Retirement Programs

Alternate Benefit Program (ABP)
The ABP is a tax-sheltered, defined contribution retirement program for full-time and adjunct faculty, part-time instructors, officers, visiting professors, and certain professional administrative staff required to possess a college degree or its equivalent participate in the ABP. ABP provides retirement benefits, life insurance and disability coverage.

Members contribute 5% of base or contractual salary matched by an 8% employer contribution (maximum annual salary of $141,000 per calendar year) to a tax-deferred investment account. This account may be established with any of the current State authorized investment Carriers.

Life insurance in the amount of 3.5 times the base salary earned by an employee in the twelve months preceding death is available at no cost to the employee. The employer pays the full premium. Upon retirement, the life insurance benefit is reduced to one-half the value of the last twelve months of base salary on which pension contributions were made.

A member is enrolled in an employer-paid long-term disability insurance coverage after one year of participation in the ABP. Benefits approximate 60% of salary and both employee and employer contributions to the retirement program are continued without cost to the employee until the age of seventy (70).

Public Employees' Retirement System (PERS)
A Faculty member may be eligible for enrollment in the Public Employees' Retirement System (PERS) instead of the Alternate Benefit Program (ABP) if currently enrolled in PERS.

PERS is a defined benefit program with retirement benefits based upon years of service in the program and the average salary of the highest three to five years of the base salary depending on membership tier. Effective 7/1/2016 the mandatory contribution rate in PERS is 7.2% of base salary.

Life insurance in the amount of three times the base salary earned by an employee in the twelve months preceding death is provided. For the first year of enrollment in PERS, the employee is required to participate in both the contributory and non-contributory portions of the life insurance program. After one year, the employee has the option of waiving the contributory portion and decreasing the benefit to 1.5 times the base salary. If exercised, this option is irrevocable. The carrier is The Prudential Insurance Company.

PERS provides for disability retirement for members who meet stipulated requirements. Effective May 2010, accidental and ordinary disability retirement through PERS was eliminated for Tier 4 and 5 members.

Tax Savings Programs

You may choose to enroll in one or all of the following voluntary plans: Voluntary 403(b) or 457 tax-deferred savings program and/or SACT (Supplemental Annuity Collective Trust). Maximum tax-deferred amounts are determined in accordance with Internal Revenue Service Code regulations.

Additional post tax-deferred contributions may be made by an employee as well without additional employer contributions.
