured and pertinent initial and continual clinical competency is performed. 
Prerequisite: RAD 123
2/2/24 SU Course fee charged

RAD 225 Clinical Procedures V 5 cr.
This course focuses on students learning to perform various cardiovascular, central nervous, and computed tomography procedures. Previously mastered anatomy is presented in transverse, coronal, and sagittal planes. Pathology and disease as they relate to various radiographic procedures are emphasized. Hands-on instruction in the proper use of fixed and mobile radiographic equipment and application of theoretical principles are demonstrated in a laboratory setting. Subsequent hands-on experience is provided under the direct supervision of qualified radiographers. Achieved competency is measured and pertinent initial and continual clinical competency is performed. 
Prerequisite: RAD 224
Corequisite: RAD 120
2/0/2 FA Course fee charged
RAD 226 Clinical Procedures VI 3 cr.
This course allows the student sufficient clinical practicum to achieve entry level clinical competency. Hands-on experience is provided under the supervision of qualified radiographers. Clinical rotations in advanced modalities may be made available during this semester with the permission of the clinical coordinator. Achieved competency and pertinent initial (CT) and final clinical competency testing is performed.
Prerequisite: RAD 225
0/0/2/4  SP  Course fee charged

RAD 230 Equipment Operation and Maintenance 4 cr.
This course focuses on the construction, instrumentation, and underlying physical principles of various types of imaging. It emphasizes fluoroscopic imaging intensifying, mobile, and various specialized systems. Emphasis is placed in safe operating procedures and limits of radiographic equipment.
Corequisite: RAD 225
4/0/0  FA  Course fee charged

READING
REA 075 Improving College Reading Skills 4 cr.*
This course is for those students whose assessment scores indicate a need for review and improvement of reading skills. It emphasizes vocabulary expansion, improved comprehension, and critical thinking skills.
*Credits do not apply toward graduation.
Prerequisite: Placement based on assessment and recommendation of an academic advisor
4/0/0  FA/SP  Course fee charged

REA 095 Advancing College Reading Skills 4 cr.*
This course is for those students whose assessment scores indicate a need for the development of college level reading skills. It emphasizes vocabulary and the advanced skills necessary to master reading in the content areas.
*Credits do not apply toward graduation.
Prerequisite: Placement based on assessment and recommendation of an academic advisor
4/0/0  FA/SP  Course fee charged

RELIGION
REL 205 Comparative Religion 3 cr.
This course examines and compares the world’s major religious traditions, such as Hinduism, Buddhism, Judaism, Christianity, and Islam. It emphasizes reading and interpreting the sacred texts, as well as exploring the implications of each religion for how life is lived.
3/0/0  FA/SP

RESPRATORY THERAPY
RST 200 Fundamentals of Respiratory Therapy 5 cr.
This web-enhanced course introduces the basic therapeutic modalities employed in contemporary respiratory care, including humidity/aerosol therapy, medical gas delivery, hyperinflation therapy, cardiopulmonary resuscitation, infection control, and basic diagnostic procedures. It integrates lectures, laboratory demonstrations and experimentation with clinical practice.
Prerequisite: Admission to program
Corequisite: RST 209, RST 210, RST 212, RST 214
4/5/0  FA

RST 209 Clinical Practice 1 2 cr.
This course orients the student to the hospital environment and provides clinical instruction and supervision. It focuses on the acquisition of basic skills in humidity/aerosol therapy; oxygen administration; hyperinflation therapy; patient assessment skills; medical charting; equipment cleaning; and sterilization. The course builds upon the theoretical concepts introduced in RST 200. (120 clinical hours)
Prerequisite: Admission to Program
Corequisite: RST 200, RST 210, RST 212, RST 214
0/0/6  FA

RST 210 Dynamics of Health Care in Society 2 cr.
This web-enhanced course explores and analyzes micro health related issues within the context of a changing society. There are general assembly sessions and interdisciplinary group assignments by division level. This course focuses on selected topics relating to health, health care and its delivery in ethics, philosophy, history, literature, human relations, cultural orientations, and policy utilizing diverse instructional strategies.
Prerequisite: Admission to program
Corequisite: RST 200, RST 209, RST 212, RST 214
2/0/0  FA

RST 212 Respiratory Care Pharmacology 2 cr.
This web-enhanced course covers the basic principles of pharmacological therapy with a special emphasis on drugs affecting the pulmonary and cardiovascular systems. It stresses the safe and effective administration of these drugs in relation to clinical practice.
Prerequisite: Admission to program
Corequisite: RST 200, RST 209, RST 210, RST 214
4/3/0  FA

RST 214 Applied Cardiopulmonary Physiology 3 cr.
This web-enhanced course is an study of the physiology of the cardiopulmonary system. It emphasizes control of respiration; cardiopulmonary anatomy; ventilation; diffusion gas transport and distribution; the cardiac cycle; and electrophysiology of the heart. It focuses on the interrelationship of the cardiopulmonary systems.
Prerequisite: Admission to Program
Corequisite: RST 200, RST 209, RST 210, RST 212
3/3/0  FA

RST 215 Mechanical Ventilation 4 cr.
This course utilizes lectures, demonstration and laboratory exercises in the physiological principles and techniques of mechanical ventilation of the patient in respiratory failure. It focuses on the physics of mechanical ventilation; application of mechanical ventilation; and the maintenance and monitoring of patients with respiratory failure. It integrates the theory and clinical applications of RST 219.
Prerequisite: RST 200, RST 209, RST 210, RST 212, RST 214
Corequisite: RST 219, RST 226, RST 227, RST 228
3/3/0  SP

RST 219 Clinical Practice II 2 cr.
This course focuses on the student performing the basic therapeutic modalities mastered in RST 209 under less supervision. It introduces supervision and instruction in the application of advanced therapeutic modalities and diagnostic procedures performed in the management and treatment of adult neonatal patients requiring specialized or intensive care. (120 clinical hours)
Prerequisite: RST 200, RST 209, RST 210, RST 212, RST 214
Corequisite: RST 215, RST 226, RST 227, RST 228
0/0/6  SP

RST 226 Cardiopulmonary Evaluations 3 cr.
This course utilizes lecture and laboratory material on invasive and non-invasive diagnostic procedures including roentgenography, electrocardiography, pulmonary function testing, Swan-Ganz catheterization, and arterial blood procedure and analysis. It offers laboratory demonstration and experimentation.
Prerequisite: RST 200, RST 209, RST 210, RST 212, RST 214
Corequisite: RST 215, RST 219, RST 227, RST 228
2/3/0  SP
RST 227 Pediatric/Neonatal Respiratory Care 2 cr.
This web-enhanced course introduces the special respiratory care needs of the neonatal and pediatric patient. It emphasizes the development of the respiratory system; care of newborns; respiratory disease; mechanical ventilation; oxygen and aerosol therapy; and emergency transport.
Prerequisite: RST 200, RST 209, RST 210, RST 212, RST 214
Corequisite: RST 215, RST 219, RST 226, RST 228

RST 228 Cardiopulmonary Diseases 2 cr.
This web-enhanced course provides students with basic knowledge in the etiology, diagnosis, path and treatment of acute and chronic pulmonary disorders in the hospital and in the home.
Prerequisite: RST 200, RST 209, RST 210, RST 212, RST 214
Corequisite: RST 215, RST 219, RST 226, RST 227

RST 237 Long-Term, Home and Rehabilitative Care 3 cr.
This web-enhanced course analyzes the goals and methods underlying provision of respiratory care in non-acute settings. It includes standards and regulations governing non-acute respiratory care; team planning; patient selection; program design; and provision and documentation of various clinical services in the home and in long-term care and rehabilitation facilities. It includes cost, reimbursement and ethical issues.
Prerequisite: RST 200, RST 209, RST 210, RST 212, RST 214
Corequisite: RST 215, RST 219, RST 226, RST 227

RST 239 Clinical Practice III 3 cr.
This course focuses on a comprehensive experience in all service areas of selected respiratory care department and ancillary units. It emphasizes to adult, pediatric, and neonatal critical care; pulmonary function laboratories, anesthesiology; emergency room; blood gas laboratory; and experience in departmental supervision and management. The final clinical practice is designed to provide students with the opportunity to refine clinical application of the advanced theoretical concepts of the prior semesters.
Prerequisite: RST 215, RST 219, RST 226, RST 227, RST 228
Corequisite: RST 237

SOCIOLOGY

SOC 101 Principles of Sociology 3 cr.
This course focuses on the science and theory that sociologists use to understand the social world. It examines the social construction of reality, the place of institutions in modern society, and the forces that shape human social interaction.

SOC 160 Society, Ethics & Technology 3 cr.
This course provides a framework for understanding the ways in which technology has transformed society and for assessing the social, ethical, global, environmental and professional issues associated with these changes. Students will also have the opportunity to conduct investigations into the following areas: professional responsibility, ethical implications, respect for diversity and the need for life-long learning.
Prerequisite: ENG 101

SOC 201 Social Problems 3 cr.
This course focuses on sociological principles and methods as they are applied to an analysis of selected problems in contemporary American society. It emphasizes world overpopulation; poverty, crime and violence; social inequality; alcohol and drug abuse; the economy; and environmental pollution.
Prerequisite: SOC 101

SOC 207 Media, Popular Culture and Society 3 cr.
This course explores the connections among media, popular culture, and the digital revolution. After an historical overview, new technologies are related to their economic, political, social, and cultural significance. Student projects focus on their impact on the production, distribution, and consumption of information and entertainment. Each student examines one technology issue in depth.
Prerequisite: SOC 101

SOC 209 Introduction to Women's Studies 3 cr.
This course is an overview of women's participation in a variety of fields, including history, politics, and the workforce. It also examines women's issues.

SOC 210 Minority Groups 3 cr.
This course focuses on the causes, consequences, and justifications of the inequalities associated with race, gender, and ethnicity in the United States and in other societies. It examines current social policies and explores alternative routes to social change.
Prerequisite: SOC 101, SOC 201 or ANT 102

SPANISH

SPA 101 Elementary Spanish I 3 cr.
This course is for students with no knowledge of Spanish and is designed to lay a foundation for speaking, reading, and writing the language.

SPA 102 Elementary Spanish II 3 cr.
This course is for students with limited knowledge of Spanish. It focuses on building upon demonstrated skills in speaking, reading, and writing Spanish.
Prerequisite: SPA 101 or one year of high school Spanish

SPA 103 Spanish Conversation 2 cr.
This course involves role-playing and communicative-oriented activities to give the student experience in coping with various cultural situations in Spanish. Activities are designed to increase proficiency in speaking Spanish in various practical daily situations.
Prerequisite: SPA 102 or permission

SPA 201 Intermediate Spanish I 3 cr.
This course focuses on speaking Spanish. Class discussion is based on cultural readings from the Spanish-speaking world. There is intensive grammar study and composition work.
Prerequisite: SPA 102 or two years of high school Spanish or permission
SPA 202 Intermediate Spanish II 3 cr.
This course focuses on achieving skill in speaking Spanish. Class discussion is based on cultural readings from the Spanish-speaking world. There is intensive grammar study and composition work.
Prerequisite: SPA 201 or permission
3/0/0  SP

SPA 206 History and Culture of Spanish Speaking Peoples of Latin America 3 cr.
The history of Latin America as well as the art, literature, music and customs are presented. The course provides an in-depth study of Latin America, a vital part of the socio-economic and cultural life of all the Americas. Taught in Spanish.
Prerequisite: SPA 204 or permission
3/0/0

SPEECH

SPE 101 Effective Oral Communication 3 cr.
This course examines the process of spoken communication, with an emphasis on small group interaction. It includes public speaking experiences, problem solving techniques, and approaches to discussion.
Corequisite: ENG 101
3/0/0  EA/SP

SPE 102 Public Speaking 3 cr.
This course will focus on the planning and presentation skills used in formal speeches. Students will enhance their competence in ethical reasoning, critical thinking, organization of materials, and academic research and technology. The course will emphasize speech-making methods and techniques through experiential delivery. Speeches will be presented in class and are observed and analyzed by the instructor and fellow classmates.
Prerequisite: ENG 101
3/0/0

STUDENT SUCCESS

CSS 101 College Study Skills 3 cr.
This course is for students who want to develop or to become more proficient at college level study skills. It focuses on time management, organizing textbook information, lecture note-taking, test taking strategies, and memory techniques.
3/0/0  EA/SP

FRS 101 Student Success Seminar 1 cr.
This online course is recommended for all students entering Burlington County College. The purpose of this is to promote academic success, retention and personal enrichment. Courses of this type are required at most college throughout the U.S. Students will become familiar with BCC campus and its resources; review study and academic survival skills and success. This online course will also serve as an introduction for distance learning.
Prerequisite: ENG 075
1/0/0

LSS 101 Leadership Success Seminar 1 cr.
This course focuses on the major tools needed to be a successful BCC student and leader in the work world. Students will learn, understand and will be able to apply motivational tools demonstrated by well-known inspirational speakers. Additionally, they will learn to apply psychological and academic tools such as extrinsic and intrinsic goal setting, career orientation and planning, effective communication skills building and assessment of learning beliefs and self-efficacy improvement.
Corequisite: MTH 055, REA 075, BCC 101
1/0/0

SUSTAINABILITY

SST 100 Principles of Sustainability 3 cr.
This course is designed to provide the fundamentals of sustainability principles and practices for entry-level students as well as under- and unemployed adults who are in job transition from non-environmental sectors seeking grounding in sustainability principles. It covers basic sustainability principles relative to population issues; climate change; renewable energy; consumption; ecosystem threats; transportation; green design and construction; biodiversity; and environmental justice. Throughout the course, emphasis is placed on assisting students in exploring green employment opportunities.
3/0/0

SST 110 Energy Auditing for Residential Buildings 3 cr.
The instructor will assist students to understand single-family buildings and how they interact with the internal systems/loads and external loads/impacts. There will be one class trip as part of this course. This course is essentially divided into 3 sections: Building Science and Building Systems, Energy Auditing Practices and Procedures; and Economics of Energy Upgrades.
2/3/0

SST 111 Alternative Energy Sources 3 cr.
This course is an introduction to electrical energy generation and its impact on the environment and society. Various energy alternatives such as solar, wind, geothermal, ocean and fuel cells are examined, along with the positive and negative aspects of each.
3/0/0

SST 151 Introduction to Systems Approaches to Sustainability Problem Solving 3 cr.
This course is an introduction to systems thinking as the process of understanding how elements influence each other within a dynamic whole interacting as a functional, structured unit. It is a crucial approach for understanding human-nature interactions and addressing sustainability challenges. A systems approach to problem solving starts from the understanding that a system has properties that cannot be known from analyzing the different parts in isolation. This course provides an introduction to systems, how we can think about them, and how we can use systems thinking and modeling to learn how to manage and design sustainable systems.
Prerequisite: SST 100
3/0/0

SST 210 Introduction to Green (Resource Efficient) Commercial Buildings 3 cr.
This course illustrates that an efficient building is above all economically prudent. In addition to the fiscal value inherent to managing energy and resource consumption, there is significant environmental, social and political value – all of which are explored in greater depth. The course seeks to provide several points of view on some critical topics – allowing for further debate within the classroom. Scientific and technical considerations are balanced by behavioral and social aspects when issues such as efficiency, conservation, and resource management are addressed. The material in this course will be valuable to current facility managers, business owners; and operations and maintenance staff who may be considering energy upgrades – through an audit or commissioning process. Additionally, this course lays a strong foundation for students who are interested in entering the emerging field of energy management. Several career paths are discussed when we cover resource management.
Prerequisite: SST 110 or Instructor’s permission
3/0/0
SST 211 PV Systems I - Theory & Design 3 cr.
This course provides an introduction to solar PV systems, including industry overview and trends; systems; types and applications; theory of operation; systems design; and economic analysis. In conjunction with the follow-up course of PV Systems II - Construction and Troubleshooting, these two PV systems courses (plus prerequisites) are designed to provide the student with the necessary knowledge and training to successfully sit for the NABCEP (North American Board of Certified Electrical Practitioners) entry level certificate exam. Both courses will have a strong hands-on component.
Prerequisite: PHY 110, PHY 111
Corequisite: EET 121
2/3/0 Course fee charged

SST 212 PV Systems II - Construction and Troubleshooting 3 cr.
This course follows PV Systems Theory & Design. Picking up where the prior course leaves off, the focus of this course is on installing and integrating system components; troubleshooting and commissioning the system; and system maintenance. The students will install a functioning 1 kW system on a simulated roof and residential electrical panel area, all housed in an indoor environment. At the end of this second course, the student should have the necessary knowledge and training to successfully sit for the NABCEP (North American Board of Certified Electrical Practitioners) entry level certificate exam.
Prerequisite: SST 211
Corequisite: SST 225
2/3/0

SST 216 Solar Thermal Systems 3 cr.
This course focuses on the basics of solar hot water heating; solar thermal collectors and their installation procedures; and hot water storage techniques. System site analysis will be covered and students will be introduced to the various uses of solar hot water including air, water; and radiant floor heating. Information will be provided on unvented hot water systems including categories and regulations. Plumbing layout and installation procedures will be covered. Control of solar thermal heating systems will be covered as well as basic solar thermal economics. Hands-on laboratory work is integral to learning of principles and practice of techniques.
Prerequisite: PHY 110, PHY 111
2/3/0 Course fee charged

SST 221 Geothermal HVAC Systems 3 cr.
This course covers the design and installation of geothermal heating systems. Topics include the principles of geothermal heat pumps and geoeconomic system sizing based on residential heating and cooling requirements; system economics; determining proper type of geothermal loop system; installation and maintenance of ground or water source-coupled heat pumps; and proper operation and maintenance of commercial geothermal loop systems.
Prerequisite: PHY 110, PHY 111
2/3/0

SST 225 Wiring – Residential and Commercial Construction 3 cr.
This course covers the knowledge and practice of methods used in the installation of residential and commercial electrical systems, with particular emphasis on the specific requirements and examples involved with sustainable energy technologies — solar PV and thermal, geothermal heat pump, and small wind. Safe working practices are emphasized at all times, with reference to and emphasis on the National Electrical Code.
Prerequisite: EET 121
2/3/0 Course fee charged

SST 226 Small Wind Systems 3 cr.
This course covers the principles of wind energy, electricity fundamentals for power generation technology, including wind energy site assessment; safety requirements; system design selection; adapting the mechanical and electrical design to site requirements; installation of subsystems and components; system check-out and inspection; and maintenance and troubleshooting. The economics of wind energy systems is also covered.
Prerequisite: PHY 110, PHY 111 and EET 121
2/3/0 Course fee charged

SST 231 Introduction to Biomass and Biofuels Technology 3 cr.
This is a survey course designed to acquaint the student with the current state of science and technology for the generation of energy from biologically-derived sources, as well as with specific activities and opportunities in the New Jersey region. Topics covered include: sources of biomass feedstock; transesterification and biodiesel fuel; fermentation and ethanol fuel; anaerobic digestion and biogas; thermal chemical energy transformation processes; and advanced biofuels.
Prerequisite: High School Chemistry, or CHE 107 and CHE 108
3/0/0

SST 232 Techniques in Biomass and Biofuels Production 3 cr.
This course will familiarize students with the production techniques for various biofuels and provide knowledge of biomass utilization methodologies. Students will obtain hands-on experience with the biological, chemical, and engineering aspects of biofuels production equipment. Among the techniques that may be offered during a particular semester (as equipment availability and community and student interest demand) are ethanol production, biodiesel production, gasification, anaerobic digestion, and/or advanced biofuels. Biomass pretreatment, materials balance, co-product utilization and pollution prevention are explained.
3/0/0 Course fee charged

SST 241 Energy Applications of Programmable Logic Controllers 3 cr.
This introductory course teaches the fundamentals of programmable logic controllers which are used extensively in commercial and industrial system control applications. Although exercises will be directed toward energy management and efficiency applications wherever appropriate, this course provides a sound grounding in the fundamentals of PLCs suitable to many applications. It will provide the foundation and necessary background for the student to be able to understand, design, modify, troubleshoot and maintain many industrial/commercial applications. Laboratory sessions are an integral and essential part of the course. The use of programmable logic trainers with industrial-quality lab hardware and computers with PLC programming software provide a realistic and interactive learning experience.
Prerequisite: EET 121
2/3/0 Course fee charged

SST 251 Environmental and Sustainability Policy and Governance 3 cr.
This course is an overview of the key environmental and sustainability policy and governance institutions, issues, laws and policies in the United States and internationally. Topics include historical environmental policy and its impacts as well as future implications, trends, institutional constraints and policy dilemmas.
Prerequisite: SST 100
3/0/0 Course fee charged
SST 261 Sustainability Assessment, Tracking and Reporting Tools 3 cr.
This course provides an overview of examples from the plethora of sustainability frameworks, tools and practices that are used to measure progress towards sustainability through the tracking of defined indicators. This course focuses on four topics that illustrate ways that progress toward sustainability is assessed, tracked and reported: at the national/international level; in higher education institutions; in cities and communities; and in business and other organizations.
Prerequisite: SST 100
3/0/0  Course fee charged

SST 280 Cooperative Education: Energy Management 3 cr.
This course provides relevant work experience in the field of energy management, reinforcing classroom learning and laboratory-derived skills while providing additional learning opportunities. It also allows students to explore career options and make valuable professional contacts.
Prerequisite: Successful completion of the first two semesters of coursework required for the Energy Management AAS degree and approval of the instructor.

SST 282 Cooperative Education: Alternative Energy Technologies 3 cr.
This course provides relevant work experience in the field of alternative energy technologies, reinforcing classroom learning and laboratory-derived skills while providing additional learning opportunities. It also allows students to explore career options and make valuable professional contacts.
Prerequisite: Successful completion of the first two semesters of coursework required for the Alternative Energy Technologies AAS degree and approval of the instructor.

THEATRE

THR 101 Introduction to Theatre 3 cr.
This course focuses on dramatic literature and examines man's political, social, and psychological relationship to his environment. It examines the basic elements of a theatrical production and the experience of a performance.
3/0/0  FA/SP

THR 105 Fundamentals of Acting I 3 cr.
This course focuses on the fundamentals of acting with application of the principles and theory of creative acting. It includes exercises in the acting methods and practices of the modern actor. It requires performance of scenes and exercises from contemporary and classic dramatic literature.
3/0/0  EA

THR 106 Fundamentals of Acting II 3 cr.
This course continues to build on the fundamentals learned in THR 105.
Prerequisite: THR 105 or permission
3/0/0  SP

THR 110 Stagecraft I 3 cr.
This course offers practical experience in scene design and construction; lighting; costuming; make-up; and sound effects. It focuses on the terminology and equipment appropriate for a stage and investigates the visual and technical aspects of the nature of stagecraft.
2/3/0  Course fee charged

THR 111 Stagecraft II 3 cr.
This course continues the fundamentals learned in THR 110.
Prerequisite: THR 110 or permission
2/3/0  Course fee charged

THR 113 Children's Theatre 3 cr.
This course focuses on the theory and the market of a children's theatre production. By testing and displaying skills in a practical production situation, the student is involved in all phases of mounting a children's theatre production that will be performed for Burlington County elementary school students.
3/0/0  FA/SP

THR 121 Musical Theatre 3 cr.
This course is the first semester of a two-semester course which focuses on the acting, singing and dancing (“triple threat”) skills that are necessary to develop individual uniqueness as a musical theatre artist. It includes a study of the origins and history of musical theatre; the major contributors; and the analysis of the basic elements of the genre. At the conclusion of the course, students are prepared to audition for THR 130.
Prerequisite: Audition
3/0/0  FA/SP

THR 130 Musical Theatre Workshop 3 cr.
This course is the second semester of a two-semester course which enables students to apply the acting, singing, and dancing (“triple threat”) skills from THR 121 to perform a fully costumed, technically complete musical production.
Prerequisite: THR 121
0/9/0

THR 132 Musical Theatre Workshop II 3 cr.
This course is available to students working on their second musical production at Burlington County College. Students will apply acting, singing and dancing skills to perform a fully costumed, technically complete musical production.
Prerequisite: THR 130
0/9/0

THR 219 Theatre Laboratory III 3 cr.
This course covers theatre production under supervised, laboratory conditions for advanced students.
Prerequisite: THR 105, THR 106, or THR 110 and/or permission

TURKISH

TUR 101 Elementary Turkish I 3 cr.
This course is for beginners who have no previous knowledge of Turkish. Elementary Turkish I introduces basic vocabulary and grammar rules and focuses on building language competencies in listening, reading, speaking and writing.
3/0/0

TUR 102 Elementary Turkish II 3 cr.
This course is for students who have limited knowledge of Turkish. Elementary Turkish II focuses on building upon demonstrated skills in listening, speaking, reading and writing Turkish.
Prerequisite: TUR 101
3/0/0

Director of Tutoring, Testing
d and Developmental Education
A.A., Burlington County College
B.A., Thomas Edison State College
M.A. and M.A., Georgian Court University

ALEXANDER, JONATHAN M.
Associate Professor
English, Literature
B.A., Widener University
M.A., West Chester University
Ph.D., Indiana University of Pennsylvania

BAILEY, JEFFREY
Instructor
Art
B.A., Vermont College of Norwich University
M.F.A., University of Delaware

BALDT, ERIKA E.
Lecturer
English
B.A., Rutgers University
M.A., University of York
Ph.D., University of Pennsylvania

BOCCI, KRISTIN
Academic Advisor
B.A., M.A., Rowan University

BOURNE, CRYSTAL R.
Lecturer
Math
A.S., Burlington County College
B.A., M.S., Rutgers University

BRENDELLE, ELIZABETH J.
Lecturer
Nursing and Allied Health
B.S.N., Cedarville University
M.S., Ohio State University

BRIGGS, JANET
Assistant Professor
Nursing
A.S., Burlington County College
B.S.N., Thomas Jefferson State University
M.S.N., University of Pennsylvania

BROWN-APOH, CELESTE J.
Instructor
Nursing & Allied Health
B.S., Catholic University of America
MSN, Holy Family University

COHILL, PATRICIA
Assistant Professor
Theatre, Speech
B.S., Fairmont State College
M.A., West Virginia University

COLONA, SARAH E.
Lecturer
English
B.A., Mary Washington College

COVIL, RONALD P.
Associate Professor
History, College Study Skills
B.A., Howard University
M.A., M.Ed., Temple University

DIKE-ANYIAM, BERNARD
Instructor
Computer Systems
M.S., Middlesex University London
M.B.A., DeSales University
D.B.A., Argosy University

DREISBACH, DEBRA
Lecturer
Criminal Justice

GAZZARA, CHRISTOPHER T.
Instructor
English
B.A., M.A., Rutgers University

GICKING-ASPDEN, JESSICA L.
Lecturer
Developmental Writing & English
B.A., Rider University
M.A., Rutgers University

GREEN, CURTIS
Lecturer
Entertainment Technology
B.A., Thomas Edison State College
M.A., New York Institute of Technology
M.S., New York City University

HAGEMAN, LEON
Professor
Chemistry, Physical Science
B.S., Long Island University
M.S., Ph.D., New York University

HARMON, LOUVENIA
Associate Professor
Academic Advisement
A.A., Burlington County College
B.A., Rutgers University
M.A., Glassboro State College
LPC, Licensed Professional Counselor-New Jersey
NCC, National Certified Counselor

HARAD, STEPHEN F.
Lecturer
Computer Science/Engineering/Networking
B.A., Drexel University
M.S., Almeda University

HARKINS, MICHELLE N.
Lecturer
Languages/ESL
B.A., Burlington County College
B.A., Rowan University
M.A., Temple University

HART, ALAN
Associate Professor
Criminal Justice
B.S., Philadelphia College of Textiles & Science
M.S., West Chester University
Ph.D., Union Institute & University

HOUCK, THOMAS
Assistant Professor
Electronics, Engineering
B.S.E.E., M.S.E.E., Drexel University

HUTTNER, WALTER B.
Lecturer
English
A.S., Burlington County College
B.A., Rider University
M.A., Rutgers University

JUDGE, JAMES R.
Lecturer
History
B.A., M.A., The University of Scranton

KERR, ELIZABETH C.
Lecturer
Business
B.A., M.S., Cabrini College

KERWICK, JAMES R.
Lecturer
Philosophy
B.A., Wingate University
M.A., Baylor University
Ph.D., Temple University

Access to BCC Instructional Sites

PEMBERTON CAMPUS
Located at 601 Pemberton Browns Mills Road, (County Route 530), Pemberton, NJ 08068

From the North – Take New Jersey Turnpike South to Exit 7. Take Route 206 South to the intersection with County 530. Turn left and follow 530 through Pemberton to the college.

From the South and West – Use the Benjamin Franklin Bridge from Philadelphia to New Jersey 38 or the Walt Whitman Bridge to Interstate 295. New Jersey 38 becomes County 530 in Mount Holly (See North). Interstate 295 intersects with New Jersey 38 (See North). From the South, use the Delaware Memorial Bridge to Interstate 295 (Same as previous).

From the East – Use New Jersey 72 West to the circle intersecting State routes 70 and 72. Take New Lisbon Road (County 646) North from the circle. New Lisbon Road ends at County 530. Turn left at the water tower. The college is the first driveway on your left.

THE WILLINGBORO CENTER
Located at 200 Campbell Drive, Suite 210, Willingboro, NJ 08046

From the North – Take U.S. Route 130 south until you see the Willingboro Town Center on your left (Merck Medco Facility and BCC building). Proceed to the next jughandle and use it to make a left turn across Route 130. Make the first left into the Willingboro Town Center and follow the signs to the BCC facility.

From the South (Delran, Cinnaminson, Palmyra, etc.) – Take U.S. Route 130 north to the Willingboro Town Center. Turn right into the Center and follow the signs to the BCC facility.
**MT. LAUREL CAMPUS**

Located at 3331 State Route 38, Mt. Laurel, NJ 08054

Enter from Hartford Road, between Route 38 and Marne Highway (537), from Route 38 West or from Briggs Road.

Via NJ Turnpike – Take Turnpike Exit 4. After paying toll, take Route 73 North (toward Philadelphia and Tacony-Palmyra Bridge) for approximately 1/4 mile to I-295 North (toward Trenton). Proceed on I-295 to Exit 40A (Route 38 East, Mt. Holly). Proceed on Route 38 to the first traffic light (Briggs Road). Proceed through the intersection and take the jughandle for Briggs Road North to cross Route 38. Stay on Briggs Road and enter the campus.

Via I-295 from the North – Take Exit 40 (Moorestown). Proceed to the first jughandle (Marter Avenue) and make a U-turn to Route 38 East. Proceed on Rt. 38 as previously described.

Via I-295 from the South – Take exit 40A (Route 38 East, Mt. Holly) and proceed on Rt. 38 as previously described.

**THE MT. HOLLY CENTER AND CULINARY ARTS CENTER AT BCC, MT. HOLLY**

The Mt. Holly Center is located at 1 High Street, Mt. Holly, NJ 08060; The Culinary Arts Center at BCC is located at 21 Mill Street, Mt. Holly, NJ 08050

**From South via I-295** – Take Exit 45A onto Rancocas Road toward Mt. Holly. High Street is the fourth traffic light on Rancocas Road (3.7 miles from Interstate 295). Turn right on High Street. BCC (#1 High St.) is the last building on the left at the traffic light at High and Mill Sts. (next to the fountain).

**From North via I-295** – Take Exit 47A and drive on NJ #541 South toward Mt. Holly. After 3.5 miles, instead of following NJ #541 to the right, go straight. You are now on High Street. Continue traveling down High Street until you come to the traffic light at the High Street/Mill Street intersection. BCC (#1 High St.) is the building on the left at that intersection (next to the fountain).

FREE Parking is located behind the BCC Mt. Holly Center in a Township parking lot on Paxson Street. It can be accessed from High St. by turning onto Murrell St., and then right onto Paxson St., OR from Mill St. turn onto Paxson St., go 1/2 block to the parking lot. You can enter the BCC Mt. Holly Center through the entrance located in the back of the building.
JOINT BASE MDL/McGUIRE CENTER

The Joint Base is located in Room 107, Bldg 3829, 4 School Road, McGuire AFB, NJ 08641.

From BCC’s Pemberton Campus
Head east on County Rd 530 E/Pemberton Browns Mill Rd toward Runcocas Rd
Continue to follow Pemberton Browns Mill Rd. Continue onto Broadway Street. Turn left onto West Lakeshore Drive. Turn right onto Bayberry Street. Take the first left onto East Lakeshore Drive. Continue onto Cookstown-Browns Mills Road. Turn left onto Cookstown-Wrightstown Road. Take the 3rd right onto South Bolling Boulevard. Take the first right onto School Road.

From BCC’s Mt. Laurel Campus
Exit the campus onto Briggs Road. Take the first left onto NJ-38 East. Turn left onto US-206 N/Vincentown Columbus Road. Continue to follow US-206 North. Turn right onto County Rd 537 East/Monmouth Road. Turn right onto Saylers Pond Road. Continue onto West Main Street. Continue onto Cookstown-Wrightstown Road. Turn left onto South Bolling Boulevard. Take the first right onto School Road.
