ALTERNATIVE ENERGY

CODE: ALT 113

TITLE: Alternative Energy Sources

DIVISION: STEM

COURSE DESCRIPTION: This course is designed to give the student a basic knowledge of current forms of alternative energy, such as solar thermal, solar electric (photovoltaic), hydroelectric, bioenergy (ethanol and pyrolysis), ocean energy, wind, and geothermal. There is an emphasis on alternative electric generation. Energy conversions and the socio-economic implications of alternative sources will be presented. There will be discussion on the latest trends in alternative energy distribution and generation.

PREREQUISITE: None

CREDITS: 3 cr.

REQUIRED MATERIALS (CHECK BOOKSTORE FOR LATEST EDITION):

Click on the bookstore for the supplies which you are attending each class.

Rcbc.edu/bookstore

COURSE LEARNING OUTCOMES:

Upon completion of this course, students will be able to:

- Describe the nature of energy, power, and energy units
- Calculate basic, fundamental energy conversion equations
- Identify the key points concerning the principles, applications, advantages, and disadvantages of various alternative energy sources
- Outline the energy conversion processes for various energy sources.
- Comprehended energy integration and storage
- Analyze current trends in alternative energy generation and distribution

GENERAL EDUCATION OUTCOMES IN THIS COURSE:

Written and Oral Communication: Communication	*Students will logically and persuasively support their points of view or findings. *Students will communicate meaningfully with a chosen audience while demonstrating critical thought. *Students will conduct investigative research which demonstrates academic integrity, originality, depth of thought, and mastery of an approved style of source documentation.
Quantitative Knowledge and Skills: Mathematics	*Students will translate quantifiable problems into mathematical terms and solve these problems using mathematical or statistical operations.
Scientific Knowledge and Reasoning: Science	*Students will explain the impact of scientific theories, discoveries, or technological changes on society.
Technological Competency or Information Literacy: Technology	*Students will exhibit competency in library online database tools appropriate to accessing information in reference publications, periodicals and bibliographies.

CORE COURSE CONTENT:

- Week 1 and Week 2 - Energy concepts including fossil-fuel power generation and alternative energy power generation, energy unit conversions and dimensional analysis, and energy efficiency.
- Week 3 - Solar thermal (hot water) energy concepts. The application of solar thermal energy to the electric power generation.
- Week 4 - Solar electric (photovoltaic) concepts.
- Week 5 – Examination one.
- Week 6 and Week 7 - Bioenergy concepts, including: ethanol, biomass pyrolysis and plastic pyrolysis.
- Week 8 - Hydroelectric power concepts.
- Week 9 - Ocean (wave and tidal) energy concepts.
- Week 10 - Wind power concepts.
- Week 11 - Examination two – Introduction of final research paper with oral presentation.
- Week 12 - Geothermal energy (ground source heat pump) concepts.

- Week 13 - Energy integration and storage concepts.
- Week 14 - Current trends in alternative energy generation and distribution.
- Week 15 - Final research paper with oral presentation.

COURSE ACTIVITIES:

Course activities vary from course to course and instructor to instructor. Below is a listing of some of the activities students can anticipate in this course:

- ▶ Writing assignments: students will analyze current issues in the field using current articles from the popular press as well as library research including electronic resources databases.
- ▶ Speaking assignments: students will present research individually or in groups using current technology to support the presentation (e.g., PowerPoint presentation); students will participate in discussions and debates related to the topics in the lessons. Discussions may also focus on cross-cultural and legal-ethical dilemmas as they relate to the course content.
- ▶ Simulation activities: Trends and issues will analyzed for their ethical as well as social or legal significance. Students might role-play common situations for classmates to analyze. Current news articles may be used to generate discussion.
- ▶ Case Studies: Complex situations and scenarios will be analyzed in cooperative group settings or as homework assignments.
- ▶ Lectures: This format will include question and answer sessions to provide interactivity between students and instructor.
- ▶ Speakers: Representatives from various related fields may be invited to speak.
- ▶ Videos: Related topics will provide impetus for discussion.

EDUCATIONAL TECHNOLOGY:

Rowan College at Burlington County advocates a technology enhanced teaching and learning environment. Advanced technological tools may be used in any course section to facilitate instruction. Many of our sections are web-enhanced, which means that some of your work will be submitted or completed online. Web enhancements may include on-line materials, grade books, testing and quizzes and assignment submission. Many students enjoy the flexibility and convenience that these online enhancements have provided, however if you have concerns about the technology involved, please speak to your instructor immediately.

STUDENT EVALUATIONS:

The student will be evaluated on the degree to which student learning outcomes are achieved. A variety of methods may be used such as tests, quizzes, class participation, projects, homework assignments, presentations, etc.

See individual instructor's course handouts for grading system and criteria (point value for each assessment component in course, e.g. tests, papers, presentations, attendance etc.), number of papers and examinations required in the course, and testing policy including make ups and/or retests.

GRADING STANDARD:

- A Mastery of essential elements and related concepts, plus demonstrated excellence or originality.
- B+ Mastery of essential elements and related concepts, showing higher level understanding.
- B Mastery of essential elements and related concepts.
- C+ Above average knowledge of essential elements and related concepts.
- C Acceptable knowledge of essential elements and related concepts.
- D Minimal knowledge of related concepts.
- F Unsatisfactory progress. This grade may also be assigned in cases of academic misconduct, such as cheating or plagiarism, and/or excessive absences.

For other grades, see the current ROWAN COLLEGE AT BURLINGTON COUNTY catalog.

COLLEGE POLICIES:

The current college catalog and student handbook are important documents for understanding your rights and responsibilities as a student in the RCBC classroom. Please read your catalog and handbook as they supplement this syllabus, particularly for information regarding:

- ▶ Academic Integrity Code
- ▶ Student Conduct Code
- ▶ Student Grade Appeal Process

OFFICE OF STUDENT SUPPORT AND DISABILITIES SERVICES:

RCBC welcomes students with disabilities into the college's educational programs. Access to accommodations and support services for students with learning and other disabilities is facilitated by staff in the Office of Student Support (OSS). In order to receive accommodations, a student must contact the OSS, self-identify as having a disability, provide appropriate documentation, and participate in an intake appointment. If the documentation supports the request for reasonable accommodations, the OSS will

provide the student with an Accommodation Plan to give to instructors. Contact the Office of Student Support at 609-894-9311, ext. 1208 or visit the website at: www.rcbc.edu/studentsupport

ADDITIONAL SUPPORT/LABS:

RCBC provides academic advising, student support personal counseling, transfer advising, and special accommodations for individuals with disabilities free to all students through the Division of Student Services. For more information about any of these services, visit the Laurel Hall on the Mt. Laurel Campus, or call (609) 894-9311 or (856) 222-9311, then dial the desired extension:

- Ext. 1557 Academic Advisement and Counseling
- Ext. 1803 Special Populations
- Ext. 2737 Transfer Center

Or visit the following websites:

Academic Advising www.rcbc.edu/advising
Student Support Counseling www.rcbc.edu/counseling
Transfer Center www.rcbc.edu/transfer

RCBC offers a free tutoring for all currently enrolled students. For more information regarding The Tutoring Center call Extension 1495 at (609) 894-9311 or (856) 222-9311 or visit the Tutoring Center Website at www.rcbc.edu/tutoring
